

## SAMPSON ON MACLAY'S HISTORY

May Possibly Be Responsible For  
Some Statements.

### SCHLEY REMAINS SILENT.

How Time He May Talk—Work Has  
Not Been Adopted at Annapolis Academy.

Boston, July 22.—Referring to Mac-  
lay's naval history, which has been cri-  
tiqued by Secretary Long on account  
of statements considered objectionable,  
Admiral Sampson, in an inter-  
view published in the Transcript today,  
said:

"In one way, possibly, I was respon-  
sible for the statements made in the  
history. I was commander-in-chief of  
the squadron and was responsible, so  
far as reading the proofs go. If the  
history has taken facts from my official  
reports to the naval department,  
that is all well and good. I stand by  
first reports and official communica-  
tions."

"I would welcome an investigation  
of this whole matter by Congress, but  
the navy department, but I see no hope  
of its being taken up."  
Schley's statement regarding  
the battle of Santiago, continued, the  
admiral, "was moderate" correct. The  
interview given out some time after-  
wards were not at all correct. They  
were entirely different from his first  
accounts, and were written in a differ-  
ent spirit, I think. An interview pur-  
porting to have come from Admiral  
Schley, published on January 6th, was  
entirely incorrect. Soon after this  
statement appeared in print, the  
admiral said to me that he had pub-  
lished Admiral Schley's words practi-  
cally as they had been spoken."

### SCHLEY REMAINS SILENT.

New York, July 22.—Admiral Schley  
was seen tonight at Green Neck, L. I.,  
where he is at present stopping. He  
declared he would have nothing to say  
at present, no matter what was said  
by others regarding MacLAY's history.  
He added that later, when others had  
said all they wanted to, he might issue  
a statement, but that this was uncer-  
tain.

### NOT YET IN NAVAL ACADEMY.

Washington, July 22.—Commander  
Wainwright, commandant of the United  
States naval academy, under date of  
July 20th, has made an inquiry concern-  
ing the navy department's inquiry con-  
cerning the use of MacLAY's history.  
"There has been no proposition to  
adopt this third volume as a text book  
or reference book, either from the head  
of the department of English, the acad-  
emic board or any persons within my  
knowledge. There is no intention here  
of requiring the cadets to study the  
history of recent events, as in the  
Spanish-American war, and their time  
is too limited to require them to study  
a full volume on any one war."

### BEAUTIFYING WASHINGTON.

American Commission Now in Eng-  
land Studying Parks.

London, July 23.—The American com-  
mission which has been seeking inspira-  
tion abroad for various practical  
plans of beautifying Washington has  
returned from Oxford, and will continue  
its investigations of some of the most  
beautiful English gardens and parks,  
says the London correspondent of the  
Times. Messrs. Burnham, McKim,  
Olmsted and other members of the  
commission will go to West park at  
once under the guidance of Henry  
White. This is Earl Cowper's country  
seat in Bedfordshire, where there are  
double avenues of elms and Spanish  
chests of great beauty approaching  
the house and crossing the park to the  
different lodges. There are also fine  
avenues of lime trees and hedges of  
clipped yew, and extensive gardens and  
pleasure grounds. The commissions  
will be driven through the beautiful  
park and entertained on the grounds,  
and on the following day, by the invita-  
tion of Lord Salisbury, will visit  
Hatfield, Mr. White having made ar-  
rangements on Monday for its recep-  
tion during his visit there. The com-  
mission will sail for America on the  
Deutschland on Friday, after an ex-  
tended journey undertaken in Europe  
in the interest of landscape art in the  
District of Columbia.

### WAR ON MOSQUITOES.

New York Post Health Officer to Ex-  
periment on Staten Island.

New York, July 23.—The health officer  
of the port, Dr. Doty, has decided to  
take hold of the mosquito question in  
Staten Island and attempt the exter-  
mination of the pests. A part of the  
island adjacent to the quarantine sta-  
tion has been selected for the test. Dr.  
Doty says:

