IDAHO LAWMAKERS ARE GETTING BUSY

Pushing Legislation in Order to Finish at the Appointed Time.

BUT TWO WEEKS NOW REMAIN.

Road Commission Bill Framed—Plethora of Candidates for State Offices.

Special Correspondence.

Boise, Idaho, Feb. 14.—With only two weeks of the session remaining, both houses of the legislature are working at fever heat. There remains but one day more for the introduction of bills, and tonight a joint meeting of the house appropriation committee and the senate finance committee are at work completing the measure.

There are still a number of what might be called administration measures that are awaiting action by both houses. Chief among these is the bill for the reorganization of the land department. The passage of this measure is greatly desired by all the members of the state land board, who express the opinion that under the plan of reorganization formulated by the bill now under consideration, the state would benefit materially. The state banking law is also being considered in committee, and the same thing is true of the bill providing for the creation of the office of state examiner, whose duties are those of a traveling auditor.

ROAD COMMISSSION.

The plan of the bill for the creation of the Idaho intermountain wagon road commission has finally been determined upon, and the measure will be introduced at once. It has been decided that the commission shall consist of two members, in addition to the governor, who shall be ex-officio chairman of the board. The original plan was for a commission of one person from each judicial district. This, it was felt, would make the commission expensive and cumbersome. The commission bill will carry an appropriation of $50,000, and will take the place of all the road bills that have been introduced during the session.

The passage of the adultery and polygamy measure, it is felt, finally disposes of the campaign cry of which so much was attempted to be made during the last campaign. With the addition of these measures there will be on the statute books of Idaho stringent laws against bigamy, polygamy, adultery and illegal or unlawful cohabitation. If the moral sense of the various communities is not amply protected by these laws, it is difficult to imagine any laws or series of laws that would furnish such protection.

COMMISSIONS SIGNED.

Gov. Gooding signed the commissions of Adjt.-Gen. Vickers and Col. William Hunter as aides to the grand marshal at the inaugural parade in Washington on March 4. Herbert E. Duncan and Bernard Lemp, two of the Boise High school cadets, were also commissioned to march in the parade of accredited cadets from high schools who will appear in the inaugural parade.

The questions of the appointments to various executive positions in the state's service, is being taken up by the governor who has announced that the appointees will probably be named some time the latter part of next week, in ample time to secure action by the senate in the matter of confirmation. The positions to be filled by appointment include the immigration commissioner, insurance commissioner, adjutant-general, warden at penitentiary, commandant of soldiers' home, game warden, chief clerk of the land board and a number of others. The governor will not fail to find a sufficient number of applicants for each of those positions. The applicants for the positions named, so far as can be learned include the following:

APPLICANTS FOR POSITIONS.

Insurance Commissioner—C. S. Loveland, Twin Falls; George W. Smith, L. W. Smith, John H. Myer, W. W. Bisley, John T. Morgan, Boise; George E. Smith, Pocatello; William Maxwell, Harrison.

Immigration Commissioner—Col. Allen Miller, Grangeville; ex-Gov. William McConnell, Moscow; M. B. Severn, Monte B. Gwinn, Boise; George Ifft, Pocatello; Norman Jackson, Weiser.

Adjutant-General—Gen. Vickers, Boise; L. V. Patch, Payette; W. J. McClelland, Nampa.

Commandant of Soldiers' Home—H. L. Chamberlain, James McNarama, Boise; R. E. Hatchkiss, Grangeville; C. F. Drake, Weiser; C. H. Bevans, Blackfoot; J. H. Van Camp, Challis; M. Condon, Pocatello; W. C. Maxey, Caldwell.

Game Warden—W. Van Iorns, Hagerman; A. T. Shane, Shoshone; J. W. Keefe, Boise; Joe Wheeler, Shoshone; L. S. Cool, Council; E. A. Jones, Summit; F. R. Richards, Montpelier; H. J. Rogers, Wallace; James C. Mills, Garden Valley; E. G. Farmer, Clifton; Martin Garn, Pocatello; W. N. Stevens, Rexburg; Charles S. Lynes, Cuprus; D. W. Webber, Cambridge; Charles Coplance, Hailey; William F. Scott, Oxford; Charles W. Hill, Nampa.

