CAPITAL NEWS.

Rumored Coalition.—Census.—Personals, Etc.

WASHINGTON, 7.—The report is again revived of a contemplated alliance between democratic and greenback members of the next Congress to secure an organization of the House Undoubtedly secret correspondence and conferences have been held with a view to reach such a combination; this fact has been known for several months. There is no doubt either that some of the greenback members-elect and prominent democrats are heartily in accord in their views, favoring such a coalition, and that they intend to consummate it, if possible. Strong efforts are to be made to capture the districts vacated by Fry and Levi P. Morton, as the loss of even one of these will leave the republicans with only 146 members, or a minority of 1. There is no possibility whatever of their succeeding in Fry's district, but they have perhaps some chance of getting a member in Morton's place. After all, the success or failure of the plan depends upon the action of the Two readjuster members from Virginia, and of Smith, of Brooklyn. The democrats believe that if Virginia goes democratic, Fulkerson and Paul will be found among the regular democrats in Congress. How Smith will vote, nobody seems to know About all that can be stated with any positiveness, is, that a determined effort to organize the House will be made by a coalition of democrats and greenbackers, if there is any prospect whatever of success.

Collector Clark, of Atlanta, Ga., reports that in a fight with illicit distillers, his deputy, Auberton, and too moonshiners were wounded.

John E. Lutz, of Ohio, obtains the first place in the examination of revenue marine cadets, and is now on the list of those eligible for appointment in the grade of third lieutenant.

With the standing reduction from 1,400 to 600 in the force, the census bureau appropriation will not admit of the payment of salaries to the present force beyond the 10th. Upon the recommendation of Superintendent Walker, and as the only available means of averting an entire cessation of operations until next winter, the secretary of the interior has issued a circular to employees of the census bureau, in which, after recalling the fact that the appropriation is nearly exhausted, he says if they desire to continue upon the work of the census office as volunteers, expressly disavowing any claim against the government in consequence thereof, and signifying willingness to leave the matter entirely with Congress, they will be permitted to do so.

President Garfield, Secretary Hunt and Admiral Porter, leave to-morrow afternoon for Annapolis, to attend the graduating exercises of the naval academy.

Postmaster-General James has issued an order, that all official matter emanating from any of the departments of government, must hereafter be treated in every respect as first class matter, unless newspaper, or the envelope distinctly states the packages enclosed are printed matter.

The Secretary of the Treasury issued a circular for the information and guidance of officers of the department, requiring that official communications shall be hereafter properly briefed by the writer.

Garfield pardons far less criminals than Hayes. Since the 4th of March hundreds of applications for pardons have been filed in the department of justice, but only four pardons were granted. During the last administration the average pardons granted per month was between thirty and forty. Attorney-General MacVeagh scans every application closely and inquires rigidly as to its merits.

Brady professes unbounded confidence in his ability to clear himself, and proposes to turn the tables on his accusers. It is remored that Brady intends to enter suit for criminal libel against the Attorney-General and Postmaster-General as soon as indictments are found against him. He does this evidently on the theory that he is innocent, and he relies on congressional investigation to vindicate his official acts.

FINANCIAL.

Railroad, Transportation, Canals, Etc.

PHILADELPHIA, 7. — President Roberts, of the Pennsylvania Railroad Company, to-day, paid to a committee of the Boston shareholders some $15,000,000 on the Philadelphia, Wilmington and Baltimore Railroad stock, bought by the Pennsylvania Railroad Company. The money was not due until July 1st, but the present financial condition of the Pennsylvania being so good, it was thought wise to anticipate. Subscriptions to the allotment of new stock authorized at the annual meeting, together with heavy savings and the surplus of June 1st, furnished the necessary funds. Besides the $15,000,000 worth of stock, the Pacific road has also purchased and paid for $1,000,000 more, bought from parties other than the Boston syndicate, and has distributed since January 1st, $2,500,000 among stockholders, in the shape of dividends. Both roads will now be operated under one management.

New York, 7.—The *Commercial Bulletin* says: The financial event of the day was the payment by the Pennsylvania Railroad Company for 208,419 shares of Wilmington and Baltimore Railroad stock, bought a few weeks ago. The price paid for the stock was $80 per share, or a par value of $50. A committee representing 2,700 shareholders who contributed to the stock sold to the Pennsylvania Railroad, received from the latter a single check for $149,500,522, which they deposited in the National Bank of Commerce, this city. The remaining balance of $1,738,010 is settled for in Philadelphia, going to the P. and W. & B. shareholders who reside in that city. The money was deposited in the bank to the credit of the P., W. & B. stockholders' committee, which consists of Henry P. Kidder, C. W. Cotting, Henry L. Higginson, Charles P. Bowditch and William Minot, Jr., and will be distributed to the respective stockholders. A majority of them reside in New England. The distribution will probably occupy several weeks, as we are assured will be made in a manner to cause as little transfer of actual money from city to city to another as possible, and that it is doubtful if any serious disturbance to the money market will result.

