TELEGRAPHIC.

TO STOP THE FIGHT.

Arkansas Guards Get Orders to Be Ready to March to Hot Springs.

FITZSIMMONS IS INDIGNANT

And Refuses to Enter Into a Contest with Corbett with Soft Gloves.

LITTLE ROCK, Ark., Oct. 16.—Col. Hobenberg, commanding the First regiment, Arkansas Guards, issued orders last night to every company in his regiment to hold themselves in readiness to move to Hot Springs.

In an interview this afternoon he said: "There is no secret about the matter. Orders have been sent to every company of white militia in the state, notifying them to be in readiness to move to Hot Springs on short notice. If the prize fight is not called off at once, a definite time for moving the militia to Hot Springs will be decided upon, and that time will be soon, as we do not propose to have any trouble played upon us.

"If the militia goes to Hot Springs the expenses will be paid. If the managers of the fight continue their determination to have the fight come off, the militia will be called out and stop the fight.

"Whether the governor is right or wrong, if he sends the militia to Hot Springs, the fight will be stopped. I cannot have any cognizance in the premises in deciding whether he is right or wrong. Just how the governor proposes to pay the expenses of the militia if they are called out in Hot Springs, is not known. If Garland county calls for the militia, of course that county will be held responsible for the expense. If the governor calls out the militia on his own hook, it is not known who will pay the expenses, as the state has no money appropriated for this."

FITZSIMMONS INDIGNANT.

NEW ORLEANS, Tex., Oct. 16.—Martin Julien leaves here in the morning for New Orleans, where he will go direct to Hot Springs, fully prepared to carry out Fitzsimmons's part of the agreement with the Florida Athletic club. Both he and Fitzsimmons are very much surprised at the statement in Tuesday's papers at the change of the original agreement to a sparring agreement with soft gloves. Julien indignantly denies that Fitzsimmons and Corbett engage in any such exhibition. Fitzsimmons said:

"The proposed change of the rules is a lake. Such a show would not be of any credit to either of us. They are just going or to let the Florida Athletic club sell more tickets and the citizens of Hot Springs draw a crowd to town. Suppose the referee called the fight after Jim had landed on me, or I had gotten in one of my o-mance blows, as they call them, who would be the champion? I came down here to fight Jim Corbett, and all I want is the time and place, without any money interference. In the meantime I shall continue to train until such place and time are selected."

PRIVATE BANKERS FAIL.

The Institution Will Pay 50 Cents on the Dollar.

OMAHA, Oct. 16.—A special to the Bee from Sigourney, Ia., says: A. C. Chariton and Allen Stocker, private bankers at Richland, have failed, and the institution's condition is very bad. Tuesday Charlton left ostensibly to get money with which to make some loans. The sale was locked, and his partner, who received a note from Charlton telling him to run the bank while Charlton was gone, did not know the combination. After waiting two days, Stocker concluded his partner had skipped, and Monday creditors got out attachments to the amount of $40,000 against Stocker's property.

Stocker had about September 5th deeded to his son nearly all his property, and affidavits being made to set aside the deed. The property consists of farm and valued at about $20,000. The bank pays 5 per cent on deposits, and has about $60,000 on deposit. Charlton has been dealing on the Chicago board of trade extensively and had lost. No attempt has been made to find him as yet. There is great excitement, and it Charlton is found there is little doubt that he will be severely dealt with. The bank, it is estimated, will pay about 50 cents on the dollar, provided the deed is broken, otherwise almost nothing.

Liquor Dealers' Interests.

WASHINGTON, Oct. 16.—The presidential Low National Association of Retail Liquor dealers today were executed with closed doors. Plans were discussed for a more thorough organization of the liquor interests throughout the country. Speeches were made by many delegates, reviewing the fight made by temperance organizations and the evident concentration of the movement at the capital of the nation. The need of more radical steps for the protection of their interests and more powerful organization at Washington to counteract the temperance movement was urged, and it was asserted that without some such action the effect of the movement would soon be felt in the "shaking of the liquor interests from center to circumference."

