# HORN SILVER COPPER.

## A Car of High-Grade Ore from this Famous Dividend-Payer.

## HEAVY BUSINESS ON EXCHANGE TODAY.

### Contract to Tunnel the Holland—Important Mining Suit—Dredge Work in Idaho.

The Horn Silver, which to date has paid the wonderful sum of $1,350,000 in dividends, and will come forward early in the new year with its regular monthly of $50,000, replenishing the treasury of copper ore, together with three car of copper ore, together with three cars of concentrates which are now grace the local market. Shipments of copper are not of such frequent occurrence, but, they come with sufficient regularity to demonstrate the high standing of the mine and assist to a marked degree the prosperity of that class of miners in the San Francisco district, which owes its life and continuing country. Across of this ore shipment, as the assayers, for the money was which day are guarded jealously amongst the, it is at very high grade and pays the company handsomely. It is to fear a year ago an offer of the company stated to a News reporter that the copper shipments from the Horn mine was very rarely, and this statement, coupled with such tangible evidence to a shipment of copper, gave the impression amongst the same society, does much to lead one to the belief that in the new Horn Fraction and adjacent mining claims, as well as a copper camp, is by nothing so to speak mining honors as a camp for gold, silver and lead mining.

### DEALINGS IN STOCKS.

#### They Continue Heavy With the End Not Yet in Sight.

Rain or shine, snow or sleet, wind or no wind, the local stock market still continues very much in evidence. For several months now, the mills and brain have been kept pretty busy in an effort to the first order at astonishing figures, and despite the anticipations of many that the stock market would soon slacken and will become a thing of the past, persists in a continuation, with the end in sight of the distant, indefinite future.

Today's call was just as busy as the predecessors, the latter transferring over 30,000 share before retiring from the arena. Many of the transactions were heavy business at 4c cents, after which Fred Aves came to the front, rose from its position of seven part and sold with agility at figures ranging from 5 to 5½ cents. Geyser-Marion also came in for recognition, and was busy deal in above 4 cents while Gracon made a transfer in passing, 10 shares going to another at 5½ cents. Mammoth became a great position on the call and with gratifying firmness sold around $2.00, 1,000 shares changing hands on this issue with the stock in good demand at the figure quoted. In Mercur the brokers did business at 18, this security selling a good advance and registering a closing bid of $1.90. Lower Mammoth was dealt in above 12 cents and Northern Light displayed unusual activity, with some covering figures between 46 and 47 cents. Uncle was strong with a bid of $6.25; while Sacramento sold for 55½ cents and Utah had a bid of 98 cents, without sellers.

Yankee developed a selling tendency on the call and threw out 4,000 shares at 4 cents. Then came Chloride Point with a rush to 1.15, after which Dalton subscribed 5,000 shares at stationary figures and Eagle and Blue Bell continued to demand and sold at from $1.15 to $1.17½. In Golden Eagle the brokers found an active security, and before passing to another, made transfers aggregating 10,000 shares, the stock going at from 7½ to 8 cents a share. Good-sized blocks of Homestake, Joe Bowers and Bowers Extension changed hands, while Little Pittsburg was dealt in above 9 cents and Bullseye figured as a seller a fraction on the above 12 cents. Star Consolidated showed marked advances and did heavy business the stock going from at $1.60 and from that up to $1.67½. Closing, the bid was $1.62½, but no more could be had under the highest selling figure.

The closing figures were as follows:
