TRIED TO CARVE HER.

Jacob J. Fluke Accused by His Wife of Chasing Her About

WITH A DANGEROUS WEAPON.

Mrs. Fluke Applies to the Court for a Decree of Divorce and the Care of the Children.

Hepzibah Fluke came to the Third district court today and filed with the clerk a complaint in which she makes numerous charges against her partner in life, Jacob J. Fluke, and asks for a divorce.

Mrs. Fluke, in her statement of grievances, says that she was married to the defendant on January 16, 1877, and has since that time conducted herself as a faithful, affectionate and obedient wife.

The lady also says that she has been a resident of this county for more than twenty years. During the past year the husband is accused of having failed to provide the wife with the support due a married woman and her family, and that the necessaries of life have been obtained from other sources.

That is not the worst of the shortcomings charged to the defendant, she says Mrs. Fluke, on or about July 15, 1892, without provocation, too knife an assault upon her little boy, Hyrum, throw her from the porch to the lawn, injuring her physically and mentally. Again, on July 26th last Fluke made an assault upon his little boy, Hyrum, raising to kill him with a large tailors' knife, and terrorizing, at the same time, threatened and attempted to end the days of Mrs. Fluke with the same weapon.

To add to the misery of the poor woman, Fluke is accused of being an habitual drunkard, and by the frequent use of liquor has incapacitated himself for any kind of work, although he is an able-bodied man of 40 years, a builder by trade and correctly skilled, but he the disposition, to support his family. Indeed, however, Mrs. Fluke says she has for several years past been compelled to earn the bread support for herself and four children, William Henry, 18, Jacob Henry, 12, Harriet Ida, 8, and Florence Hazel, 6 years of age.

Mrs. Fluke, after making these complaints, asks the court to grant her a decree of divorce from the defendant, the custody of the children and a suitable alimony.

Assistant County Attorney Walts is attorney for the plaintiff.

Another One.

Nettie Carr also filed a suit for divorce from her husband, Charles August Carr, today. Mrs. Carr, as her first cause for complaint, says that she married the defendant in this city on January 27, 1874, and that she has resided in Utah for the past twenty-five years. She also complains that for twelve years past her husband has been an habitual drunkard and that she is and has been wholly dependent upon her own labor for the support of herself and child, Charles Henry, aged 19 years. The plaintiff says also that her husband is able and has been since December 31, 1894, an incompetent and insane person and is now confined in the asylum at Provo, but that all of the wrongs perpetrated against her occurred prior to her husband's commitment to the asylum. Mrs. Carr therefore prays that the court that a guardian ad litem may be appointed over her person to appear and defend the action herein commenced, and that the bonds of matrimony be dissolved and she be awarded the custody of the child.

D. S. Whitehouse is attorney for the plaintiff.

Garfield Excursions.

The Tents, Eleventh and First wards of this city formed a merry combination of excursionists who spent today at Garfield in an annual outing. An excellent program was prepared for the occasion, and as the water is pleasant as to temperature and all other respects, a goodly number may be depended upon to take a bath in the briny before returning home tonight.

Tomorrow, members of the Twelfth, Sugar House, Forest Dale and Farmers wards will enjoy a picnic at the same resort.

DIED FROM BEE INJURIES.

The Larsen Girl Passes Away Shortly After 7:00 O'clock this Morning.

Inquiry at the St. Mark's hospital this afternoon brought out the sad information that little Miss Larsen, the child who was so frightfully injured at Garfield Beach yesterday, an account of which appears in another part of this issue, had succumbed to the injuries received shortly after 7 p. m. She never rallied from the effects of her injuries and consequently no attempt at amputation of the injured limb was made.

The death of little Laura has thrown the entire Larsen family into deep grief, and our sympathies go out to the bereaved parents.

Coroner Gibbons is not certain as to whether an inquest will be held in this case, as we believe, at the time of the writing, it is impossible to accurately the child's injuries, owing to its death in the arms of its parents at Bingham Junction this evening.

Fifteenth Ward.

This Wednesday evening, at 8 o'clock, the Fifteenth ward assembly hall will be the scene of a farewell complimentary party, tendered to Elder S. Jenkins, who has been called to go on a mission. A lively entertaining program has been arranged for the occasion.

THE GOSPEL IN MONTANA.

Elders from Montana and S. E. Ontario in Annapolis and Delta.

ANNAPOLIS, MONT., July 27, 1896.

To the Editor:

Soon after our correspondence from Delta, Elder Cowley and myself visited Anaconda, twenty-eight miles over the Mountain Divide railroad, passing down Silver Bow creek, seven miles, passing mines, fine and some fine looking valley lands in narrow gorge, opening out into a broad valley of meadows.

The grass is very green and refreshing to look upon, especially after leaving sandy, dry and hilly Butte, it seems to bring relief of thought and change to society. From the conversations we had with little boys, boarding at the hotel where we stopped, we are reminded that we are not in the old valley of Utah. The night, however, of the Deer Lodge valley is very pretty and refreshing.

