THE WEEK ON THE EXCHANGE.

Business Was a Little Quieter Than Usual.

MAMMOTH IS STRONGER.

Anchor Still Climbing—Ben Butler and Tetro Firm—Joe Bowers Advances.

Business was light on the Exchange today. Something less than $9,000 worth of business was transacted, but for all that the total for the week footed up to $87,810.05, which represented the sale of 144,043 shares. A number of smaller stocks were traded in during the week as will be seen by the average value of the shares sold. Reviewing the list of the most active stocks during the week beginning with Ajax it may be said that while some weakness is seen at the close of week no important change is recorded in the price of stocks. Ajax has declined from 98 to $6 at which figure the closing sale was made today. Anchor has almost reached the $2.50 mark during the week while Consolidated Mercur is not strong, a sale being made today at $3.00 flat. Mammoth has put on a spurt with the arrival of the rich car of ore in the city, and after selling down to $2.14 during the week is now selling at better than $2.20. Daly West has been quite active during the week. The stock is firm just under $30. May Day has fluctuated between 37 and 40. The call closed with an advance in the stock today from 37¼ at the opening to 38¾ at the close. Northern Light remains steady around 2¾. Sacramento was traded in today as high as 38¼, while Dalton was active at from 10½ to 10¾. A big jump is noticed in Tesora which, after a period of inactivity, is now in good demand at much higher figures. At the beginning of the week the stock stood around 35 but it has since jumped to 55, though a weakening to 49⅞ is seen today. Joe Bowers was weak at the beginning of the week on news of the shut down of the property. It has since climbed to 2½. Manhattan has shown much activity this week between ½ and ⅝ per share while Martha Washington remains steady around 3¾. Yankee Consolidated is unchanged as is Grand Central which hangs just under $6. Lower Mammoth dropped to $4.10 early in the week but it has since advanced to around $4.18. Tetro has made big gains on news of a change at the mine. Sales have been made as high as 11 but it closes today around 9. Little Chief has lost its inflation of a week ago and after opening the week at 10 cents per share closes today with 2½ bid.

Closing quotations were posted as follows:

SAMPLING WAS EFFECTED TODAY

Assays of the Rich Mammoth Ore Expected This Evening.

THE MAMMOTH MOTION

Being Heard This Afternoon—Items from Bingham—Tintic. Shipments.

At an early hour this morning Director Thomas W. Jennings of the Mammoth Mining company visited the sampler and relieved Samuel McIntyre, Jr., who came in from the mine with the car of rich ore and remained with it all night. As stated in the "News" it consists of about half a car of ore. The work of sampling was started early this morning, and after a double sampling it was thought that the assays might be ready late this afternooon. A visit to the sampler this morning revealed the fact that very little free gold appears in the ore. There are, however, other indications in some of the ore, which show the presence of gold quite plainly, though taken as a whole the ore looks quite plain, and excepting occasional pieces of rich horn silver, does not show anything like $1,000 per ton. The ore is a spar, which may prove deceptive, but Mr. Jennings said he did not look for the car to run more than $15,000.

THE MAMMOTH MOTION

Was Being Argued Before Judge Marioneaux This Afternoon.

The motion of the Mammoth Mining company for a new trial in the case of that company vs the Grand Central Mining company, was discussed this morning before Judge Marioneaux, of Nephi, who was sitting in the district county chamber in this city today. The motion was being discussed this afternoon and it appeared as it is the great part of the afternoon would be taken up in the argument, after which the matter will probably be taken under advisement.

BINGHAM NOTES.

Mystic Shrine Company Has Some Fine Looking Copper Ore.

In its review of the week in Bingham the Bulletin says: Having obtained an option on the Amazon Nos. 1 and 2 the Mystic Shrine company is now working a force of ten men and pushing developments, also developing its property the Navajo, with satisfactory results. Manager E. W. Young, in camp Wednesday, took to the city for assay some fine looking samples of copper ore that came from a stope off the lower tunnel. He is quite enthusiastic in the belief that the company will, before long, have plenty of ore to sell.

Superintendent Brooks, of the Butterfield mill, reports that the plant is now all ready for business and will start in tomorrow morning on a continuous run. The long wait for machinery has been discouraging, but Mr. Brooks says it is the best planned and constructed mill he has seen in the State, and working three shifts will make up for lost time. There is ore ahead to keep it busy indefinitely.

The wire tramway in its new form got down to work this week and as a result ten ironclads loaded with 500 tons of ore from Highland Boy tunnel No. 7 went down the road Wednesday. This performance will soon be an every day affair.