Clerk of the Land Board—Charles J. Munson, Moscow; L. F. Lansdon, Weiser; Norman Jackson, Weiser.

SENATOR HART'S BILL.

Senator Hart has introduced a bill forbidding the herding of cattle on lands leased from the state of Idaho, even where such lands are not fenced. The lessees of such lands are compelled to mark the boundaries of such leased lands with posts at the corners, upon these poets being notices giving a description of the land, and posts with similar notices shall be located on the side lines, at intervals not exceeding half a mile.

LIGHT CO. FRANCHISE.

General Counsel Young Has Prepared New One for Consideration by City.

Judge LeGrand Young, general counsel for the Utah Light & Railway company, has prepared a new franchise for consideration of the city council, covering the franchise for the electricity and gas departments of the company along the same lines as obtain in the present instruments. Features of special public interest in the proposed franchise are as follows: The rate for arc lighting is not to exceed $12 per month per lamp all night, with a rate of $9 for midnight service. For meter service the rate is put at 15 cents per kilowatt hour, and $1.50 additional for care and maintenance. For incandescent lighting the charge is 15 cents per kilowatt hour, the minimum charge remaining $1 as at present. Manufacturing gas for illuminating purposes will be $2.20 per 1,000 cubic feet. Water gas, or manufactured gas for fuel is $1.50 per 1,000 cubic feet.

In return for the extension of the franchise for 50 years, and other modifications, the Utah Light & Railway company proposes to grant to the Salt Lake City corporation all water rights and water power rights of the company in Big Cottonwood creek west of the Utah Power company's tail race, including the Deseret Paper Mills power, the Granite Paper Mills and Butler Paper mills power. The company will also pay the city a license tax of $25 per car for the average number of motor cars operated; also, furnish the city 30 horsepower of electrical energy for power, but not for lighting or heating. In the matter of lighting the company will light free the city's part of the City Hall square, within the city rooms of the joint building and other city institutions and buildings, and at specified times give 25 additional arc lights to the city during the life of the franchise.

All transmission wires are to be placed underground, in that part of the city included by South Temple, Fourth South, West Temple and State streets, within nine years after the first of January next. The idea of the 50 years' extension of the franchise at the present time is to enable the company to deal with eastern financial houses, which demand such a provision when dealing in the securities of this class of corporations.

BURGLAR CAUSED FIRE.

Robber Caused Curtain to Brush Against a Hot Stove.

The cause of the fire at the Cash Buyers' Supply company, 259 south West Temple, is assigned to carelessness of a burglar who entered the place last night. It is said by the police that the man entered the place by means of a rear window through which he could reach the key in the door and in going out he caused the curtain in the back part of the building to brush against a stove, causing the fire. The robber secured about $2 worth of postage stamps, which is believed to be about all his trouble awarded him.

Nervousness.

Read My Offer—a Full Dollar's Worth of My Remedy Free to Try—Without Deposit, or Risk, or Promise to Pay.

Nervousness, fretfulness, restlessness, sleeplessness, irritability—all are the outward signs of inward nerve disturbance. The fault is not with the nerves which give you warning—not with the nerves which enable you to feel, to walk, to talk, to think, to see. But the INSIDE nerves, the automatic power nerves—these are the nerves that work wears out and worry breaks down.

I have not room here to explain how these tender, tiny nerves control and operate the stomach, the heart, the kidneys, the liver. How excesses and strains and overindulgence destroy their delicate fibers. How, through a bond of sympathy, weakness in one center is conveyed to each of the other centers. How this same bond of sympathy produces the outward signs of nervousness which should warn us of the trouble within. I have not room to explain how these nerves may be reached and strengthened and vitalized and made well by a remedy I spent thirty years in perfecting—now known by druggists everywhere as Dr. Shoop's Restorative. I have not room to explain how this remedy, by removing the cause puts a certain end to all forms of nervousness, inward and outward, including fretfulness, restlessness, sleeplessness, irritability. All of these things are fully explained in the book I will send you when you write.

In more than a million homes my remedy is known, and relied upon. Yet you may not have heard of it. So I make this offer to you, a stranger, that every possible excuse for doubt may be removed. Send no money—make no promise—take no risk. Simply write and ask. If you have never tried my remedy, I will send you an order on your druggist for a full dollar bottle—not a sample, but the regular standard bottle he keeps constantly on his shelves. The druggist will require no conditions. He will accept my order as cheerfully as though your dollar lay before him. He will send the bill to me.