This is the largest single settlement of railroad stock transaction ever made in this country, and, unless managed skilfully, it might easily have caused a commotion in the money market. It will not be strange, even if so managed, if it causes a ripple on the stream. To-day calls on loans were bid up at the Stock Exchange 4 to 5 per cent., but the rise in rates was not caused by this transaction.

The *Tribune's* Olympia special correspondent says: Gov. Newell informed me that he was soon to journey to the Atlantic to arrange, if possible, with railroad and other transportation agencies for cheaper rates of travel than now exist, expecting large emigration soon to Washington Territory.

He believes Puget Sound is destined inevitably to become the great converging centre of commerce on the Pacific Coast, of Asia and the Indian Archipelago. A line drawn from Maine to the extreme western island of the Aleutian group, and another from Alaska to the Gulf of California, will cross on Puget Sound. He believes a city, in many respects the counterpart of New York, will be established upon the Sound as the great Pacific centre of travel and trade.

The *World* says: Nathan Appleton, who went to Paris some months ago to be present at the first meeting of the DeLesseps Canal Company, returned yesterday. Speaking of the value of the shares on Panama at the Bourse: "These," said he, producing a 500 franc share, "were issued at 500 francs per, and ever since they have been on the market they have been above par. At present they are quoted at 530 francs, but they have been as high as 580 francs. Any day, the original subscribers could sell out at a profit. Sixty million dollars is already subscribed, and the remaining $40,000,000 will be had without any trouble when the time to use it comes."

Commercial Bulletin: There is considerable excitement at the mining exchanges over the reported failure of three members of the New York Mining Exchange. It is stated that the brokers repudiated their contracts to buy and sell Cedar Tree stock, on Saturday, when it was valued at $2 to $3 per share. When deliveries came to be made Monday, the stock had declined to about 10c. per share, and the brokers who transacted the business, not having received the money for the stock for their principals, refused, in some cases, to accept it. Brokers at the New York board will probably lose, it is estimated, about $30,000, and at the American board from $10,000 to $20,000.

CONKLING TALK.

NEW YORK, 7.—The *Post* publishes an alleged interview with Lewis Lawrence, of Utica, a strong Conkling man, who is quoted as saying: I have been talking with Conkling to-day, and he has been damning the republican party up hill and down; he says, and it is true, that he created the republican party in the State, and himself alone carried the last four presidential elections by his good work at disputed States, and now they have no gratitude for him. They ought to have re-elected him unanimously, and not haggle over him like dogs over a bone. He said to me: Lawrence if these curses do not come down and crawl at my feet as they always have done I will accept the offer of the democratic votes and become an independent with David Davis; and mark my words, that will carry with it the democratic presidential nomination for 1884. What will that be by way of revenge? I told him to do it.

Albany, 7.—First vote for Conkling's successor: Conkling 34, Jacobs 45, Wheeler 22, Cornell 15, Rogers 15, Lapham 3, Tremaine 4, Bradley 1, Folger 1, Crowley 1. The vote on Platt stood: Platt 28, Kernan 46, Depew 42, Cornell 14, Folger 4, Lapham 8, Crowley 4, Tremaine 2, Fenton 1, Wheeler 1.

Adjourned.

Senator Woodin's first and second rules were adopted for the government of joint convention, and the third was tabled. The latter was a rule requiring a two-thirds vote to rescind the action which compels the joint convention to vote daily at noon, during the session of the legislature for successors to Platt and Conkling.

Sheehy had read at the clerk's desk a letter to him, saying his political future would end in dismal night if he continued against Conkling. This was regarded as a joke.

OPERA.

CHICAGO, 8.—The *Times* says: The announcement in the *Times* some weeks since that Adelina Patti would sing in the United States next fall and winter, under the management of D'Oyley Carte, was feebly scouted by the incredulous. The fact is precisely as announced; the Diva is coming, and her advent has necessarily discouraged, for a time, all other ventures, for it is reasonable to believe she will make a tremendous popular furore. The contract, however, does not include opera, and Strakosh has secured Etelka Gerster for the operatic season, which will commence formally in New Orleans, at the French Opera House, December 12th. His organization is taking advantage of the DeBeauplan fiasco. Few performances will be given *en route* from New York to New Orleans, but the company will not reach Chicago until January. Strakosh has effected contracts with Campanini and Carey, and is confident of securing both. The contract with Gerster was signed last Saturday on board the *Germanic*, shortly before the steamship sailed. The prima donna will summer in Germany and Italy, and will return to the United States in November. The manager promises to bring from Europe first-class artists, with those mentioned, to complete his casts effectually, and he is resolved to surpass, at least in assurances, all operatic triumphs we have yet witnessed. It is, at least, welcome news that Gerster is to drop the rolls for which she is unfitted, such as Elsa, in "Lohengrin," and appear in some new ones for which she is fitted, such as Ophelia, in "Ambroise," "Thomas," "Hamlet" and the "Magic Flute," are also promised, and the presentation of "Romeo and Juliet," which, with Gerster, Carey and Campanini, will certainly be worth hearing.

