NORDICA LEAVES DENVER. Specially Attractive Features of the Matinee - Program Tomorrow.

Miss Miller, one of the small army of advance representatives of the Duss Nordica company, arrived in the city this morning and is looking over the field to see whether anything is left undone to work up interest in tomor-

ndone to work up increase in tomor-row's big event. Miss Miller, who as a press worker, could give the opposite sex any num-ber of pointers, said to a "News" representative this morning that the Nor-dica company left Denver this morning and will arrive here at noon tomorrow. The supposition was that the orchestra, the choir and Nordica would induige in a brief rehearsal immediately following the matinee tomorrow. The choir goes through its special rehearsal tonight. Speaking of the matinee Miss Miller enthusiastically said: "I hope your people realize what they are going to see for the modest sum of fifty cents. There is no other place in America that I know of, where his big orchestra and artists like Miss Fiske and Franko could be heard at any such prices. The big orchestra is making this tour on a rush and has to get back to New York in a hurry to commence rehearsals for the winter season at the Metropolitan opera house. No such body of trained musicians has ever been seen west before. The program is popular and there ought to be a big popular turnout to greet it." The sale for both the afternoon and night event is still going steadily for-ward at the Daynes Music Store.

to the situation, but nothing was the key to the situation, but nothing was done. That ladder has been inside the prison walls for some time past, and also there is a piece of hose there. This hose is just the thing for a rope and a conis just the think for a tope and a tope and a voict would ask for nothing better to help him to escape. In a rush like that on Friday night some are bound to get away. The only thing that sur-prises me about the whole affair is that

it was no worse than it was, and for this we have to thank Robertson and the other trusties, who proved them-selves to be men in the best sense of the word."