Will you accept this opportunity to learn at MY EXPENSE ABSOLUTELY how to be rid forever of all forms of nervousness—to be rid not only of the trouble, but of the very cause which produced it? Write today.

For a free order for a full dollar bottle you must address Dr. Shoop, Box D-713, Racine, Wis. State which book you want.

O. S. ANNUAL GOES OVER AGAIN

Short Line and Union Pacific Land Companies' Meetings Adjourn Once More.

SAN PEDRO ELECTS BOARD.

Six Harriman Representatives Appear On the New Directorate of the Salt Lake Route.

The annual meetings of stockholders of the Oregon Short Line and the Union Pacific company which were originally set for last October and adjourned every 30 days since were again postponed this morning without any action being taken. The date for the next meetings is now set for March 15.

SAN PEDRO ELECTION.

As outlined in last evening's "News" the election of directors on the Salt Lake Route took place, the rerpesentation being evenly divided between the Clark and Harriman interests. The meeting was held in the office of C. O. Whittemore in the McCornick block, at 4 p. m. Of the 250,000 shares of stock in San Pedro, Los Angeles & Salt Lake Railway company, 249,988 shares were represented at the meeting by W. S. McCornick and W. H. Bancroft, who held the proxies.

Those who were dropped from the old directorate to make room for the new representation were, T. E. Gibbon, third vice president and general counsel, W. S. McCornick, Reed Smoot, F. K. Rule, E. W. Clark and Ross W. Smith.

The new lineup which calls for six on either side is as follows:

W. A. Clark, J. Ross Clark, R. C. Kerens, T. F. Miller, W. H. Comstock and Thomas Kearns.

E. H. Harriman, W. D. Cornish, W. H. Bancroft, H. I. Bettis, W. G. Kreckhoff and J. S. Slausen.

Locally in some quarters the Standard Oil interests are believed to be represented by W. A. Clark.

Mr. Bettis, who was on the old board, was brought to Los Angeles from the Union Pacific. Little is known as to Kerckhoff and Slausen here, but they are believed to be representing the Southern Pacific.

Senator Clark, it is asserted, will be re-elected as president of the road at the meeting of directors which will occur at Los Angeles within the next 30 days, while the name of Mr. Bancroft crops up as that of one of the vice presidents.

EMPIRE CONSTRUCTION CO.

Immediately after the railroad meeting yesterday afternoon the stockholders of the Empire Construction company elected directors, Messrs. Bancroft and McCornick also holding proxies for the 10,000 shares of stock represented: W. A. Clark, H. I. Bettis, J. Ross Clark, T. E. Gibbon, W. F. Herrin, R. C. Kerens, T. F. Miller, Charles Seyler and J. S. Slausen, were those selected.

SPIKE AND RAIL.

Through trains from the east have not been on time for a week or more.

Traffic Manager T. M. Schumacher is expected to return from Chicago tomorrow.

A call for four brakemen has been made by the Salt Lake route for through service to Los Angeles.

Twenty-eight loads of Nevada sheep, too large for western shipment, are being received at the Salt Lake stock yards, in transit for the Chicago markets.

The yards at Sparks are to be inclosed by a fence eight feet in height. This move on the part of the Southern Pacific is in the interest of self-protection against the armies of hobos that infest the place.

A. M. Calhoun, for several years chief clerk to the vice president of the Denver & Rio Grande at Denver, has been appointed to a similar position under J. A. Edson, general manager to the C. H. & D.

The Union Pacific is keeping a large number of wedge and rotary plows in action in Wyoming owing to the snow and winds that have prevailed during the past week. The worst drifts are being encountered between Laramie and Rawlins.

A large consignment of new freight cars recently received by the Lake Shore bear the legend, "New York Central Lines." It is stated that both passenger and freight cars on all the Vanderbilt lines will be so lettered as they are turned out of the shops.

WAS AN OPIUM FIEND.

Soldier Found Dead at Lincoln House Had Drug on Person.