RETURNS FROM MILFORD.

Henry Kohl Expresses Great Confidence in the Talisman Group.

Henry Kohl came up from the Star district near Milford today, after being away for the last two months. Mr. Kohl went down two months ago to work the old Talesman property on a lease which he and others have secured. Some difficulty has arisen, Mr. Kohl says, between a former employe of the mine and the estate which owns it, which has prevented him doing anything during his two-months' sojourn. The trouble will be aired in the court at Beaver on February 8th, after which Mr. Kohl expects to open up the old bonanza. Mr. Kohl reports a great deal of activity in the district, and he regards it as offering as good if not better inducements to capital than any district in the State.

Fortune Affairs.

Regarding the status of the Fortune mines, their immediate value can best be illustrated by a remark of Manager Elmer Hill, made to the Bingham Bulletin on the day of the starting of the Fortune mill. He said: "The plant has been more expensive than I had calculated. It has cost in round figures $18,000; but now, if I only had water enough for a twenty days' steady run I could pay every cent of that and have money left. It is just my luck to gets this mill all ready to run in the only season in seven years that there has not been an abundance of water in this gulch."

It is a well known fact that since the Fortune people completed their mill they have been confronted by three very serious difficulties, two of which neither energy nor capital could overcome. Owing to the excessively dry season of last year there was not enough water without tanking and reuse, to run the will two hours a day; then sulphurous acid of copper ores ate up the iron pumps and wire screens in less than a week, and brass had to be substituted throughout, and then the electric power from Jordan narrows became uncertain and finally failed, so that after puttering for several weeks, the management go disgusted and shut down the mill.

Tintic Shipments.

Special Correspondence.

Eureka, Jan. 26.—The ore shipments from the Tintic district for the week ending today amounted to ninety-eight carloads. Of this amount forty-eight cars came from this, the Eureka end of the district. The Grand Central, as usual, heads the list, having sent out nineteen cars, while the Gemini comes up with sixteen. The shipments from the Gemini were somewhat hampered a couple of weeks ago by that company's failure to get a contract with the smelters and now the heavy output shows that they are beginning to pull down some of the ore that was blocked out during that period when shipments were stopped. Four carloads of ore found their way to the market from the Eureka-Hill mine, but as that property is at present practically closed, they will doubtless be the last for a few months at least. The shipments given in detail are:

Centennial Eureka	19
Gemini	16
Eureka Hill	4
Godiva	5
Humbug	2
May Day	2
Mammoth	10
Grand Central	12
Lower Mammoth	2
Carissa	7
Tesora	7
Undire	2
Swansea	5
South Swansea	2
Star Consolidated	3
Total	98

Besides the above the Mammoth mill marketed two carloads of concentrates and two bars of bullion.

MINING NOTES.

The May Day of Tintic was on the market today with two cars of ore.

Seven cars of concentrates were on the market today from the Ophir Hill.

The Taylor-Brunton sampler reported two cars of ore from Tintic and seven from Stockton today.

The directors of the Martha Washington were to meet this afternoon to elect officers.

The control of the Little Bell Mining company, of Park City, is reported to have recently passed to Mr. Solon Spiro.

Manager Clarence E. Allen of the Centennial Eureka is back from the mine and reports everything moving along as usual.

The annual meeting of the Daly Mining company is scheduled for February 18. The transfer books will close four days before the meeting.

It is reported that Thomas Sparkman, of Farmington, has found a big coal vein in Canyon Creek near the big canal owned by Davis and Weber Counties Canal company.

The Cleveland Mining company, of Tintic, is still drifting north from the Sioux-Ajax tunnel. It is the intention to run 200 feet and 50 feet of this work has already been done.

The Silver Shield Mining company, of Bingham, has declared the regular dividend of ½ a cent per share or $1,500, payable on February 9, the books to close on the 5th.

Manager Weir of the Ajax returned from the mine last evening. No change is reported. The management is still crosscutting to the fissure in which the Lower Mammoth ore body is found.

At a meeting of the Joe Bowers yesterday afternoon, D. H. Peery, Jr., and W. G. Nebeker were elected to fill the vacancies on the board caused by the resignations of Clarence K. McCornick and Hon. George Sutherland.

The Lower Mammoth closes the week with two more cars of ore which have just reached the sampler. One of them is silver the other being copper ore. The car of sacked ore has not yet been shipped.

P. J. Donohue has returned to town after making an inspection of a silver-lead property about nine miles from Milford, in which local parties are interested. Mr. Donohue reports a great deal of activity in the district. A number of prospectors are out on the hills and the outlook is very favorable for the present year.

