

## CORNER STONE LAID YESTERDAY

Bishop Scanlan Wields a Silver  
Trowel at Miners' Home.

CROWDS ATTEND SERVICES.

Impressive Ceremony Formally Inaugurates  
Magnificent Institution  
Endowed by Mrs. Judge.

Representatives from every walk of life to the number of about 4,000 yesterday afternoon congregated around the massive foundations of the John Judge Memorial Miners' Home and Hospital and witnessed the ceremonies attendant upon the laying of the corner stone by Bishop L. Scanlan.

The services were of the most impressive order and were listened to with the deepest attention. Seats were provided so that the audience sat around the corner stone and the platform which was constructed on the foundation for the accommodation of the clergy, choir and invited guests. Half an hour before the services commenced every seat was occupied and a number of those who witnessed the proceedings did so standing. Inspiring music was rendered by the choir of 50 voices and accompanied by the organ. A number of songs were delivered by the choir. The corner stone was placed in position by the bishop and the box containing the records, photographs of Mr. and Mrs. Judge, their children and grandchildren, the four children and grandchild, a history of the home, a souvenir jubilee medal of Pope Leo XIII, and some old coins, was presented in place with the silver trowel to Mrs. Judge by the bishop. Mrs. Judge was not present, as she is in California with her family. She was represented by her daughter, Mrs. Elizabeth Judge O'Brien and child, who were on the platform that overlooked the beautiful panorama of the Salt Lake valley.

The services commenced promptly at 1:30 and were conducted by Bishop Scanlan, assisted by Fathers, Klei, Morrissey and Curran. Master Daniel Armstrong acted as soloist.

The services opened with the song, "We are My God, to Thee," sung by Miss Clara Fafek and a chorus. After this the "Magnificat" was rendered by Miss Fafek.

The corner stone was then hoisted into position, and while the Catholic ritual used upon such occasions was being performed, it was placed into position by Bishop Scanlan, and the box containing the records and coins was placed in the stone and cemented. While this was being done the "Litany of the Saints" was chanted by Bishop Scanlan and the assisting clergy.

"Veni Creator Spiritus" was then sung by Mrs. G. E. Curtis, Al Whitney and T. C. Crawford. Bishop Scanlan then delivered his address, taking for his text the passage from the Bible which reads, "Come unto me all ye who are weary and heavy laden and I will give thee rest."

In his opening remarks Bishop Scanlan dwelt on the great invitation from the Father of all mankind. The invitation was extended without any distinction.

"The invitation was extended to them especially, not that he did not love all men, for he suffered and died for all—but he knew the oppressed needed care and refreshment, and the rest could take care of themselves. It was like the shepherd who left all his sheep for one which was lost; like the father's treatment of the prodigal son, not that the righteous son was forgotten, but the prodigal needed all the care."

Bishop Scanlan then followed the life of Jesus in cleverly working out the words of the text as applied to the case in point. He said the Jesus always carried out His principles. He said "Blessed are the poor," and he was poor all his life. "Blessed are the meek," and who was so meek as He? He taught the world to forgive its enemies, and set the example by forgiving modern men but a poor imitation of the modern man is but a poor imitation of the Savior," said Bishop Scanlan.

"That a sham is our Christianity as compared with Christ's. It is your affect and lift the burden of the shoulder of the poor. If you are rich, you have a double responsibility as the dispenser of His gifts."

He said that if Carnegie had asked him what to do with his great wealth, he would have shown him that the fortunes made in the mines and steel factories had been accumulated largely by the labor of poor men, and it was the duty of the owner of all the riches to give back to those who had toiled to give him his fortune, and he should not let that they never lacked a home and all the necessities of life.