"We have been at work for the last  
year in our laboratory on the mosquito  
larvae in order to determine bacteri-  
ologically what can be done. First to  
determine if the insect produces mal-  
aria, second, if so, can malaria be pre-  
vented by the extermination of the mos-  
quito, and third, if so, can malaria be  
prevented by the extermination of the mos-  
quito. In its larval stage, the test I have  
determined to make will be applied to  
a part of Staten Island adjoining our  
quarantine station and opposite to the Quarantine  
island, in extent about three miles by  
one and one-half miles. The boundaries  
of this district are, New Dorp Lane, Rich-  
mond Road, Vanderbilt Avenue and  
New York Bay. All the swamps, ponds,  
marshes and wet places will be inspec-  
ted by men from our laboratory to de-  
termine just where the possible breed-  
ing places are situated. The mosquito  
larvae will be taken in such places  
and will be examined to determine  
the presence of malaria. Local  
physicians will be asked to co-operate  
in reporting all cases of malaria. All  
suitable co-operation of citizens will  
be requested. In the treatment of  
breeding places petroleum is an im-  
portant factor. The test is in lar-  
vae and our quarantine work, as the  
quarantine hospital for yellow fever is ad-  
justed to the district selected for the  
test."

### OLD BANK NOTES SWINDLE.

Those of State Bank of Brunswick,  
N. J., Fifty Years Old, Issued.

Washington, July 22.—Chief White of  
the secret service has received a num-  
ber of bank notes printed from the  
original plates used by the state bank  
of New Brunswick, N. J., over fifty  
years ago. The bank went out of ex-  
istence some time in the steel plates from  
which the notes were printed were de-  
stroyed. It seems, however, that these  
plates have fallen into the hands of  
some one who has printed from them  
a number of notes which have been  
put into circulation from New  
York to San Francisco. A very large

## A JUDGE'S WIFE CURED OF PELVIC CATARRH.

She Suffered for Years and  
Felt Her Case Was Hope-  
less—Cured by  
Pe-ru-na.

Mrs. Judge McAllister writes from  
1217 West 3rd st., Minneapolis, Minn.,  
as follows:

"I suffered for years with a pain in the  
small of my back and right side. It in-  
terfered often with my domestic and  
social duties and I never supposed that  
I would be cured, as the doctor's medi-  
cine did not seem to help me any."  
"Fortunately a member of our Order  
advised me to try Peruna and gave it  
such high praise that I decided to try it.  
Although I started in with little faith,  
I felt so much better in a week that I  
felt encouraged."

"I took it faithfully for seven weeks  
and am happy indeed to be able to say  
that I am entirely cured. Words fail to  
express my gratitude. Perfect health  
once more is the best thing I could wish  
for, and thanks to Peruna I enjoy that  
now."—Minnie E. McAllister.

The great popularity of Peruna as a  
catarrh remedy has tempted many  
people to imitate Peruna. A great many  
so-called catarrh remedies and catarrh  
tonics are to be found in many drug-  
stores. These remedies can be procured  
by the druggist much cheaper than Pe-  
ru-na. Peruna can only be obtained at a  
uniform price, and no druggist can get  
it a cent cheaper.

Thus it is that druggists are tempted  
to substitute the cheap imitations of Pe-

percentage of the notes so far are two,  
although some notes and dimes are being  
sent in.

Inasmuch as the notes are not coun-  
terfeits of any United States note or  
obligation, the makers and passers can-  
not be prosecuted under the United  
States laws, but it is said that they can be  
punished for fraud under the state  
laws. It appears that the notes readily  
pass along the Canadian frontier, as  
the makers think they are the notes of  
the Canadian province of New  
Brunswick, the words "New Jersey"  
being printed in small letters. The  
notes are printed on bond paper and  
are quite as good in every way as the  
originals. It is said that possibly  
\$2,000,000 of these notes are in circula-  
tion.

### HANGED FROM A TREE.

Negro Who Shot Elkins, W. Va.,  
Chief of Police, Lynched.

Elkins, W. Va., July 22.—William  
Brooks, a negro, was lynched tonight,  
being hanged from the limb of a tree in  
the city park. Brooks shot and fatally  
wounded Chief of Police Lilly, who  
sought to arrest him for creating a dis-  
turbance. The negro was chased half a  
mile by a crowd and captured. He  
fought desperately, but could not get  
away.

Brooks was handed over to the  
sheriff, to be taken to the county jail.  
Just as the negro and the sheriff  
reached the prison door a mob of men,  
at least 400 strong, surrounded the  
officers and demanded the prisoner. The  
sheriff and guards refused and made  
resistance, but to no avail.

