THE FIGHT IN TEXAS.

Government Will Send a New Commanding Officer to Keep Out of Trouble.

Washington, Nov. 22.—At the war department it is stated that the information received from the department of Texas is to the effect that the trouble at Fort Ringgold is nothing more than a drunken border row and the belief is expressed that it has been exaggerated as to its proportions. The secretary of war has sent a dispatch to Governor Sayers, in reply to the demand for the removal of the troops, saying that the department had already taken measures to preserve peace and restore order. It is not now the present intention of the war department to remove the troops from Ringgold, as it is believed the differences can be corrected without any such action. It is quite likely some more experienced officer will be sent to command at Ringgold.

The war department received the following telegram later in the day:

Austin, Texas, Nov. 22.—Secretary of War, Washington: Telegram received. Have just received telegram from sheriff, who says he has had a conference with commanding officer at Ringgold, and that everything is quiet. He is quite certain there will be no further trouble.

JOS. D. SAYERS,
Governor of Texas.

Consul Macrum Wants to Leave.

Washington, Nov. 22.—United States Consul Macrum at Pretoria has asked the state department for leave of absence with permission to take advantage of it at once. He pleads domestic reasons for leaving his post and offers to place in the consulate as the representative of the United States. Vice Consul Atterbury, who is now on the ground. The department, however, refused to accede to the request and Mr. Macrum will stay where he is unless he seeks to quit his post without permission.

It is learned that so far, Mr. Macrum has not been prohibited by the Boer government from caring for the welfare of the British subjects now in the Transvaal and the Free State, or at least he has not so notified the state department. There has been some friction encountered in the effort of the British government to secure permission for the United States consul to disburse funds for the benefit of the British soldiers held as prisoners of war.

Alleged Russian Scandal.

Berlin, Nov. 22.—The Deutsche Zeitung today publishes the following dispatch from St. Petersburg:

"The czar has instructed Minister of Justice Muraviev to investigate the allegations that M. DeWitte (presumably the minister of finance) has been manipulating the bourse to his personal advantage."

"M. DeWitte has made an ineffectual attempt at suicide. His wife requested a divorce from him and he has refused to accede to the request. Several high financiers and officials are said to be implicated. Nothing is known in Berlin regarding the statements made in the Deutsche Zeitung dispatch. Dr. Miquel, the minister of finance, is an intimate friend of M. DeWitte. The Russian minister of finance, said to a correspondent of the Associated Press that he knew nothing about the matter except that the antagonism between M. Muraviev and M. DeWitte was of long standing."

YOUNG IS AFTER AGUINALDO.

Reports the Rebel as Trying to Cross Over to Bayombong.

HAS CONSIDERABLE FORCE.

Americans Hurrying Forward—Fillipino Defeats on the Island of Panay.

Manila, Nov. 22, 12:55 p. m.—Gen. Young reports that Aguinaldo with a party of 500, including some women and a few carts, passed Aringay, on the coast between San Fabian and San Fernando, in the province of Luzon, on Friday, Nov. 17. The general adds that Aguinaldo probably intended to strike inland through the Binanga mountains towards Bayombong, in the province of Nueva Viscaya. Gen. Young, with cavalry and Macabebes, is pursuing the Filipino leader, part of the American force taking the direction of San Fernando.

In a fight with Aguinaldo's rear guard at Aringay one Macabebes was wounded and the insurgents retreated. Their loss is unknown.

Washington, Nov. 22.—Gen. Otis today cables the war department as follows:

"Manila, Nov. 22.—Dispatch 21st from Lawton at Tayug reports Young with cavalry and Macabebes scouts at Aringay with advance north to Bacon, near San Fernando about to move on trail east to Trinidad. Young reports considerable insurgent force moving in that direction; that Aguinaldo, in charge, is seeking to cross over to Bayombong."

"Portions of Lawton's troops are now being pushed through to Tayug with battalions. Battalion of Twenty-fourth will join Lawton tomorrow."

"Nothing from Wheaton for several days. MacArthur operating west of railroad and north of Tarlac. Wire from Tarlac north working. Troops on entire railroad line rationed without difficulty."

"Hollo reports seven companies Sixth and Twenty-sixth volunteers, under Dickman, struck insurgents northeast of Jaro; casualties, six wounded. Enemy left on field eighteen killed. Dickman captured seven prisoners, four 1-pound brass field pieces, several thousand rounds ammunition."

"Eighteenth infantry yesterday drove insurgents north on Santa Barbara."

"Hughes, with column, is north and west of Santa Barbara, reports of result not yet received."

