PRICE BAKING POWDER CO.

NEW YORK. CHICAGO. ST. LOUIS.

A SURE CURE FOR THE PILES.—You need not suffer from this most distressing disease again in all your life. Email's Balm acts as a poultice and lubricator, absorbs the tumors and allays the intense itching at once. No caustic, no acid, no pain. A. McGibbons Esq., 19 Poplar street, Allegheny, Pa., writes: "I had itching and bleeding piles so bad I could not sit, stand or walk without intense suffering. I doctored with many physicians, and tried all the (so called) cures that I ever heard of, in vain (paying out hundreds of dollars), until I used Email's Magic Balm, or Ointment. After the first application I enjoyed the best night's sleep I had for ten years, and two boxes have cured me completely." Wherever introduced Dr. Email's Balm takes the lead, and has the largest sale of any Pile remedy in the world. Sold by druggists everywhere or sent by mail. 50 cent boxes. Address Zion's Co-operative Mercantile Institution, Salt Lake City. d&w (3)

CRITICAL ANALYSIS.

UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.

By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Bone Ash, Ammonia and White Earth;** and that it consists essentially of Cream of Tartar and Bi-Carbonate of Soda.

The Baking Powder examined I purchased at Barnes & Davis, in this city.

J. T. KINGSBURY, Chemist.

MANUFACTURERS, CHEMISTS, GOVERNMENTS, PRINCIPALITIES OR POWERS

are unable to disprove the Statement on every can of DeLand's Chemical Baking Powder **"Made of Pure Grape Cream Tertar and Bi-Carb. Soda only.** No filling whatever."

CAUTION—Use one-fourth less of this Baking Powder, and one-half less shortening with all recipes than with other Brands. d

GRAEFENBERG CO.,

111 Chambers St., N. Y.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Audubon, Knoxville, Atlantic, Anthon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and —between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

The Crops.

CHICAGO, August 14.—The *Farmers' Review* says: Copious rains fell quite generally throughout the West last week, refreshing parched pastures and invigorating more or less all growing crops. The rains unfortunately came too late to materially benefit crops and had little effect for good except on late planted or low lying fields. Much more rain will be required to put the pastures in good fall condition and replenish wells and other sources of stock water. Our estimates having been made from reports prepared previous to the rainfall, do not indicate any improvement accruing therefrom.

The Colorado War.

DENVER, August 14.—A Glenwood Springs special says: Senator Eddy, who returned to-day from a fishing trip to White River, last night met a party of sixty bucks who were evidently trying to join Colorow. This will increase Colorow's band to about 120 warriors. Colorow has also sent a courier to his brother at Uncompahgre agency, asking for assistance, and probably 50 or 60 bucks will be sent. One rumor says that Colorow has become frightened and has left his women and children behind, making endeavors to reach the Uintah agency

IN UTAH,

but the fact that no courier has reached Glenwood Springs since Friday leads the people to believe that the redskins are holding the road between these points, making it extremely dangerous to go over these roads even at night. There is considerable apprehension for settlers at Meeker who failed to reach town before this trouble began. Governor Adams shipped to-night 183 stands of arms and 600 rounds of ammunition to Glenwood and has ordered a company of militia to report there immediately from Leadville. This will make 120 blue coats stationed at this point ready for active service. Couriers were sent out from Glenwood this morning to learn the situation. They are expected to return to-morrow.

Weather Crop Bulletin.

WASHINGTON, August 14.—Following is the weather crop bulletin of the signal office for the week ending Aug. 13: In California the daily average of temperature was from three to seven degrees below the normal. The average temperature for the season from January 1st to August 13th has been generally in excess from the Alleghenies west to the Rocky Mountains. During the week the rainfall has been slightly in excess in the drought regions northern Illinois, southern Wisconsin, southern Michigan eastern Kansas, Nebraska and southern Minnesota, and morning. General rains are reported in the drought region from Missouri and Iowa eastward to the Ohio. In all other sections the rainfall was less than usual except in the eastern portion of the cotton region. During the past four weeks less than twenty-five per cent of the

USUAL RAINFALL

has occurred in southern and central Illinois, [western] Kentucky, southern Missouri and the northern part of Arkansas. Less than 50 per cent of the usual amount of rainfall occurred in the states of the upper Mississippi Valley and the greater portion of the rain reported in this section for the month fell during the past week. In western Minnesota, Dakota and Nebraska and generally in the states on the Atlantic coast, there has been an excess of rainfall during the past week.

