

# THE SEMI-WEEKLY NEWS

Issued Mondays and Thursdays  
and Contains All the Cream of  
the Daily and Saturday News.

## LOCAL BRIEFS.

Spinks at Y. M. C. A. Tonight—Prof. Byron Cummings will speak at the Y. M. C. A. this evening.

Masked Ball at Fort—A masquerade ball will be given at Fort Douglas on the 10th inst. and extensive preparations are being made for the event.

Board Meets Tonight—The regular meeting of the board of public works will be held this evening in the board rooms at the City and County building.

Good Bathing Next Summer—The level of the Great Salt Lake is 8-10 of a foot above the zero mark, which is 1.35 feet higher than it was a year ago at this time.

Water in Utah Lake—Observers of Utah lake state their belief that the level will be up to compromise point about the time that drawing off for irrigation begins.

New Apartment House—The new apartment and lodging house to occupy the Thompson building on west Second South street, has been named "The Lenox."

Really Deals Coming Up—Local abstract men report that during the last two weeks in the county, they have on their offices for abstracts of titles have been unusually heavy, and look for a very lively season.

On a Sad Errand—Dr. Warren Ben-Jamin has left for New York City, being called there by the sudden death of his father, which occurred Tuesday.

Unity Club Entertains—The members of the Unity club entertained a number of their friends last night, in Unity hall. Rev. Eddy made an address on Robert Burns, and Mrs. Brown sang several Scotch songs. Refreshments were served.

Slump in Hack Riders—Local hackmen report business for the month past as unusually light, not more than half what it was during January of 1906. But as during the coming two months there will be many tourists in town, business will be heavier.

Committed to Provo—James Jackson was examined as to his sanity yesterday afternoon by County Physician Caldwell, and Dr. Whitney and was committed to the State Mental hospital at Provo.

Woman's Missionary Society—The Woman's Missionary society of the First Baptist church has elected the following officers to serve for the coming year: County Physician Caldwell, secretary, Mrs. Warren Ben-Jamin, treasurer, Mrs. R. H. Corey.

He Married the Girl—Walter C. Cooper and Emma Monkhous, both of Birmingham, were married in the county clerk's office yesterday afternoon by Deputy Clerk Smith. Cooper was arrested on Wednesday charged with criminal conduct with the girl and he decided yesterday that he would marry her so as to escape prosecution.

Dr. F. H. Raley Appointed—The county board of health has appointed Dr. F. H. Raley as assistant county physician. The appointment was submitted by Dr. W. R. Caldwell, the new county physician, and is well known in this city where he has practiced his profession for a number of years. He was assistant city physician under Mayor Thompson's former administration.

Cuts Down Insurance—The committee on buildings and grounds of the board of education has reduced the insurance of school buildings by \$50,000. The board of education carries \$500,000 insurance upon school buildings and the Pacific fire and underwriters raised rates in Salt Lake the cost of maintaining this total became too heavy, hence the reduction. Bids on rates for \$250,000 insurance will be received today.

Salt Lake Christian Union—The executive board of the Salt Lake Christian union at its recent monthly meeting, elected Miss Thome chairman of the missionary committee, Roland Mumford chairman of the devotional committee, and Miss Louise Benz as chairman of the prayer committee. It was also decided to publish a periodical representing the city union and its work, and to hold a special prayer meeting on the third Sunday in February.

Free From Small Pox—The city is at present absolutely free from smallpox as there has not been a case of this disease reported to the health department since Aug. 22, 1906. During the same week last year there were 11 cases. The health department has not been opened up at all, so far and it is hoped by the health authorities that there will be no occasion for closing it during the remainder of the winter.

Case of Diphtheria—A sad case of diphtheria has been brought to light in the sickness with spinal meningitis of Henry Ramsey, aged 18, an employee of the Utah Lithograph company, who was taken last Monday. He received no medical attention, but had not the means to retain his services, and lay helpless until last night, when the county physician had him sent to the Holy Cross hospital. His landlady told what she could for the patient, but being in poor circumstances herself, she could do but little. Ramsey's home is at Pueblo, Colo., where he has a widowed mother living in humble circumstances.

To Patronize Home Stores—Manager Harris of the Manufacturers and Merchants' association is preparing a circular letter, in reply to the call for Salt Lake citizens to patronize home stores rather than buy from the big department stores in the east. He explains why people here persist in patronizing the catalogue houses in New York, Chicago and Philadelphia, and he says that because they can purchase so much more cheaply than in Salt Lake. One household in this city buys only its perishable necessities, shoes and fuel in Salt Lake, all the rest is bought in New York.

Mayor Vetoes Abatement—The resolution adopted by the city council on Monday night providing for the abatement of the special sidewalk tax against property which belonged to the city board of education, was vetoed yesterday by Mayor Thompson. In his message he simply states that he has consulted with the city attorney in regard to the matter and is of the opinion that the city should collect the tax from the board of education.

property in question has been sold for the board of education party but the special tax against it is a cloud upon the board's title which it asked the council to remove by abating the tax. The matter has been under consideration by the council for several months and it was finally agreed on last Monday night to abate the tax. The mayor, however, disapproved of the resolution and it will go back to the council and may be adopted over his veto next Monday night.