An elaborate banquet was tendered the visitors this evening. They will meet in Philadelphia tomorrow, and in New York on Friday, as the guests of the local liquor bodies.

SOCIAL PURITY CONGRESS.

Imprisonment Instead of Fine for Violators of the Moral Code.

BALTIMORE, Oct. 16.—A large number of papers were read and addresses were made at today's session of the Social Purity congress. Resolutions were adopted declaring that state or municipal regulation of prostitution is morally wrong; that the state should punish by imprisonment, rather than by fines, keepers of houses of ill repute; asking that facilities be provided for the "treatment of venereal diseases, and that homes be established where established for the reclamation and rehabilitation of erring girls."

The congress then adjourned sine die.

Mrs. Cheshire Edholm, of Chicago, a missionary in the Florence Crittenden mission for the rescue of fallen women, headed a party of fifteen ladies and gentlemen to visit the houses on Josephine street last night, after the purity meeting was over, a policeman and a number of newspaper men accompanied the party.

ARMY WELL SUPPLIED.

U. S. Cavalry Mount Equals that of Any Other Country.

WASHINGTON, Oct. 16.—The annual report of the quartermaster general of the army shows that during the year the army was liberally and promptly supplied with all necessary articles of clothing and equipage of satisfactory quality. The cavalry mount of today equals that of any previous time, and is superior to that of foreign armies. The average cost per head was $95.44 for cavalry horses, and $148.04 for artillery horses. Owing to remoteness in all stations for fuel and pack animals, made possible by the cessation of Indian wars on the Rio Grande, a large saving has been made in the appropriation for such stocks. The principal allotments for the construction of new buildings at posts were as follows: Fort Cook, Neb., $7,000; Presidio, San Francisco, $84,941; Fort Meyer, Va., $45,000; Little Rock, Ark., $116,000; Fort Hunt, Tex., $9,000; Fort Sheridan, Ill., $11,175.

Uncle Sam's Treasury.

WASHINGTON, D. C., Oct. 16.—Today's statement of the condition of the treasury shows: Available cash balance, $182,451,921; gold reserve, $103,130,254.

Charge Against Senator Gorman.

NEW YORK, Oct. 16.—Police Commissioner Roosevelt was asked today in what he referred when he said in his speech at Baltimore last night that Senator Gorman had attend a fabulous bond. The commissioner said it was all a matter of record. Senator Gorman had declared that he knew of absurd questions having been asked in Baltimore in civil service examinations of applicants for postal service. Mr. Roosevelt, in a letter, asked the senator to give him an instance. When no attention was paid to this letter, another was sent offering the senator an opportunity to examine the papers, whereupon Gorman replied with indignation from the floor of the Senate, calling Mr. Roosevelt's conduct impertinent. Senators Pasco and Stewart followed Gorman in an attack on civil service reform.

Brazil Said to Recognize Cuba.

BUENOS AYRES, Oct. 16.—It is reported here that Brazil recognizes the Cuban insurgents as belligerents.

IMPRISONMENT FOR LIFE.

Punishment Proposed for an American Citizen in Cuba.

HAVANA, Oct. 16.—In the trial of Gen. Julio Sanguilly, an American citizen, on the charge of rebellion against the Spanish government, the attorney general, Senor Espalla, in concluding his argument today, asked that the sentence of imprisonment for life be imposed upon the prisoner.

Julio Sanguilly, it is claimed, has a very bad record, and it has been reported that the Cubans have threatened to assassinate him if he was released from custody.

Spanish Losses in Cuba.

MADRID, Oct. 16.—It is officially announced that since the beginning of the campaign against the insurgents in Cuba, the Spanish forces have lost one brigadier-general, twenty-six superior officers, 159 other officers and 1,811 soldiers, who have either died of disease or have been killed by the enemy.

Six Hundred Killed.

SHANGHAI, Oct. 16.—An explosion occurred today on a steamship at Kung Hai, near Kiu Chow.

The steamer was loaded with troops, and it is reported that 600 of them were killed.

