# **BIG MONEY IN** BANANA GULTURE

Itah and Idaho Capitalists Apparently Have a Good Thing In Old Mexico.

HANDSOME HEADQUARTERS.

Montezuma Orange and Banana Company Occupies New Offices in The Dooly Block Today.

Salt Lake has been recognized for years as the financial instigator of enterprises involving horticultural and agricultural undertakings until today they can be encountered north of the Canadian line and south to the shores of the Gulf of Mexico, and even further. Today handsome new quarters have been opened in suite 309 Dooly block

for a corporation which has to date been hiding its light under a bushel. Judging from external evidences there is money in tropical agriculture, even in its incipiency, if nandsome office furniture and appointments are any criterion.

CAPITALISTS INTERESTED.

The corporation which has taken the new quarters is the Montezuma Orange and Barana company, the pio-neer of the various tropical fruit propneer of the various tropical fruit propositions, which have been so successfully launched since the Spanish-American war, Utah men are interested in it and are backing their faith in substantial fashion. At its head is H. L. Griffin, the big fruit and commission man of Ogden, who has the reputation of knowing more about the banana in all its various forms than possibly any other wholesale dealer in this or contiguous states. Associated with him are such names as W. S. McCornick, John Shelley, the Idaho banker; Mat Thomas and others who have invested. have invested.

"HARVEST CERTIFICATES. "

"We have several splendid agents in the field," was the announcement of Frank J. Fullmer, the secretary of the Montezuma Orange and Banaca company this morning. "There are a number of corporations which have holdings in the vicinity of the port of Transfer near which our plantation." of Tampico near which our plantation is located. We were the pioneers in that rich section and today we have a that rich section and today we have a larger acreage inder cultivation and more plants growing on the land cleared than any other company operating in Mexico from this side of the line. At present there is a great demand for our harvest certificates, as well as stock." Then Mr. Fullmer marshalled his data, all of which is shortly to be incorporated in a high art booklet with a special design upon which M. M. Young, the clever young Salt Lake artist, is now at work, and proceeded to demonstrate from consular, government and specialists' reports that after the first harvest the income from a sinment and specialists' reports that after the first harvest the income from a single acre of land fringing the Tamesi river that has been planted with this tropical fruit should be from \$150 to \$225 an acre each year—and the investment of \$250 secures the ownership of one acre of bananas entitling the owner to 8 per cent per annum the first year, and also to 90 per cent of the net proceeds of every harvest thereafter—why, it had gold mine stocks beaten a city block, and Salt Lake City blocks are the longest in the world. blocks are the longest in the world.

#### UP TO DATE METHODS.

Then the secretary launched into further detail and told what a good man the company had secured to operate the plantation and how a system of monthly field reports had been inaugurated so that the members of the company were kept constantly posted company were kept constantly posted and how plats of the properties duly and how plats of the properties duly blocked out were in course of being drafted so that each person interested could have monthly demonstrations of the work accomplished without the trouble and expense of a personal in-spection. The mental picture conjured in of banana bunches orange groves. ip of banana bunches, orange groves, pincapples and all kinds of vegetables and tropical fruits flourishing at Christmas time made his auditor contract "wanderlust" and desire to pack his grip and hie south to the tur-quoise-blue Gulf of Mexico.

In the meantime there is a little crowd of Utah and Idaho people now actively demonstrating to the languideyed Mexicans that there are stacks of neglected from the days of the Aztecs.

#### IT DOES THE BUSINESS

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and it cured them. Used it for piles and it cured them. Used it for chapped hands and it cured them. Ap-plied it to an old sore and it healed it without leaving a scar behind." 25c. at M. I. Drug Dept., 112-114 Main, Salt Lake City.

#### FOR DETENTION HOME.

Project Taken Up by Ladies' Literary Club-Letter to Mayor.

The Ladies' Literary club, which has accomplished many of the things they set out to get, has taken up the matter of providing a detention home for lined to waywardness without being clined to waywardness without being thoroughly bad. There are many such children who come before the juvenile court, but whose cases are due rather to unfortunate conditions in the homes of the children, than to their inward desires for wrongdoing. The work of the court has been hampered by the lack of such a home, but all former efforts to secure the detention home have proven futile.

Mrs. A. J. Gorham brought the matter to the attention of the club yesterday. The project was discussed in all its phases and the secretary of the club

its phases and the secretary of the club will address a letter to Mayor Brans-ford upon the subject and will urge him to take such action as will result junct to the juvenile court

### "A FEW SHORT YEARS AGO."

Soliloquy of An-Also\_Ran Regarding a Has-Been in the Senate.

Just to show how badly some people an write poetry and how little they regard "The Poetaster's First Principles," the following alleged "pome" was received through the mail from a well known businessman of this city, who unblushingly lays claim to the authorship. It is herewith reproduced as a horrible example:

I rambled thro' the senate, Tom, I sat in your old seat
That used to be headquarters for meat
—just meat;
But none were left to greet me. Tom,
and few were left to know,
Who wrestled with us on the flure a
few short years ago.

"Untoirin' inergy's" dead, Tom, bald-head guys in herds Acted just as though Tom, they'd never heard your words;
Fred Dubois sleeps in maho, which,
covered o'er with snow,
Afforded him a sliding place a few short months ago

bill-mill grinds the same, Tom, the grabs on the inside the grabs on the inside

Are fatter than they were, Tom—I
thought I would have died.

Doc Jones is now a has-been, Tom,
you know you loved him so,
He couldn't stand the pace you set a
few short years ago.

Your friends, the Filliponies, Tom, are still the standing joke.

And the Islands of Alaska, Tom, make countless thousands croak;

Folks roar when you are mentioned.

Tom, no matter where I go,

They counted you the limit, Tom, a few short years ago.

Near the White House on an elm, Tom, you know you cut your name,
Perry Heath's beneath it, Tom;
he did yours the same;
heartless wretch has peeled the
bark, 'tis dying sure but slow,
''inflooence'' went groggy, Tom,
a few short years ago.

My throat was fearful dry, Tom, but tears gushed from my eyes,
As I thought of how the cogs slipped—those early broken ties;
I wandered to the morgue, Tom, and shook flowers to and fro
On rigid stiffs of the blasted hopes of

several years ago. Some are in the swim, Tom, some are

some are in the swim, form, some are still at sea;
But few are left of our old gang, excepting you and me;
And if our time should come, Tom, and we are called to go,
I hope they'll land us where we were a few short years ago.

#### THE SMOKE NUISANCE.

Local People Claim They Can Obviate A Great Part of It.

Recent articles in the "News" regarding the smoke nuisance have created muh discussion. This paper is in receipt of a letter from Mr. Wm. Waterfall, representing the Stoker Smoke & Fuel saving device, who states Smoke & Fuel saving device, who states that if the proposition his company now has before the city council is adopted, from 75 per cent to 90 per cent of the smoke can be done away with and a saving made in coal. The company claim to have their device at work in the Constitution building, the Manitou hotel, the Jennings building, the Royal laundry and other places where the merits of the device can be inspected. inspected.
