On Friday evening next a concert will be given in the Twenty-first Ward meeting house, for the benefit of the Ward Sunday school. An excellent programme has been arranged for the occasion.

Rev. Joseph G. Burton, from Melbourne, Australia, and John Liddell Harris, from Marlborough, New Zealand, are visiting this city while on their way overland to Great Britain, and made a brief call upon us to-day.

LOCAL NEWS.

Manufacturing Company.—A certificate of incorporation has been issued by Secretary Thomas to the Eureka Manufacturing Company, incorporated under the laws of the Territory for the purpose of manufacturing lumber, blacksmithing, doing a commission business, and engaging in mercantile and industrial pursuits. The incorporators are, F. M. Shurtliff, Isaac K. Wright, Asa R. Hawley, Geo. W. Bean, Geo. T. Bean, Epaminondas Bean and Leo A. Bean, all of Richfield, Sevier County, and the principal place of business is at Richfield. The capital stock of the company is \$30,000, divided into 3,000 shares.

Obsequies.—The service over the remains of Sister Mary Sloan was held in the Eighteenth Ward Chapel this afternoon, and were largely attended. The opening prayer was delivered by Bishop W. B. Preston. Appropriate and consoling addresses were offered by Elders John T. Caine, Jas. McGhie, Bishop Preston and Bishop Whitney. The benediction was pronounced by Elder J. Nicholson. The musical exercises were executed by the Ward choir. After the services the mortal remains were placed in a casket and were conveyed to the place of interment near the foot of the mountain. This is the first of the kind we have heard of in that Ward.

Flowing Wells.—Quite a number of flowing wells have been reported to us within the past few days, most of which are of no special interest to the public, from the fact that they are located in districts where others similar in almost every respect previously abounded; but a few of them are in new localities. One of these was obtained a few days since on the premises of Brother J. F. Obaid, in the 9th Ward, when a pipe had been driven to a depth of 100 feet, the last ten feet above the vein of sand, in which the water was found, being solid blue clay. The water is excellent, the outflow nine gallons per minute, and the force sufficient to throw the water ten feet above the surface. This is the first well of the kind we have heard of in that Ward.

Bishop Miller Atwood was also successful in striking an underground stream on his farm at South Cottonwood a few days since, at a depth of fifty-six feet, which yields three gallons of first class water per minute. Having bent the pipe near the point of ponding too hard, he was afraid to attempt to drive it any deeper to obtain a larger stream lest he should lose the one he already had and fail entirely. A previous attempt made on Cottonwood by W. M. Atwood proved a failure through the pipe breaking after it had attained a depth of 100 feet. Messrs. Woodbury, Shaw & Wallace have recently done quite a business in driving wells in the western part of Farmer's Ward, where the boring process had been tried considerably and proved unsuccessful. They have driven below the depths at which the blackish or sulphur water had been obtained in every instance, strong outflows of very good water.

Returned Missionaries.

—Elder John W. Thornley, who returned from a mission before last in charge of the company of immigrants who then arrived, left his home at Kaysville on the 16th of October, 1883, and on his arrival in England was assigned to labor as a traveling Elder in the Liverpool Conference, from which part his parents emigrated many years ago. The writer speaks from personal knowledge in saying that no Elder in the mission labored more earnestly or was more humble than Elder Thornley, and his labors were attended with good effect. On the release of Elder J. Alma Smith to return home, about eleven months ago, Elder Thornley was appointed to succeed him as President of the Liverpool Conference, which position he has continued to fill up to the time he left England. He greatly enjoyed his labors and prizes his experience gained while abroad very highly.

Elder Thomas Biesinger, whose home is in Lehi, left here at the same time, journeyed in company with Elder Thornley to England, and proceeded thence to Austria, the land to which he had been appointed. For three months he and his companion labored in Vienna in a quiet way, the laws of the country prohibiting them from preaching or proselytizing publicly. During that time three persons were converted and baptisms were administered, but as martial law at that time prevailed in Vienna and the Elders were in danger of being seized and banished if they remained together, they separated. Elder Biesinger going to Prague. His presence there had remained there one month when he was betrayed by a letter which his companion wrote to a friend, in which he gave his address, and which was probably opened by the Vienna postal officials. The result was, Elder Biesinger was thrust into prison without a hearing or knowledge why, for a period of 38 days, and then tried and imprisoned 39 days more on the plea that he had transgressed a law of the land which forbade any person proselytizing for a sect or creed that is not acknowledged by the State.

After being released he remained there two weeks longer, during which time he baptized one man, and then went to Vienna for two months, when his way seemed so hedged up and he had so little encouragement that he was transferred to Switzerland.