Drs. Whitney and Osterman held an autopsy this morning on the body of Private Robt. C. Coulson of the Twenty-ninth infantry, who died at the Lincoln House yesterday, and failed to find anything to establish with certainty that the man was a suicide. However, the doctors found a plug of gum opium in the man's pockets, also morphine pills, which indicated plainly enough that the soldier was an opium fiend. The viscera were preserved by the city chemist, in case the county attorney should order it.

BIG DEAL ON FOR LAND IN MEXICO.

Utah Men Negotiating for 300,000 Acres Adjoining Rubber Company's Property.

TICKS, FLEAS AND MOSQUITOS.

Poor Country for Bounty on Wild Animals—Gossip of Country Generally.

(Special to the "News.")

Provo, Feb. 16.—George Cluff, formerly of Pleasant View, has written an interesting letter from Los Cruses, Mexico, under date of Jan. 14, 1905, to Prof. J. B. Walton, from which the "News" has been permitted to publish the following extracts:

"Leaving Utah on the 8th of November we were just 17 days reaching our destination. We all enjoyed the trip very much, especially our stay in Mexico City. The farther south we got the more like spring it seemed, until reaching this state, Tabasco, we have continual spring. Since arriving the thermometer has ranged between 79 and 65 degrees, a variation of 14 degrees. A refreshing bath in the river every morning—how's that?

"This is a new country to us, and, like all new countries, has its drawbacks as well as advantages. It is a rainy country. Perhaps a little too much rain for a Rock canyon fruit farmer. The roads are muddy nine months in the year. The land is mostly covered with heavy timber, and the roads are trails through these forests. Where there is no forest the roads are mostly dry. The lack of society is perhaps our greatest drawback. This, we think will shortly be overcome, for we have just had a visit from a committee representing 40 Utah men, who are negotiating for a 300,000 acre piece of land adjoining the Utah Mexican Rubber Co.'s land. If the purchase is made, 20 families will move down in the spring. Another drawbacks are the ticks, fleas and mosquitoes. I hadn't been here two weeks until it seemed like I had struck one of the apartments of hades. When the ticks sting we have to scratch; and the more we scratch the worse it is. As soon as the blood becomes thin the bite is not nearly so painful. Those who have been here a year or more pay very little attention. A few moth balls left in the bedding in the day keeps it free from flees, and with mosquito bar we control the mosquitos, and we are always sure of a good night's sleep. There are very few snakes here. I have been in forest, the snake's home, since I arrived, and have only seen two, though they were large, six and a half and seven feet; they were quite harmless. I have not seen any wild animals yet, though I hear them often in the woods. This is a healthy country, in spite of all that has been said to the contrary. There has never been known a case of yellow fever, except in our sea port towns, where there is so much filth. We have none of the prevailing diseases of the north. Malaria is about the only disease the natives here know anything about. On coming into the country a person must diet himself until he becomes acclimated. I have gained fifteen pounds since leaving Utah. If I keep on dieting myself I'll weigh a ton soon. I eat only native food, prepared and cooked by natives.

"I am in the employ of the U. M. R. Co. as contractor for the clearing of timber land and planting rubber. It costs us from $8 to $16 an acre, according to the density of the forest, for felling the timber and burning it. I quote prices in Mexican silver, one-half of which would be gold. It looks like a shame to burn so much fine saw timber, and so many beautiful poles, but there are hundreds of thousands of acres of this forest and not a saw mill in the land. Tell my neighbor, Mr. Brereton, to bring a saw mill down here, and he can make more money in five years than he can make where he is in twenty-five. After the timber is felled and burned, we plant corn, the first crop in June, which averages 40 bushels per acre, and the second crop in November, 30 bushels per acre. All this without plowing. Each acre must be cleared four times during the year of vines, weeds, etc. This work is done with a "machete" (long knife) in the hands of the natives. You pay a native 50 cents per day, the highest price. Corn is selling for $2 per bushel. The first cost of your acre is $10, for clearing and burning, $15, for cultivation, $4; total, $29. The yield, 70 bushels at $2—$140, giving you a profit of $111 for seed, planting and harvesting. I don't know whether you believe this or not, but it is being done every year. I mention corn because it is the staff of life down there, and finds a good local market. Two crops a year of beans, potatoes and vegetables of all kinds. Land can be bought very cheap in large tracts, but you cannot count on getting it for less than $10 per acre, Mexican, or $5 gold, in 50 or 100 acre lots. There is no plowing done here, as yet by anybody. This will come in time. Our principal exports will be sugar, coffee, rubber, cocoa and tropical fruits, mahogany and dyewoods must be included.

