The Eleventh Quorum of Elders will meet in the 21st Ward Meeting house on Monday evening next at 7:30 o'clock.  
 W. P. AFFLECK, Pres.

A shooting of the taxpayers of the sixth school district will be held on Monday evening, Sept. 17, at 7:30 o'clock, to consider the advisability of levying a tax in the district for school purposes.

A man who was excessively addicted to tobacco, asked his wife to the opera a comendment. "My dear," said he, "what part of the performance do I resemble?" "The over chewer," she sweetly replied.

The members of the Third Quorum of Seventies and the Seventies residing in the 14th and 17th Wards will hold their meeting in the 14th Ward schoolhouse on Monday evening, Sept. 17, 1883, at 7:30. A full attendance is requested by the Council.

Mrs. Aurelius Miner and her son D. O. Miner have gone East. The young man will prosecute his medical studies, while Mrs. M. will stay and keep house for him. By private postal cards dropped by the way, it was learned that they were having a pleasant trip.

LOCAL AND OTHER MATTERS.

Building Spot.—Mr. C. W. Stagner announces that he will sell, for a reasonable consideration, to a suitable neighbor, a building spot in the 17th Ward, near a block south of St. Mary's Hospital, and the same distance from the street car line. See advertisement.

To Meet the Immigrants.—At the Bishop's meeting, held on Thursday evening last the 21st, 22nd, 23rd, 24th and 25th Wards were called upon to meet the company of Saints at the railroad depot with teams, and render them such aid as is usual on such occasions. The company being large, the Bishops are expected to govern themselves accordingly.

More Music.—Brother Adam C. Smith announces that he will take new names for his music class up till Wednesday evening. This presents an excellent opportunity for choir leaders and others who have recited some degree of proficiency to review their exercises and make further progress under his able direction. See his statement of terms, etc.

Russian Apricot Trees.—Mr. Henry Lee, headman, of Denver, states that Russian apricot trees are as sturdy as to stand without injury the cold climate of Nebraska. They have passed through a spell of thirty degrees below zero without receiving any permanent hurt. This should be interesting information to the orchardists of Utah, who suffered considerable loss last winter from their apricot trees being affected by frost.

An Incendiary.—At one o'clock this morning the fire alarm rung. The occasion was the discovery that a fellow named A. D. Danvers had gathered a lot of combustible material at the rear of L. D. & A. Young's store, East Temple Street, and set fire to it, with the plain intention of firing the building. A few moments more and his object would have been accomplished, and there is no knowing what the result would have been. Fortunately the flames were discovered in time and speedily extinguished, and the incendiary arrested by nightwatchman Watson. He was to be examined before Justice Spiers this afternoon, on a charge of arson.

Picture Completed.—A short time since we stated that Brother Julius F. Wells proposed procuring a steel engraving of the likenesses of Oliver Cowdery, David Whitmer and Martin Harris, the three witnesses of the Book of Mormon. We are pleased to be able to state that after numerous delays, a great deal of trouble and considerable expense, the purpose has been accomplished, and we have seen an advance copy of the picture. The engraving is a fine specimen of the art and there is no room for doubt as to the life-like character of the likenesses of the three notable men who beheld the Angel, saw the plates and heard the voice of God proclaiming that the record was true. The portrait of Oliver Cowdery was at once recognized by Brother Horace Whitney and other persons who were acquainted with the original, while the others are no less striking. The three portraits are on one sheet, and the picture is embellished on the right hand upper corner with a representation of the Angel exhibiting the plates to the witnesses, and on the left hand the "Angel flying in the midst of heaven," etc., while near the centre are the sticks (books) of Judah and Joseph. Underneath and around which might be appropriately called the foundation of the picture, is the Hill Cumorah, from which the plates were obtained, engraved from a photograph. The picture will accompany the first number of the Contributor, which will be issued next month; and will doubtless be eagerly sought after.

Brother Wells has done a good thing in procuring to the community and posterity the portraits of three men who occupy a singular prominent niche in the history of the establishment of the latter-day Gospel dispensation. On Monday morning Brother A. M. Borchgrevink will commence canvassing the city for the ensuing volume of the Contributor, which is a highly interesting and progressive magazine.

LAMENTABLE ACCIDENT.

AN UNKNOWN YOUNG MAN THROWN FROM A HORSE AND FATAL-  
 LY HURT.

