OTIS TO RETAIN FULL COMMAND.

President and Secretary Root Reach This Decision.

ALGER WAS AGAINST OTIS.

Recommended He Be Relieved—Merritt Wants to Return to Manila—Miles Would Send Cavalry.

New York, Aug. 11.—A special to the Herald from Washington says:

Hal Otis, Otis will remain in supreme command of the Philippines. Should he request to be relieved, Maj. Gen. Lawton will be ordered to duty as his successor. This is the decision reached by the President and Sec. Root during their conference at Lake Champlain. Sec. Root made no secret today of the purpose of the President to retain Otis in control at Manila and so in command of the military forces in the Philippines. Miles is a long conference. It is evident that notwithstanding Gen. Merritt's expressed desire to return to Manila he will not have the opportunity, and even Lawton's promotion is conditional upon the request of Otis to be detached from command.

It is learned that Former Sec. Alger put before his successor, Secretary Root, the case of Gen. Otis. Otis he believed, on the ground that he had not proven himself equal to the emergency.

Gen. Miles favors sending additional troops, but it is said that Sec. Root has not been convinced that there is any need for the exercise of his authority in this direction. The conviction which Gen. Merritt is contributing to the northward trip of Sec. Root is that a double purpose—first, to demoralize the insurgents and prevent them from attacking the Americans very hard, and, second, to establish himself at a point on the northern coast of the island of Luzon in touch with Manila and the operations generally, are all part of Otis' plan to keep his transports in constant fear of attack.

SOLDIERS ARE DICTATORS.

Col. Bell's Word is Law at Cape Nome for the Present.

St. Michael, July 24, via Seattle, Wash., Aug. 10.—Col. Bell and the troops at Cape Nome maintained much order, and until the United States court decides whether or not power of attorney can be exercised over metallic commodities, and also metallic commodities other than those the soldiers will be dictators.

Some leaving with the expeditions for the Tukon river, Col. Bell visited Nome and while there had several conferences with the men who were now active in getting up the meeting that was dispersed by Lieut. Smallwood several weeks ago.

Col. Bell is said to have informed these men that action leading to any disturbance of any kind would be considered and a warrant issued for the apprehension of the leader sought to be attached by the message of rendering aid to the civil authorities. He called meeting which proves very serious to them. He said he wanted to be perfectly fair with the people, and that all men are American citizens, but he was there to preserve order, and this he intended to do to the best of his ability.

After stating their side of the case, the committee thanked Col. Bell and the soldiers in outstanding order in every respect possible.

Gen. Bell is going up the river to contract for the building of a post at Cape Nome, to cost $50,000, the barracks and quarters to be ready for occupancy before winter sets in.

A meeting of miners was held July 24, at which a committee was appointed to raise funds sufficient to retain counsel in a test suit, called for the purpose of testing the law relating to power of attorney, and also to investigate the holding of mining claims by aliens. It is alleged that the Laplanders are aliens, and as such have no right to hold mining claims in American territory.

EXTRADITION POLICY ADOPTED.

Refugees in New Possessions Will be Turned over on Requisition Papers.

Washington, Aug. 11.—The state department has determined upon a settled policy of extradition between this country, Hawaii and other territory in view of its part under the direction of the United States.

A number of cases have lately arisen in which fugitives from justice have sought asylum by going to Hawaii, or by under possession, on the theory that the relations with those places were so such as to transform conditions into the usual processes of extradition would not apply.

The question was recently brought before the state department but as to no particular case in the mind of the writer that if legislation were treated by here countries an application for extradition in the usual form to the state department would be turned over to the military administration and the fugitive would be surrendered to the officer of the military press Tarda Gibbons. The same rule would apply as to persons from Cuba, Hawaii, Porto Rico or the Philippines, who seek refuge in the United States.

Merritt Will Not Succeed Otis.

New York, Aug. 11.—Since the visit of Gen. Merritt to Washington, he has left the city. Names have been current which have been mentioned for the place he will succeed Gen. Otis in the Philippines. When Gen. Merritt was in the city he was at Governor's Island in call.

All story that I have received Gen. Otis in the Philippines, is that Gen. Otis is satisfactory. When Sec. Root was in the city, three or four days ago, I dined with the secretary of war, and I received from any subject that may have come up, and I expect to be detailed with the secretary to Manila I will do anything he may ask me to do, the same as any army officer would do."

Gen. Wheeler in Honolulu.

Honolulu, Aug. 5, via Victoria, B. C., Aug. 10.—The transport Tartar with Gen. Wheeler aboard arrived here Aug. 1 and sailed Aug. 2. Gen. Wheeler was temporarily entertained during his stay here.

Yellowish Nominate Manila Men.

Lincoln, Neb., Aug. 10.—The Populist convention this evening nominated Judge Holcomb for supreme judge. The other tickets of courts of appeals, Judge Holcomb, Judge Frank O. Yeager and Capt. F. J. Cornish, officers of the First Nebraska, fighting against us at San Francisco, the place tendered are the best elements in the company. Friends of the nominees say they will accept.

Dewey Will Not Visit England.