"I like the country and have concluded to remain at least five years. If at the end of that time we see fit to return we will do so. Should colonists come in and good schools be established, then this will be our permanent home. Mr. Cluff will come down next summer. If you are not satisfied where you are, and should fail to satisfy yourself at Uintah, why not turn your face toward the south. There are many opportunities down here for those who get here first and learn the language. My brother and I have located a beautiful tract of land on the Grejalva river, which we will probably secure and colonize. The location is beautiful, and the river navigable all the way. A townsite will be located, and a school established. In making up this colony we will not consider a man's religion or politics. Let him be of good moral character. Drinking men ought not to come here for liquor is too cheap. I believe there are hundreds of young men in Utah who, if they knew the position of this county, would come down. Living here is very cheap. Clothing costs but little. A good big house, suitable for a family like yours or mine, made of thatch until you can do better will cost about $100 Mexican no expense for fuel. How much easier to make a start here than in cold countries.

The fare down here, the way I came, cost $96, first class. A new line of steamers has just been put in from Galveston, which we think will greatly reduce the prices. They will touch at Tampico, Vera Cruz, Coatzacolcus and Frontera. Frontera is at the mouth of the Grejalva, and on this river two regular river steamers ply as far up as Huimanguille, our present post office. Our contemplated land is yet farther up the river. No ticks and very few mosquitoes there. The land faces the river, and the town will be located on its banks, a most picturesque place to live."

The letter further states that the thermometer on the date of writing registered 74. "The hottest day last summer went up to 99. The frequent rains keep the atmosphere cool.

AMUSEMENTS.

"Everyman" opens at the Salt Lake Theater this evening with promise of tremendous business. Such an audience is looked for as has not been seen in a local playhouse in many a day.

At the Grand tonight the bill will be Lincoln J. Carter's "Two Little Waifs." Like "Everyman" at the Salt Lake Theater it will play the week out in this city.

* * *

Manager Pyper of the Salt Lake Theater announces for Monday and Tuesday evenings next the Manteifi Grand Opera company, which is now en route eastward from San Francisco. It has been arranged that the best scenes from "Il Trovatore," "Carmen," and "Faust," will be given. The company is said to be a good one. Its work will all be done in English.

* * *

The Black Patti Troubadors, an organization that bids fair to live as long as it likes, will appear at the Grand theater for the first half on next week.

SOCIAL AND PERSONAL.

Mr. and Mrs. George Y. Wallace last night gave an elaborate dinner in honor of Bishop Spalding and Miss Spalding, their guests numbering 12. The table was decorated in red carnations and violets, bunches of violets being at each place tied with ribbons of the same shade as the carnations, and a vase filled with the latter being the centerpiece.

* * *

Mrs. C. von Knobloch gave a delightful card party yesterday in honor of her guest, Mrs. E. L. Fox of Philadelphia. The valentine idea prevailed in the decorations, and were prettily carried out.

* * *

In the Temple yesterday was solemnized the marriage of Miss Maud Frame and Stanley A. Hanks, and in the evening a reception was held in their honor at the bride's home in Taylorsville, a large number of friends being present.

* * *

Mrs. J. N. Sharp was hostess at a pleasant afternoon affair yesterday, given in honor of Mrs. J. H. Young, who leaves shortly to make her home in Denver. The rooms were prettily decorated, and an enjoyable time was spent.

* * *

This afternoon Mrs. J. B. Eddie and Miss Clara Colburne entertained at a reception at Rowland hall in honor of Miss Sarah Spalding.

* * *

Tonight Mr. and Mrs. Pearsall and Mr. and Mrs. Terry will give an informal affair at the Country club, the members of the Auld Lang Syne club and a number of other friends being invited.

* * *

Rev. and Mrs. McLain Davis will be guests of honor tonight at a reception to be held at the Westminster church.

TENNIS ORGANIZATION.

Intermountain Association Elects F. J. Morrow as Its President.