At half-past one o'clock to-day, a young man was riding along the street which divides the Seventh and Fourth Wards, when his horse suddenly shied, causing him to be thrown to the ground with great violence. He alighted upon his head and his skull was crushed in by the fall. He was picked up by people in the vicinity and taken to the house of Captain Withers, in the near vicinity of the place where the accident occurred. He was laid upon the porch and given what assistance could be accorded under the circumstances, but his injuries were evidently and necessarily fatal. At last accounts the unfortunate lad was in a dying condition.

There was no means at hand of immediate identification of the youth, as there were no papers on his person indicating his name or residence. He is about 18 years of age, of moderate build and light complexion, has on a dark coat and vest, blue overalls, and wears a pair of Spanish spurs. The horse he rode was a large bay, with three white feet, branded with a K and reversed F on right hip. K on the left hip and left shoulder, and is saddle marked. We have given these details in the hope of their leading to the young man's identification. He has evidently come in from the country.

We have since learned that the young man's name is Thomas Hammond. He is from E. T. City, Poudre County, and was in the employ of Col. H. P. Kimball, to whose residence he was removed this afternoon.

Genuine Improvements.—Under the immediate direction of Assistant Superintendent S. W. Sears, the first floor of Z. C. M. I. has been undergoing some striking and excellent improvements. The middle counters, which formerly occupied a position lengthwise of the floor, have been changed about so as to run across and face the entrance. The new arrangement has several advantages besides enhancing the appearance of the building. The view of the interior is more open and less obstructed, and there is much less opportunity for professional shoplifters to ply their vocation than formerly, while the heads of departments can better observe where each clerk under his direction is engaged.

In connection with this alteration is another still more beneficial. Hereafter the retail dry goods and boot and shoe departments have been run along one side of the compartment, making a sweep of floor too long to be convenient. Now each department occupies a square including the entire width; first the dry goods, then the boot and shoe, and so on. This gives more concentration to business operations, saves time and, as the old saying goes—"time is money." In the boot and shoe department the accommodations for customers, especially for ladies, are being increased.

The most novel improvement of all is the disposing with the touching of the bells by the clerks, and the incessant call of "cash," formerly heard from every quarter. In the confusion it was occasionally, especially in brisk times, difficult for the cash boys to locate the calls. That inconvenience has all been obviated by the introduction of an ingenious contrivance called an annunciator. The face of this instrument is covered with numbers, each of which denotes a particular part of a counter. These numbers are covered by small metal plates until a button connected at the counter is touched by the clerk who wants the services of the cash boy, when the figure is uncovered and the boy darts to the particular spot indicated. Instead of being scattered over the floor, the boys, when unoccupied, are stationed at a designated spot immediately opposite the face of the instrument, the calls of which they answer alternately. By the introduction of the annunciator, the number of boys has been recently reduced.

The Ogden Depot Question.—Last night the citizens of Ogden held another meeting on the subject of building a suitable depot and making that town the terminus of the U. P. and C. P. railroads. A committee was appointed by a former meeting made a report by which the reasons why their request should be complied with were stated. Among these were the fact that the companies concerned were enjoying the use of 120 acres of ground on condition that they build a suitable depot and establish the terminus thereon. Last night another committee was appointed to wait upon the railroad magnates, make the necessary representation, and ascertain their minds on the subject at issue. The Ogden folks are much exercised on the subject, and justly so. We wish them success.

Information Desired.—A man by the name of Samuel Hadfield and his wife (formerly Miss Godby) are said to have joined the Church and emigrated from Manchester, England, about forty to fifty-five years since. They had three children, named respectively Joseph, Sarah, and Ann. If they or any of their descendants are living, they can learn of something to their advantage by writing to or visiting Abraham Hadfield, Redgate Farm House, New Smithy, near Chapel En Le Frith, Derbyshire.—Millennial Star.

Concert.—On Monday evening next, the 17th inst., a Concert will be given in the Fifteenth Ward New Meeting House, by the Fifteenth Ward Choir and Glee Club and Orchestra, assisted by Mrs. M. C. Hall and Mr. P. T. Tibbs. A very attractive program has been arranged for the occasion, and those who attend may expect a rich musical treat. The proceeds are to be used to purchase land for school purposes in the ward.