Big Road Robbery.

BUFFALO, 8.—The facts which have just come to light regarding the bond robbery are substantially as follows: George Gorham, a prominent lawyer of this city, has for convenience sake, for some time past, placed in the vaults of the Erie County Savings Bank a number of bonds, which he had as attorney, amounting to $108,000. About May 1st, Gorham called at the bank, and after clipping the coupons left them on the cashier's desk. Calling again about the 19th of May, and on inquiry for the bonds, it was discovered that they had been stolen. About a week after the robbery, Cashier Lee received a letter from Wm. H. Whyte, a lawyer of Baltimore, which spoke about some bonds stolen from the bank. Through a misunderstanding the letter was ignored, the bank officers supposing blackmail was the object of the sender. As soon as the loss was known, Gorham visited Baltimore in company with a detective, saw Whyte, and learned the bonds could be recovered for $50,000. Nothing further has been done toward their recovery. A list of the stolen securities will be published.

Attempted Murder and Suicide.

PITTSBURG, 7. — Wm. Murphy, the divorced husband of Mrs. Wm. McCharam, visited the home of that lady at Edgewood, near the city, at 2 o'clock this evening, and requested an interview. Mrs. McCharim appeared and Murphy threw his arms around her neck, and, while thus embracing her, drew a revolver and shot her in the back. He fired a second shot, which entered her breast, and then placing the revolver against his forehead fired a third time, the bullet crashing through his brain and killing him instantly. Mrs. McCharam, it is thought, will recover. She obtained a divorce from Murphy, on account of ill-treatment, and subsequently married Murphy, to whom she was married some years since. About four weeks ago she was united in marriage to Wm. McCharam, druggist. The parties are well known and occupy prominent positions in society.

Wool Market.

BOSTON, 7.—Market firm; demand good; prices well sustained; holders are now indifferent about selling, and buyers are more anxious to secure supplies; stocks much broken, but there is still a fair supply of desirable wool on hand, more so than usual so late in the season. We quote sales thus: 40 @ 42 for XX; 42 @ 42½ for XXX and Wisconsin fleeces; 38 @ 40 for combing and delaine, 42 @ 45 for fine delaine, fine and medium combing; unwashed combing, 25 @ 32, as to quality. Unwashed wools are in fair demand. Full prices in Californian wools: Sales have been 18 @ 34 for both fall and spring. Pulled wools in fair demand, and firm; 30 @ 40 for common and good supers; 42 @ 45 for choice eastern and Maine. In foreign wool there has been no movement of importance, but Montevideo and Australian hold quite firm.

Opposed to Election.

CONCORD, N. H., 7.—Indications rather point to the non-election of a United States senator by the present legislature, though the matter is not yet determined. The leading candidates for nomination, except Senator Rollins, oppose an election. It is understood that ex-Governor Harriman openly opposes an election, arguing the law against it, and that Congress refused to pass an act giving the legislature a right to elect. Rollins claims that an election is constitutional, and that his view is sustained by the opinions of eminent senators.

General Stevens, General Marston and Wm. E. Chandler are understood to oppose it. A republican caucus to consider the question will be held to-morrow.

Grant in St. Louis.

ST. LOUIS, 7.—Grant and party arrived this morning from New Orleans. His quarters at the hotel have been besieged all day by callers. The general says that he thought that his Japanese servant boy had left behind, at Chicago, the badges and medals recently recovered at Tyzarkana. He has no idea how they came in the hands of King and Fitzpatrick. Although he is very anxious to go to New York at once, he will remain here if deemed necessary and prosecute King and Fitzpatrick. He declined to talk about politics.

Base Ball.

Boston, 7.—Buffalos, 3; Bostons, 2.

Worcester, 7.—Chicagoes, 13; Worcesters, nothing. Game called at the eighth inning because of rain.

Troy, 7.—Detroit, 2; Troy, 1. Game called at the third inning on account of rain.

Providence, 7. — Cleveland, 1; Providence 3.