Zion's Saving Bank & Trust Co.  
Pays 4 per cent on deposits, safety deposit boxes for rent.  
O. E. SMITH, Pres.  
O. E. BEEBE, Cashier.

## CONCESSION BIDS.

Bids for all concessions at Salt Lake beach for the amusement season of 1907 will now be received at the office of the company in the Utah National bank, this city. All bids will be opened February 15, 1907.

## COAL MINE WORKING.

Resumption of Work at Cumberland, Wyo., May Relieve Situation.

Word has reached this city of the resumption of work at the Cumberland coal mine, so that the product of mines Nos. 1, 2 and 3 at Rock Springs which has been shipped east and northwest for the last two months, can now be returned to the Salt Lake market. The output of these three mines is estimated at 600 tons daily. A train of 19 cars of coal passed through Ogden last night, from the mine to the coast, which is 1.35 feet higher than it was a year ago at this time.

Water in Utah Lake—Observers of Utah lake state their belief that the level will be up to compromise point about the time that drawing off for irrigation begins.

New Apartment House—The new apartment and lodging house to occupy the Thompson building on west Second South street, has been named "The Lenox."

Really Deals Coming Up—Local abstract men report that during the last two weeks in the county, they have on their offices for abstracts of titles have been unusually heavy, and look for a very lively season.

On a Sad Errand—Dr. Warren Ben-Jamin has left for New York City, being called there by the sudden death of his father, which occurred Tuesday.

Unity Club Entertains—The members of the Unity club entertained a number of their friends last night, in Unity hall. Rev. Eddy made an address on Robert Burns, and Mrs. Brown sang several Scotch songs. Refreshments were served.

Slump in Hack Riders—Local hackmen report business for the month past as unusually light, not more than half what it was during January of 1906. But as during the coming two months there will be many tourists in town, business will be heavier.

In his message he simply states that he has consulted with the city attorney in regard to the matter and is of the opinion that the city should collect the tax from the board of education.

## MOISTURE COMES FROM SALT LAKE

Prof. John Patten, Formerly of Manti, Delivers Expert Talk In Lower House.

HE SUGGESTED DIVERSION. SENATE IN BUSY SESSION.

Another Day of Grinding on Suggested Legislation is the Record in The Upper House.

"You get most of your moisture from the Salt Sea," said Prof. John Patten, in a short talk to the members of the house of representatives after the regular session yesterday afternoon. Prof. Patten, whose home is in Baltimore, is passing through the country, and stopped off for a day or two in Salt Lake City on business. Visiting the lower branch of the legislature for a little while yesterday, he was invited to address the members by Speaker Joseph on the subject of "Aridity and Humidity," on which he is an expert.

SUGGESTED DIVERSION. It will be remembered by many that Mr. Patten delivered a paper at the National Irrigation congress held at Ogden four years ago, entitled "A plan for increasing the humidity of the arid region," and in that address occurred the following remarkable passage: "I suggest diverting the Colorado river out of its channel and turning it to the desert lands to the southwest of your present place of meeting, and over which a large part of the hot, dry, barren winds constantly blow. The warm winds will vaporize the water, increasing the humidity of the atmosphere and consequently the humidity of the soil in the irrigated regions, especially Utah. It will also lessen the evaporation which will take place on the irrigated fields and increase the water supply to the crops." The professor's suggestion was met with a great deal of interest and was the subject of much discussion.

SUGGESTION ACCEPTED. Mr. Patten has lived to see, within the short period of four years, the literal fulfillment of this prediction. The diverting of the Colorado river, which has been formed what is known as the "Salt Sea," lying between Mexico and the United States on the southern border of California, has caused the very result predicted in his lecture. "Where the Colorado spreads into this sea," said Mr. Patten, "its waters vaporize almost as fast as it pours in, and the warm winds carry the vapor over the whole arid country, and it is estimated that 20,000,000 acre feet more of moisture is precipitated over this area than was the case previous to the diversion of the river from its old channel."

BENEFICIAL TO UTAH. "You here are interested in the Colorado remaining where it is, and I would suggest that you ask Congress that the river be allowed to remain in its present channel," said Mr. Patten. "The other fellows will have the river turned back. There are now petitions pouring into Congress to stop carrying 150,000 signatures, so I believe you are here in the west who are benefited by this vaporization to get to work and preserve the moisture thus obtained."

Mr. Patten is a native of this state, having been born in Baltimore. He now lives at Baltimore, but spends a great deal of his time in traveling. He is the inventor of the vacuum steam process of making ice, and a number of other inventions. He is at present quartered at the Knutsford. It is expected that his visit will result in a measure being introduced into the present legislature asking Congress to allow the Colorado river to remain in its present channel.

