#### SOME REMARKABLE **RELIGIOUS DEMONSTRATIONS**

New York, July 27.-One of the most remarkable religious demonstrations ever witnessed in this country has been brought to a close in the Roman Cath-ollc church of St. Jean Baptiste, in East Seventy-sixth street, where, in a little silver case, are treasured two small bones that are believed to be from the wrist of St. Anne, mother of the Virgin Mary. On the first of the nine days of the Novena remarkable cures were reported, among them being a woman who is said to have regained her sight. This and many reports of similar miracles caused the little church to be besieged day and night by the lame and the halt and many pitiful scenes were witnessed. Believing par-ents carried to the shrine children who had been ill from birth; others brought men and women so crippled that they could not walk, and scores of the blind were led to the altar rail to kiss the little silver case and frequently utter their prayers to St. Anne for deliver-

ance from their physical woes. The rush of supplicants became so great that special details of policemen formed the crowds into lines and were always present at the church to pre-serve order. Many persons seeking to be cured came from distant cities, and hundred some from distant cities, and hundreds came from adjacent localities.

"Mrs. Hollister will hold her office for the next three years, and we are certain that before her term expires we shall have been successful in our long fight against Mormonism and polygamy," she continued. "Our seventh triennial meeting will find no Mormon delegates present. The

anti-Mormon element is in control now, and nothing can keep the pro-polygamy organizations within our ranks We refuse to be disgraced by such connections any longer."

#### HIGHLY IMPROBABLE.

Knowing Mrs. Hollister perfectly as she does, having been intimately asso-ciated with her in the order of the Maccabees for some time past, Mrs. Locke says there is not the slightest ground for thinking that Mrs. Hollister will ever act in anything but the broadest spirit. "She has been noted for that as Supreme Commander of the Maccabees, and now that she has been raised to the position of president of the National Council I look for nothing different."

A prominent member of the National Council of Women who was present said: "It is highly improbable that Mrs. Hollister will take any action against the Relief Societies and the Young Ladies' Mutual Improvement associations of the Mormon Church. One of the articles of the Constitution of the National Council of Women reads:

"This council is organized in the interest of no one propaganda and has no power over the organizations which constitute it beyond that of suggestion and sympathy; therefore no society voting to enter this council shall there-by render itself liable to be interfered with in respect to its complete organic

unity, independence or methods." If that means anything it means that the societies of the Mormon Church will not be interfered with in spite of

The talk by Mrs. Grannis. It is a well known fact, which she has never attempted to hide, that Mrs. Grannis has always been opposed tooth and nail to anything Mormon. The in-terview in the Tribune is said to be in keeping with her methods all the time, where anything Mormon is concerned.