Brooks was seized and rushed  
through the streets towards the city  
park. When the park was reached the  
men who were leading Brooks told him  
to walk up under a big shade tree in  
the center of the park and prepare to  
die. The negro could not speak and  
seemed almost insensible to what was  
going on. The rope was drawn up and  
in a few minutes the body was swung  
from the tree, lifeless. Then the mob  
dispersed. Hundreds of men and women  
came later and viewed the body.

The body of Brooks late tonight was  
still hanging in the park.

### KIOWA LANDS DRAWING.

Commission to Supervise It to Meet  
in El Reno 26th Inst.

Washington, July 22.—The secretary  
of the interior today announced the  
commission to supervise the drawing for  
the lands of the Kiowa and Comanche  
Indians as follows: Ex-Chief Justice  
Charles D. Dale of Oklahoma, and  
ex-United States District Attorney D.  
P. Dyer of St. Louis. This committee  
has been instructed to report at El  
Reno not later than the 26th inst.  
to arrange details for the drawing to  
begin on the 27th inst.

### ACCIDENT TO A PULLMAN.

Gets Beyond Brakeman's Control  
and Bumps a Train.

El Paso, Tex., July 22.—A serious ac-  
cident occurred on the line of the Mex-  
ican Central near Matamoros about  
11:30 a. m. today, several passengers  
were injured.

### WAR ON MOSQUITOES.

New York Post Health Officer to Ex-  
periment on Staten Island.

New York, July 23.—The health officer  
of the port, Dr. Doty, has decided to  
take hold of the mosquito question in  
Staten Island and attempt the exter-  
mination of the pests. A part of the  
island adjacent to the quarantine sta-

## PROF. KOCH'S GREAT DISCOVERY

Bovine Tuberculosis Not Transmis-  
sible to Human System.

Statement is Authorized.

Meat and Milk of Infected Cattle May  
Be Consumed With Absolute  
Impunity.

New York, July 23.—Professor Koch  
of Berlin, will announce, says a Herald  
dispatch from London, his discovery  
that bovine tuberculosis is not trans-  
missible to the human system. The  
famous bacteriologist in an inter-  
view authorized the statement that he  
has demonstrated that meat and milk  
tuberculosis infected cattle may be con-  
sumed with absolute impunity.

Dr. Allen P. Haight, of Chicago, the  
official representative of the American  
Medical association, said:

"If I had not heard Prof. Koch quietly  
announce his discovery in private  
conversation it would have seemed to  
me absolutely incredible. I can only say  
that Dr. Koch is too profound a student  
and has too much reputation at stake to  
promulgate such a proposition unless  
convinced of its soundness beyond the  
shadow of a doubt. If he is able to  
theoretically demonstrate his claims, his  
practical systems of the world will be  
shaken to the very roots. The word  
revolution but faintly expresses what  
the discovery will precipitate."

English experts talked of the theory  
with mingled astonishment and con-  
tempt, and asserted that the German  
professor would encounter stubborn de-  
bate and learned disproof of his "mad  
idea."

Dr. Reynolds, health commissioner of  
Chicago, when informed of Prof. Koch's  
theory, said:

"The discovery is certainly of the  
highest importance, especially as re-  
gards meat. As far as meat is con-  
cerned I never believed it contained el-  
ements of danger when cooked, and  
therefore the announcement has con-  
firmed my long-held conviction for the  
citizens of the world. As to milk, taken  
in its natural state it is a differ-  
ent proposition. While probably nobody  
is desirous of drinking the milk of tub-  
erculosis infected cows, a great boon would  
be assured if it can be consumed with  
impunity. The discovery will also have  
a practical result in simplifying the  
work of milk inspection, although not  
altogether rendering this unnecessary."

### HAWAIIAN FISH.

Dr. Jordan Discovers Fifty Species  
New to Science.

Stanford University, Cal., July 22.—  
President David Starr Jordan has re-  
turned from his trip to the Hawaiian  
Islands, where he has been for the past  
two months conducting a thorough and  
detailed study of the fisheries and  
fishes of the islands, under the direc-  
tion of the United States Fish commis-  
sion.

About 240 species of fish have thus far  
been collected and classified, fifty of  
which are new to science. A complete  
report of the laws and customs of the  
island relative to fishing is being made  
by J. N. Cobb, the statistician of the  
party. This information, together with  
the results of the scientific work by Dr.  
Jordan, will be embodied in an exten-  
sive report to the government.

