# CYANIDES FROM MERCUR

The Mercur and Daisy Report With Shipments Value at $30,000.

REPORT ON THE GEYSER-MARION.

**Incorporation of the Garnet-Edwards Goes to Stateline—Big Demand for Dalton in the Pit.**

The Kansas Consolidated refinery, near the local branch of which the postal Major Jackson presides, received today two consignments of cyanides, one from the great Mercur mills which regularly hands out the sum of $15,000 monthly in dividends, and one from the Daisy, that very promising property located on the West Dip of the Mercur district. The Mercur shipment, accounted to be processed from that property, will run something like $25,000 in value, while the Daisy, it is thought will go from $5,000 to $10,000, both these mines are a credit to the Mercur district and attest to a marked degree the big change brought about by the cyanide process in the treatment of the ores of that district. The Mercur ore lies below which are continually increasing in extent and value, while from the Daisy's lower workings the miners are taking mineral running from $15 to $25 and from the old workings one much averages $6 in gold to the ton. While this mine has not yet entered the dividend list, it is freely predicted that it will do so early in the new year.

**Report on the Geyser-Marion.**

Annie Russell, superintendent of the Geyser-Marion, came in from Mercur on Sunday, and says "News" reporter "Jay" stated that the mine was still in excellent shape. The lower ore is yielding good ore bodies, while the lower is handling the miners in the amount of 125 tons a day. He (Russell) reports a good feeling in the camp and says that the outlook for the Geyser-Marion and prospects is better today than it ever was. Superintendent Russell will spend Christmas day under in Salt Lake and return to the mine on Monday.

**Incorporation of the Garnet.**

Articles of incorporation of the Garnet Mining company were filed with the county clerk today having for its objects the working and developing of certain claims in the Tintic mining district. The capitalization is fixed at $2,000, divided into 200,000 shares of the par value of 1c each. The officers are President, George Whitmore; vice president, W. H. Burton; secretary, H. S. Smith; treasurer, James Whitaker. These gentlemen, along with T. Otto Brown, constitute the board of directors. The company's headquarters are to be located in this city.

**Edwards Goes to Stateline.**

Jack Edwards, the well known Rock Springs mining and stock man arrived in the city this morning. He is interested heavily in Deep Creek properties, shortly after his arrival Mr. Edwards was consulting with Fred. McCune of the Utah and Pacific, on mining matters. The gentleman leaves today for the Stateline country, although the exact object of his visit could not be learned. He will be in the south for some days.

**After the Bullion-Beck Vein.**

What is conceded to be one of the most undeveloped pieces of property in the Tintic district, is that included in the possessions of Sarsaparilla Consolidated, which filed articles of incorporation only a few days ago. The ground consists of the veins adjoining the Bullion-Beck to the north and has been prospected for a depth of 100 feet. The shaft is now being cleared out preparatory to drifting, and it is the opinion of leading mining men that the same vein which has made the Bullion-Beck famous, will be intersected before a great deal of preliminary work has been performed.

**BIG DEMAND FOR DALTON.**

**Over 20,000 Shares of this Stock Sold Today—The Call Active.**

Dealing with mining stocks the brokers today made sales aggregating 1,135 shares, for which the sum of $18,402 12 was paid by buyers. The call was much appeciated for several days, and at one point the enthusiasm was so bounded the demand for a certain security helped to almost double it.

As on the previous call Alice was the first seller, the stock changing hands quite freely at $1.85 a share. Four Aces and the next business between buyers and sellers was Mammoth, both third place in the trading, there being sales of this security at from $1.83 to $1.85, with bid of $1.84 in evidence at the close. An odd block of Mercur found a taker at $7.60 and then Lower Mammoth sold at 49½ cents, and was followed by business in Northern Light at from 50½ to 52 cents. Bonanza made the closing sales for stocks listed, a good volume of business being done at 12 and 12½ cents.