BUSINESS NOTES.

The week has been a fairly active one in local commercial stocks, and the demand has been as strong as ever for the dividend payers. It has been active enough to send several of the leaders up to a new figure, Home Fire having advanced to $118, Co-op Wagon to $110, and other stocks shaded up slightly. Sugar stocks remain stationary; $18 is bid for Lehi and $18.50 asked, and several transfers have been made during the week. Investors will read with interest the announcement in another part of the "News" that there will be no opportunity to obtain stock in the new sugar factory at Logan. It is known that there had been considerable money waiting for this opportunity and now that it is known that the stock has all been subscribed for, it is expected that this money will seek other avenues for investment. The following are the latest quotations of local stocks:

Hundreds of good housekeepers who have used Three Crown Baking Powder, Extracts and Spices will use no other kind as they know the brand "Three Crown" guarantees them a pure and good article at a lower price than the imported goods would cost. Ask your grocer for the "Three Crown" brand the next time you order goods in our line.

Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

SPECULATIONS FEVERISH.

Stocks Opened Higher but Gains Were Restricted to Fractions Mostly.

Prices Aggressively Lifted Until Appearance of the Bank Statement—Closing Mainly Strong.

New York, Jan. 26.—Prices of stocks opened higher as a rule but the gains were restricted to fractions except in a few stocks. Speculation became very feverish, St. Paul rising to 151¾ and re-acting sharply, Federal Steel losing its rise of a point and Kansas and Texas preferred advancing to 54½ and then falling off a point. Confident buying of Consolidated Gas forced it up 4 points and the local tractions were marked up a point each, and New Jersey Central 2. These developments infused a better feeling all round and prices improved but the advance was not noteworthy outside of Baltimore & Ohio preferred and Erie second preferred, which rose 1½, and the rebound to 151⅝ in St. Paul. At 11 o'clock consolidated Gas and Smelting weakened and ran off 1½ and Sugar was sold freely, losing a point. Prices were aggressively lifted prior to the bank statement. St. Paul rising to 153. Rock Island gained 2⅝, Brooklyn Union Gas and Great Northern preferred 2½ and St. Paul preferred 2. There were gains of from 1 to 2 points here and there in various groups, but the notable strength was not very general. St. Paul reacted 1¼, Kansas & Texas preferred 2, while Lackawanna lost 1¾ and Smelting 2¼. The market became feverish upon the appearance of the bank statement, but with a rise in St. Paul to 155 prices of other stocks rose to the best and the market broadened considerably. Active realizing held some stocks back but the closing was mainly strong and at the top level.

CLOSING STOCKS.

New York, Jan. 26.—Closing stocks: Atchison, 46⅛; do Pfd., 85½; A. S. & W., 41¾; American Tobacco, 114; Tin Plate, 57⅞; American Steel Hoop, 27; do Pfd., 73½; American Smelting, 61; B. R. BIG WATER CASE.

First Defendant Has Rested Its Side—Second Begins on Monday.

The first defendant in the big Jordan water suit, the East Jordan Canal company, finished and rested its case yesterday. Following this came the defendant, the South Jordan Canal company, which originally took its water out of the river jointly with the city, about a mile and a half north of the old dam, on the east side of the river, and then after running together for a short distance the water was divided, this company fluming its portion across the Jordan and took it on west to irrigate land on that side of the river.

But upon the power plant being established in the narrows, these people took the water of the South Jordan Canal company out of the river on the west side, through the canal of the Utah and Salt Lake Canal company, by enlarging the latter, bringing it down near the plant, there taking it out of said canal, and after using it to help turn the power wheels, put the water back into the South Jordan canal below the power plant, on the west side of the river.

The South Jordan people will try to prove that they are entitled to one-sixth of the river flow, and that they have the right to empound the waters in Utah lake, during the winter seasons, jointly with the other canal companies, as against the claims of the power plant. It is claimed that this defendant's canal is about the oldest one diverging from the river, having been constructed about 1875. The second defendant will begin its side on Monday.

SYRUP OF FIGS

NEVER IMITATED BY QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

STRONGLY CONTESTED.

A Divorce Case that is Being Earnestly Combatted.

The divorce case of Frank Parsons against Matilda Parsons is being tried before Judge Hall today. The case is the most hotly contested divorce suit that has been up in the district court for some time.

Last July Mrs. Parsons obtained a judgment against her husband, in the sum of $25 per month for separate maintenance, on the ground that he did not provide her and her child with a home or support them; claims that while she was on a visit to Brigham City last summer, he sold their household furniture and effects, and thereafter refused to provide her and child with these necessaries.