Loss of Weight.—The pistol shot

wound in Mr. C. H. Wilcken's arm is healing up nicely. Since receiving it he has lost nineteen pounds solid weight, but has felt tolerably well all the time, having a powerful physique.

Left Omaha.—A telegram to President Taylor from Elder P. F. Goss states that the immigrants arrived safely at Omaha, and left that point at 6 o'clock this morning. They will probably reach here on Monday by noon. Their names will be found in today's supplement.

Delinquent Taxes.—Those who are owing delinquent Territorial, School and County taxes should step up and settle without delay, else Collector Crismon will be at their heels with a writ, as it is his bounden duty to collect. Read his official notice.

Dull Times Disappearing.—This afternoon we received a call from Brother J. L. Hetzler, dentist, of Ogden, who informs us that the dull times which have prevailed during most of the summer in the Junction city, have begun to disappear, and are being supplanted by a season of business briskness.

Visiting Wheelmen.—Yesterday Captain W. O. Owen, C. S. Greenbaum, and W. K. Sinclair, of the Laramie Bicycle Club, arrived at Ogden. The same afternoon they started from Ogden on their bicycles for this city. They put up at Kayville last night, and rode into Salt Lake City this morning, arriving here at 10 a.m. to-day. Their gear, uniforms and nickel-plated machines looked trim and clean, and the riders seemed none the worse for their dusty journey over one of the roughest roads in Utah. They were met just north of this city and escorted in by several members of the Salt Lake Bicycle Club. The visiting wheelmen will see the lions and then two of the gentlemen will ride down as far as Pleasant Grove, to visit friends in that neighborhood. We understand that the editor of the Boomrang is a member of this club, some of whose members have run perilous races down the rugged sides of the Rockies. We wish them a pleasant visit.

The Dawning of a Brighter Day.—Our esteemed correspondent "Shamrock," of Fillmore, writes from that place that for a considerable time Millard County has been, so to speak, under a cloud, but that matters are now beginning to brighten. He speaks thus hopefully of present prospects:

"Brighter looks are now seen and more hopeful expressions heard; the granaries groan beneath their pre-loud loads, the barns are filled to overflowing with the increased supply of hay, the trees reaping of their fruitfulness, bear golden fruit as was their wont in past years the fold stock, which has hung so silently and long behind the door, shows signs of animation as clicking 'dimes and dollars' rattle down into its depths. Virtually the day is dawning.

"Meeting houses, school houses and dwelling houses are being erected in nearly every settlement of the county and energy, thrift and life spring up where once was desolation. "Lately I have returned from Deseret. There marked signs of improvement and progress are observable. A few years ago it had but a weak voice in the county, now it speaks as loudly as any settlement within its confines. The people are very much encouraged and are looking to the near future to witness, through the means of immigration, the development of the wonderful agricultural resources surrounding. The Bishop is enterprising, and much of the success of Deseret can be rightly attributed to his indomitable will and faithful labor. The people of Fillmore are turning their attention to the forming of reservoirs and the bringing into cultivation of the vast plain westward. The latest news is the discovery of what are supposed to be silver mines, a few miles south of this city. A gentleman who resided here twenty years ago, at that time discovered them, but communicated his discovery to but few. A few days ago he returned, having been absent twenty years, and found, without difficulty, the old discovery. Excitement ran high and monuments containing notices of location on 'this mineral-bearing ledge,' etc., for nearly ten miles are found on, I presume, all kinds of ledges. We are awaiting for a county paper."

SPECIAL BUSINESS NOTICES.

HOW TO SECURE HEALTH.

It seems strange that any one will suffer from the many derangements brought on by an impure condition of the blood when Scovill's Sarsaparilla and stilling, or Blood and Liver Syrup will restore perfect health to the physical organization. It is, indeed, a strengthening syrup, pleasant to take, and has often proved itself to be the best Blood Purifier ever discovered, effectually curing Scrofula, Erythritic disorders, Weakness of the Kidneys, Erysipelas, Malaria, all Nervous disorders and Debility. Bilious Complaints, all diseases indicating an impure condition of the Blood, Liver, Kidneys, Stomach, etc. etc. Scovill's Sarsaparilla, a single bottle will prove to you its merits as a health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

Dr. Matt's Liver Pills are the best Cathartic Regulators.