The dispatch from Gen. Otis does not yet make it appear that the efforts to capture Aguinaldo and the larger portion of his army will be successful. The intention of Gen. Young to prevent Aguinaldo reaching Bayombong seems evident, but this seems scarcely probable now. Some errors have been made in the transmission of the dispatch. The town given as Tarlac is probably Tarlac, as the situation of Lawton's army would indicate that he is operating not far from that place. No alarm is felt regarding the situation of Gen. Wheaton, as he has been for some time beyond telegraphic communication.

Operations are progressing in the islands south of Luzon as the last portion of the dispatch indicates.

HARRITY NEVER DID IT.

Philadelphia, Nov. 22.—Former Democratic National Chairman William H. Harrity declared today that he is not to be connected with the campaign button bearing the inscription "No foreign alliance; no trusts; no imperialism for U. S.," which was reported to be sent to the Democratic national executive committee at its meeting just held at Chicago.

"There is evidently some mistake. I neither sent the campaign button, nor suggested that it should be sent."

U. S. Complimented by Germany.

Berlin, Nov. 22.—An official report received by the German government acknowledges the excellent work of the American Trichaeus inspection, carried out in Chicago and elsewhere, and declares the charges as to the unreliability of the inspection are not borne out by facts.

BIG STRIKE IN FRANCE.

Fifteen Hundred Strikers Start on a March to Paris.

New York, Nov. 22.—A dispatch to the Herald from Paris says that fifteen hundred strikers at Audin-court-Valentigny-Bureau in the Doubs

department, most of whom are employed by the Peugeot automobile factory, started yesterday to march to Paris. They were accompanied by 150 cyclists and a number of wagons filled with food.

At half past one o'clock in the afternoon they arrived at Dauwantin a commune before Belfort. The prefect was at once informed of their arrival and immediately took charge of the police service.

Troops in full marching order were sent to guard the road. At 2 o'clock Pierre Bietrey, who is leading the strikers, came to inform the prefect, who was waiting at one gate of the city, the head of the strikers, that the strikers had the intention of entering Belfort and lodging there for the night. The prefect refused to allow them to pass.

Bietrey replied that the strikers would pass, all the same, and returned to Dauwantin.

Half an hour afterward the strikers arrived in good order, with trumpets sounding, drums beating and flags flying. When they had come within fifty yards of the city wall the prefect called on them to halt.

While the leaders were parleying with him M. Juillard, assistant mayor of Belfort, declared that the strikers had a perfect right to pass. The prefect replied that he alone was responsible for the public order. M. Juillard then protested and withdrew.

M. Bietrey, who attempted to pass by another route, was arrested and brought back to his camp.

The situation was last night still unchanged. The strikers have lit large fires and are amusing themselves dancing and singing.

Additional troops have been sent to the spot.

TERRIFIC RAILWAY COLLISION.

The accident occurred during a dense fog. The passenger train was drawn by two engines. Engineer Bradford, who was killed, was on the second engine, while Engineer Sarber was at the throttle of the first engine. No one was hurt on the freight train. Both passenger engines, two postal cars and three express cars were derailed and thrown into the ditch.

The officials of the company state that no passengers were injured.

Lipton Will Come Again.

London, Nov. 22.—Sir Thomas Lipton, when questioned today regarding the allegation that he had determined to challenge next year for the America's cup with a schooner, said to a representative of the Associated Press:

"I do not intend to challenge next year, but if I live I will certainly challenge in 1901. Nothing yet has been arranged about a challenge, nor will there be until Mr. Pite has recovered. There is no truth in the statement that I have arranged for a Watson schooner. I have not discussed the matter with Mr. Watson at all."

A PROBABLE CONTEST.

The Republican city committee and executive committee met in executive session in the office of F. C. Leoborow last evening for the purpose of considering the proposed Morse-Stephens contest, as well as some other matters.

Mr. Morse should have been there, but illness prevented his attending. Because of the absence of Mr. Morse no definite action was taken, although the matter was discussed freely. A committee was appointed to confer with Mr. Morse, and to report back to a meeting of the committee to be called soon by Chairman Elchior.

It is said that Mr. Morse will object to the filing of the contest, but unless he does, pronounced by the committee, it is understood, will proceed to try and get a recount of the ballots.

BOERS CAPTURE FINE HORSES.

Force South of Estcourt is Threatening Pietermaritzburg.

BRITISH ARE ADVANCING.

Armies Close Together—Momentous Events Expected Soon—Prospect for an Armistice.