### CHILL MOURNS ERRAZURIZ'S DEATH.

San Salvador, July 22.—The govern-  
ment has mourned the death of Presi-  
dent Errazuriz, of Chile, as a national  
loss.

By a recent official decree the  
banks are authorized to receive mort-  
gages as security for loans. The banks  
have abundant reserves of coin.

The coming coffee crop, it is expected,  
will be considerably reduced on account  
of the recent drought.

### CARRIBAN-PACIFIC TRANSIT CO.

Managua, Nic., July 22.—The arbiters  
to whom the matter was referred  
have decided that the Carriban-Pacific  
Transit company, of Liverpool, has for-  
feited its charter of \$4,000,000 and the  
exclusive privileges of steam naviga-  
tion on Lake Nicaragua and the San  
Juan river.

### WILL INCREASE SUGAR TRUST CAPITAL.

New York, July 22.—At a meeting of  
the stockholders common and preferred,  
of the American Sugar Refining com-  
pany, to be held on September 18 next,  
it is authoritatively announced a  
proposition will be made for an increase  
of \$15,000,000 of new stock, one-half com-  
mon and the other half preferred.

### MANHATTAN-BRONX POPULATION.

New York, July 22.—The latest direc-  
tory of Manhattan and the Bronx, just  
issued, indicates a population in the two  
boroughs of 2,675,450, or an increase in  
one year of 23,850 inhabitants. The es-  
timate is based upon the government  
standard of 5 1-10 persons to each fam-  
ily.

### LAKE STEAMER SINKS.

Thirty Passengers Aboard Were  
Greatly Excited but Were Saved.

Chicago, July 23.—A special to the  
Tribune from Saginaw, Mich., says:  
The steamer City of New Baltimore,  
running between here and Tawas, sank  
in the river, three miles from here with  
thirty passengers on board. The boat  
was returning from an excursion to  
Port Huron when it sprang a leak and  
commenced to fill.

Word was sent here by telephone and

### FIVE PEOPLE SUICIDE.

New York, July 22.—Five people com-  
mitted suicide in New York yesterday.  
The extremely hot weather is believed  
to have caused the increase in the num-  
ber of suicides recently.

### TUBERCULOSIS CONGRESS DELEGATES.

London, July 23.—Sir James Blythe  
entertained a number of delegates to  
the Tuberculosis congress at dinner last  
night at his residence, 33 Portland  
Place, where they met the Duke of  
Cambridge. The guests included the  
Duke of Northumberland, Earl Cadogan,  
Lord Derby, the lord mayor, Lord  
Strathmore, Lord Mount Royal, Dr.  
Charles Denison of Denver and Prof.  
Osler of Baltimore.

### MACHINISTS WILL RETURN TO WORK.

Seattle, Wash., July 23.—Twenty-five  
machinists in the employ of the Pacific  
Coast company, who left their positions  
when the local Machinists' union or-  
dered a strike last May will return to  
work tomorrow, an agreement having  
been reached between the men and  
President Carroll. The terms of the  
agreement have been kept secret, but it  
is generally understood that there has  
been a readjustment of the scale of  
wages of the machinists satisfactory to  
the strikers and to the executive com-  
mittee of the local Machinists' union.

### THREE-MASTED STEAMER ON FIRE.

Victoria, B. C., July 22.—The master  
of the steamer Nell, which arrived here  
reports that ten days ago when he  
was waiting for the tide, to enter a  
creek below Port Simpson, he watched  
a large two-masted passenger steamer,  
assembled an American vessel which  
was evidently on fire. For three-quarters  
of an hour, she lay still off Dundas  
island with a great cloud of smoke  
above her masts and her hull hidden in  
a pall of steam which looked as though  
water was being put on the fire. Then  
she ran toward Dundas island, as  
though the officers were running her  
ashore. The Nell's officers watched her  
for a long time until the smoke oblit-  
erated their vision and when it cleared  
she was gone.

### LEMONS GO UP IN PRICE.

Chicago, July 22.—The Chronicle says:  
The hot weather has greatly increased  
the consumption of lemons and as a  
result the commission men are asking  
an advance of 25 to 50 cents on the  
lemons they have on hand. It is said  
that Chicago's supply of lemons was  
never before so short.

### WAREHOUSEMEN'S STRIKE AT CROCKETT'S.

Crockett, Cal., July 23.—The first week  
of the warehousemen's strike has come  
to a close. Both sides seem sanguine.  
One of the grain warehouse officials  
says that there has been no conference  
held with the workmen and that the  
situation remains unchanged.

