

## WITTE AND ROSEN VISIT WASHINGTON

Spent the Entire Day in Seeing  
Historic Places in the Na-  
tional Capital.

## LOOMIS ACTED AS CHAPERON.

Capitol and Congressional Library  
Were of Special Interest to  
Them.

Washington, Sept. 10.—M. Witte and Baron Rosen, the Russian peace plenipotentiaries, accompanied by five members of the former's suite, spent Sunday in Washington. They arrived here at an early hour this morning and spent the entire day visiting the historic points in and about the city and left again late this afternoon for New York, from which place M. Witte will sail for Hamburg next Tuesday. While here they were in charge of Acting Secy. of State Loomis and Maj. Charles McSwaley of the marine corps, who at the special request of the president acted as their escorts to the various places visited.

Beginning at the White House, the party in turn went to the Russian embassy, the Capitol, the Congressional Library, Mount Vernon, Arlington and Rock Creek park. As he left for New York, M. Witte expressed to Mr. Loomis his keen appreciation of the pleasure which his brief stay in the American capital had given him. It had been, he said, very interesting and very instructive, and he had been well repaid for the trip. The unique character of Washington in that it was made up largely of government buildings and private residences, impressed him very much, with their wealth of trees and flowers. The weather was very pleasant throughout the day.

M. Witte and his associates occupied the private Pullman car, foliote, attached to the second section of the Pennsylvania railroad train which reached here at 3:30 this morning. The party en route was in charge of J. K. Hard of the firm of J. P. Morgan & Co. After being welcomed by Mr. Loomis, the visitors went to the Arlington hotel, which they made their headquarters while in the city. They remained there until about 8 o'clock, when they started on their sightseeing trip, first for the White House, and then for the tour of Mount Vernon, which was made in automobiles.

At the White House the party was escorted through the various public portions, including the East room and the Red, Blue and Green parlors. Following this there was a hurried dash to the Russian embassy, situated in the beautiful residential section of the city. The house is one formerly occupied by Levi P. Morton, when he was vice president, and it was very much admired by M. Witte.

The visit to the Capitol and the Congressional Library, just across the Capitol square, was of particular interest to the Russians. M. Witte leading the party through the Capitol building and making many inquiries regarding the senate and house chambers. The whole building was thrown open to the visitors, and the oldest guide was assigned to show them the sights. At the Congressional Library the party was shown the method employed for the delivery and return of the books, and for transporting books underground to and from the Capitol building. One of the party remarked that this was one of the most interesting features of M. Witte's visit.

From the Congressional Library the visitors went to Mount Vernon, point first to the navy yard, where about noon they boarded the naval tug Siren. The party arrived at Mount Vernon at

## A SUDDEN TWINGE

Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in the blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

Your Golden Medical Discovery cured me after I had tried dozens of remedies without relief and had almost given up. I had been suffering for five years. Whenever the weather was damp or cold my trouble increased and my joints would be so stiff and sore that I was hardly able to move about. I was advised to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was free and have had no touch of it for the past seven months.

The motive for substitution is to permit the dealer to make the little more profit by the sale of less meritorious medicines. He gives you a good reason for accepting no substitute for "Golden Medical Discovery."

These five, sugar-coated pills invigorate stomach, liver and kidneys. Do not forget the full directions. One or two each day for a laxative and regulator, three or four for an active cathartic. They are always in favor. Put up in vials: always fresh and reliable.

I o'clock and spent an hour and a half going through the mansion and about the grounds. A feature of the stay here was the planting of a fine healthy oak tree on a commanding site on the terrace in front of the mansion overlooking the water. M. Witte and Baron Rosen each planted a tree, and the tree after that had been planted, and the former asked that when it attained growth, some branches of it be sent to him for transplanting.

It was through the courtesy of the ladies of the Mount Vernon Regatta Association, that the buildings were opened today and M. Witte asked that his thanks be sent to them. The trip from Mount Vernon to the National cemetery at Arlington was made in a specially chartered trolley car, and here the visitors remained for some time after which they returned to Washington in automobiles. A trip to Rock Creek park, which took the visitors through the residential districts of the city, ended the trip, after which the party returned to the railroad station and entered their private car, which had been attached to the 10:05 o'clock train for New York. Just before the train started the Italian ambassador, Baron Mayer des Planches, came to the station and held a few moments' conversation with M. Witte.

The presence of M. Witte and party in Washington was not generally known until they had been seen at the city. He was recognized by a number of people. M. Witte manifested a great deal of interest in the children as they gathered at the station at the time the envoys departed for New York and M. Witte acknowledged their salutations and cheers from the platform of his car.