The Intermountain Lawn Tennis association has been organized in this city, with these officers: President, Captain F. J. Morrow of the Twenty-ninth infantry, Fort Douglas; vice president, E. M. Garnett; secretary and treasurer, Dorsey Ash. The association includes in its membership, the Fort Douglas Tennis club, the Country club, the Miller, B street and Third South street tennis clubs. It is called intermountain from the fact that its scheme of operation includes memberships in Utah, Idaho, Wyoming and Colorado; and the association has just been admitted to the National Lawn Tennis association. It is proposed to have a grand tournament in this city next summer, with contestants from the four states named above.

"EMPEROR AND AUTOCRAT."

The general allusion to the ruler of Russia as the czar is, strictly speaking, incorrect. His official title is "emperor and autocrat." "Czar" is the old Russian word for "lord" or "prince" and was abandoned by Peter the Great on his triumphal return from Poltava, his crowning victory over Charles XII. of Sweden. Since then the Russian monarch has been officially entitled "the emperor," and at the congress of Vienna in 1815 his right to the imperial term was admitted by the powers, with the proviso that, though he was emperor, he had no precedence over the kings of western Europe.

MUSIC TEACHERS.

All who desire to consult the list of the representative professers and music teachers of Salt Lake should read the "Musicians' Directory" in the Saturday "News."

With scores that were pretty low the Independents outbowl d the Railroads last night. The best work of the evening was done by Evans of the Independents, who repeated his record of a week ago, by bowling past the 200 mark, for an average. For one game he ran up to 219. Williams of the Railroads played with a streak of brilliance, but fell down lamentably in his middle game. Bowling authorities seem to concede that it takes an average of 190 to win one's "spurs" in the bowling business, and Evans was the only man in last night's series that made good. The scores:

OAKLAND RECORD KNOCKED.

Ananias Gallops Mile and Hundred Yards in Record Time.

San Francisco, Feb. 15.—In the handicap at Oakland today Ananias cut a second from the track's highest mark for one mile and 100 yards, placing the record at 1:44¾. The $1,000 handicap was looked upon by racegoers to be a gift to the Ryan stable. Honiton, shouldering 122 pounds, and San Nicholas her stable companion, were pronounced favorites at 4 to 5. Others receded in consequence of the strong play on the Ryan pair. Schorr's crack, Ananias, being second choice. Maid of Fermoy, at 30 to 1, took the opening race through Knapp's poor riding of Ruby. Weather, cloudy; track, fast. Results:

First race, five and a half furlongs—Maid of Fermoy won, Ruby second, Meringue third. Time—1:09.

Second race, Futurity course—Sterling Towers won, Toupee second, Urbano third. Time—1:11.

Third race, seven furlongs—Mountebank won, Suburban Queen second, Bab third. Time—1:28.

Fourth race, mile and 70 yards, handicap—Ananias won, Honiton second, Grette third. Time—1:44¾.

Fifth race, one mile—Mindanao won, Ebony second, Hugh McGowan third. Time—1:41.

Sixth race, one mile—Yada won, Fisher Boy second, True Wing third. Time—1:41¼.

PENNY GOSSIP.

The duck season brought out many hunters yesterday morning, but the most that was shot, according to the best available reports, was ammunition. As the legislators will probably see to it that there is no spring season, hereafter, it might be well to shoot away that overstock of shells this week.

Monday, Wednesday and Friday are the days Maddock is trying out his distance men in cross country work, and his heavy men in the weights and jumps indoors.

Coach Harvey Holmes, who is well known to local football circles, has been retained for another year by the University of Southern California, where he coached the team successfully this year. With the new road opened he might have a listed game with his old team on the east bench before the season closes.

The Agricultural College, however, will admit that the University hasn't much need of recruiting her football team.

But, then, college presidents who have given all their lives to contests of brain and emotions, couldn't be expected to see the ethics in the sport that has to do with contests for muscular development.

A famous editor says that the ethics of football are to hit a man when he's down. A man never did that and staid in a game a minute after he showed the spirit to do it—at least, so the referees will tell you.

Now that bowling is having a distinct right of way among the polite sports, men are coming forward to tell how ancient a game it really is. Most of its wrinkles, however, are just recently put into place, and new ones are said to be in the forming.
