As a committee of the Presbyterian Church in Salt Lake City. The appeal is for contributions in money in behalf of "the poor, deluded, downtrodden women of Ulah," which very much excited our curiosity (you know woman is proverbial for curiosity) to know who those dolorously described women were, and where they could be found. It has been admitted that there are three kinds of poor in society, to with

Their recent ap-pointments to the elective city offices is are mostly office holders under the former administration, and it is now openly charged, on the street and in the papers, that these appointments are mostly of free holders under the former administration, and made by the ring in the council, who set a certain price in the council, who set a certain price on each office, and made the candidates pay before the election.
