## CHANGES IN THE CABINET LIKELY.

Some of the President's Advisers May Leave Official Family.

THOSE WHO WILL HANG ON.

Hitchcock and Wilson Are Mentioned As Ones to Remain Although Rumor Juggled Former's Name.

Special Correspondence.

Washington, March 17 .- There seems to be no way of preventing cabinet eruptions. Just as everybody seems to feel that the cabinet is nailed down good and hard for a year at least something happens and away everything goes. The suggestion that Secy. Taft should succeed Justice Brown on the supreme bench started a train of cabinet stories which changed the entire complexion of the prestdent's official family. Rumors were sent out thick and fast, and every available man was named as a pos-sible successor to some man in the cabinet. A strange thing about these cabinet rumors is that they always provide for a successor to Secy. Hitchcock. Ever since Roosevelt became president there has been talk about Hitchcock's retirement. It is known that he does not want to leave, and, further, as long as he is prosecuting the land fraud cases it is doubtful if he will be forced to leave the cabinet. WILSON IS SOLID.

Secy. James Wilson of the agricultural department is another man who is solld in his place. Wilson is strong-er in Congress than any other man in the cabinet. An attempt was made to overthrow him on account of the leaks of the cotton reports. Then an attempt was made to discontinue the cotton reports entirely, but both failed. The friends of Wilson in Congress rallied to his support and gave him a clean record. The men who get after Wilson may realize after awhile that they are attacking a man who has more farmer friends than any other in the country, a man who has done a great deal for agriculture, and, what is more, a man who is not afraid to open his books.

A TAX ON COUPONS.

Representative Tawney has intro-duced a bill which proposes a tax of 2 cents on every coupon, prize ticket, tag, band or similar articles that are made a part of packages of tobacco or cigars. The object of the bill, of course, is to put a stop to the coupon and tag collection that is now a part of the sale of tobacco and cigars, especially of the cheaper varieties. It might not be a bad idea for the Min-nesota man to go further and place the tax on all coupons where prizes are granted for any purpose. Innumerable devices on the coupon plan are used to secure money from people without any actual return. Perhaps the law might be applied to the trading stamp people as well as the tobacco people. All should be treated alike,

CHAMP CLARK ON REFORMS. Champ Clark took 10 minutes recently to lecture the house on several ques-tions and, as usual, was entertaining. He objected especially to spending so much time on business which ought never to come before the house. "We spent four hours here two weeks ago," he said, "jowering over a bill to in-corporate a Masonic organization.

CAMPAIGN CONTRIBUTIONS.

Of course it would be no more than just and right to have all contributions Just and right to have an obtained it to political campaigns made public. It might accomplish some good in preventing the corruption of voters, for unless the money is used corruptly no harm is done by its use. The belief is general among those who are familiar with politics that there is some cor-ruption; that some voters will not go to the polls unless they are paid for it; that in some places there is a lively bidding for these "floaters" if both sides bidding for these "floaters" if both sides have the money. If campaign funds are not large there will be no money for the purchase of votes, is a theory which the promoters of pending legislation believe. They also believe that campaign funds will not be large if the contributions are prohibited. But the great difficulty will be to get a bill through compelling the publication of such contributions—that is, a hill that will stand the test in the courts.

SMOKE AND FIRE. Violations of the antismoking rule have caused much annoyance to officials charged with the enforcement of the rules in the senate wing of the Capitol, especially as employes have been among the chief offenders. Secre-tary Bennett and Sergeant at Arms

SENATE VOTES AWAY \$140,000,000 IN 20 MINUTES

Washington, March 20,-In less than 20 minutes time today the senate voted away \$140,000,000 of the public funds. The sum is carried by the pen-sion appropriation bill. The railroad rate bill was laid aside

for the day and the major portion of the time was devoted to the consideration of the fortifications bill. In that connection the question of the neces-sity for seacoast fortifications in the Philippines was discussed at length with the result that all provisions for such fortifications in these possessions were eliminated from the bill. The consideration of the measure was not

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as had a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Simee that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for siek women."

PURSUE A THIEF.

Los Angeles, Cal., March 20.—Chased and surrounded by a crowd of several hundred persons, who cornered him in a pile of empty piano and dry goods boxes, a young, well dressed man, who had only a few minutes before robbed a grocer, John R. Tucker, of \$300, today fought his way through

the crowd and escaped.

The robbery occurred at West Sixth and Hope streets, in the business sec tion of the city, and was a bold af-fair. The man entered Tucker's store and grabbed a sack containing the cash and succeeded in escaping through the door with Tucker in close pursuit.

GOVERNOR-GENERAL IDE'S ACCOUNT OF DAJO AFFAIR.

Washington, March 20.—Secy. Taft has received the following telegram from Governor General Ide at Manila, dated today, relative to the Mount Dajo "Newspaper reports from Manila an-

THE RIO GRANDE WRECK.

Jury Cannot Return Verdict Until Hears Operator Lively's Evidence. Pueblo, Colo., March 20—A special to the Chieftain from Canyon City, says:

"After being out two hours the coroner's jury investigating the Adobe wreck disaster, reported that they could not return a verdict until they had heard the testimony of Agent Lively and Operator Van Drusen of Swallows. As neither could be produced the inquest was adjourned until 2:30 p. m. Monday.

"In the meantime Sheriff Esser of Fremont is instructed to produce the two missing Rio Grande operators, the whereabouts of both being at present unknown to the officers. The officers of Pueblo, Denver and other cities may been asked to search for the missing men."

ATTORNEY-GENERAL MOODY FINISHES HIS ARGUMENT.

Chicago, March 20. - Atty.-Gen. Moody spoke nearly all day in the hearing of the immunity from punishment eas advanced by the meat pac concluding his argument just in time to allow him to take a train for Washington. He declared that the pleas of the packers were not well founded, and that they could not be entitled to immunity because they had given their evidence of their own free will, and had not been placed on oath, nor sub-jected to compulsion of any kind. He at times grew sarcastic in his refer-ences to the statements of the attorneys for the defendants who had claimed that their clients could not be punished because they had voluntarily given evidence to Commissioner Gar-

NEEDS GREAT BATTLESHIPS.

Washington, March 20.—Great battle-ships like the 18,000-ton British battleship Dreadnaught, are the crying need of the American navy, according to Admiral Dewey, who appeared before the house committee on naval affairs today, to discuss the future of the American navy. At least two of the 18,000-ton battleships with 19 12-inch guns each, should be authorized at once, in Admiral Dewey's opinion. He would use those of American designs, and thinks we should be creative, rather than imitative in developing the navy. the navy.