GENERAL REMARKS.

The drought previously reported in the corn belt in the central valleys has been followed by general rains and the conditions existing this morning indicate that rain will continue in this section, but reports from Ohio, Indiana, Illinois, Missouri, Nebraska and Kansas state that rains come too late to cause a marked improvement in the already injured crops. The weather has been generally favorable for all crops in the states on the Atlantic coast from Georgia westward to New England, and reports from Mississippi, Arkansas and Alabama indicate that the weather for the week has been favorable for the cotton crop, although the crop needs more rain in portions of Tennessee and Arkansas.

[Respited.

LONDON, August 14.—The Jew Lipski has been granted a respite of one week.

Silver Notes.

WASHINGTON, August 14.—The treasurer having accumulated a supply of one and two dollar silver certificates sufficient to meet the heavy current demand, has arranged for the prompt delivery of these notes to banks, bankers and others, making the required deposit from and after to-morrow. The issue of these notes has been suspended since the first of May last, and a statement prepared at the Treasury Department to show the status of the three per cent. loan makes the following exhibit: Total amount of loan, $305,581,250; redeemed under calls, $290,475,600; purchased, $3,322,350; called and outstanding, $2,783,150.

A Sensational Story.

PITTSBURG, August 14.—A Sunday paper here publishes a sensational story to-day to the effect that at to-morrow's meeting of the National Base Ball League at Long Branch, certain players will be investigated who it is alleged have been playing crooked and working the pool boxes.

Mrs. Cleveland's Popularity.

NEW BEDFORD, Mass., August 14.—Since the arrival of Mrs. Cleveland at Marion, the churches which she has attended have been thronged with people from other places anxious to catch a glimpse of the President's wife. Mrs. Cleveland has finally yielded to a frequently expressed and urgent request to hold a public reception and a notice placarded at the post office says:

"General and Mrs. Greeley announce that Mrs. Cleveland will receive at their residence (the house of Capt Emery Hadley) the people of Marion and vicinity on Monday, August 15th, from four to five p. m.

Naval Notes.

WASHINGTON, August 14.—Mr. Whitney, who had long filled the position of chief draughtsman in the bureau of steam engineering of the Navy Department, has been dismissed.

Secretary Whitney has been out of town to-day and it has been impossible to secure official confirmation of the report telegraphed last night that Admiral Luce has asked to be relieved from the command of the North Atlantic squadron.

American Trade.

ROME, August 14.—The inquiry conducted by the ministry of commerce into the effect of American trade upon the orange and lemon production of Italy has been concluded. The report states that California can supply the American market throughout the year; that in Florida plantations are not situated on land suitable for the growth of oranges, while in regard to Louisiana the hope is expressed that Italy has nothing to fear, the season there being of brief duration.

Ferdinand Duly Installed.

TIRNOVA, Aug. 14.—Prince Ferdinand was enthusiastically welcomed on his arrival here on Saturday night. To-day he attended a *te deum* in the cathedral. With a brilliant military and official escort he proceeded to the hall to greet the Sobranje. The Sobranje was in session, and when the Prince entered he was greeted with prolonged cheering. The metropolitan delivered an address and administered the oath to the Prince, who thereupon signed the constitution. M. Stoiloff, prime minister, on behalf of the Prince read a

PROCLAMATION SAYING:

"Ferdinand, by the grace of God and the will of the people, Prince of Bulgaria, announces to our well beloved people that we assume the government of the country. We will rule in accordance with the constitution, with the intent to promote its glory, greatness and development. We shall always be ready to sacrifice our life for its happiness."

The Prince thanked the people for his election and the selection of regents and ministers for their safe conduct of affairs during the difficult crisis; pays a tribute to the patriotism and bravery of the people during recent events and concludes: "Long live free and independent Bulgaria."

Musician Dead.

PARIS, August 14.—Jules Etienne Pasdeloup, the eminent French musician, is dead, in the 68th year of his age.

Big Scheme Proposed.

