DEXTER NOT SO STRONG

Buyers at High Figures Had Cause Today to Regret Their Action.

STOCK SOLD DOWN TO $1.37 A SHARE.

French Syndicate Bonds the Guano Deposits on Gardner Island — Mercur's Output—Horse Stock Bonded.

Those who bought Dexter at $1.60 and upwards a few days ago, lived long enough to sorely regret their action, as the stock suffered an alarming decline and sold as low as $1.37, although before the close a slight reaction set in, and sales were made as high as $1.50, while the established bid was $1.50. The name of each market mate.

Speculators in so short a time is only known to those who are riding the market, although it is generally believed that the active trading indulged in the past few days was from pure speculative anticipation in which some have lost and others have gained.

The close of another week on the exchange, based upon quite generally active work, was a good time prevailing. Geyser-Marion exhibited a firmness which was gratifying and sold as high as 19 cents. Grand Central looked well and had a bond of $475, while Mammoth fell a sight decline and had its bid set at $1.35. Mercur was just a little weak, but Mammoth, considered firm and steady, remained firm and nothing regarded a transfer at 27 cents. Utah was not offered at any price, and no bid was posted for the stock was 20 cents.

Chloride Point had only passing recognition, and stood stationary with a bid of 87½ cents. Omaha was wanted at 52½ cents, but none could be had under 55. Quite a number presented a firm front, and stood out with a bid of $2.35. Yellow Jacket at 11 and 11½ cents, and Sacramento figured in the trading at a shade. Bonds demand was only moderately firm.

The closing figures were as follows:

LISTED STOCKS.

GRAND DEPOSITS BONDED.

French Syndicate Said to Have Taken Hold of the Property.

About a week ago a representative of a French syndicate came to this city for the purpose of looking over the property of the Utah Guano Company. It is now learned that arrangements have been made whereby the properties will be turned over to the Frenchmen on a bond. The amount or terms of the bond, however, have not been made public.

These valuable deposits have been tying up owing to a question as to the title. This, however, has been happily settled and it is to be hoped that work will be commenced right away and that it will prove a source of revenue to the State.

As to Mercur's Output.

H. W. Ressler says that the gold output of the camp will be doubled within a year. This prophecy is an easy one to make seeing that improvements are now well under way that will enable the mills to double the capacity of the mills in operation. At present the output of ore treated daily for the last two months is a little over a thousand tons. The increase will be done at the Golden Gate, 108 at the Crescent, 200 at the La Chaux and 10 more at the Daisy with an increase of 925 and the Chloride Point, Mercur and Bullion to hear from.—Mercur Mercury.

Horse Stock Bonded.

A. M. Spencer and Col. Heffron went to Salt Lake last week and as a result 10,000 shares of Horse stock has been bonded to the extent for the sum of 15 cents per share. This corrals two-thirds of the stock and the conditions are that the balance will be taken at the same rate, if the stockholders so desire. Wednesday Col. Heffron put a force of men to work on the property under the foremanship of Charlie Forcum.—Mercur Mercury.

DIPS AND SPURS.

Silver dollar, bid $2.05.

The Horse Shoer reported today with six cars of concentrates.

It is reported that E. J. Daddale has sold the Mustang Link group of claims at Mercur.

Morris W. Taylor was out at Tooele today, being his non-appearance on the stock exchange.

The directors of the Galena mine at Park City, are called for a meeting late this afternoon.

The Annie Laurie on Gold Mountain is in with a shipment of ore running as high as 1 ounce in gold and 12 ounces silver to the ton.

Dr. Will H. Lowe, of the stock brokerage firm of Perry and Lowe, has returned from a pleasant trip to New York and other Eastern points.

E. L. Shipp, the well known broker, accompanied by his wife and Mrs. E. R. Shipp, left this afternoon over the R. G. W. Ry. for San Francisco, where they intend to stay during the winter.

F. J. Moody, president of the Trass company, operating at Hecla, has just returned from the East. His visit will result, he says, in the erection of a mill on the property and the continued development of the company's mine.

Boise Statesman: John Pierce exhibits a beautiful specimen of copper ore from the Peterock mine in the seven Devils. It contains over 30 per cent copper and assays 8 gold and 18 ounces silver to the ton. It is expected to get a carload of the same kind of ore weighing 200 pounds will be exhibited at the fair.

The Republic Mining company declared its fifteenth dividend Wednesday. The amount is $5000, or three cents per share, and it will be paid October 20, stockholders books closing October 10. The dividend has been anticipated for some time, as it was known that the mine had shipped enough ore to pay all indebtedness and to have a handsome surplus in the treasury.