In the lower category Dalton Beck Tunnel led out with transfers at 7 and 6½ cents. This same Dalton was in evidence at 6 cents and above $1.35 with the stock bid for at the close at $1.27½. Lower Mammoth closed out shares at $1.36, while Dalton, the feature of the day, closed out and of sentiment, and named with over 20,000 shares, the stock selling at from 7 to 2½ cents a share. There was business in Honeycake and Hercules between 1 and 8 cents and several transfers of Joe Bowers at 2 and 2½ cents. Bowers Extension showed an upward tendency and did business up to 16 cents, while Little Pittsburg was a strong week and sold down to 14 and La Reine headed out no shares, this stock moving in another 10 cents. Sunbeam remained firm and active, while Shoshone and Star Consolidated took part in the trading to a respectable degree and Tetro showed a decidedly active tone with numerous transfers at from 8½ to 11½ cents. Visitors from the mining camps in a rain of a board lot at $1.35.

The closing quotations were as follows:

**DIPS AND SPURS.**

Silver, 59¼. Lead, $3.95.

Joss Dam removed from Mercur last night.

The Mammoth, it is said, will not pay a dividend this month.

One running upwards of 100 ounces silver to the ton has been discovered in the Joe Bowers extension at Tintic.

The Chesapeake in Willow Creek district, has developed an inch strike of ore which carries the value of $100 a ton. This property is owned by Salt Lake and Ogden people.

A correspondent of the Washington Post says that the Homestake work is coming close to the copper mines in the neighborhood below Deadwood, Nevada. There are some valuable claims situated at that place, there being an abundance of low grade ore, and some rich veins. It is the coming up of the Rich veins that work is being pushed.

At a meeting of the exchange governing board last evening, attorney Wilson, who decided to for the Blue Bird case Saturday, presented both valuable legal opinions, if not also judges to open next Wednesday's call at 10 o'clock for the purpose of presenting the case for the consideration of revised rules, also to take certain improvements in the call, where from the creation of a machine in the center of the floor for representatives of the press.

BUTTER AND CHEESE.

Dealers report the butter supply week with quite a rise in the figures.

Cheese, Utah dairy ..... 9c

EGGS.

The egg market is still at present and there is a good demand for the product with quotations at $3.25 per case.

GRAIN.

Wheat—30 @ 35 cents per hundred.
Oats—$1.25@1.35 per hundred.
Corn—40 cents per hundred.
Cracked Corn—$1.40 per hundred.
Rye—75 cents per hundred.
Barley—40 cents per hundred.
Shorts—50 cents per hundred.

HAY.

Timothy—$10.00 per ton.
Mixed—$9.00 per ton.
Alfalfa—$8.00 per ton.

FRUITS.

APPLES—Utah, in good demand, per box, 60@75c.
PEARS—In good demand, per box, $1.25 to $1.50.
LEMONS—Cali. per box, $3.00@3.25.
ORANGES—All varieties from $2.50 to $3.00 and getting very scarce.

**Blanche Thayer Scarcely Burned.**

Miss Cornelia Thayer, who has been living at the home of John A. Evans for some time past, receives a letter last night from her parents at Greenville, calling her home at once on account of the burning of their Bonanza, and wondering why Mrs. Evans says she was Thayer's sister. Miss Thayer says she knows nothing of her parents or their claim, the home and they built it for and in the care for the support of necessarily infirm old father. Little Blanche was visiting at the home of Mrs. Evans, and has been staying at the home of Mrs. Cornelia Evans, indicative serious conditions.

**Santa Fe Will Buy Water Front.**

San Francisco, Dec. 22.—The Santa Fe railroad company has completed its arrangements for the purchase of waterfront property in this city. The price paid has not yet been made public, however, improvements will be commenced in about three months. It is the hard for handling freight that is to come to the city the Valley road. Freight will be brought across the bay from Port Richmond in new loaded car barges.

**NEW OREGON SHORT LINE TIME TABLE.**

**Changes in Detail that Were Foreshadowed in Last Evening's News.**

In the last evening's "News" mention was made of a change in the time card of the Oregon Short Line, and yesterday afternoon the office force of General Superintendent Calvin were working over the new time card which was composed last night with the exception of a few minor details. As was stated yesterday the change has to station points at Gooding, No. 7 takes Portland cars off the Union Pacific No. 1 instead of the Union Pacific, as it is at present, which gives the Northwest a direct line through to Portland (some hours earlier than under the old time card).

An additional train is to be put on from this city which will be known as the Columbine Express, leaving here in the afternoon and arriving at Pocatello at 11:30 p. m. This takes the place of the Pacific Express, which will be dropped leaving this city hereafter on the morning train for the north, which leaves at 8 o'clock.