Anaconda is rather lively to be so early, and a desirable city to reside in for various reasons. One of the great attractions to those in the hot valley. Not so in Anaconda where there is good water. In Butte it is so bad that the other alkali is really refreshing. Decay for wood is dull, and fuel is from one to six per cord. Water wagons go around regularly as milk wagons, but we pay the market in jug for it to carry home lately. We have been lately much wider more very severely punished by being compelled to use it as well, even when boiled. But the city is making a fuss to bring water into the city mineral, passing through the adjoining reservoir, from the well known the people for better water. Anaconda is to be a big place, unlike crawling Butte. Butte is one of the garden cities to visit in. Oh, how wicked. Anaconda is better. Yet there are some good people. Six districts of street cars in Butte, in June, 1895, we learn the following notes, 3,000 cars, 165,000 miles of trolley of income, 29.

Butte is a general hollow which makes empty sources, several of which we attended and had the opportunity of speaking to our fellows meetings mostly women. Our conditions were something new to those people, we felt quite a sensation. Many came out when opportunity offered time and test. The newspapers did we were the first Elders to preach in those parts. We held both public meetings in a new Masonic church, and some private meetings. Binding about both in attendance who were not so much time to spend. Lately Butte. They were surprised to learn of our coming, when time they had, that they were Methodist ministers. They had left the city. Our little children were growing up and as to gospel.

Our trouble with the Latter-day Saints has commenced, we are treasonable. The people work and make money and move on. Wages are very good and paid in cash. But there are many out of employment. Our experience is that those who remain at home and fight the battle of necessity and bravery a reward we learn the best of all are very, and their children grow up in the fear of the Lord.

The Saints have been organized into a branch on May 11th, 1896, in a big house. Elder S. Jenkins was presiding Elder, with Elders E. N. Wilson and Leonard Jones counselors, the presiding Elder moved away after holding five meetings after the organization and the branch died entirely for want of a shepherd. The desire of the meeting was to have a reorganization.

Our meetings were held in the church, and on Sunday were crowded. The newspapers have been very kind, and treat us courteously as a people, even to a Street in that which bitter is, has been rare. We can truly say that since the Elders of Salt Lake City visited, we are persecuted by Parson Jedd Woodard, a vet, she-ge he taken place for the better. Ugh he has a state, and Zion is coming in the trail.

After the meetings we left the few Saints and some interested strangers with Sister Jones to be with them, and returned to Butte to arrange for our meetings in the Auditorium. We extended to attending Butte in the evening, and Monday at 2 p. m. and 8 p. m. July 20th.

The Elders' Office, at 1200 S. W. Tenth street, Denver, Colorado, July 20th.

DAILY WEATHER VANE.

Today's temperature is known to the far visible thermometer given below:

Sales Talk

With Hood's Sarsaparilla, "sales talk," and there the talk ends. Other sarsaparillas are advertised as boomers and persuasion is a prime virtue in the advertisements of other proprietary medicines. This is simply because it possesses great merit and positive power other than and above it. It is not what we say, but what Hood's Sarsaparilla does, that establishes its claims to public favor. All testimonials are of Hood's Sarsaparilla, that Hood's Sarsaparilla is truly meritorious. Women come forward with testimony that Hood's Sarsaparilla cured their ills, and men that it gave them the physical strength to do the work of life. Hood's Sarsaparilla is a sure cure.

PROVO.

PROVO, UTAH, AUG. 5, 1896.

County Business.

The county commissioners met yesterday and transacted the following business:

A communication was received from the Salt Lake county board of commissioners asking the board to meet with the Salt Lake board at the point of the mountain to make a new highway and arrange upon a better road for the county road and near the point where it crosses the county line. The Utah county board directed the clerk to write the Salt Lake board that they did not deem any change advantageous to Utah county.

The rate of taxation for the year was placed at three mills for county and one and a half mills for county school purposes.

The following releases and appointments of registration officers were made. The changes were necessary because the former appointees had left the precinct or were from being eligible to the office of registrar: Payson precinct, No. 1, Brigham H. Cloud; release, Alva Lilly Boren; appointed, Payson precinct, No. 2, George A. Finlayson; release, George H. Dove; appointed, Spring Lake precinct, T. A. Perry; release, W. W. Dean; appointed, Perry precinct No. 2, John C. Nelson; release, A. W. Wesley; appointed, Pleasant Valley precinct, John V. Smith; release, J. J. Unger; appointed.

Collector Openshaw brought up the question of whether money collected should be apportioned to the various towns to collect taxes, as has usually been the custom, or whether the corporate should be required to bring their taxes to the county seat. The board realized that it was a great inconvenience and expense compelling the people to have money enough with them to pay taxes, but as the collecting fees were apportioned, there should be one or two days allowed in which the taxpayers of both towns could pay their taxes to the county seat. If they failed to take advantage of this arrangement they should be required to bring their taxes to Provo, as the collector could not afford to go down to the lowest possible point. The matter was taken under a wholesale.