He concluded by saying: "It was this thought which was the cause of the generous plan to erect this magnificent building. She sang in the fulness of her heart, 'Come unto me all who are weary,' and I have a home in which you can pass the rest of your days. She must have read the parable of the man who hired at the different hours of the day men to work in his vineyard, and who was unable to get work, and when night came he paid all alike. Mrs. Judge must have read that parable—yes, I see her now, sitting in her cozy drawingroom surrounded by all the luxuries and her interesting family, her mind goes back to the hills of Park City, out of whose black depths, by the light of the candle and the sweat of the brow, the hardy miner has worked and toiled to secure to her and hers these luxuries. I imagine she realized that for every dollar that was paid for their work she received a hundred, and her idea was that something should be done for these men when they grew tired and sick and helpless, hence the thought which made possible this home, this explains these massive foundation walls. It will be a hospital for the sick and poor, a home for the oppressed when worn out in body and soul.

"No class deserves more at the hands of the people of the Pacific coast than the miner who has built up this whole region with his toil, and yet Mrs. Judge is the first person on this coast, where millions have been dug from the hills, to think of erecting a home for the miner in his old age. It is a monument to his loved husband, one of God's noblemen, and it is to be hoped that it will grow and flourish and yield abundant fruit, that it will show a large increase and in time it will be extended in every way and become a home not only for miners, but for all, and its portals will be wide open for the tired and the burdened ones, to whom can be said from its doors, 'Come unto me all ye that are weary.'"

At the conclusion of the address the choir sang and then Father Klei arose with the silver trowel in his hand and said:

"As the years roll by and all here present have passed from the scene of life, this building will stand a monument to the noblest work of charity when the remains of its generous founder will rest on yonder hillside, many a 'God bless her' will be uttered within its walls. Her grandchildren and great-grandchildren will share in those blessings. Its early history will be sought for and every little memento connected with the building will be treasured as something sacred and one of the dearest heirlooms in the family circle."

Today as the cornerstone is being laid, I am anxious to represent the rugged, hardy miners of the Silver King mine, whose muscle and sinews are, in a measure, connected with every brick that will go into the building. They honor the occasion by showing their appreciation of the founder of this noble institution. The gift is not to be measured by its intrinsic value, but by the intentions which prompted the donors. This silver trowel is given to Mrs. Judge as a token of respect by the miners of the Silver King mine. It will descend as a rich treasure to her children, grandchildren and great-grandchildren. It will remind those yet unborn of the great work accomplished here today. In the absence of Judge Mrs. Elizabeth O'Brien, her oldest daughter, will be its custodian."

**Scores of Persons Hurt.**  
New York, Sept. 1.—With a crash that was heard for several blocks, a Madison avenue electric car rammed a One Hundred and Sixteenth street car, smashed its side, hurled it from the track and caused the injury of scores of persons. No one on either car received wounds that will prove fatal, but many will be confined to their homes for several days.

The Madison avenue car, crowded with passengers, stopped at One Hundred and Sixteenth street to allow some one to disembark. It immediately started again, although a west bound car was about to cross the avenue tracks under full headway. Both motorists seeing a collision was imminent attempted to stop their cars, but before they could do so the cars crashed together.

The cross town car was thrown from the track, a hole was knocked in its side and all the windows were broken. The passengers became panic stricken and they fought to get off the cars. Some were injured by falling and bruised in the collision were thus injured. Ambulances were called but it was not found necessary to take any of the victims to the hospital and their wounds were dressed on the spot and they were taken to their homes.

**Tunnels at Telluride Close Down.**  
Telluride, Colo., Sept. 1.—The Ohhr tunnel and Cammeron mill tunnel at this place have been closed down because of a dispute over the wage scale. Officials of the miners' union claim that the wage scale was not properly set in the summer when a strike was threatened in the district has not been put in force at these places and demand upon A. E. Reynolds, manager of both of them, resulted in a refusal to change conditions.

Mr. Reynolds was notified that he must abide by the agreement referred to and this was followed by the closing of the properties. An early settlement of differences seems unlikely.

**Spectators Rout the Marines.**  
Chicago, Sept. 1.—The Illinois naval militia has engaged in a sham assault on an imaginary land force in the presence of what is said to have been the largest crowd ever assembled in Lincoln park. So great was the throng that the marines from the training ship, Dorothea after scaling the sea wall, effecting a landing and capturing the enemy were in turn almost routed by the thousands of spectators who rushed in on the intruders. It was estimated that 120,000 persons assembled at Great Beach and the police were powerless to control them. No one was injured, however.