The exact figures will be as follows: No. 1, Idaho division. Leave Granger 8:15 a. m., arrive Pocatello 2:10 p. m., arrive Boise 7:15 a. m., arrive Huntington 12:05 p. m.

No. 2, Utah and Montana division. Leave Salt Lake 8:00 a. m., leave Ogden 9:15 a. m., arrive Pocatello 2:10 p. m., arrive Butte 10:30 a. m. (daily).

Mail for connect with No. 1, leaves at Pocatello with Butte No. 1 on Idaho division train (Gooding).

No. 3, Pacific Express. Leave Salt Lake 4:20 p. m., leave Ogden 5:35 p. m., arrive Pocatello 11:30 p. m.

No. 4, fast mail. Leave for east from Idaho points. Leave Pocatello 7:40 p. m., arrive Ogden 4:40 p. m., arrive Salt Lake 5:40 p. m.

No. 5, to accommodate passengers for Marsh Valley and points north. This train will leave about 8:00 a. m. and will be a mixed, but no change will be made in the time other than for the south.

It will be seen that the new arrangement does not interfere with any of the trains from Omaha or San Francisco, which will continue to arrive at 5:10 p. m. and 10:00 a. m. from Omaha and San Francisco at 8:35 a. m.

BIG GRANDE CHANGE UNCERTAIN.

When asked this morning if they had decided to make other changes in their time cards, Mr. Wallace, general passenger agent of the Rio Grande Western, said that they had not yet decided as to whether they would make any change or not. If any changes were made, however, it would be in the time of arrival of No. 1 which now reaches this city at 5:30 p. m. It may be put back some of about two hours. Denver at an earlier hour and reach Salt Lake somewhat later, he said.

No change whatever will be made in the time card of the Union Pacific.

# STOUTT IS NOT SO WELL

No Search for the Much Wanted Bullet Until After the Holidays.

NOT ABLE TO STAND THE X RAYS YET

**The Aged Banker, While Suffering from a Reaction, is Not in a Particular Dangerous Condition.**

Some apprehension is felt for the friends of Banker Stoutt over a spell of relapse or reaction which has followed the continued improvement he has exhibited since the shooting that, so many now hope, he has a chance of weeks ago. A number of calls were made, assigned as reasons to inquire the more unfavorable conditions, and the same to the aged victim, with so very careful and considerate attention to inquiry, however, that nothing of the information the city at large would was not as well as it should be, was not favorable. It is considered quite a case, it was stated, and that the age was rather against him, and that his rapid recovery as in the present was improbable. Yesterday, however, the news, and that to the days will be the last consultation made to see the Kansas City specialist, who is due for January 5th. It is positively stated that the patient's physical condition will not admit of any operation, which is set for January 5th. It is positively stated that the patient's physical condition will not admit of any operation, which he will be able to appear in court on the day indicated.

**HIS CALLS ETHICALLY RECEIVED.**

**No Reason to Question Mr. Van Cott's Methods—Attending to Business.**

The publication of County Attorney Van Cott's request calls at the Utah National bank has evidently been the means of placing the continuance in an improper light in some quarters. Certainly it has caused him to think as Polonius by Hamlet and ever about the matter, as all so it is "I endeavor that part of the public with which I am associated and which is larger by far, acquainted with him, to wish the suggestion that his while serving as county prosecutor was "moonlighting" in the interest of the banks. It may be at one with Mr. Stoutt, he is sure would have no which. But is it the point of the public that knows both of him, he thinks, that might from incorrect information concerning his meetings at the bank.

Regarding these Mr. Van Cott makes and very explanatory explanations, statements that cannot fail to clear the most critical carper. He did have long business with the institution for a long period and and very properly says that he might not permit his own interests or the interests of his clients to suffer on account of the shooting which has caused to happen to be a public possession when it occurred. His consultations with the bank officials were one thing, and the Lake Street affair, a fate which at no time of the proceedings was even remotely referred to. As to the rumor that he was to be murdered as counsel for Jones he said it was the ridiculous to talk about. He had never thought of such a thing and would consider himself dishonored by his own word and in the estimation of his profession were he to do so. Mr. Van Cott can be depended upon to do his full duty as a public official.