Durban, Natal, Nov. 22.—A dispatch from the Mool river says the telegraph line was cut Tuesday evening near Highlands station. The dispatch adds that the railroad station is in the possession of a large force of Boers encamped near Mitcheson's Cutting. A train bound to Estcourt returned. It only got a mile and a half northward of the Highlands station.

The Natal Stud company's farm has been raided and 300 blooded horses, valued at \$15,000, have been captured.

London, Nov. 22.—There has apparently been no communication with Estcourt since noon Tuesday and the Boers control the railroad to the Mool river. Consequently momentous developments may be expected at any time. The Boers, it seems, are swarming southward. Large bodies are reported all around Estcourt and parties appear to be threatening Pietermaritzburg.

The Boers encamped at Highlands station are well supplied with artillery and all evidences tend to show that the various Boer forces are being largely increased by accessions from the disaffected Cape burghers. The serious deficiency in cavalry is being felt by the British, who are unable to keep in touch with the mobile Boer forces, whose presence is hardly reported before they are lost sight of, only to reappear at any vital point along the line of communication. Gen. Bullard's force, anchored at Estcourt by the naval guard, cannot make an attack until Gen. Clery's force is capable to take the field.

According to a Capetown dispatch Gen. Methuen's division left Orange river and reached Wittepoort, half way to Bellemont, yesterday, and advices from Orange river today show that the Boers occupy Bellemont in force and that the neighboring hills are crowned with Boer cannon. A patrol of lancers, which has returned to Orange river, came unexpectedly on two Boer laagers. These shrapnel shells burst close to the lancers, who, however, were unharmed.

The British transport Kildonan Castle, said to be the largest transport in the world, which left Southampton Nov. 4, with 3,000 men, their kits, weapons, machine guns, ammunition, balloons, pontoons, wagons, etc., arrived at Capetown this morning. About 35,000 of Gen. Buller's army corps have now arrived.

The transport Nubia, with the first battalion of the Scots guards, has sailed from Capetown for Durban. The transport Carinthia arrived at Capetown yesterday.

Advices from Capetown say Mr. Collet, the correspondent of the London Daily Graphic, who was arrested by the Boers while conveying a message from Mr. Schreiner, the premier of Cape Colony, to President Steyn of the Orange Free State, and who was taken to Bloemfontein, has been released and sent back with President Steyn's reply.

The British transport Montezuma has also arrived at Capetown.

It is reported that Mr. Hoffmeyer, the Afrikaner leader, has taken an important step in the hope of hastening the close of the war. He is said to have charged Mr. Sauer, the minister of public works, to get in touch with the Free State forces in an endeavor to arrange that the Boers shall supply for an armistice. The ostensible object of Mr. Sauer's trip is to induce his constituents at Allival North to remain passive.

The Boer requisitioning of men and supplies proceeds busily on the north. The border of Cape Colony, but Gen. Gatacre hopes soon to be in a position to push the Free States back within their own borders.

The reconstruction of Nasuport by the British is the first step in this direction, but strong forces of Boers are holed at Colaburg and threaten a further immediate advance from there.

Various officers of the British admiralty have been interviewed by representatives of the Associated Press regarding the London Chronicle's had of assertions, and they say they have not received a single complaint as to the quality of the food furnished on the transports. The chief of the victualling department said:

"The first we heard of the matter was through the press, and though doubtful of its accuracy we have set on foot inquiries on the subject. The only specific instance mentioned is that of the Nubia. We bought large quantities of provisions in New York, but we have there responsible agents, who are not likely to accept rotten meat or meat which has already been refused by other governments. It is understood the term embalmed meats is applied to canned meats. Our supplies are confined to salt meats and pork packed in casks, commonly known as 'salt horse,' the same as served in all the navies of the world for years past. We have not so far heard a word against this form of food, and judging from the health of the men in the United States navy during the war with Spain it must have agreed pretty well with them. It is barely possible that our soldiers who are not accustomed to salt food, are not altogether satisfied with this diet, and are perhaps inclined unofficially to declare it unfit for consumption."

"We have yet to learn that the provisions purchased in the United States are not all as represented and though investigating the allegations we have no reason to suppose we will discontinue purchasing in the United States when circumstances demand outside supplies."

A CARDSTON TURNIP.

Mammoth Cruciferous Product Brought Home by Apostle Clawson.

Apostle Rudger Clawson who has just returned from an extended trip to Canada, is enthusiastic over the advantages the Alberta region offers to the prospective home-seeker. It is, he says, a splendid country—the best he

knows of for settlers—and far superior to what the Pioneers found in Utah.