Leo Condemns Religious Congresses.

PHILADELPHIA, Oct. 16.—Pope Leo has written an important letter to the Catholic hierarchy of America, condemning the assemblage of congresses of religions. The letter has been delivered to Archbishop Ryan of this city, and to all other archbishops. It was the main subject considered at the recent assembling of archbishops at Washington. What steps the archbishops took cannot be learned, but with the views of the pope thus clearly expressed, doubtless the American church will anathematize congresses of religions in the same way interdiction was placed on Catholic participation in the Knights of Pythias, Odd Fellows and other secret societies.

ON THE CURRENCY.

Address Delivered by Judge Aldridge of Texas.

ATLANTA, Ga., Oct. 16.—At the second day's session of the American Bankers association, Judge George N. Aldridge, of Dallas, Tex., delivered an address on the currency.

"The proposition that this government should coin silver for the world in unlimited amount at double its market value is so repugnant to the common sense of mankind," said Mr. Aldridge, that it ought to be unnecessarily to discuss it and would not for the fact that a portion of our people have been misled by appeals to their prejudice.

He pointed out that the leading nations of the earth, after testing silver for hundreds of years, voluntarily adopted the single gold standard and that no nation today has the silver standard from choice. The gold standard advocates held it gold as a standard with the largest possible sale use of silver among the people.

"The 16 to 1 dreamers believe in the so-called double standard, and we are driven by this law to the use of silver alone. All gold standard countries use large amounts of silver and an silver standard country uses any gold whatever. As the practical question is the use of the metals, it follows that we are the bimetallists, and the 16 to 1 people are the monometallists.

"Our government has been and is now coining silver at the ratio of 16 to 1. It is enables to do this because under the law it can restrict the amount coined, and being vested with this control it undertakes to make every dollar good money. The moment the government loses control of the coinage, so fidence in its ability to protect the money issue is gone, and a silver dollar then rests on its merits, and is worth fifty cents."

In refutation of the contention that gold has appreciated and depreciated prices, he pointed out that no two articles have declined at the same time or in the same degree, nor has any article mentioned remained uniformly depressed, and therefore one controlling cause cannot be assigned for these results.

Continuing he said: "Interest has declined since 1872 in my part of the country from 8 per cent per month to 6 and 8 per cent per annum. There is no denying the fact that the goldbugs did that. The South and West have saved more on the decline of interest than they have lost on the decline of wheat and cotton. Interest is always low under an honest standard, among an honest people, where money is plentiful. It is lower in London than in any other spot on the globe, because her standard is staple and her commercial integrity has been the envy of her statesmen and her people for ages past."

HORSE MEAT IN CHICAGO.

An Ordinance Almost Prohibitory in Its Effects.

CHICAGO, Oct. 17.—The recent disclosures regarding the sale of horse meat in this market have had the effect of stirring up the health department to a realization of the necessity for throwing ample safeguards around it. Yesterday the department transmitted to Norman S. Hayward, chairman of the city council committee on health and sanitary relations, the draft of an ordinance which, if it is passed, will be almost prohibitory in its effect. It is proposed to license the establishments where horses are slaughtered, but it is said that the license fee will be so high and the provisions of the ordinance so exacting that there will no longer be a profit in this business. Alderman Hayward who is fathering the ordinance said: "The ordinance has been drawn by the law departments of the city and I am ready to say will end the killing of horses for food purposes in Chicago. Under the inspection provided for, not even the wealthiest packer will find a profit in buying horses for food purposes. As it is now, diseased horses costing from $2 to $5 can be purchased for the slaughter houses now in existence, and a profit made out of them. But good, sound, healthy horses cannot be purchased for such money, and they will have to be purchased if any butcheries is disposed of under this ordinance. I do not see the slightest reason why the ordinance should not go through. It is demanded by the health department and public safety. I shall propose one amendment to it, and that is that the mayor shall not issue a license for any such slaughtering place except upon the recommendation of the health department.

