

Our Country Contemporaries.

Ogden Junction, May 5—

Lots of folks are coming in from the north to attend Conference, and the U. N. and U. C. are doing a big passenger business.

Visitors to Conference will be conveyed on the Utah Central at \$2.50 for the round trip. Trains will leave every morning at 5 and 8.40, and return every evening at 3.40 and 5.05. Tickets good from the 5th to the 12th insts.

We understand that one of our respected citizens who has been prospecting considerably of late, has at length been rewarded by the discovery of a very rich tin mine. The essays have not yet been made, but the indications are fine. We would advise the proprietor, in a friendly way, not to sink on the ledge too deep at first, or it may prove too much for his limited resources. Tin hasn't panned out well in Ogden heretofore.

The following is an extract from a written report to the Ogden Iron Manufacturing Company furnished by Mr. Charles T. Parkes, brother of the gentleman who represents the Company in this city—

"OGDEN CITY, Utah,
April 9th, 1874.

"Having often heard of the grandeur and beauty of the scenery displayed throughout Ogden Canyon, before visiting the Great Salt Lake Valley, I gladly accepted the courteous invitation extended to me by Messrs. Woodmansee, Sagers and Hunt, to spend a day in this noted canyon of Utah. With commendable perseverance and great toil, these gentlemen have surmounted the difficulties barring the way to their mines high up in Coldwater Canyon, leading into the mountains on the South side of Ogden Canyon.

"Messrs. Woodmansee and Sagers have prospected and opened iron ore mines in this latter canyon which inspection fully convinces me will be found to contain inexhaustible quantities of iron ore of superior quality. Competent and reliable assayers have already determined that this ore will yield from 50 to 60 per cent. of metallic iron, and that it is free from objectionable ingredients. The time cannot be far distant when these gentlemen will be rewarded handsomely for their energy and perseverance.

"CHAS. T. PARKES."

Beaver Enterprise, April 29—

The following is an extract from a letter dated Paragonah:

"The members of the United Order have been busy under the direction of Brother R. Robinson, foreman of the farming department, in putting in wheat, oats and barley, which have been sown to a considerable extent this season. The workings of the Order thus far prove satisfactory, and there will be a move made as soon as possible to gather the stock that suffered so extremely the last winter."

To-day we understand is pay day at the Camp Beaver. This has been a long look-for day by the "boys in blue," being four months since they were paid off before. It is expected that the "boys" will have a good time for a day or two. We hope they will have all the pleasure they wish, providing they do not injure any one else. We can safely say that they are, with a few exceptions, about as peaceable a lot of soldiers as we generally come across.

Through the kindness of Mr. J. Asay, we have been permitted to extract the following from a letter received by him from his son, dated Mt. Carmel, Long Valley, April 22. He says—

"We are all well, but the Navajos are mad. They say, if the Mormons do not give them 1,092 horses, and 1,030 head of horned stock, four saddles, four blankets, four lassoes, and each a dress and a buckskin shirt trimmed with beads, they will come and kill and steal all the stock and kill all the Mormons. Bro. Blythe was over there and they took his butcher knife, and cut the buttons off his coat and he could hardly keep them from cutting his throat. So a number of men were called on from this and the upper settlement to go across the Colorado and bring the settlers from that place, where they were sent this Spring to make a settlement. It is expected they will be absent about three days."
