

HIGH SCHOOL COMMERCIALS.

In a Splendid Talk E. W. Wilson Advises Graduates From a Business Man's Standpoint.

OTHER TIMELY ADDRESSES.

Presentation of Certificates by Supt. Christensen, Who Praises Teachers For Good Work.

The commencement exercises of the Commercial department of the High school were held last night at the West Side school, the hall being crowded to its capacity.

E. W. Wilson delivered a splendid address to the students, congratulating them on what they had achieved and advising them from a business man's standpoint. Prof. George A. Eaton also gave an address in accepting a picture of Abraham Lincoln, a gift of the graduating class to the school.

Other features of the evening's program were: Piano solo, Miss Florence Arbuckle; recitation, Anna Edwards; vocal solo, Howard Harold; double quartet, members of the class; recitation, Clara Foulger; class president's address, Ada Thomas.

"Junior Madley."

Under the title of "A Junior Madley," the Junior class of the High school will give a playlet at the Theater this evening. It is in the nature of a satire on the seniors and will be open to the public.

EIGHTH GRADE EXERCISES.

Commencement Program to be Rendered Tomorrow.

Following is the program arranged for the graduating exercises of the eighth grade pupils, to be held in the Salt Lake theater tomorrow evening:

- Chorus, "Tripping O'er the Hills"; Bohm Bryant school, address of welcome; Fremont school, piano solo, "Dance of the Demon"; Winifred De Vleming, Emerson school, recitation, "The Legend Beautiful"; Longfellow Rowena Koras; Franklin school, girls' double trio, "Mermaid's Song"; Weber Hamilton school, musical recitation, "The Last Hymn"; Class Lowell school, violin solo, "Cavatina"; Marjorie Brooks; Jackson school, marching drill; Chorus, "Anvil Chorus"; Verdi Address; Rev. Elmer I. Goshen Union school, piano solo, "Cantata"; Albert Carrington; Washington school, oration, "The American Student"; Original Minnie Brim; Webster school, chorus, "Lift Thine Eyes"; Mendelssohn Summer school, ensemble recitation, "Class Poem"; Original Wash school, violin solo, "Träumerei"; Schumann Frank Williams; Lincoln school, musical recitation, "Book of Ages"; Class Training school, choir; Roedel Oquirrh school (a) double pantomime, "Mirth," "Gossip," "Fear and Anger," "Fighting and Teaching," "Be Still," (b) "Abide with Me," in tableaux mouvante and poses plastiques; Grand school, musical recitation, "Eve Before Decoration Day"; Class "America"; Supervisor William A. Wetzel, director of program.

Training School Graduates.

Following is a list of graduates from the eighth grade training school: Nellie Taylor, Clara Bruckman, Frances Ann Lewis, James Hyrum Maxwell, Seymour Gregson Christensen, Mary Sell, June Howard, Lillian Paulina Trapp, Sakie Margaret Anderson, Leslie George Evans, Frank Morris, Edna Everett Shepard, James Hughes Cannon, Alvin E. Snow, E. Willard Stephens, Clyde C. Sherman, Bessie E. Judd, Hilla Keene, Ellen A. Holter, Rose May Donkin, Melvin Naylor, Robert E. Hofer, Annie Elizabeth Kirkham, Louise Judson, Boda E. Nordvall, Minnie Atwood, Elizabeth Ledbetter, Virginia F. McMaster, Ella Bullough, Ella Smith, Janette M. Brighton, Louis Kittle.

COLLEGE CONCERT.

All Hallows' Musical Organization to Give One at the Grand.

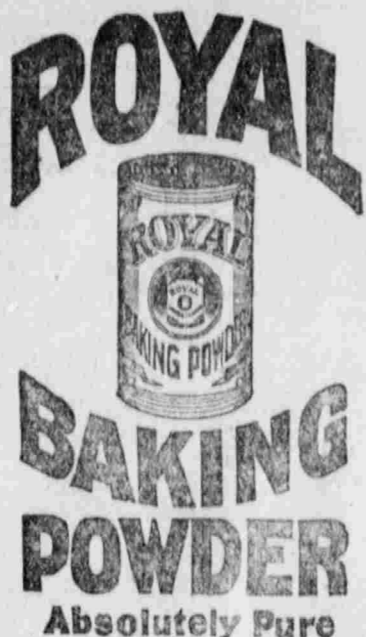

The following program has been arranged for the All Hallows' college concert of tomorrow night, at the Grand theater, by the musical organizations of the college:

- March, "Blaze Away"; Holzmamm College Orchestra; Male quartet, "Banish, O Maiden"; Imperial Male Quartet; Selection, "Trovatore"; Verdi Orchestra; Song, "Oh Fair, Oh Sweet and Holy"; Cantor; Miss Sigrid Pedersen; Violin solo, Concerto in G minor; Arthur Pedersen; Bass song; Selected; Mr. Willard Squires.

CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists. G. G. GREEN, Woodbury, N. J.

DR. JAMES OSTERMAN, Utah Man Who Has Just Been Graduated With Honor.

Among the young men of Utah who have been graduated with honor from eastern institutions this year, is Dr. James Osterman, who has just received his degree from the Baltimore College of Physicians and Surgeons. Out of a class of 82 he stood right in the front of the very first rank and received an average of 96 1-3 points for the entire four years of his studentship in the college. Altogether it was a remarkable showing.

- Piano solo, Selected; Prof. Arthur Shephard; Song, "The Lass with the Whitecote Air"; Arne; Miss Sigrid Pedersen; Waltz, "Dearest Maiden"; Imperial Male Quartet; Trio, "Meditation"; Richardson Prof. McClellan; piano; Arthur Pedersen; violin; Prof. Anthony Pedersen, viola; Song, "Mr. William Phillips"; Selected; Serenade, "Alas, Those Chimes!"; Wallace March, "Straight Tip"; Daniels College Band.

THIS YEAR'S GRADUATES.

Students of the L. D. S. U. Who Will Get Diplomas.

Following is the list of graduates in four-year courses of the Latter-day Saints' university, who will receive their diplomas next Saturday morning at the third annual commencement. The number is 18, as compared with 15 last year, and is the largest class that has graduated in the history of the school.

JUNIORS AND SENIORS.

Hold Meeting Tonight and Friday Night in Barratt Hall.

The senior or graduating class of the Latter-day Saints' university will hold their final class meeting tomorrow evening in Barratt Hall. The proceedings will consist of various entertaining exercises prepared by the students for the enjoyment of their school friends. They also extend a cordial invitation to the general public. It is surmised that part of their enjoy but

TRIP PLEASANT BUT THAT'S ALL

Little Profit Arising from Official Inspection of Proposed Power Site.

IS THE WRONG TIME OF YEAR.

However, Plenty of Fine Scenery Was Admired and the Whole Section Was Soaked with Rain.

Notwithstanding the fact that a heavy rain was falling and there were no prospects of the sun finding its way out of the clouds during the day, a crowd of 25 city officials, councilmen, electrical experts and newspaper representatives assembled at the Rio Grande Western depot yesterday morning at 8 o'clock and took a yet but otherwise enjoyable trip up American Fork canyon to inspect the site selected by Messrs. C. Garff and Son for the lighting plant which they are desirous of installing for the city. Although everyone had a good time and enjoyed the scenery in that beautiful little canyon, there were a number who stated that the trip was a useless one as far as securing information concerning the water power of the creek was concerned, for the reason that the volume of water flowing down the canyon was at its greatest because of the heavy rains and the usual spring floods which follow the melting of the snow in the hills. Many thought that the trip should have been postponed until September so that the creek could have been seen in a nearer normal condition.

THOSE WHO WENT.

Those who took the trip were: Mayor Morris, City Engineer Snow, Land and Water Commissioner Luce, Fire Chief Bywater, Councilmen Hewlett, Hobday, Martin, Preese, Dean, Wood, E. H. Davis, Harro, Tilden, Wells and Black, Prof. G. L. Swendsen, Prof. J. F. Merrill, Electrical Experts O. H. Skidmore and O. H. Gray, Charles Crane, C. Garff and E. Garff. The party was given the use of a special coach which was attached to the 8 o'clock train and dropped off at American Fork, which point was reached at 8:12 o'clock. Three carriages were waiting at the depot for the visitors and another one was immediately summoned in order to accommodate all and the party for the canyon was made at once. It rained nearly all the way to the mouth of the canyon, which is six miles from town, but when the Utah County Light and Power company's plant was reached, which is right in the mouth of the canyon, the rain had ceased and the sun was endeavoring to come out.

SOME MUNICIPAL PLANTS.

Through the courtesy of Manager J. A. Westron, of the company, the plant was inspected for about 30 minutes before the party resumed its journey up the canyon. The plant, the controlling of which is owned by the cities of American Fork, Lehi and Pleasant Grove, is a thoroughly modern one in every respect, the machinery being of the latest model and the abundant supply of water making it possible to operate the plant and generate electricity at an exceedingly low cost. There the power is generated for lighting the three cities named above and for furnishing power for Salt Lake City's pumping plant on Utah lake and also for other establishments in that district which need motive power.

UP THE CANYON.