THE OGDEN SUGAR FACTORY.

It is Now Almost Complete and Will be Put in Operation Next Week.

Ogden Standard: The great sugar plant is almost complete, so near so in fact, that it will be ready to run, and running early during the coming week. As it nears completion the public are coming to a better understanding of the immensity of the enterprise and the amount of energy and money which has been expended in order to bring it to a successful issue.

At present it looks very much like business, and as one drives out and reaches the point about a quarter of a mile from the mill, he is startled by the sight of smoke pouring out of the great 100-foot smokestacks, of which there are five. As he draws closer and reaches the tracks he will probably be compelled to wait into the switch engines clear the way before he can cross the tracks, but all these things only more fully impresses him with the vastness and importance of business institution just beyond and that he has better begin to realize it.

The main building is complete, and within there are over a hundred men working, tightening up every screw, seeing that every joint is in proper condition, and ready to perform its duty when the great plant moves on its feed-ways. Some of the machinery is in motion and here you will find men examining every movement and watching for the most deficiency, correcting it if it exists, and reporting to the contractor for instructions. It is a delightful busy place and with the building filled with the ponderous machinery, is very emphatic indeed in point of advancement.

The outside buildings, such as boiler rooms, sheds, storehouses, etc., are also nearly complete. The boiler sheds, two in number, 400 feet long and 20 feet wide, are at the east end of the main building and on Wall street. Behind the sugar storehouse needs only a roof, while the boiler house is practically completed.

Yesterday Mr. H.T. Dyer took charge of the plant for the Sugar company and will be its superintendent for the coming year. He is well known to the Ogden people, having been in charge of the work of construction for the building, firm of E. H. Dyer & Son of Cleveland, Ohio.

Sister Hardman's Funeral.

Services over the remains of Sister Alice Hardman were held in the Fourth ward meeting house, commencing at 2 o'clock yesterday afternoon. The speakers were Elder John C. Cutler, Bishop Thorne, Bishop Seddon and Bishop Warburton and Elder Joseph E. Taylor of the Woman's Exponent, one of whom expressed words of consolation to the bereaved. Floral tributes adorned the casket, showing the high esteem in which the departed was held by family and friends.

Latter-day Saints' College.

The registration during the opening week has been larger than usual. A considerable increase is looked for next week, when students from the country will begin coming in.

* * *

All classes are organized and introductory work has been done. Regular active class work will begin on Monday.

* * *

The Alumni association of the college has been organized, with state members. The officers are: Nephi L. Morris, president; Mae Taylor, vice president; Maria James, secretary; Hyrum M. Smith, treasurer. A meeting of the association will be held at the college building on Friday evening, September 23rd, at 7:30, at which time the constitution will be adopted.

* * *

President Talmage will give a course of weekly lectures during the year. The first of these, on the subject, "What is the Bible?" will be delivered on Wednesday, at 2:30 p.m., at the College building. The public will be admitted free of charge.

From the Mission Field.

Elder Joseph Hansen, of Fairview, Sanpete county, returned to Utah today from California, where he has been on a mission since October, 1895. He labored in San Francisco, San Jose and Oakland. The last five months his labors were confined exclusively to Los Angeles. He says that the work of the Elders is progressing satisfactorily.

Elder Hansen also speaks well of the work being done by Elder James A. Eldridge, president of the Southern California conference. Elder Eldridge is receiving splendid assistance from his wife and daughters, who are reported as doing much good.

WEATHER FORECAST.

The weather forecast as given out by the weather bureau today is as follows: Fair tonight and Sunday; stationary temperature.

Killed a Mountain Lion.

Millard Progress: While hunting deer at the top of Mt. Catherine, east of Fillmore, Saturday, Raymond Ray caged a large female mountain lion and crowded upon the parks where him, not more than twenty feet away. When in the act of making a spring, Mr. Ray shot at the beast, striking it in the hips. It came tumbling down the cliffs, making tremendous noise, and, as it stopped, had more than ten feet away. It was the same kind of a lion, and weighing 200 pounds will be exhibited at the fair.

MEETINGS OF REPUBLICANS.

Primaries Will be Held on Wednesday and Convention on Friday.

The Republicans of Salt Lake county are preparing for their convention next week. Efforts are being made in all directions to harmonize the differences that have divided the party in the past, and to get together on vital issues of the campaign. This, it is said, is being accomplished to a marked degree satisfactory to all concerned. The party's primaries to elect delegates to the county convention will be held in the eighty-eight election districts of the city and county on Wednesday evening next. The convention will meet on Friday and will nominate a complete county and legislative ticket.