### YELLOW FEVER NEAR HAVANA.

New York, July 23.—The quarantine  
authorities have been advised that five  
cases of yellow fever are reported at  
Santiago de Cuba, a distance of 600  
miles from Havana. The disease appar-  
ently began there. Physicians have  
gone to the place to see that the proper  
precautions are taken to kill mosqui-  
toes and disinfect the town.

### ARRANGING CHILIAN FINANCES.

Valparaiso, Chile, July 23.—The Chil-  
ian government is preparing a bill  
which will effect reorganization to  
a large extent of the national finances.  
It contemplates the accumulation of  
an additional 50 million pesos as a reserve  
and will provide for an excise on  
alcohol and other internal taxes, which  
together with the sale of nitrate prop-  
erty, will be devoted to greatly increas-  
ing the efficiency of the Chilean army  
and navy.

### CHINESE INDEMNITY PAYMENT PLAN.

Washington, July 22.—The state de-  
partment received a dispatch today  
from Commissioner Rockhill at Peking  
announcing that a plan for the pay-  
ment of indemnity to the powers by  
the Chinese government finally had  
been adopted. The amortization of the  
bonds to be issued will begin in 1902,  
and the plan contemplates the entire  
liquidation of both principal and inter-  
est by 1904. It is expected that China  
will raise 23,000,000 taels annually. This  
sum is to be used to pay the interest on  
the bonds and to form a sinking fund  
for the ultimate liquidation of the prin-  
cipal.

### A CASE OF SUMMER COMPLAINT.

Summer complaint is unusually pre-  
valent among children this season. A  
well developed case in the writer's  
family was cured last week by the  
timely use of Chamberlain's Colic,  
Cholera and Diarrhoea Remedy, one of  
the best patent medicines manufac-  
tured and which is always kept on  
hand at the home of every family. This  
is not intended as a free puff for the  
company, who do not advertise with  
us, but to benefit little sufferers who  
may not be within easy access of a  
physician. No family should be with-  
out a bottle of this medicine in the  
house, especially in summer time.—  
Lansing, Iowa, Journal.

There is no longer an excuse for  
anyone to endure the torture inflicted  
by piles when FLETCHER'S HUCKEY  
PILE OINTMENT will cure them. A  
remedy so moderate in price and so  
effective. Price, 50 cents in bottles.  
Tubes, 75 cents. Z. C. M. I.

### LOSS OF APPETITE.

Is commonly gradual; one dish after  
another is set aside till few remain.  
These are not eaten with much relish  
and are left so light as not to afford  
much nourishment.

Loss of appetite is one of the first  
indications that the system is running  
down, and there is nothing else so good  
for it as Hood's Sarsaparilla—the best  
of all tonics.

Accept no substitute for Hood's.

## A Travel Point

Pan-American  
Exposition

THE Pan-American, to be held at Buffalo, N. Y., May 1  
to Nov. 1, will be one of the greatest and most beautiful  
expositions the world has known. To enjoy its  
beauties will be worth any effort. The question of traveling  
to and from Buffalo is one to be carefully considered. You  
will desire to travel by the route affording the most comfort  
and interest. The return trip, too, must be considered, as  
after you have done the Exposition, Buffalo, Niagara Falls  
and vicinity, you'll be tired and wish to reach home quickly.

## The Lake Shore

and Michigan Southern Railway

as the leading line to Buffalo by reason of the frequency of  
its trains and the certainty and punctuality of their move-  
ment will best meet this requirement. It is the only double  
track line, and the completeness of its service—eight  
through trains daily among them the only daylight train,  
places it at the forefront among Eastern roads. The country  
traversed is the fairest and richest of the Middle States  
—the most interesting on the way to Buffalo.

All tickets over this route afford use of steamers either way between Cleveland and  
Buffalo, also stop at Chautauque on return trip within limit of ticket. Our "Book of  
Trains" contains full information. Send for same on request. Look it through carefully.

F. M. BYRON, G. W. A., Chicago.

## ASK YOURSELF

Is it fair? You expect your wife to have  
a nice little supper ready. You want her  
to look cool and comfortable. You object  
if she isn't smiling and sweet tempered.  
But you forget that she has been standing  
over a sizzling nerve-racking stove all  
day. Why don't you buy her a