## Tornado in Oklahoma.

Lawton, Ok. T., Sept. 10.—A small tornado passed over the vicinity of Walter, 20 miles south of her last night, killing two persons, and seriously injuring three. The dead were: Mrs. E. M. Childers, John Ross. Several houses were blown down.

## RUSSIAN ARMY'S FIRST CELEBRATION

It is Over the Conclusion of Peace  
And not for a Victory Gained  
Upon Battlefield.

## DRANK ROOSEVELT'S HEALTH.

All Through the Night Soldiers Cheered  
For Him—All Are Now Passive-  
ly Obedient.

Gunshu Pass, Manchuria, Saturday, Sept. 9.—News having been received that peace negotiations at Portsmouth are approaching a conclusion, the core respondent of the Associated Press has made a survey of all the Russian positions from Mongolia to headquarters, the object in part being to ascertain the manner in which the efforts making for peace were viewed by the army.

The negotiations received no official recognition in the field prior to their successful conclusion, the army keeping in a state of preparedness for a battle until the receipt by Gen. Linavitch of a telegram from Emperor Nicholas, declaring that the treaty had been signed and that his majesty accepted the conditions arrived at.

This telegram was officially published in the army newspapers on Sept. 6, and the outlines of the peace conditions were printed in the public press. The officers thereafter observed military decorum in the strictest sense, but the soldiers, with the consent of the officers, engaged in feasting and other forms of celebration. It will be seen, however, before the entire army is fully informed of the conclusion of peace, but the news was discounted long since by the prevailing conviction that since the appointment of the plenipotentiaries peace was a foregone conclusion.

It may be said that to the great majority of the officers and men so far informed the news that the war is at an end is most welcome.

Thousands are still drinking to the health of President Roosevelt. The correspondent, who is the only remaining foreign newspaper man with the Russian army, was everywhere asked by the men if he was an American, and on being answered in the affirmative they captured him and held him for some time after which they returned to the Cosacks, while their officers gently protested against the seemingly questionable form of their admiration.

Everywhere along the railway where newspapers could be obtained the soldiers read the news and they expressed their joy by singing which they continued late into the night at intervals cheering for President Roosevelt.

With the exception of the loss of a captain and two orderlies on the east front within the past two weeks, there have been no casualties. The cessation of hostilities was preceded only by unimportant reconnaissance movements and small parties of scouts. Care has been taken to prevent further loss of life.

Giving to the enormous tract of country east of Hailung Ching and between the Russian lines along the Vladivostok railroad and the Japanese position in the Kwantung River, it will require some time to reach all the elements operating in the interests of both armies and in restraining the regions around by both backs to order.

The officers are holding races at Tser-shu and at other places. The Fourth Siberian army corps, which was a conspicuous part throughout the war, was reviewed Sept. 8 by its commander, Gen. Zaroubaleff, who has won high fame throughout the Russian army for his part in the battles of Tachekiao and Liaoyang, in the protection of Mukden and in the retreat from the place. He is quoted as among the first who will return home.

The disability of Gen. Linavitch will leave soon. The general staff is engaged in plans for expelling the commanders throughout the army preparatory to evacuation.

Among the soldiers generally there is a feeling of apprehension regarding the internal affairs of Russia, and many of them have expressed a desire to remain in Manchuria or in the Kwantung, and a small party of changing the conditions of peace, surrender two complete positions with field works of vast extent and even more intricate than those of Japan, and in positions of great strength protecting its communications; but notwithstanding this, the consensus of opinion among both officers and men is generally prevailing sense of the remarkable fairness of the conditions by which a terrible conflict has been brought to close.

The advocates of further fighting, however, seemed to be convinced that the flower of the Japanese army had been leaving only old reservists and inferior recruits, while the constant strengthening of the Russians with young recruits they feared gave them a large balance of power which would have enabled them not only to fight on more ground, but to enforce peace thereafter. The impression prevailed among these advocates that the army was nearly twice its real size and their feeling of strength was due to this exaggeration of the facts.

Since the reception of the emperor's testimony to the bravery and self-sacrifice of the soldiers and the declaration of the final acceptance of the peace terms the army has become obediently passive. All peace news except that direct from the ministers of the emperor is placed at the end of the dispatches printed in the army publication. This is given as little prominence as possible.

## STARVING AND DYING.

Such is the Word That is Tele-  
graphed from Baku.

Tiflis, Sept. 10.—The governor of Baku reports that famine continued last night and today, though on a small scale, and that few were killed or wounded. The troops and police, he says, are still engaged in preventing incendiarism and pillaging. The director of the Technological Institute at Baku telegraphs, saying: "We are starving and dying," and imploring the dispatch of necessities.