Death on the Rail.

Yesterday at noon a Rio Grande Western freight train brought a young Japanese, 23 years of age, who has been for several years in Denver. He was very badly fractured and he was received other injuries from which he died about 4 o'clock. He was quite disfigured and talked freely to the officers, after he had been removed to St. Ben's hospital. He said he was a student of the law in the Denver University, and that he was on the train to go home to Denver, near Thistle, where the train was to meet—the Denver train, however, says he was asleep and before the train started, but did not jump off the cars were moving. He gave the name of Saito. He formerly lived in Kumamoto, Japan, his father, Jesse, and sister is in visiting America to observe trade. He kept a diary giving the impression of towns between Denver and Thistle, written in fairly good English. It was the first one was in the habit of riding on freight trains. Monday's comment he was engaged with the Japanese interests in San Francisco, and Sheriff Brown sent his telegram that place to learn what connection to make of the deceased. The sensational stranger was written up by Dr. Taylor after an interview here. He had about $9 with him.

A Row at Thistle.

Sylvester Tedesco, formerly of Salt Lake, now of Clear Creek, had a hearing before a jury in Justice De Moleyn's court yesterday on a charge of assault and battery charged to have been committed on his wife's sister, Mrs. Mary Lombardo, at the Thistle station on the Denver & Rio Grande, July 19. It appears that he struck her on the head with a plank and afterwards engaged in a row with her husband. He reportedly testified that when the first

WHAT THE BISHOP SAYS.

SALT LAKE CITY, Aug. 3, 1896.

It will not be any exception.

Time is a certain test. On July 1, James Wanamaker, using a cutlery for about three thirty years with serious, after having used several kinds of tonics I only received temporary relief.

About eight years ago I underwent an operation, the doctor using the knife, I only received relief for the time being.

On June 25th, 1896, I received my first treatment from Dr. A. M. Brown at the Fidelity Hygiene Cure.

I received very good first treatment, so did a tonic on my body, which I now my and sleep, receiving six treatments in five weeks. On July 25th I received a certificate from Dr. A. M. Brown, being completely cured. While receiving treatment I attended to my business and duty competently.

I was discharged my time, which is the first time in thirty years, and I can assume that I am permanently cured.

All doctors, in asking the questions in regard to their methods of treatment, please call at No. 257 south Main, south east street, city, and I will answer all questions.

JOSEPH WASHINGTON,
Bishop First Ward.

CANCER CURED

—AND A—

LIFE SAVED

By the Persistent Use of

Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in the treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it." —Mrs. S. A. Fulks, Bloomfield, Ia.

Vino-Kolafra Steadies the Nerves

of worn-out women and overworked men. It is a wonderful tonic and a non-intoxicating stimulant, from which there is no depression or reaction.

Builds up Invalids

The strengthening and nerve-sustaining properties of Vino-Kolafra have been shown by such tests as those of the French Army, the Loomis and Flower hospitals, New York, the athletes of Yale, Cornell, Pennsylvania and other universities, the Superintendent at the New York Postoffice, various government departments in Washington, and thousands of physicians.

Sold by druggists generally.

Brunswick Pharmacal Co.

Johnson & Johnson, sole agents, 9 Willow St., New York.

When Death's hand is on your shoulder, don't stop—don't hesitate! Make it call! When your hopes are fading, when life's sands are ebbing away, don't despair! Don't let the grim reaper drag you from health and vigor, do not waste time! The younger you are the more need you have for Pierce's Golden Medical Discovery. It is the marvelously efficacious tonic and blood purifier, the great strengthener, the great flesh producer, the great nerve vitalizer, the great life giver, the great life saver. It makes sound, healthy, solid flesh, and not fabby fat like cod liver oil. It makes rich, red blood, and plenty of it, and it makes the nerves strong and steady. It makes the brain active, vigorous, and full of the energy of manhood. It makes the liver healthy, active, and healthy. It makes the digestive organs do their proper work. It gives to the blood the life-giving, life-sustaining, life-giving, life-sustaining properties needed by the impoverished blood and the over-worked nerves. It makes the appetite keen, the digestive organs so you will "enjoy your meals." It makes the weak, sickly, pale, and death with you. Get what you can.

Dr. Pierce's Pellets regulate the bowels. Sugar coated, tiny pellets, easy to take, as easy as sugar candy. Cure constipation, sick headache, dizziness, sour stomach, indigestion, biliousness, jaundice, dyspepsia, heartburn, and all derangements of the liver, stomach and bowels. Sold by druggists. Dr. Pierce's Pellets are the smallest, cheapest, easiest to take, and most effective of all pills. Sugar coated, tiny pellets, easy as