## WILL RETAIN THE PHILIPPINES

Gen. Taft Declares That is What  
The United States Will Do.

FILIPINOS TO BE EDUCATED.

Americans There for the Benefit of  
The Natives—Gold Standard for  
Islands to be Recommended.

Manila, Aug. 31.—Gov. Taft was given a banquet by the American chamber of commerce of Manila last Saturday night. In an address in reply to a toast the governor discussed the future of the Philippines. He said the United States would retain the islands indefinitely, with the view of educating the Filipinos to a state of self-government and other conditions which would enable them to decide whether they desired to become independent, or be made into a state like Canada or Australia under Great Britain.

Gov. Taft said he believed the relationship between the two peoples would be continued and that the Americans were here for the benefit of the Filipinos. He said the Americans did not desire the islands for selfish purposes and promised that American capital would get fair treatment here.

Continuing, the governor expressed his belief that commercial interests must ultimately rely upon Filipino labor, although a temporary relaxation of the immigration restrictions was possible. He said the United States civil commission would again recommend Congress to give the Philippine Islands a gold standard of currency, as the present fluctuation of standards was a disadvantage to everybody.

Luke E. Wright, who acted as civil governor of the islands during the recent absence of Judge Taft, also spoke. He expressed the opinion that the future of the islands depended upon the admission of their products into American markets. Commissioner Wright regretted that the Philippine question had been made a football in American politics.

The sultan of Mindanao, who was held a hostage by the American forces at Camp Vickers, island of Mindanao, attempted to escape from his guards last Thursday and was shot and killed by a sentry. The sultan had been arrested after the recent murders of American soldiers in Mindanao, and was being held pending the surrender of the murderers.

As a result of the hindrance among the cattle and the epidemic of cholera agriculture is at present seriously depressed throughout the Philippines. Gov. Taft estimates the area under cultivation this year as half that of an ordinary year. Many districts are badly impoverished.

Cholera is increasing. Last Saturday 240 cases were reported in the provinces. Up to date 27,500 cases and 18,600 deaths from the disease have been reported.

**LIEUT. HILDEBRAND DISMISSED**  
Duelist Let Out of German Army For Participating in Ovation.

Berlin, Aug. 31.—The Berlin Tagblatt publishes a dispatch from Gumbinnen, East Prussia, saying that Lieut. Hildebrand, the pardoned duelist, has been dismissed from the army on account of the ovation given him some time ago at Gumbinnen upon the occasion of his pardon. He was also dismissed from the army for participation in which he had been expelled from the army.

**Pump House Blown Up.**  
Scranton, Pa., Aug. 31.—The pump house of the National washery at Minocqua was blown to pieces early today by dynamite. It is not known who placed the dynamite under the building.

**SWAM NIAGARA WHIRLPOOL.**  
Carlisle D. Graham Does the Very Dangerous feat.

Niagara Falls, N. Y., Aug. 31.—Carlisle D. Graham swam from the whirlpool below Niagara Falls through the lower rapids to Lewiston this afternoon. Graham made a better swim than he did on the 9th of September, 1901, when Maude Willard attempted to navigate the upper rapids in Graham's barrel and was successful.

Graham today wore a life-preserver about his waist and a neck float. He entered the water at 3:17. The swift-running current whirled the swimmer to the center of the stream, and for nearly a hour Graham battled with the waves. As far as the Devil's Hole it appeared comparatively easy for Graham, and then he hid him from sight. Only once, however, was he in danger. A current suddenly tossed him toward the shore, dangerously near a big boulder. By desperate swimming he just avoided the rock and was carried on down stream.

Below Devil's Hole, where the river narrows, Graham had another hard battle. For a time he was completely hidden from view, and the hundreds of spectators on the bridge and along the banks grew greatly excited. He soon appeared in the smoother water where the river widens. He declined to enter a boat and swam to the shore just below the new trolley bridge. After a rub-down Graham said he felt no bad effects from his hazardous swim.