London, Aug. 11.—Admiral Dewey, in response to an inquiry made by the Daily Mail, has sent the following "Regret much that England. Must arrive New York October 1st."

The Paris correspondent of the Daily Mail says: "The report that Admiral Dewey is expected in Paris is received with mixed feeling by the Paris newspapers, which do not consider the visit desirable, as it would be a mere ceremony, but the name was received. She was a young woman of attractive appearance.

WOMEN SAVING THE GRAIN CROP.

In the great grain sections of the west and west women and children have gone into the fields to save the crop. Both are in the photo. Women were good for the harvesting of grain, but the latter have been lodged thousands of acres of standing grain and injured wheat and oats in the shock. The necessity of housing the harvest and the scarcity of farmhands has created an emergency which has been met by the wives and daughters of the farm—a who have gone bravely to work to save the crop.

Mass protested against the treaty proposed by Gen. Rogers, Admiral Gonzales, and the president of Nicaragua, and the president of Nicaragua, and the president of Nicaragua, in consequence of the protest, the government requested Rogers, Gonzales and the president to retain explanations which the ambassador accepted as satisfactory, but the United States dispatch boat Indiana and Admiral Dewey stationed for instance to come to Tobac."

GEN. MILES WINS A VICTORY.

Orders Sec. Root to Modify Orders Respecting Insp. Gen's Duties.

New York, Aug. 11.—A special to the Herald from Washington says:

Sec. Root has acted in the role of peacemaker and appears and as a result everybody at the war department is pleased with everybody else. The delightful harmonious condition of affairs prevailing in department circles was brought about by the secretary's announcement that the order respecting the status of the inspector generals office would be so modified that it would be satisfactory to everybody concerned.

Now Gen. Miles is pleased, Gen. Breckenridge is pleased and Gen. Corbin is gratified. The only man who seems to be a little sorry is the secretary himself, who for one day or two days today intended to a learned discussion to Gen. Miles of the reasons why he should have entered into serious general's department equally with the secretary of war, and why he should have every note from the artillery and cavalry as horsetaken. Upon the conclusion of this discussion the secretary turned very carefully to Gen. Breckenridge, who is said to remain under the control of Gen. Miles, and said to him: "Now, Gen. Breckenridge, I want you to understand that I am as tired will depart but little from that under which the inspector general's department has been conducted in the past. Thus Gen. Miles has secured a victory, and Former Sec. Alger and Sec. Root has, temporarily, at least, restored harmony.

VOLUNTEERS ORDERED DISCHARGED

They Are in Hospital and Their Services Are Not Needed.

San Francisco, Aug. 11.—Special orders have been received for the discharge of the following volunteers now in the hospital for the reason that their services are no longer required. The orders also state that they are entitled to travel pay:

FIRST WASHINGTON VOLUNTEER INFANTRY.

John C. Kline, Co. B, Joseph E. Dougherty, Co. E, Edwin Hunt, Co. E, Corporal Louis T. Davis, Co. F, Hugh O. Miller, Co. G, Carroll C. Collins, Co. K.

MRS. W. L. LEE, SALT LAKE CITY,

Mystery Still Surrounds the Personality of the Hastings Suicide.

Omaha, Neb., Aug. 11.—A mystery surrounds the personality of the young woman who killed herself in a hotel in Hastings, Neb., last night, by inhaling a large quantity of morphine. She had registered as "Mrs. W. L. Lee, Salt Lake City." Her trunks have been sent to Salt Lake City, and Lee is not her true name.

At the coroner's request, Sold Lotry is to have found that the wound arrived at Hastings Tuesday night on Burlington train No. 5, and that she was a young woman of medium stature and brunette hair. The note was delivered to the hotel. The coroner made drives to the Hastings hotel, where both registered. The man registered as George F. Conway of Fort Madison, Ia. He received note night, but left on the Kearney freight in the morning.

When the woman's valise was examined it was found to contain a pocket book with $6 in it, and one or two small envelopes. Her short waist had been unlacked. But the name was removed. She was a young woman of attractive appearance.

INDIA CURRENCY REPORT.

Reopening of the Mints Would Have a Disastrous Effect on Exchange.

No Fresh Prospects for International Agreement—Favors Permanent Gold Standard.

Washington, Aug. 10.—In diplomatic circles copies of the report just presented to the houses of parliament by the commission which investigated the currency of India have been received. It is on this report that Lord George Hamilton, secretary of state for India, has based his announcements within the last few days that India will be on a gold standard. This announcement has attracted much attention in the United States, and the conclusions arrived at, to some extent, concerned with the negotiations carried on some months ago by Senator Wolcott and others, representing this country as to international bimetallism. The commission was made up of the most influential statesmen of the Indian government and of the ministry of India and the latest. The report has now been the origin and present condition of the monetary affairs of India and then says:

"We proceed to consider the question whether, in the light of the six years' experience gained since we last wrote, we can adhere to our policy outlined in that year, and to recommend the Indian mints to the unrestricted coinage of silver. If we decide that we should, a gradual reopening would be so fully and immediately discounted as to defeat the primary object for which they are supported. It is obvious, however, that the certain prospect of a heavy fall in exchange would be a drive capital from India.