He labored there for four months as President of the Bern Conference, when he again started for Austria, but while passing through Bavaria, from which part all the missionaries except Elder Biesinger had then been banished, he remained to encourage the Saints and do what he could at straightening up their broken ranks. He then proceeded to Hungary, where he stayed for six weeks, trying in vain to effect an opening for missionary work; and to Vienna, where he remained for two weeks longer with a similar result. Even the little seed sown on his previous visit to that city seemed to have been choked out of existence by the foul growth of infidelity or sectarianism that prevailed.

Returning to South Germany he labored one month in Nurnberg and two months in Munich, reorganizing the Saints, who were left like sheep without a shepherd because of the Elders having been banished from there. At the end of that time he received a written notice to leave Munich within 24 hours and the State within three days, and after trying in vain to get the order revoked, he returned to Switzerland. Being released then to return home, he proceeded to Berlin and brought the Saints who were ready to emigrate from there to Hamburg and thence to Liverpool.

On the whole he thinks that his experience has been an awful yet profitable one to him. He feels that the time has hardly come for the Austrian nation to receive the Gospel, but he is thankful that he has had the privilege of going to that and other lands and testifying of the truth.

District Court Proceedings.—In the Third District Court to-day, in the case of J. C. Wilmerding et al. vs. L. Benites; the demurrer of defendant was withdrawn, and judgment for plaintiffs as prayed given.

D. & R. G. W. Railway Co. et al. vs. D. & R. G. Railway Co. et al.; demurrer of plaintiffs to complaint in intervention sustained; intervenor excepts and stands on complaint; complaint and intervention dismissed.

Samuel Benison vs. Dirk Bockholt et al., on cross complaint; decree entered as prayed for by plaintiff.

Elbridge Tufts et al. vs. A. H. Raleigh, Justice of the Peace; motion of defendant to vacate and set aside judgment against defendant overruled, and defendant allowed 30 days to file statement on appeal.

Z. Snow vs. Julia Eckman et al.; demurrer of defendants argued and submitted.

The grand jury came into court, and by their foreman asked instructions upon a question arising under a charge for unlawful cohabitation, as to the propriety of finding an indictment under certain conditions. The Court instructed them that an indictment might be found for any portion of time, within the three years past, in which the offense was proved to have been committed, whether it be for a year, a month, or a week.

The grand jury presented five indictments found under the laws of the United States. The bill in each case was fixed at \$1,000.

Jenkin Thomas, of Davis County, was admitted to citizenship.

Police Court.—This morning Henry Welch and Charles Teller were brought before Justice Speira, charged with having stolen a ride on last night's Utah Central train. Both men pleaded guilty to the charge. Welch stated that he was from Portland, Oregon, and was a machinist. Several months ago he had been thrown out of employment owing to dull times, and having been told that there were plenty of opportunities in Montana, west there, and found matters worse than at home. He wandered toward Utah in his search for work, being willing to perform any honest labor to obtain a living, and yesterday had expended his last quarter for food. He appeared to be an intelligent man, and his story was a plausible one. When informed by the court that, as the offense charged had been committed, a fine of \$10 would be assessed, he remarked that he had no money, but would willingly work it out.

Teller also urged in extenuation of his act that he was seeking employment, and the due in his case was made \$10.

This morning the case of the boy James Banister was taken up. The affair is one of a series of quarrels between the boys of this city and the boys of the June company of European immigrants, and are yet awaiting claimants. One is Kristensen, Logan City, Utah. The other is John M. McKleson, Nephi, Juab County, Utah.

Where are the Owners?—There are two boxes at the baggage room of the U. P. depot in this city that arrived with the June company of European immigrants, and are yet awaiting claimants. One is Kristensen, Logan City, Utah. The other is John M. McKleson, Nephi, Juab County, Utah.

CITY COUNCIL.

The City Council met in regular session last evening, Mayor Sharp presiding.

A petition signed by E. G. Matthews and others, was received, asking that four cobblestone crossings be laid at the intersection of West Temple and Third South Streets. Referred to the committee on streets and alleys.

Eight retail liquor licenses were granted.

The report of the Chief Engineer of the Fire Department for the quarter ending August 31st, was read. It showed that 13 fires had occurred during the quarter, loss \$10,000, insured \$5,000; total expenditures for the quarter, \$402.03. The report was referred to the committee on fire department.

On motion the committee on fire department was instructed to take under consideration the advisability of purchasing a team to haul the apparatus to fires, and to report to the Council.

The City Watermaster submitted his report for the quarter ending August 31st, showing an expenditure of \$73.31. During the same period there had been expended in Liberty Park \$73.83, and on the canal \$38.80. The reports were referred to the appropriate committees.

The committee on finance, to whom had been referred the collector's petition, asking relief for uncollected taxes for 1884, reported that they found that \$278.75 remained uncollected, due to errors in assessing, indigence, etc., and recommended that collector be credited with that amount. Adopted.