WASHINGTON, August 14.—Consul Dupree, at San Salvador, closed his report to the State Department upon commercial and industrial topics with the following paragraph: The trade of the Pacific States of Central America must be confined mainly until a railway be built across the republics to San Francisco. Recently C. P. Huntington brought a railway from San Jose village, without a harbor on the Pacific Coast from Guatemala out, 7 miles in length, to Guatemala City. Owning as he does, with others, railroad lines extending from Oregon and California to Newport and Chesapeake, he must purchase the

CENTRAL AMERICAN

highway that he may own as well a short scenic route. It is hardly more than 182 miles from Guatemala City to the Bay of Honduras; hard by are New Orleans and Mobile, but there is a harbor at San Jose, and to create one would cost more than the one at Cherbourg, France, an almost incalculable sum. On the contrary although the country is as rough as though rent by earthquakes throughout past ages, the construction of a railroad from the perfectly land-locked harbor on the Bay of Honduras to another in Salvador on the Pacific is the most desirable of all possible commercial and political consummations that could be achieved by American wealth and energy in Central America.

The Labor People.

NEW YORK, August 14.—At a meeting of the Central Labor Union this afternoon, the food producers' section reported that they had adopted resolutions denouncing the county committee of the labor party for expelling socialists. Chairman McKim refused to allow this report to be read; this created much confusion, but the chair was finally upheld. The picnic committee then reported that Governor Hill had been invited to visit the union parade on September 5th. At once there was hissing and groans at the proposition to invite the governor was laid on the table. During the rest of the session there was a continual conflict between the conservatives and socialists and the meeting broke up in great disorder.

Gross Exchanges.

BOSTON, August 14.—A statement compiled from specials to the *Post* from managers of the leading clearing houses of the United States shows the gross exchanges for the week ending Aug. 13th to be $807,381,347, a decrease of 9.5 per cent as compared with the same period last year.

Starved and Suffocated.

MEXICO, Mo., August 14.—Ann Granskler (colored) left her two children, five years and ten months old respectively, in an eight by ten room closely shut up yesterday, while she went to a neighbor's house to spend the day. At night, when the room was opened, a horrible sight presented itself. The older child was almost suffocated and the younger one was in the throes of death. A portion of the flesh of the breast and stomach had been eaten away by the older child, who was almost starved. The mother is under arrest, as the younger child will die.

Important Information.

LONDON, August 14.—The death is announced at Constantinople of Behram Agha, the Sultan's chief eunich and confidential adviser, who virtually directed the state affairs of Turkey.

He Won't Fight.

LONDON, August 14.—The *Post's* dispatch from Madrid asserts that General Salaminica declines to fight a duel with the correspondent by whom he was challenged, and that the general will start for Cuba on the 25th inst.

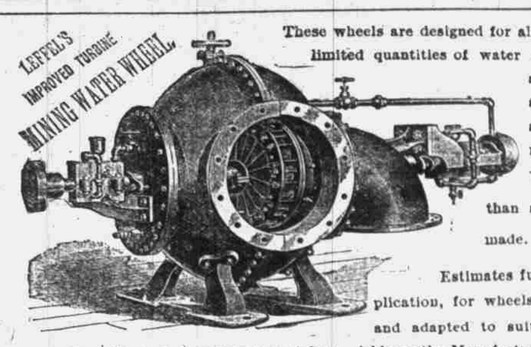
Vessels Seized.

ROCHESTER, N. Y., August 14.—Two Canadian steamers, the *Hastings* and *Kathleen*, were seized by the custom house officers at Charlotte to-day. The seizure was made on the ground that neither of the boats had been inspected by the U. S. inspector general of steamboats, and the seizure was made under his direction.



These wheels are designed for all purpose where limited quantities of water and high heads are utilized, and are guaranteed to give more power with less water than any other wheel made.

Estimates furnished on application, for wheels specially built and adapted to suit any particular case. Fine illustrated catalogue sent free. Address the Manufacturers,

NOTICE OF ASSESSMENT.

UTAH AND SALT LAKE CANAL COMPANY.
Office 123 W. North Temple Street,
SALT LAKE CITY, Aug. 6, 1887.

Notice is hereby given that at a meeting of the Directors, held on the 30th day of July, 1887, an assessment of two dollars per share was levied on the capital stock of the corporation, payable to the Secretary, at the General Office of the Company, 123 W. North Temple Street, Salt Lake City, on the 4th day of September next. Any stock upon which this assessment may remain unpaid on the said 24th of September, will be delinquent and advertised for sale at public auction; and unless payment is made before, will be sold on the 19th day of November, 1887, to pay the delinquent assessment, together with the cost of advertising and expense of sale.

E. SMITH,
Secretary.
