### Relief Society Conference.

The third semi-annual conference of the Relief Society will be held in the Salt Lake Assembly Hall in this city on Wednesday, October 7th, meeting commencing promptly at 10 a. m. On account of the Y. L. M. I. A. holding conference the same day there will be but one session of the Relief Society. Officers and members of the organization from all the several Stakes of Zion, and all brethren and sisters interested in the advancement of the society are most cordially invited to be present at the meeting.

ZINA D. H. YOUNG,
President of Relief Society.
JANE S. RICHARDS,
BATHSHEBA W. SMITH,
Counselors.

### Y. L. M. I. A. Conference.

The first General Conference of the Y. L. M. I. A. will be held in the Salt Lake Assembly Hall in this city, Wednesday, October 7th, meetings commencing at 2 p. m., and at 7:30 in the evening. It is desirable that there be representatives of the association present from all the Stakes of Zion, and a general invitation is also cordially extended to the young people generally and to all interested in the work of mutual improvement.

ELMIRA S. TAYLOR,
Pres. Y. L. M. I. A.
ANNIE M. CANNON, Ass't. Sec'y.

### W. S. A. Convention.

The annual Territorial Convention of the Utah Woman Suffrage Association, for the election of officers and other purposes, will convene in the Fourteenth Ward Assembly rooms in this city on Saturday, October 3rd, meetings commencing at 10 a. m. and at 2 p. m. respectively. The morning meeting will be an executive session devoted to business and it is earnestly desired that the presidents of the auxiliary associations in the several counties attend or send delegates to represent them.

In the afternoon session it is expected there will be an interesting miscellaneous programme, with music, short speeches, etc.

A general invitation is extended to friends of the cause.

SARAH M. KIMBALL,
Pr. Pro. W. S. A.
ANA CHCHALL, Secretary.

### Grapes From Ohio.

Mr. David Letcher, whose home is on Kelly's Island, Lake Erie, in the State of Ohio, brought to our office on Saturday some samples of grapes raised by him which possess the quality of being good both for table use and for making wine. He is a grape raiser of life-long experience and has great faith in Utah as a grape producing country. On one of the former visits to Utah he induced his son-in-law, Mr. George Artogast of this city to plant seven acres of grapes on some bench land he owned at Bountiful, and his experience, as also that of Mr. Alvin Brown of Centerville, who has since planted ten acres with vines imported by Mr. Letcher, has demonstrated that grapes can be grown in this region without irrigation. Of the vines imported by Mr. Letcher to this Territory 95 per cent have grown. He declares as the result of his observation in California, as well as of his practical experience, that Utah will produce as many grapes to the acre as any other place and infinitely superior in flavor to those raised in California.

**Procure it Before Leaving Home.**

Dr. M. J. Davis is a prominent physician of Lewis, Cass County, Iowa and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 20th of last May, while in Des Moines, en route to Chicago, he was suddenly taken with an attack of diarrhœa. Having sold Chamberlain's Colic, Cholera and Diarrhœa Remedy the past sev enteen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. For sale by Z. C. M. I. Drug Dept. G&s

50 tars Soap 25 at P. E. Co-op.

Dollars are big as cart wheels these days; you can save a good many by buying boots and shoes of us.
ALDER & SON,
No. 30 E. First South.

**Electric Bitters.**

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For cure of Headache, Constipation and Indigestion try Electric Bitters.—Entire satisfaction guaranteed or money refunded.—Price 50 cts. and $1.00 per bottle at A. C. Smith and Co.'s Drug Store, 5s

Immense Bargains in clothing at P. E. Co-op. Try them and save money

**The Great Beauty**

Which people in run down state of health derive from Hood's Sarsaparilla conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla builds up in a perfectly natural way all the weakened parts, purifies the blood, and secures a healthy action from important organs, the kidneys and liver. 5

### A Wonder Worker.

Mr. Frank Ruffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, and at that time was not able to walk across the street without resting. He found before he had used half of a dollar bottle that he was much better, he continued to use it and is today enjoying good health. If you have any Throat, Lung or Chest Trouble, try it. We guarantee satisfaction. Trial bottle free at A. C. Smith & Co.'s Drug Store.

**To Housekeepers.**

Don't buy imported Lard, get it pure at the Globe Market, opposite Z. C. M. I.
ROBERT SHEWBOTH.

### DRIVING ON MUDDY ROADS.

**Country Gentleman Explains How to Do It Without Splashing People.**

Every man who participates, now or in the future, and while the paint and varnish are yet fresh and brilliant, will accordly desire to avoid having them splashed without and generally defaced by driving over the ruts of the neighborhood in a muddy season or after a long and heavy rain. The appearance of such a vehicle is represented in the first cut, the earthy turning wheel having thrown the mud by its centrifugal force well up on the sides of the assailed top.

A MUD SPATTERED BUGGY.