## How About Your Children's School Shoes?

For Monday and week, we have two specials, BOYS' and GIRLS' good, durable, box calf shoes, all sizes, at \$1.45. MISSES' and CHILDREN'S kid shoes, with heavy or light soles, sizes 8 to 11, \$1.15. Sizes 11½ to 12, \$1.35.

Store closes 6 p. m. except Saturday.

to the United States to present a flag to the Hungarian societies here. Representatives of the societies, who are acting as an escort of honor for the visit, accompanied the delegates to the tomb. Chief Delegate Zsen has given out a statement to the effect that his visit to America has no political significance, that the Hungarian government is in no way interested in the tour, and the idea originated with the Hungarian national federation, which, he said, is an organization without political affiliations.

## EARTHQUAKES IN THE WEST INDIES

Bassee Terre, St. Kitts, B. W. I., Aug. 31.—A series of loud reports were heard here last night from 7 until 9 o'clock.

Point a Pitre, Island of Guadalupe, Aug. 31.—This entire port has been covered with a cloud of dust since 6 o'clock this morning and the populace is panic stricken. Fine ashes are falling continually in a slight drizzle. Semi-darkness is over the sea and the ships in the harbor seem to be enveloped in a cloud of smoke.

Advices from Bassee Terre (Island of Guadalupe) assert that since daybreak today the entire island has been covered with a cloud of dust, coming from the southeast, the direction of the island of Martinique. The population of Bassee Terre is greatly alarmed.

**HEAVY FALL OF DUST.**  
Rooseau, Dominica, B. W. I., Aug. 30, 1 p. m.—A thick mist has enveloped Roosevelt and its neighborhood and dust is falling.

Rooseau, Dominica, B. W. I., Aug. 31.—The thick mist which enveloped Roosevelt yesterday was taken as it approached for a rainstorm. The dust is still falling, although lightly, but during the night of the 30th the quantity of dust which fell here was greater than on any previous occasion since the first eruption of Mont Pelee, while at nightfall of the 20th a dark-shaped cloud emitting electric flashes rose in the south, but it gradually was obscured by a mist caused by the falling ashes. Rumbling noises and a few detonations were heard during the night of the 30th. The people here are quiet. No news has yet reached here from Martinique.

A severe eruption of Mont Pelee, Martinique, was reported to have occurred at noon, Aug. 21. This report was brought to Castries, island of St. Lucia, by officers of the French steamship "Le Gaulois." The eruption was followed by total darkness five miles away from the volcano.

A dispatch received from St. Thomas, Aug. 26, said that between 9 o'clock in the morning and 3 in the afternoon of Aug. 25 clouds of dust have been seen in the direction of Mont Pelee from the island of Dominica. Detonations were heard and there were slight showers of volcanic dust on the island.

The following message was received from Dominica, dated the 30th: "Since 2 p. m. today (Tuesday) prolonged rumbling noises in quick succession have been heard from the southward. There is every indication that Mont Pelee is in violent eruption."

A dispatch from Port-au-Prince, Aug. 28, said the latest dispatches received at the ministry of the colonies from Port de France, island of Martinique, were dated Monday, Aug. 25. They mentioned no mention of the reported eruptions of Mont Pelee. The Paris dispatches also said that the cables to Martinique, both north and south, continued to be interrupted.

Efforts made to communicate by cable direct with the island of Martinique have proved unsuccessful.

**ERUPTION CONTINUES.**  
St. John, Antigua, B. W. I., Aug. 31.—Many very loud detonations were heard here from 9 o'clock last night to midnight.

**Studying Irrigation Question.**  
Cheyenne, Wyo., Sept. 1.—C. A. Newell, chief hydrographer of the government, has returned to this city after a tour of inspection in northern Wyoming in the interest of irrigation. A number of sites for reservoirs have been examined. When asked of the extent to which investigation into the reclamation of arid lands by the government, through the storage reservoir system, had gone, Mr. Newell said the special geological survey was now being conducted in Arizona on the Gila river and tributaries; in California on the Colorado river, and in San Joaquin valley; in Colorado near Sterling on the South Platte, and near Montrose on the Canadian river; in Idaho on the headwaters of Snake and Boise rivers; in Montana on Yellowstone and Milk rivers; in Nevada on Carson and Truckee rivers; in Utah on Bear river and on the mouth of the Elbow and North Platte rivers.