Scott Critchlow is spoken of as a candidate for county clerk on the Republican ticket. J. W. Sutherland has been suggested for a county commissionership nomination. Jesse N. Smith will likely get the nomination for sheriff, and I. M. Fisher is talked of as a candidate for auditor.

Attorney George Sutherland may be nominated for a State Senator, while George R. Lawrence and D. C. Eichner are mentioned as being candidates for the lower house.

It is emphatically denied by the Populist leaders that they will fuse with the Republicans this year.

IN THE NEW HIGH SCHOOL.

Teachers Gather in the Assembly Room of That Institution at Their First Meeting.

The first general meeting of the city teachers was held this morning, in the new high school assembly room, the full teaching force being present. Supt. Milnagnah, in calling to order, congratulated the teachers upon the fact that between every compartment of the structure for assembling had been provided as well as students that their rooms are more cheerful, and appointments in all respects far superior to the old quarters. All were congratulated upon the widening of the educational field by the erection of new buildings, and consequent additions to the teaching force. Continuing his remarks, general directions were given as to the work of the year, and the hope was expressed that the duties of the teacher should, as November, be devoted to the building up and maintaining of an efficient school system.

Miss Lake, principal of Rochester, New York, was then pleasantly introduced and rendered most entertainingly three Bonnie Scotch songs, "The Village Smith," and "Auld Robin Gray's Visit," all being enthusiastically received.

Supt. Milnagnah then read a valuable paper upon "The Value of Education," giving broad scope to his treatment, and was listened to with marked attention.

Miss Greenwood again entertained her hearers in a rendition of "The Monopoly," which provoked great applause. Grade meetings under the direction of Superintendent Young and Supervisor Holton were given out for the coming week, and the meeting came to a close, the teachers receiving through the new building and commenting favorably upon the new quarters provided for the high school.

Mrs. P. R. Elliott, the new supervisor of drawing, arrived this afternoon from Aurora, Ill., and will assume her duties on Monday.

Salt Lake Temple.

In order to accommodate the Saints who will come to the approaching General Conference, baptisms will be performed in the Temple on Monday, Oct. 3rd, and the other ordinance work on the two days following—Tuesday and Wednesday, 4th and 5th.

The building will close on the evening of Oct. 5th and reopen the following Monday, Oct. 10th.

LORENZO SNOW,
President.

MINOR MENTION.

The Twenty-first quorum of Elders will meet in the Nineteenth ward meeting house on Monday evening next at 8 o'clock.

The home of S. A. Kenner was the scene of a social party last evening, the same being given by Miss Agnes Kenner, the occasion being her 16th birthday. The guests were all young people. Patriotic songs were sung, and enjoyment held sway until an early hour this morning.

Prof. Milton H. Hoss, instructor of penmanship at the business department of the Latter-day Saints' college, has returned home from Columbus, O., where he graduated with honors from the Zanerian art school. Pen work in all of its branches is a specialty of the institution.

The team attached to L. W. Ditto's beer wagon ran away on West Temple street last evening, and at a point between First and Fourth South streets, a small boy was knocked down and slightly hurt about the legs.

The floral is the highest grade baking powder known. Actual tests show it goes one third further than any other brand.

ROYAL BAKING POWDER Absolutely Pure

BIDS FOR TRACK WORK.

Opened This Afternoon at the Office of the Utah and Pacific.

ARE FOR BUILDING 76 MILES OF ROAD.

Will be from Milford to the Utah-Nevada State Line—Contract to be Let Monday.

Chief Engineer Joseph A. West of the Utah & Pacific came down from Baker City, Oregon, on the morning's train, and attended a special meeting of the directors of the road, which was held at the office of President A. W. McCune, beginning at 2 o'clock this afternoon. At the meeting bids were opened for repairing the road bed and laying rails from Delta Milford in the Utah-Nevada state line, a distance of seventy-six miles. It is expected that the work of the track will be let Monday.

Engineer West says it is the intention to begin work on Contract 1, and continue it with vigor until it is completed, which will be about the middle of November, if not before. He says the grading of seventy-six miles of road each day. The company will also be building rock in the shape of culverts, but only two men will be at work at Milford, and no bridges will be built.

The shipping of ties from Baker City commenced yesterday, and the Oregon Lumber company will ship the balance, for furnishing them, has 15,000 on hand now, and says Mr. West, has a force of men at work in Oregon and will have the balance of the 200,000 ties ready for the company.