Such defacement is, in a great measure, unnecessary. A certain velocity may be given to the driving that will prevent most of this mud splashing, especially if the mud is thin and shallow. If the horse is driven on a walk, or about three miles an hour, the mud will adhere to the top of the wheels and be carried up by them as they revolve. Its weight will cause it to drop on the spokes and hub, and thus, in a short time, will be covered with it as considering cross, as shown in Fig. 1 of the annexed cut, but drive the horse a little faster, on a slow or moderate trot, four and a half to five miles an hour, and then the mud which is carried up on the rim of the wheels will not drop, for the increased circular motion now given to them will impart enough centrifugal force to fling the mud to the wheel. The rim is the only part that will be muddy, the spokes and hub will be clear—Fig. 2. The writer has successfully practiced this course more than fifty years.

But if the horse is now driven six or seven miles an hour the increased velocity will send the mud off and all parts of the vehicle will receive a coporate plastering. At a speed of eight or nine miles it will be about as high as the top of the cover, and the driver will be liable to receive a liberal share—Fig. 3.

This is not fiction. After a heavy rain, when earthy roads are covered with two or three inches more or less of partly liquid mud, a buggy may be driven for miles with sufficient ease as to receive very little of it except what adheres to the rims of the wheels, the driver being skillful enough to preserve uniform and proper rate of travel. Or, as sometimes, a mud pool extending not

FIG. 1—SLOW DRIVING. FIG. 2—QUICK DRIVING. FIG. 3—TOO FAST DRIVING.

whole breadth of the road may have to be passed and would spoil the new varnish of the vehicle. The driver having learned by first how fast he must drive for the occasion will pass the muddy pool without the deficiency except on the rims of the wheels.

A vehicle which becomes a cotpoch with soil and sand is worn out in half the time that a clean one may be used, and the care bestowed on in these remarks would have a large share in promoting practical economy.

### Details in Butter Making.

A Fort Atkinson dairyman, C. P. Goodrich by name, gave the details of his methods in making butter at a Wisconsin agricultural convention. It appears from those that he churns three times a week. The temperature of the milk at the time of churning varies, being in the summer 62 degs. and in the winter 63 degs. It is then washed in water at 46 degs. and is washed in two or three waters. He does not wash as much as some but he should destroy the flavor. In salting he uses only an ounce of salt to a pound of butter. It takes about forty minutes to churn. He puts in enough hot water to raise the temperature to 65 degs. in winter. Heating the milk when it begins to sour. It is set in shallow pans. Mr. Goodrich has tried selling butter in tubs and packing it right from the churn, but does not favor this plan. He packs his butter for shipment in tubs lined with parchment paper.

### Professor Cook's Wash for Vines.

The following is, according to Professor Cook, an effective wash for fruit trees. It prevents egg laying and kills the newly catched caterpillars as they begin to hatch on the trees: Take 100 pounds of caustic potash, one barrel of lime, one gallon of crude carbolic acid, two pounds of white arsenic or London purple, which is perhaps better and certainly cheaper, and water enough to make 300 gallons of the wash. This will be sufficient for 2,000 trees; smaller quantities may be made in the proportion. Apply the wash with a soft brush during January.

### She Was Taking a Bath.

In a pretty house uptown a newly arrived Hibernian was installed as parlor maid. "Is Mr. S—— at home?" asked a gentleman whose ring at the door she had answered. "Shure, sir it's out the mistress is," said Biddy. "And Mrs S——, is she out also?" asked the caller. "No, sir; but she's in the tub taking breath," was the unexpected and ready response. New York Tribune.

### Would Be Just as Well.

Visitor—I have often wanted to visit a lunatic asylum, but I suppose there is none in the city.

Resident—No, but we've got a board of trade quantity. Come along. It's in session. It will do just as well.

THE CRY OF MILLIONS
OH, MY BACK!
STOP IT NOW
SOON IT WILL BE TOO LATE.
I have been troubled many years with disease of the kidneys and have took many different remedies and have sought for help in vain. Never experienced without relief. About the 15th of April I was suffering from a very severe attack that almost prostrated me to do a laborer that I was best suited. When I saw Mr. Tuffer, I was almost incapacitated for work or any other, or to get on my clothes, when I met Providence sent Dr. Hartley with the Kidney Elixir. Yes, he is my friend. I accordingly commenced using the tea. It has an almost miraculous effect, and to the astonishment of all my friends at the hotel, in a few days I was able to work. And I was a new man. I can now do a day's work and be all alive. I have been.

A Warning
To Horse-Owners.
The Split Nail in this three cornered form has been in use for the past three years by leaders in Worcester, Mass. One point of the nail alone, and in the proper place for clinching, and so designed the blacksmith who sized the holes. The other point went in the direction shown in the illustration, piercing the inside part of the foot called the "quick," from which the horse was made lame for one hundred to weeks.
DANGEROUS
The Putnam Nail
CANNOT SPLIT, SLIVER OR SHEAR.
It holds every time. Patented and Manufactured Patented Illustration Nail in the World. Made by one Nailery in precisely the same manner as the old-fashioned hand-made nail.
The United States Government patents the combination of interlocking projecting points, and other features of the nail, as advantageous to Horseshoe Nail as have been applied, yet not to the detriment and destroying the utility.
AS YOU VALUE YOUR HORSE
Build up your Blacksmith's trade with the PUTNAM. It is absolutely safe.
For sale by all dealers in Horseshoe Nails. Insist on your Blacksmith for Putnam Nails. Mention this Paper.