The worst news today comes from the Zangezur district, where it is reported that many Armenian villages were wiped out and hundreds of persons killed. Help is being sent to the districts from the military centers. The whole of the Tartar pop-

## TEA

The most significant word  
between you and your grocer  
is moneyback.

Signifies fairness.

Your grocer means you money if you don't like his goods.

ulation has risen and has been joined by 1,000 armed Kurds from the Persian bank of the Alas river. The victory has been attributed to the Persian authorities. Gen. Sharukhin has ordered the governor of Elizabetopol to investigate the truth of accusations against some of the cooperating with the insurgents. It is reported that the Armenians and Tatars in Shusha have been reconciled. The Persian population has been disarmed and that the foreign residents have returned to their homes. Gen. Takatschvili telegraphs that the disorders are decreasing.

## PEOPLE OF CALABRIA ARE STILL TERRIFIED

They Are Sleeping in the Open Air—  
Great Caution Necessary in Search-  
ing for Victims.

Rome, Sept. 10.—Further slight earthquake shocks have caused much terror among the inhabitants of Calabria. The damage, however, was insignificant, although the disturbances affected a more extended area, reaching Sicily and Naples. The activity of Mount Vesuvius increased, while the violent eruption of the ancient crater of the island of Stromboli is still in progress.

Minister of Public Works Ferraris is making a minute personal investigation of the cause of the disaster, visiting even the smallest hamlets in the stricken provinces and carrying funds and material for the immediate relief of the starving and ill-fed people. Everywhere he is met by crowds who appeal to him for aid.

Despite the efforts of the authorities, many persons have not yet been reached owing to the difficulty of bringing sufficient supplies. The relief trains, which are carrying food, clothing and medical supplies, are compelled to proceed slowly owing to the fact that great fissures have been caused at many places along the railroad tracks by the shocks.

Everywhere in the disturbed district the people are sleeping in the open air, even in places where the houses are safe. The population appears to have been stupefied by the catastrophe. The greatest caution is necessary in the search for the victims, as the walls are continually falling. Soldiers, citizens and doctors are working heroically, but they have to be frequently relieved because of nervous breakdown resulting from the horrible sights encountered by them.

Along the Gulf of San Stefano, facing the island of Stromboli, all the picturesque villages are totally ruined and many of them may not be rebuilt, because the surviving inhabitants have resolved to emigrate to the United States. Most of the deaths occurred among women and children, the men working, as they were at work in the fields when the principal shock took place.

King Victor Emmanuel and the Duke of Aosta will arrive at Monteleone tomorrow, where they will be met by Minister Ferraris.

The pope has been deeply affected by the disaster and has instructed the bishops and other churchmen to afford every possible aid.

Funds are coming in rapidly from all sources, both public and private. The ministerial council has voted \$50,000 for the relief of the sufferers, and President Forth has personally given a similar sum.

President Loubet and Emperor William have telegraphed the king expressing their deepest sympathy.

## MARKEL'S MEALS CONTRACT.

It Will Amount to About \$6,000,000 and Not to \$50,000,000.

Omaha, Neb., Sept. 10.—J. E. Markel, to whom has been let the contract for feeding the Panama canal, said today that he was not surprised to know that other bidders for the Panama contract were dissatisfied, but stating that everything in connection with the letting of the contract was open and above board. He made this statement to a representative of the Associated Press.

"I presume that some of the rival contractors who made bids were disappointed in not securing the job. That is the only explanation I can give for their making charges of unfair dealing. Every detail of the entire transaction was open and above board, and all the papers are on file in New York, where they may be examined by the public at any time. There was not a suggestion of unfairness or dishonesty connected with the letting of the contract from beginning to end, and any statement to the contrary is absolutely absurd and maliciously false."

The statement that the contract would amount to \$50,000,000 is wrong. It will amount to about \$6,000,000 a month, or from \$18,000,000 to \$20,000,000 a year, for five years, which is the life of the contract. We will have 150 to 250 persons, and about 1,500 white men and 5,000 colored laborers will be supplied. The railroad will construct the hotels, 10 in number, two of which are now in operation, and two more nearing completion. I shall leave for Panama Sept. 28 and take with me several of my railroad eating house superintendents."

## EX-MILLIONAIRE SUICIDES.

Chicago, Sept. 10.—Ruined by disastrous financial ventures, Brewer Butcher, a large millionaire of Western Springs, Ill., committed suicide here today by inhaling illuminating gas in a roominghouse in Indiana avenue. Butcher came to Chicago five weeks ago, since when he has been speculating heavily on the board of trade. Two