After inspecting the plant, the start was made up the canyon a distance of six miles to the fork of the canyon, where Messrs. Garff & Son propose to construct their power station. A number of the members of the party started to walk, but there was quite a dispute among them as to the distance they walked. Some maintained that they walked 12 miles, while others thought it must have been at least 16 miles. The advance guard of pedestrians arrived at a point which they thought was the fork of the canyon and there they waited until the carriages and coffee for the party arrived. They then made the startling discovery that the real fork of the canyon was two miles further up. They were a scramble for the carriages by those who had been walking, and again the start was made for their destination. Even after they got in the carriages some of them declared that the last two miles to the fork were longer than six miles in Salt Lake City.

AT THE FORKS.

At the forks of the canyon is the only level spot of any appreciable size in the entire canyon, and it is unquestionably a good location for a power plant. In addition to the site for the plant, Garff & Son have filed on water appropriations for a distance of more than two miles up the creek and a like amount of the stream. By doing this they claim that a sufficient fall of water can be obtained to give them plenty of power at their plant at the fork of the canyon. That matter, however, will be ascertained by the experts employed by the city who will make further investigations in the matter.

ENJOYED A FINE SPREAD.

The return trip down the canyon was made in good time and several of the party declared that they could smell chicken and coffee for several miles from the Utah county power house. They arrived at the power house at about 2:30 o'clock and there awaited them a fine lunch prepared by Franklin and taken out with the party from this city. A man was also sent out to serve the lunch, which consisted of fried chicken, cheese and ham sandwiches, potato salad, deviled eggs, ice cream, cake, fruit, coffee and mineral water. After the luncheon was eaten every member of the party seemed to feel in a much better humor. President Hild had the misfortune to be detained until after every piece of chicken was grabbed up by the hungry crowd. His disappointment was so bitter that he refused to return to American Fork and was visiting the Co-op store, Mr. Hewlett attempted to purloin a live chicken which was lying on the floor ready to be delivered to a customer.

AT AMERICAN FORK.

Mayor Clark of American Fork and several prominent citizens met the party upon its return from the canyon and escorted the visitors through several of the leading business houses, the new city hall, the new school building and the celebrated Apollo dance hall. They then accompanied them to the depot and waited the departure of the train for Salt Lake. The party arrived in city upon its return at shortly after six o'clock.

A Love Letter.

Would not interest you if you're looking for a guaranteed Salve for Sores, Burns or Piles. O'HARRY D. PONDOR, Mo., writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best Salve on earth. - 2c at Z. C. M. I. Drug Store."

THE SKIDMORE REPORT.

What Expert Found in Investigation of Public Lighting Question.

O. H. Skidmore, electrical engineer, appointed to investigate and make report upon existing electric lighting conditions, has filed the following with the committee named and has received his compensation of \$100 therefor and been discharged.

Salt Lake City, Utah, May 16, 1904. To the honorables, the chairman and the committee on improvements of Salt Lake City council, gentlemen—I beg to make the following report as a result of the investigation on my part of the condition existing and the methods employed by the Utah Light & Railway Company.

In the first place, as regards street lighting, I will say that the service is as good as is usually maintained in other cities where the same system of lighting is employed, viz: the direct current series open arc lamp, which is most generally in use throughout the principal cities, but is being rapidly replaced by the incandescent lamp.

This system has many drawbacks, such as the great number of moving parts in the lamp, rendering good adjustment difficult to maintain, also being a complicated form of mechanism and requiring intelligent handling in adjusting. This should always be done in the shop, therefore necessitating the setting of all lamps to the company's lamp shop for this adjustment.

Another feature is the method of installation, or hanging of these lamps. Most of your lamps are on fixtures on top of the poles and cause other bad conditions to exist, first being the shadow beneath the pole not only of the pole itself, but of the lamp as well, and becomes loose or out of plumb, the lamp also is likely to hang out of plumb, thus making it extremely likely that the lamp, even though it is receiving its full quota of current, will not give its proper light, if it is at all.

I have noticed several such instances of crooked poles and lamp frames. The suspended lamp of the enclosed type, though of less rated candle power, would give more and better distributed light than the series system of open arc lamps in use in Salt Lake City. These are, however, being replaced by the enclosed lamp in a considerable number of cases.

Also the factor of hanging out of plumb is eliminated, as well as the loss of light by the shadow of poles and lamps. It is much easier of access in staining, should it for any reason fall to burn, or get out of order.

Now, in regard to the individual consumers' complaints, I have investigated a number of cases and found in most cases that the meters were correct, and in others where a just cause of complaint existed, that it was then receiving attention from the company. In fact, in some cases the investigation of complaints had been promised as soon as the case had been reached.