Mr. Newell said that all schemes would be considered in the light of full information as to practicability, cost and probability of obtaining early repayment of cost.

**Preston, Lancashire, Celebrates.**  
New York, Sept. 1.—During the present week the old town of Preston, in Lancashire, celebrates its guild merchant, which is a unique survival of the middle ages, says a Tribune dispatch from London. Since 1288 there have been guild celebrations in Preston and since 1842 they have been held at regular intervals of 29 years. The guild merchant has obviously to do with admission to the freedom of the town, "guild" being merely a corrupt spelling of "gold," which means a money payment. A feature of the guild this year is a collection of pictures Earl Derby has got together by personal appeal. Lord Derby is mayor of Preston and his ancestors have been guild burgesses since 1542.

**Fo'ish Singing Societies to Unite.**  
Chicago, Sept. 1.—From all over the United States Poles have gathered in Chicago for the twelfth annual convention of the Polish Singers' Alliance of America, which opened its session last night with a concert before 2,000 persons. Plans will be made during the next four days to unite firmly all the different Polish singing societies throughout this country.

**Placed Wreath on Grange's Tomb.**  
New York, Sept. 1.—A huge wreath has been deposited at the tomb of Gen. Grant, in Riverside Drive by the Hungarian delegation, which has just come

**Powrie Estate to be Divided.**  
New York, Sept. 1.—The Dutch government has, according to the World, consented to the division of the Powrie estate in The Hague, valued at \$1,000,000, among nine heirs, who live in America. Seven heirs live here, one at Quincy, Ill., and one in Chicago. They are all in New York, now, and expect that the property will be handed over to them in a few weeks.

The reported settlement of the estate is the outcome of a case filed in court by the American heirs about 25 years ago. The Dutch government was at first averse to handing the money over to the Americans, but they proved their case. The property is to be divided shared and shared alike, and with accrued interest each expects about \$1,500,000. Nicholas and John Powrie were the forebears of the American heirs. The estate is said to consist of land reclaimed from the sea by the building of dykes.

**TO RELEASE CUBAN CONVICTS.**  
Resolution in Favor of Those Who Fought in Patriot Army.

New York, Sept. 1.—Both branches of the Cuban congress have passed resolutions calling for the release of all convicts now confined on the island of Cuba who fought in the Cuban army, says a Havana dispatch to the Tribune. The resolution proposes to be general and irrespective of the crime that the convict is guilty of. The proposition met with some opposition by some of the most conservative members of the congress, but the revolutionary members succeeded in getting it through. The two branches of congress have appointed a committee which is to wait on President Palma today, asking him to take the action desired.

The resolution proposes that all of the convicted be released on Oct. 19.

**Carmen and Passengers Have a Row**  
New York, Sept. 1.—A large party returning from the Zion cemetery, Queens county, to this city became involved in a riot, and about two dozen men, women and children were injured.

The trouble started shortly after the three trolley cars had left the cemetery for Long Island City ferry. The conductor of one of the cars, finding it impossible to collect fare from a passenger, brought the car to a stop.

An argument ensued during which the conductor was struck on the head with a loaded cane. He called to the autormen, while the passengers rallied around their comrade. Employes from other cars hurried forward and a fierce fight ensued. Passengers who were not armed with canes drew trowels, which some had brought from home to use in the cemetery. After a drawn battle the passengers resumed their seats and the car proceeded.

The trouble broke out afresh when Cavalry cemetery was reached. This time, the three motormen and conductors were reinforced, and got the better of the argument.

Finally the cars were boarded again and reached Long Island City without trouble. There were a dozen women in the party who were hysterical and had to be treated before they could resume their journey home. Three arrests were made.

## ABSOLUTE SECURITY.

Genuine  
Carter's  
Little Liver Pills.

Must Bear Signature of  
Bent Wood

See Pico-Simile Wrapper Below.

Very small and as easy to take as sugar.