Commissioner of Health Kerr has taken the liveliest interest in the proposed ordinance. He said: "The proposed ordinance is right in line with what the health department needs in order to regulate and inspect the present notorious business of the business. I can without saying that an ordinance to prevent the killing of horses would be, we are advised, illegal and unconstitutional, but the city has the right to license the men who prosecute this business and to impose a right system of inspection about it. I really think it will have the effect, if passed, to close all the horse killing establishments in the city and that no new ones will be opened up. Personally, I do not think the public can act too quickly in this matter through the medium of the council. The evil has aggravated now. No concealment is made of the fact that the worst kind of horses are being killed and sold as meat through the city. Worst than this, the same meat is going abroad in cans and carrying diseases with it. I cannot understand how there can be the slightest opposition to the ordinance and sincerely hope it will pass."

Anxiety For British Vessels.

SAN FRANCISCO, Oct. 17.—It is just 199 days since the British ship Lord Spencer left this port for Queenstown and not a word has been heard from her. That the English underwriters have fears for her safety is evidenced by the fact that reinsurance has gone steadily up from 10 per cent to 70, and the chances are that if she does not arrive at her destination within the next few days 90 per cent will be asked.

Much concern is also expressed at this port for the safety of the British bark Achilles, bound from the west coast of South America for Hamburg. This is the vessel which picked up Captain McGlone and wife and the crew of the wrecked American ship Arabia in midocean. The castaways were landed at Montevideo and the Achilles set sail from that port on July 1 and has not since been heard from. Three months is a long voyage in the south Atlantic and it is evident that the vessel has encountered very rough weather. As far as can be learned no reinsurance has been offered.

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by pointing to germ consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would cure ninety-eight per cent. of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a book of 100 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh. This will be mailed by the World's Dispensary Medical Association of Buffalo, N. Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is not inherited by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as cough, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is extremely efficient that the "Discovery" be taken early and free, latter stages of the disease can thereby be easily avoided.

To build up solid flesh and strength after the grip, pneumonia, "long fever," exhausting drains and other prostrating diseases, it has no equal. It does not make fat like cod liver oil and its early compounds, but, solid, wholesome flesh.

Right Arm Paralyzed!

Saved from St. Vitus Dance.

"Our daughter, Blanche, now fifteen years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. We tried St. Vitus dance, and tried the best physicians, with no benefit. She has taken large bottles of Dr. Miles' Nervine and has gained 31 pounds. Her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and has recovered complete use of her arm, her sleep is sound and she is rounded."

MRS. E. E. BULLOCK, Brighton, N. Y.

Dr. Miles' Nervine Cures.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at $1.; 6 bottles for $5., or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

For sale by all druggists.

FALL GOODS COMING NOW.

Woolen Goods a Trifle Higher Than Last Fall, Cotton Fabrics and Sewing Silks have Also Advanced in Price.

We have selected stock this fall with the idea that we are to have an important trade. And that we can secure you would better order this days have been buying for the past three years. Those of us purchasers in the most reliable manufacturers, who have made of the very latest patterns, which regard to the right extra cost over goods of last year's designs. We have also made some notable changes in our manufacturing department. Notice among these is engaging the services of one of the most reliable and best known cutters in the city, to cut our customers are trying to experiment by passing orders with us.

With regard to prices we still adhere to our motto of giving our customers the greatest value possible for their money, having selected with very small profits.

We have also looked after the interests of our less fortunate fellow-men, who do not feel that they can afford to invest $15.00 or more in a suit, but still like a dress in well fitting, well made, tasteful appearing clothes, and to this trade we have introduced a very carefully selected line of American made goods. These goods are equal in neatness of pattern and general appearance to those of foreign manufacture, and are of excellent wearing qualities and are represented by many unscrupulous dealers as imported, and offered for sale by them as such at prices much lower than the imported goods can be sold for, but at much higher prices than we are offering the same goods for. From these goods we are ready to fill orders at from $12.50 to $25.00 and give the customers the benefit of having them cut and made by the best skilled workmen in the city, a privilege we trust will be appreciated.