Soon after securing this judgment for separate maintenance, Mr. Parsons commenced the present suit for divorce against his wife, alleging cruelty to his children, by a former wife, and other things. She opposed the granting of the decree prayed for, which resulted in the trial now in progress. The case was proceeding at the closing of the "News" report.

Judge Morse's Court.

The following rulings were made by Judge Morse in the civil branch of the district court today:

C. S. Vander vs W. A. Cook; motion to dismiss cause denied.

E. F. Stoizenberger vs Laura A. Brieger; demurrer and motion to strike out sustained.

Thomas C. Patten vs S. L. city; demurrer overruled and ten days given to answer.

John P. Cahoon vs B. E. West; motion for new trial and to strike out cost bill denied.

M. Schwartz vs Robert Gardner; motion to set aside officer's return argued. Court granted entry of new judgment.

Ellena Maris vs Mark E. Swan et al; demurrer as to the whole complaint, and as to first cause of action overruled, but as to second and third causes of action demurrer was sustained. Plaintiff given ten days to amend.

Harry Stone vs Don H. Porter et al; appeal argued; decision deferred five days to enable respondent to file brief.

Orders by Judge Hall

Judge Hall made orders in the following cases today:

Eva L. Lindgren vs Carl J. Lindgren; dismissed according to stipulations.

Nephi Hawcroft vs Union and Jordan Irrigation company; motion to strike out part of answer, and motion to amend overruled. Plaintiff given leave to make Richard Irrigation company et al defendants in case.

The divorce case of Elizabeth Benbrook vs John H. Benbrook, was referred to Deputy County Clerk F. W. Little to take testimony and report.

All other motions set for today were continued until next Saturday, February 2nd.

As stated in last evening's "News," Lewis Phillips, Jr., was this morning released from the State prison on writ of habeas corpus, by Judge Hall. Phillips was convicted of the crime of burglary, on the 10th of October last, in Millard county, and sentenced to one year's imprisonment.

In the following estates Judge Hall also made orders as appears below:

Estate and guardianship of Robert William and Gale M. Heath, minors, hearing on petition for settlement of trust and second annual account, referred to Deputy County Clerk F. W. Little.

Estate and guardianship of George Gifford Syms, a minor; order made to sell real property upon guardian giving additional bond of $2,400.

Estate of Henry Anderson, deceased; Elizabeth Anderson appointed administratrix, with bond of $250.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

PERSONAL.

Justice Bartch of the Supreme court has returned from Hughesville, Pa. He went there about ten days ago to attend the funeral of his brother, Fred Bartch, who died rather suddenly from the effects of heat prostration sustained some time ago.

F. W. Teague, a prominent contractor of Denver, is in the city on business.

Geo. A. Snow of the Consolidated Implement company has left for the East on a business trip.

H. D. Sabine, the merchant tailor, intends to remove to Los Angeles.

Charles De Moisey is in the city on legal business. He came up from Provo last evening.

J. R. Edghill, largely interested in the cattle business in Nephi, is at the Kenyon.

John E. Kearns, brother of Senator Thomas Kearns, intends to leave for Cuba shortly. Frank J. Wescott, formerly of the Ontario Mining company, will succeed him as an assitant manager of the Senator's extensive interests.

James Houston, United States government land inspector, with headquarters at Blackfoot, is in the city.

Judge Johnson, of the Seventh district, is in the city from Sanpete county. He says that unless there is more snow, Sanpete county will lose its prestige as the grain raising county of Utah.

Dr. James E. Talmage left today for Ogden canyon to visit the recent big landslide there. He is much interested in it and will make a thorough examination.

Robt. S. Campbell, manager of the Utah Light and Power company, has returned from Cache county and reports that there is considerable snow in the hills but that the valley is comparatively bare. The people of Cache county are not very much alarmed, however, as a shortage of Water in that section would be something new.

Mr. Louis Berthelohe, a sheep man of Helena and Great Falls, Montana, was seen at the Kenyon today said: "I am on my way to the Sweetwater district in northern Montana. It is a good sheep range country and great numbers are raised there and shipped to Chicago via the Great Northern railroad. It is not so cold in northern Montana as many believe, and sheep winter it all right.

One of the guests at the Kenyon is Mr. S. O. Brown of Mexico. Mr. Brown is largely interested in Mexican mines and has in the past built several smelters in this region.

K. S. Robber, traveling passenger agent for the Union Pacific and formerly of Salt Lake, is at the Kenyon.

Mrs. E. A. Wedgwood of Provo is in the city at the Kenyon.
