If pestered by an eruption use GLENN'S SULPHUR SOAP, the ruling specific for diseases, irritation and abrasions of the skin, and a most salutary beautifier of the complexion. This admirable article is an inexpensive substitute for sulphur baths, and is equally as effective in banishing cutaneous maladies, and relieving the pangs of rheumatism and gout. Redness and roughness, tan, freckles, pimples, and indeed every imperfection of the cuticle is entirely removed by it. It is avouched by ladies who have used it, to be the most effective means of clarifying and softening the skin that they have ever employed; its health-promoting properties are widely recognized by medical men, and evidence in its behalf, emanating from other and equally respectable sources, precludes any doubt as to the genuineness of its claims to public confidence. Clothing and linens from the sick room is disinfected by it, and it prevents contagion when the danger of obnoxious diseases has been incurred by contact. Sores and ulcers, that resist the operation of salves and lotions are healed by it; and it soon relieves the swelling and pain caused by bruises and sprains. The opening of the pores, resulting from the wholesome stimulation of the superficial blood vessels that it produces, is the effect best calculated to ease the circulation when overheated, and carry off those offensive excretions which disfigure the cuticle and render existence a state of martyrdom while they remain. Eruptions, aliments that cimicutes will not cure, are entirely eradicated by GLENN'S SULPHUR SOAP.

Hill's Hair and Whisker Dye, Black or Brown, \$2.00. d w

DON'T FORGET IT.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid this season of the year, as poisons arising from stagnant water or decaying vegetation are more numerous and are through inhalation taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not headed, end in more terrible diseases and death. White's Prairie Flower proves itself the Great Liver Panacea. Its action on the liver is different from any medicine ever compounded. Its cure is truly wonderful. Try it. Price twenty-five cents and seventy-five cents.

What Right-Minded Men Say.
What right-minded man during the Centennial year, who has not been standing around the elegant hall of the State Fair, in the Main Building in which the Centennial exposition is exhibited, discussing its merits and demerits with other persons plainer, and more or less learned than himself, has not heard of the "Great Seal of the State of Utah," which has fallen from the stand? The seal, however, does not represent the Centennial year, but the year 1875, the year of the State's admission into the Union. The seal is a representation of the state of Utah, with the motto "Ense petit placidam sub libertate quietem." Sickness Among Children.—It is an undeniably fact that the mortality among children in this city has been steadily increasing for some time, and the cause of the little ones, coupled with the heart-breaking bereavements incident thereto, are true incentives to reflection as to the causes and their prospective removal. One prolific source of illness among children has long been recognized, not only by the medical world, but by the experience of parents, namely, the free access of members of the family to green fruit as well as ripe fruit, in proper quantities, that which is past maturity. Fresh fruit should be selected, for while good, ripe fruit, in proper quantities, is certainly healthful and nutritious, that which is past maturity contains properties of a most injurious character. This is also the case with fruit which has reached a stage of decomposition. Poisons are thus introduced into the blood, and various diseases resulting from that poisonous condition of the life-giving fluid, subject the innocent little ones to pain, suffering, and sometimes death. The most virulent of diseases prevalent in our midst—diphtheria—is the result of the poisonous condition of the blood. The mucous membrane of the throat is the most likely spot in children for the fungus to appear, but many have sunk beneath the constitutional effects of the disease, even after the troubles in the throat had been apparently overcome. There are other sources of illness which legitimately devolve upon the heads of families to rectify. Outhouses should be kept clean and free from disagreeable odor, which is easily accomplished by continual use of dry earth or earth and lime mixed. Another is the keeping of pigs, whose filth, at least, is anything but healthy or agreeable. Measures should also be taken to keep wells in a clean and pure condition, so the water in which dead leaves, toads, mice or garbage remain even a few days, is thereby rendered very unwholesome. Let each family take notice of these matters around home, and, in our opinion, sickness here will be less prevalent in future.

Help the Sufferers.—In the matter of sending means to the assistance of yellow fever sufferers, Salt Lake seems far behind her sister cities. We have yet to learn that any public entertainment has been given or that any general movement is being made, with that object in view. As the most successful and speedy way of obtaining money from the public for this purpose, it has been suggested that a match game of baseball be played very soon; between the fall nine of the Red Stockings and the Doves, as they stood during the playing of the championship game. It is quite probable that in such a case the association would tender the free use of the grounds; and it is likely that an immense crowd would be drawn and quite an amount of money realized. We do not know the feelings of the respective clubs on this subject, but believe that they are charitably disposed, and that if the two complete nines could be brought together, they would willingly play a game of this kind.

A movement is also on foot in the Azalea Literary Institution, to give a performance for the benefit of the relief fund. The young ladies and gentlemen interested in the affair are of marked talent and ability; and should their efforts to secure a proper hall, in which to give an entertainment, prove successful, the public may look for the opportunity to spend an evening in intellectual enjoyment and to aid a worthy cause.

The FA.—The D. A. and M. Society have appointed A. P. Rockwood General Superintendent of their grounds in the city, and Messrs. Dinning, Dinwoody and Thorpe superintendents of the fair grounds at Agricultural Park for the Territorial Fair, to commence Oct. 2d. All interested, will please communicate with these gentlemen. The live stock will be exhibited at Agricultural Park.

The directors are doing all in their power to make the Fair a success. The branch societies, manufacturers, miners, mill owners, farmers, artists, relief societies, and all other citizens are respectfully and cordially invited to contribute to make the exhibition a grand and pleasing success.

Defeated.—On Wednesday last a match game of cricket was played on the Park Grounds, at Coalville, between a Salt Lake picked eleven, and some Coalville "amateurs," in which the latter sent the "City Jaks" home badly beaten. The Coalville "boys" made a better score in the first innings than the City Club made in two. After the defeat, the Salt Lakers, who failed to yield to their unprofessional foes, challenged them to a game of single wicket, four on each side, and a second victory of 7 to 5 was triumphantly recorded by the "gentlemen from the country." Our sympathies are extended in the right direction.

Races.—At Agricultural Park, under the direction of the Driving Park Association, races are expected to come off on Friday next between Williamson's stallion "Billy Davis," and McKinnon's mare "Nettie Crawford;" and both "Taffey," Should heavy rains occur in the mean time, the races will be postponed until Tuesday or Wednesday next week, but if the weather prove favorable the present arrangements will be fulfilled.

The Plumbers Ahead.—The game of base ball, on Saturday afternoon, between the Plumbers and Tinsers of this city, was declared in favor of the former, by 20 to 17. The seventh inning being a tie, an extra inning was played. Mr. Peter Gray acted as umpire and secured the gratitudo and good feelings of the friendly combatants.

DEMOCRATIC CONVENTION.—At the Democratic convention held at Paris, for Bear Lake county, Idaho, on the 26th ult., the following nominations were made:

J. C. Rich, Representative; G. Omond, Probate Judge for the county; C. C. Rodden, and N. Williamson, County Commissioners; C. Valentine, Sheriff; L. Floyd, Coroner; J. C. Rich, Auditor and Recorder; L. B. Hunt, Assessor; J. U. Stucki, Treasurer; A. N. Austin, Surveyor.