NEGLECTED COLDS THREATEN LIFE. "Don't trifle with a cold," is good advice. A cold, if neglected, may be fatal in the case of a child. Warm food, good ventilation, and dry, warm clothing are the best means of protection against colds. If they are maintained through the changeable weather of autumn and winter, they may lead to a surprise from ordinary colds will be slight. But the ordinary cold will become a serious one if it is neglected. The greatest danger of a cold is that it may lead to a pneumonia. Whether it is a child or the adult, the cold should be treated at once. The best remedy is Chamberlain's Cough Remedy. It is safe and sure. The great popularity and success of this preparation have been attained by its remarkable cures of this ailment. Cold never results in pneumonia when it is given. For sale by all druggists.

Buy Furs Now. If you relish bargains, we still have a long list of attractions at lower prices than elsewhere. Mechesy the Furrier, Knutsford.

WEATHER FOR FEBRUARY. The following data, covering a period of 32 years, have been compiled from the weather bureau records at Salt Lake City, Utah. They are issued to show the conditions that have prevailed during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month of February for 32 years—Mean or normal temperature, 33 degrees. The warmest month was that of 1886, with an average of 41 degrees. The coldest month was that of 1903, with an average of 20 degrees. The highest temperature was 60 degrees, on Feb. 27, 1906. The lowest temperature was 13 degrees, on Feb. 13, 1884.

Precipitation (rain or melted snow)—Average for the month, 1.41 inch. Average number of days with .01 of an inch or more, 10. The greatest monthly precipitation was 3.81 inches, in 1897. The least monthly precipitation was 0.38 inches in 1877 and 1888.

The greatest amount of precipitation recorded in any 24 consecutive hours was 1.05 inches in February, 1899.

The greatest amount of snowfall recorded in any 24 consecutive hours (record extending back to 1870) was 10.5 inches in February, 1899.

R. J. HYATT, Section Director, Weather Bureau.

The Breadth and Scope. Of our showing of furs defies our space. The breadth and scope of the stock being much greater than that of any other house in the West. Mechesy the Furrier, Knutsford.

If you desire to buy or sell real estate in any part of the city or state, it will be to your interest to communicate with the Geo. Q. Cannon Association, 24 East South Temple St. Both phones 619.

Do your teeth trouble you? Is a good habit to call 104 or 105 for appointments. Mechan Dental Co., 65 Main St.

## STREETS JOKED BY SENATOR MILLER

And Because of it He Would Now Abolish Utah Medical School.

HE SUGGESTED DIVERSION. SENATE IN BUSY SESSION.

Another Day of Grinding on Suggested Legislation is the Record in The Upper House.

Senator Albert E. Miller has almost made a speech in the senate. Members of the third house have been waiting for some time for Senator Miller to unwind himself in a long speech, for he has given every promise of being a real orator if actually stirred up over some problem.

Yesterday the senate had a bill by Lawrence under discussion. It is known as S. B. 18, and in subject matter it deals with unclaimed corpses of convicts and others, allowing the medical students of the University of Utah to take possession in the interests of science. Miller remembered the uncanon visit he had made to a medical college and on this experience, he declared he was not opposed to the measure as a whole, but thought it was too broad. An amendment to strike out the offending words was introduced. On the final passage of the bill only Seely, Walton and Miller voted against it, and if it goes through the house it will be an important addition to the facilities of the university in giving its medical course. Laboratory experiments have been partially impracticable during the present year, on account of the lack of subjects for demonstration.

EXPERT WITNESSES. Senator Lawrence had another bill under fire. It was branded S. B. 9, and had to do with witness fees. Its main provision was that a judge before whom an expert witness was called should have the right to fix his fee. Senator Clegg offered an amendment fixing the maximum fee at \$25 per day. Senator Miller spoke against it, declaring that some witnesses were worth more than \$25 per day for expert testimony, and that the bill was aimed at discouraging litigation. He declared the lay members should have no objection. Under its provisions, he explained, the necessity to sue for fees would be done away with as the fee fixed by the judge becomes a judgment against the person calling the witness.

The amendment was lost, and the bill finally went through with a unanimous vote.

MONEY FOR SHERIFF. Senator Walton made a short talk for his bill appropriating \$1,500 for Sheriff Eastman of Rich county, in which he detailed the heroism of the sheriff in attempting to stop an insane man from committing murder. The wounds received by the sheriff permanently disabled him, and left him unable to receive medical attendance amounting to the sum of the appropriation.

The only new bill introduced yesterday afternoon was by Miller, granting the sheriff of Salt Lake County the force with the and imprisonment regulations which they enact. Imprisonment for six months and a fine of \$300 is the maximum.

GOLD MOULDED CYLINDER records guaranteed the best, 25c each. Columbia Phonograph Co., 327 South Main.

This is What They Say. Those who take Hood's Sarsaparilla for eczema, eruptions, catarrhs, rheumatism or dyspepsia, will find it promptly and permanently, even after all other preparations fail.