"The policy of opening the mints at some future date to silver stands on a different footing when urged by those who look forward to the international agreement and consider that there is no reason to hope such an agreement within a limited period. If the policy aim directly at a stable exchange between India and the United Kingdom, and advocate delay only until such an international agreement may be effected.

"With regard to this anticipation we confine ourselves here to stating that the conditions of the United States, the adjacent state of America, having a great traditional, as from proximity, as far as we are aware, no bearing on the being made by any of the governments concerned.

"We come next to the supposition that no present system of closed mints would be possible in the Indian exchange position, with reversion to a silver standard. The object of the question was considered by the Hamilton committee, who expressed the opinion that a return to the silver standard would be a calamity of the first magnitude, and would be attended with the most grave consequences. It is generally recognized that fluctuations of exchange occasioned by the silver international trade, the true interests of India, and that it would be a stable monetary basis of exchange.

The report then discusses the principle of a gold standard and says: "All the arguments since the practical adoption of a gold standard, that to be any good as the measure of value in India either with a silver or a gold standard.

"Two-thirds of the foreign trade of India is with gold standard countries, and for the sake of the trade of India India should have the same measure of value as those countries. The change is a great boon to India, and proved to be so by Prof. Marshall of Cambridge, who, in his testimony, forward bringing the railway gauge on the same footing of the world's railways into unison with the main lines. It is further and certainly a most important consideration for a country like India is that an established gold standard is the foundation of all effective means of attracting capital.

"Regarding the report says: "For these reasons we consider that steps should be taken to avoid all possibility of doubt as to the intention of India to revert to a silver standard, but to proceed with measures for the effective establishment of a gold standard.

DR. WALTER M. BARROWS DEAD.

Was One of the First Congregational Missionaries to Turkey.

New York, Aug. 10.—Rev. Dr. Josiah Strong today received telegrams announcing the death at Rochester, Ill., and Mich., of Rev. Dr. Walter Barrows, formerly of Greenwich, Conn., the married Perry Hermann and Mlle. Marie. Dr. Strong said in an interview tonight:

"Dr. Barrows was an extremely active man and the misrepresentations and criticisms so he active in performing the Lessons Sunday morning preyed upon his mind, robbed him of sleep and reduced his vitality. I was very surprised at his death, although I had no reason to anticipate it. I feel the loss very keenly, as he was one of my best friends.

EDMONTON TRAIL SUFFERERS.

Thirty Arrive at Fort Wrangel on the Steamer Strathcona.

Wrangel, Alaska, Aug. 6, via Seattle, Wash., Aug. 10.—The Strathcona river steamer Strathcona arrived yesterday with thirty survivors of the Edmonton party. Among them was H. Bulow of Salt Lake City.

The men came in with the pack train from the Pelly River. Telegraph Tuesday from Lebarge by the Indian trading station gave the first news.

Three other parties left Edmonton in search of lost or missing comrades, and abandoned, and strongly discourage the Edmonton Trail Company, as well as the Canadian officials and newspapers that so profusely advertised the route as a feasible one to the Klondike and Yukon.

To correct misapprehension the party certainly give testimony of the extra difficulties encountered during the journey, rather worse than any trail, if there are scale-making, with wagons loaded and among outdoor-pursuits of the road and frequent accidents, and the pioneers are gray and have the marks of misery. A few days ago nearly twenty of the party left the main train, but the majority are without funds. The Canadian Pacific Railway appears to be United States agent at Wrangel, but up to this date no aid has been received.

Dewey Will Decline All Invitations.

New York, Aug. 11.—Admiral Dewey has decided the invitations which have extended to him by the officers of the Union League club of Brooklyn, a line to the effect has been received by President William G. Fabbitz of the club. The letter of acceptance formerly extended to Admiral Dewey, on the ground of poor health, having that attempts he has imposed upon his health, and he is not able to be present, but would if he. In view of this fact he has concluded to decline all post-affairs invitations addressed to him.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are today worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflammatory rheumatism, which became so severe that I was for weeks unable to walk. I took several powerful prescriptions and tried every known remedy, but failed to get the slightest relief, when, as a last resort, I began using S.S.S. I gave the matter a fair trial, and in a few weeks the disease spread over my entire body, and I was bedridden for three months. I suffered great pain, and was reduced in flesh to a skeleton. I was finally induced to try S.S.S., and after taking a few bottles I was able to walk about the house. I continued the use of the medicine for a few months longer, when I was entirely cured, and my health and strength were better than before the attack. I have had no return of the disease, and I attribute my cure to the use of S.S.S.

MRS. M. A. BOYLE, Atlanta, Ga.

Bill Poster Agents, Please Notice.

Don't suffer longer with Rheumatism. Throw aside your oils and liniments, as they can not reach your trouble. Don't experiment with blood-purifying potash and mercury will add to your disability and completely destroy your digestion.

S.S.S. For The Blood

will cure perfectly and permanently, it is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free by Swift Specific Co., Atlanta, Ga.
