He Sees Evidence in Picking Up and Will Continue to Improve.

FOREIGN COMMENT ON OUR TARIFF.

Secretary Not Surprised That the Senate Failed to act on the Tariff Message.

NEW YORK, July 26.—The World says: Secretary of State John Sherman, who is enjoying a vacation at Lakewood, N. J., consented to a brief interview.

The secretary was asked if he was surprised that President McKinley had sent the tariff bill.

"Yes, I was; of it in the papers," he said, "of course I was looking for it."

"And you, will we have prosperity?"

"I have not yet the evidence of it that the Wilson tariff bill, which I believe is picking up and continue to improve."

He was asked to expect too much too soon. "I may take a little time to be sure, but I think the stimulus will only feel the stimulus of the new protective tariff. It will not be long."

He said he has been much complained at "failure to fulfill campaign promises pretty sparingly," it was suggested.

"No," answered Mr. Sherman, "but you will always find a lot of malcontents who are without reason. I know the administration of not doing its promises without reason. The administration is doing its promises without reason. How could President McKinley more than he did before he was inaugurated? Everything is in order."

"What of the foreign press, particularly the German newspapers," it was suggested, "that the new tariff schedule is unfair, very bitterly commented on, and there are threats of retaliation."

Well, said Mr. Sherman, "that is natural, that is only to be expected. We have put into effect a tariff that imposes a duty on foreign manufactures, and that is quite naturally objected to by foreigners and cost their countries. I cannot think of retaliation as it is all anything. It has always followed the making of a new tariff."

Did you read the President's message and of the failure of the Senate to act upon it?"

"Yes, and, of course, I am not prepared to express an opinion on it. I believe that it takes a long time to make a public policy that alter the tariff was signed, Congress would have a without hesitating either the very question of the association of the Senate."