The company have now established a separate department to handle these complaints, and they promise prompt attention, which really appears to be in progress.

In signing about March 20 I have made tests of voltage continuously in various parts of the city, and had but a slight variation in voltage, not to exceed 4.2 per cent, there being from 112 to 124 volts, the volt service is intended, and from 101 to 110 volts, where 104 volt service is furnished.

At about the same time that this investigation was started, the Utah Light & Railway company installed a voltage regulator at their central station. This undoubtedly materially improved the conditions. This apparatus, I understand, had been ordered for some time, but had only lately arrived.

Another point is to be taken into consideration, and that is, that at this season of the year they have surplus water-power, consequently, more electrical energy can be delivered at this season of the year.

The lack of power in past times has been one source of trouble in connection with the indifferent service rendered in those times now past.

This, however, the company claim to have overcome by recent contracts for power, which they have consummated with other companies, having power to sell.

In submitting the foregoing I stand ready to make further explanation, if I have not made myself fully clear.

Respectfully yours, O. H. SKIDMORE, E. E.

ALL WHO USE ATOMIZERS in treating nasal catarrh will get the best result from Ely's Liquid Cream. Price, including spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 56 Warren St., N. Y.

New Orleans, Sept. 1, 1900. Messrs. Ely Bros.—I sold two bottles of your Liquid Cream Balm to a customer, Wm. Lambertson, 1415 DeLachaise St., New Orleans; he has used the two bottles, giving him wonderful and most satisfactory results.

GEO. W. McDUFF, Pharmacist.

"PE-RU-NA TONES UP THE SYSTEM IF TAKEN IN THE SPRING"

SAYS THIS BEAUTIFUL YOUNG GIRL.

MISS MARJORY HAMPTON, OF NEW YORK.

Miss Marjory Hampton, 216 Third Avenue, New York City, writes: "Peruna is a fine medicine to take any season of the year. Taken in the spring it tones up the system and acts as a tonic, strengthening me more than a vacation. In the fall and winter I have found that it cures colds and catarrh, and also find that it is invaluable to keep the bowels regular, acting as a gentle stimulant on the system. In fact, I consider it a whole medicine chest."—Miss Marjory Hampton.

PURE BLOOD.

Blood Impurities of Springtime—Cause, Prevention and Cure.

Dr. Hartman's medical lectures are eagerly scanned by many thousand readers. One of the most timely and interesting lectures he ever delivered was his recent lecture on the blood impurities of spring.

The doctor said in substance that every spring the blood is loaded with the effete accumulations of winter, deranging the digestion, producing sluggishness of the liver, overtaxing the kidneys, interfering with the action of the bowels and the proper circulation of the blood.

This condition of things produces what is popularly known as spring fever, spring malaria, nervous exhaustion, that tired feeling, blood thickening and many other names.

Sometimes the victim is bilious, dyspeptic and constipated; sometimes he is weak, nervous and depressed; and again he may have eruptions, swellings and other blood humors. Whichever it is, the cause is the same—effete accumulations in the blood.

Nothing is more certain within the whole range of medical science than that a course of Peruna in early springtime will perfectly and effectually prevent or cure this almost universal affection.

Everybody feels it in some degree. A great majority are disturbed considerably, while a large per cent. of the human family are made very miserable by this condition every spring.

Peruna will prevent it if taken in time. Peruna will cure it if taken as directed. Peruna is the ideal spring medicine of the medical profession.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

AT BARTON'S STORE.

BLACK SUITS

Even if you don't wear black Suits regularly—you should have one. Black suits can be worn every day of the year and any time of the day.

Tailoring and Fabric in Black Suits must be First-class in every detail.

We have large lines in Blacks.

PRICE RANGE FROM \$10. TO \$25.

Come here for your Black Suit and you can't go wrong.

BARTON & CO., ONE-PRICE CLOTHIERS AND HATTERS. 45-47 Main Street.

LADIES' JACKETS.

Table with 2 columns: Coat Price and Jacket Price. \$25.00 Coats for \$13.75, \$15.00 and \$20.00 Coats for \$9.75, \$10.00 and \$12.00 Coats for \$6.75.

Special Sale of Sample line of "Newport Jackets," "Whipcords" and "Herringbone Covert." Having bought these garments at greatly reduced prices we are able to give the public a genuine bargain.

We have just received from New York an elegant line of Shirt Waist Suits in Silk. Also sample line of linen suits in Coat effects and Shirt Waist styles.

Ladies' Shirt Waist Suits. This season we are handling the famous "Iriquois" Shirt Waist Suits. Worthy of mention among this brand is a fine quality of SICILIAN in all colors to sell for \$8.75.
