Attempting to Create at Home And Abroad Impression That Crisis Has Passed.

OLD METHODS ARE APPLIED.

Most Dangerous of Revolutionary Leaders Have Been Placed Behind the Bars.

Generally Admitted Blunder Was Made In Not Arresting Members of Outlawed Parliament.

St. Petersburg, July 26 .- The govern. ment is using every neans at its disposal to create the impression both at home and abroad that the crisis has been successfully passed and that the probability of a general upheaval has disappeared. The semi-official press is filled with comforting assurances that the government now has a firm hold of the situation and that the confusion and demoralization in the counsels of the opposition political organi. mations, produced by the coup d'etat, render united action impossible. Moreover, the official reports seek to create to impression that there has been lite response among the masses to the plan for a general strike as a preliminary to a universal uprising. The apnlication of the old methods, the govconfidently asserts, has already landed the most dangerous of the leaders behind the bars and much stress is laid on the importance of the capture of a number of revolutionary ringleaders at Moscow, which it turns out, was the result of information ob-tained at the time of the capture of the officers of the Misla here. Among the papers then selzed, the government claims, were the complete plans of a revolutionary military organization, which enabled the authorities to close organization, volutionary the revolutionary channels to the army. The government's sudden access of optimism, however, is in reality traceable to the consternation over the disastrous fall in Russian securities at home and abroad. The one thing which the government cannot do with. out is money and whatever the response to the outlawed parliament's appeal to the people to refuse to any longer pay taxes, the whole future depends on the ability of the government to continue its foreign loan operations in the

To the handsome furnishings of the Salt Lake Elks' clubhouse on State street will be added the beautiful sil-ver elk, worth at least \$1,000. The above dispatch is indeed good news to the local antiered herd, and it is especially gratifying to Secy. A. W. Raybould of "85," who worked night Raybould of "85," and day to capture the big Elk prize, agerly sought for by other lodges. The first infimation that Sali Lake had been successful in this matter was conveyed to Mr. Raybould this morn-ing by the Deseret News. To say that e was pleased is to put it mildly. He danced a horn pipe and shouted with joy. Then he rushed about to spread the good news. While in Denver Mr. Raybould hard-

by left the Savoy hotel where "\$5" had headquarters. For days he was busy issuing identification cards to the ladies. He issued over 100 the first two days and then ran out of cards. But other arrangements were made with the executive committee so that every assisting in represent Lake lodge was registered. The total number of the fair sex present was between 123 and 150. On the big special train going over there was fully 100 Others went on the scenic limited and on the regular train.

The second instaliment of the big loan tegotiated prior to the assembling of quick get away, parliament is due Aug. 1 and the outlook in Russia has frightened the hold ers into refusing to pay in any further cash. The situation has evidently caused quite as much alarm among the financiers who underwrote the loan abroad as it has at the treasury here. nance Minister Kokovsoff has been imharded by telegrams from French English and German bankers urging on the necessity of supporting the market. This accounts for the a ivit: of the government bankers in bidding up prices on the Bourse here and at loscow yesterday, as well as for the yes view of the future sent abroad by the Official Telegraph Agency last night under M. Kokovsoff's inspiration As a matter of fact, the government can hardly be blind to the evidence un der its nose that it is living over a volcano and that the danger of an cruption is far from ended.

REVOLUTIONARIES CONFER.

For the last 48 hours the central mamiltees of the Social Domocrats, Social Revolutionists, Peasant League Ballroad Men's union and Telegraph-ers' union and the military committee have been conferring both separately and jointly with the parliamentary groups, not only on the question of calling a general strike, but actually on the question of attempting a counter cour d'etat by setting up a provisional gov No final decision has ye ernment. in taken, but practically all the prostariat organizations, including that of the railroad men, but excepting the telegraphers, have already pronounced in favor of this step. The members of the Group of Toll and Social Democrais of the outlawed parliament ve that another course is open and irrevocably committed on the surface, with the Constitutional Democrats, to discountenancing any active revolu-tionary step but secretly they have agreed to support or join in it if it hunded of them met last night in inland, under the presidency of Prof. Milukoff. Conferences will be held by opresentatives of other groups this afternoon and the possible extent of the support which a revolutionary movewill receive from the army is therefore vital. At Helsingfors, Finund. Tuesday night, 1,500 soldiers and sailors of the garrison took an oath to fight on the side of the people.

GOVERNMENT'S BLUNDER.

It is quite apparent to disinterested the observers of the situation that the covernment in entering on its present policy made a perhaps fatal blunder in lacking the hardthood to arrest the members of the outlawed parliament. In its desire to "save its face" it fear-id to go further than prohibiting the Publication of the address of parliament to the country and preventing the members from giving public ac-counts of their stewardship to their constituents. But this decision only the members of parliament pertonally free to conduct a conspiracy scalnst the life of the government. When the plot is complete and the signal has gone forth arrests will be ind that it acted too late in closing political clubs which has been folformed by the closing of all the work-men's unions and suspected tea tern's unions and suspected tea-houses. The prefect of police has is-siled another proclamation warning the population that persons guilty of armed resistance to the authorities of police. olice, or of attempts to commit po-tical crimes will be given over to the ader mercles of military courts martial while lesser offenses, like partici-pation in the formation of leagues, in. ble administratively without trial, litthia i fine of \$1.500 and imprisonment of from three to six months.

SOUTHERN PACIFIC DOESN'T GRANT DEMANDS.

San Francisco, July 20.-The statement

San Francisco, July 21.—The statement given out by men claiming to represent the striking warehouseman in Oakland yesterday to the effect that the Bouthern Pacific company had agreed to the de-mand of the men is declared by officers of the railway to be entirely false. Gen.-Supt. W. S. Palmer of the Bouthern Pa-fic made the following statement today: "The statement that we have railed the wages of freight handlers in Oak-land is false. The men who have been mentioned as having settled the difficulty with us were as a malter of fact dis-charged by the freight handlers yester-day as a committee requested a spe-cial conference in reply to a notice which had been sent to the men by myself and Supt. Scott early yesterday morning that we could not treat with men who had left our employ, but that their pos-tions were open for them to return to work at the wages they had been receivtions were open for them to return work at the wages they had been re-ing. Because of the change in com-ters Mr. Scott was authorized to them, with the result that the menthem, with the result that the men vol-untarily returned to work at the old wages. The question of overtime was nee-discussed. The question of wages will be given consideration by our company a officers and a definite reply made thereto on the 1st of August. There was no prom-ise or even inference of a change in the wage schedule. The men on our trans-fer platforms are mostly old employes, loyal to their work and to the company, and the unexpected walkout of the men at the Kirkham street station without ally notices to us, we have reason to be-lieve, the result of agitation of employes, who have been with us but a few weeks.

Here, the result of agitation of employes who have been with us but a few wreeks. "The reports about trouble with on-switchmen are false. They are living up manfully to their agreement which we have with the Brotherhood of Railway Trainmen. They have placed in the hands of that organization certain ques-tions relating to the readjustment of wage schedules and the subject will, of course, be taken up with us in the usual course in accordance with our agree-ment."