The committee on waterworks report for the last quarter was correct. The sum of \$50 was appropriated to F. W. Taylor, for services as the Assessor and Collector's office. For car wheels and freight on the same, \$139.20 was also allowed the Utah Central Railway Company.

At the suggestion of the Mayor the committee on finance, to whom the City Marshal was increased to \$1,000. The Mayor had further instructed the Marshal to spare no pains or expense to discover the perpetrators of the outrage on Sunday morning. His action was unanimously approved by the Council.

On motion, the Council authorized the Mayor to offer a reward of \$50 for the apprehension and conviction of the guilty parties.

A motion that the city furnish screens to be placed at the head of the water conduits on Main Street, so that the fifth could be caught and taken out more readily than by the old plan of washing, was referred to the committee on irrigation.

The Supervisor of streets was instructed to inquire into the reported bad condition of East Temple street, and make the necessary repairs.

Council adjourned for one week.

The Instructor.—The Juvenile Instructor for Sept. 15th is before us, and is as usual filled with highly instructive articles, interesting alike to readers of all ages.

Especially timely are the "Editorial Thoughts" condemning excessive levity, and "Topics of the Times" by the editor, in which the subject of improper marriages is treated.

Killed.—On Sunday afternoon, at Germania, a Scandinavian workman named Lundgren attempted to pass over the D. & R. G. W. just as the through passenger train came along, and was caught by the locomotive. His injuries resulted in death a few hours afterward. He had no relatives here, but his parents live in Sweden.

Neatness.—That exceedingly rare and most delicious of fruits, the acorn, is successfully cultivated by Brother Stephen Stanford, of the 15th Ward, from whose garden we have had a sample sent us. They are larger than ordinary peaches, which they resemble considerably in appearance, except that the skin is the smooth and rather more deeply tinted. They are of the clingstone variety, and the flavor and scent are very fine.

Certificates.—Yesterday Secretary Thomas issued certificates of election to the following officers, elected in August last:

Box Elder County.—N. P. Anderson, Mayor; J. D. Peters, county superintendent of district schools.

Corinne, Box Elder County, municipal officers.—J. W. Guthrie, mayor; Alex. Toponce, R. G. Welsh, M. E. Campbell, C. P. Groot, Joseph Keller, D. D. Ryan, assessors and collectors; J. K. Fowler, recorder; H. H. Smith, marshal.

St. George Items.—A St. George correspondent, under date of Sept. 11, says: The health of the people here is good.

Work in the Temple is going on as usual.

The Quarterly Conference has commenced.

Elder B. H. Roberts is here from the north.

The Tabernacle choir will give a concert in the Tabernacle to-night.

Peaches are very plentiful, but not so good in quality here as usual. They are better in Leeds and the river settlements.

Attachment issued.—Judge Zane, yesterday, issued a writ of attachment for Harriet Strother, Thos. Herman, H. B. Hayes and Annie Whitehead, who had been subpoenaed to appear before the grand jury as witnesses, and had failed to obey the summons. These witnesses were called in the case of William Pickett, of Tooele County, who has been under arrest, on a charge of unlawful cohabitation with his wives, for about a week past. Mr. Pickett was too ill to be moved from his residence to this city for an examination before Commissioner McKay, and Robert Scott, the deputy marshal who served the subpoenas on the witnesses, informed them they would not be wanted before the grand jury until to-morrow, Thursday, to which date he excused them. This was the reason they were not on hand at the time stated in the subpoenas, and it is probable they will arrive in this city this evening, whether the attachment be served on them or not.

CORRESPONDENCE.

CONCERT AND FAIR.

MILL CREEK, Salt Lake County, Sept. 12, 1885.

Editor Deseret News:

The four primaries of Mill Creek met in the Mill Creek Ward House Sept. 10th, 1885. The meeting was called to order by the readers. An opening song was then sung by the children, and after prayer they sang "The Auld Song."

The opening address in behalf of the primaries was given by Master Willard Bell. The programme then consisted of songs, recitations, speeches and music; at the close of which all passed into the vestry to view the production of the children.

It truly made the heart glad to see what an interest was taken by the little folks, for there were vegetables of every kind raised by the boys; and the girls, most wishing to be beaten, had the tables loaded with globes, wreaths of wax, wool and hair flowers, very nice hand sewing, quilts, and other things too numerous to mention; also butter, cheese, bread and bottled fruit of every kind.

This being the first attempt of the kind in Mill Creek, it was a success, and much credit is due to the presidents and counselors of the primaries, also to the readers, for their untiring efforts in training the young folks to sing so sweetly.

An honorable and happy day was spent, and our motto being "Improvement," we feel to press on in the work we have espoused. BILL WHITE.