The road is as smooth as ever. There can no longer be any doubt of the road being built, for the people of this city and southern Utah, running as it will within fifty or sixty miles of their doors, and tying the mining districts of western Utah and eastern Nevada.

WEATHER REPORT.

Weather report showing observations at 8 a.m. today:

Salt Lake City—Barometer, 29.60; temperature, 54; minimum, 50; wind, southwest; light; clear.

Baker City—Barometer, 30.00; temperature, 48; minimum, 46; southeast; light; clear.

Cheyenne—Barometer, 29.94; temperature, 56; minimum, 40; wind, northwest; 12 miles per hour; clear.

Havre—Barometer, 29.86; temperature, 52; minimum, 32; wind, southwest; 6 miles per hour; clear.

Helena—Barometer, 29.88; temperature, 50; minimum, 34; wind, southwest; light; clear.

Huron—Barometer, 30.12; temperature, 56; minimum, 36; wind, northwest; 6 miles per hour; clear.

Chicago—Barometer, 30.12; temperature, 56; minimum, 46; wind, northeast; light; clear.

Minnedosa—Barometer, 29.92; temperature, 34; minimum, 32; wind, southwest; light; clear.

Winnipeg—Barometer, 30.02; temperature, 46; minimum, 44; wind, northeast; 6 miles per hour; clear.

General and local forecast for 36 hours ending 8 p.m. tomorrow:

For Utah (forecast made at San Francisco): Fair tonight and Sunday; stationary temperature.

For Salt Lake City and vicinity: Fair tonight and Sunday; stationary temperature.

J. H. SMITH,
Observer, Weather Bureau.

His Sense of Humor.

[Washington Star.]

It is a matchless quantity, this phrase "a sense of humor." It is as "The trouble with most people," said the young man with wide, wary ears and a voice like a lawn mower, "is that they haven't a faculty for seeing the amusing side of life. They've got to have something handed them to bring it home. They will understand that it's time to laugh, if a joke comes of chances to relize themselves simply because of their own carelessness and stupidity.

"Then, to give a test, describing 'new here,' which grabs everybody in the vicinity, they say, 'Ha! Ha! Ha! 'Don't you think there are occasions on which our automobiles are so strongly reminded of the ancient impossibility?' inquired the quiet, cheerful man.

"And if you have the gift of seeing the funny side of things. There's a reason for giving to to that rare and humorously, I now an incident the other day which gave me a laugh, I tell. There was a young man sitting in front of me on the car. A lady and her son, and I could see by the dignity manner that anybody with a sense of humor would be able to get something worth breakfast of it. So I would keep my eyes open. In a few minutes she did along the seat and drew beside him and said, 'Are you familiar with the names of the hotels in this city?' I felt sorry for that young fellow. He didn't have sense of humor, and he did exactly what that lady knew he would. He simply said that he knew most of the hotels, and then she told him all about the case. Their son was a young man just come in New York state. The son had enlisted against his parents' will, and I guess they had had some trouble with him about it. He was to be a soldier. But just the same she knew he carried her heart full of all kinds of dishes for the delicate stomach of soldier fare, most of which, for some reason, he never ate. I would kindly keep from telling what I was doing, but I guess he was surprised and amused when she was somewhat sure he didn't get the provisions. But the funny feature was that the young man didn't seem to see the joke. He turned with the greatest fake imagination as the lady here, when she heard the boy was coming to Salt Lake, sent the boy home to come and see him. The young man asked him that morning where he should rather see Salt Lake City and the world, and he had answered yesterday. 'Isn't there any one you would rather see than me?' he asked. The lady said 'No, no one that there is any fear of seeing,' and then turned his head with a sigh of relief. He was just a little disappointed, but the same he said, 'Wouldn't you like to see your mother?' and he turned. And he turned to look at her as he saw some fear of tears, and it is a serious matter for mother was laughing from end to end of her dimpled face, and he was hurt and fell in works. And I'm fond of the continuance of it all dear. Make her your friend when next she comes, laughing at. And that young fellow didn't appreciate it at all. He sat there and sulked all the way from Ogden clear to Salt Lake, because she said she thought she would remember the name if she heard it. The idea of a man sitting in a car down and frowning what most she said at this! Guess he was the way it did not like the joke. I'm sorry that he felt hurt. He didn't have any sense of humor whatever."

Grand Fall Millinery Opening.

Sept. 26th and 27th. Fine display of French Fallies Hats, Bonnets and Novelties. Don't fail to come. Wagner's Co-op., 18 west First South.

DENVER AND RETURN $18.05