Alberta now has about 3,000 "Mormon" settlers who have been raising very good crops. As an illustration of what is produced in the vegetable line he showed a "Nears" representative a Cardston turnip. It was by far the largest the newspaper man had ever seen. It weighed four pounds two ounces and measured twenty-six inches in circumference. This, said Mr. Clawson, was but a fair sample of the general yield there this year, produced from seed dropped into sod of one year's plowing. Other vegetables grow in proportion. He cited an instance that came under his observation where a single cabbage—with the usual complement of other edibles—made up a meal for twenty-five persons.

The country round about Cardston is excellently adapted for the raising of cattle as the grass is very luxuriant and is cut from the ranges in great quantities.

Mr. Clawson says he expected to find the wind a great drawback there. But during his two weeks stay he said it was even less than here, though he saw one "good strong blow" before coming away. In winter these chinooks occur frequently and cut down the deepest snows in two or three days.

The big fifty mile canal, while not complete, has been finished so far as the contract of the "Mormon" people is concerned. They encountered a great deal of gumbo in the construction work. Gumbo is a black, wet clay close resembling India rubber and "comes up" in solid lengths when the plow is put into it.

PAT O'CONNER HELD.

Pleads Not Guilty to the Charge of Housebreaking—Other Cases.

After the heavy day of yesterday there was comparative calm in the police court this afternoon.

Pat O'Conner was arraigned for entering room No. 15 in Ford's hotel and stealing some clothing, the property of C. E. Houder, a boarder at that hotel. He pleaded not guilty to the charge of housebreaking and the hearing was set for two o'clock tomorrow afternoon. In default of \$750 bonds, he was committed to the custody of the sheriff.

The hearing of the police court cases developed a solitary and forlorn drunk in the person of D. C. Mathis, a railroad man.

"Drunk!"

"Oh, I took a little too much."

"Overestimated your capacity, eh?"

"Yep, but it is my first offense, your honor."

"Well, go, and don't let it occur again."

Mathis gave vent to a gasp of relief and ambled towards the door.

Jack Strom and J. Jacobson, who were released on \$5 bail this morning, failed to materialize, accordingly the \$10 was declared forfeited.

The case against Mrs. Dudley for keeping a dog without a license was dismissed on the motion of the prosecuting attorney.

The company owns, at the corner named, 151 1/2 feet fronting south on Second South, extending from the Board of Trade building to the corner on the West. The building is to have a stone basement and the upper stories will be built of brick, the whole being completed by the 1st of April.

The premises are at present occupied by Frank Hoagland's second hand store, but arrangements have been made to have him vacate them by Dec. 1, even though it becomes necessary for him to auction his goods in order to dispose of them.

Plans will be drawn at once and bids will be obtained in accordance with specifications furnished. The construction of the buildings will be carried on under the direction of the cashier and executive committee of the bank.

M'DONALD HELD.

Goes to Jail to Answer to the Charge of Burglary.

The preliminary hearing of Franklin P. McDonald, charged with burglary, was held before Justice Sommer this morning. The accused sent for Attorney P. P. Christensen to defend him, but that gentleman emphatically declined to associate himself with the case. McDonald said that he was tired of the whole business and would conduct his own defense. The case then proceeded, W. T. Gunter representing the State. The first witness was Mrs. Agnes Jones, who testified that on the night of November 13 her place was broken into and \$250 taken. John D. Brown testified that he drove McDonald out to the Jones place in a hack on the night of the 13th. McDonald paid him \$2 for the trip and told him to keep quiet. The testimony of Mrs. R. F. Aveson was that she saw McDonald pass her place the evening of the 13th, about 7 o'clock, going in the direction of Mrs. Jones'. The case was submitted without argument and the defendant was held to await the action of the higher court.

NARROW ESCAPE.

Man Who Boards Moving Street Cars Still Lives to Tell Tale.

An unknown gentleman had a narrow escape from death while attempting to board car No. 14, on the Third street line, at the corner of L street, at 9 o'clock this morning. The individual in question essayed to swing on to the front platform with easy grace while the car was in motion, with the result that the grip caught his shoulder and he was thrown with considerable force forward, in front of the moving car. Motorman John Davis screwed down the brake hard and uttered something which sounded like a remark as it seemed as though the wheels would crush the prostrate man. The gentleman, however, had presence of mind to roll over, consequently the front wheel missed his head by a couple of inches. Instead of being thankful for his deliverance, the muddy individual got mad and refused to divulge his name and rode down town in stately silence.
