HAYWOOD WITNESS IS UNDER ARREST

C. W. Aller, Ex-Telegraph Operator and Ticket Agent, Charged With Perjury.

IS HELD IN BONDS OF \$5,000.

Had Sworn to Seeing Orchard and Scott at Cripple Creck Depot Three Weeks Prior to Explosion.

Boise, Idaho, July 15 .- Another warrant charging perjury against a witness who has testified for the defense in the case of the state of Idaho against William D. Haywood was issued this evening. C. W. Aller, formerly a telegraph operator and ticket agent at the depot of the Florence and Cripple Creek railway at Cripple Creek, Colo., is charged with the offense by the prose-cuting attorney of Ada county. Aller was immediately arrested and held in \$5,000 bonds. The preliminary hearing will be set to take place within the next

was immediately arrested and held in \$5,000 bonds. The preliminary hearing will be set to take place within the next few days.

Eleven witnesses in rebuttal were examined today in the Haywood trial. Harry Orchard reappeared on the stand and was asked a few questions as to his acquaintance with some of the witnesses for the defense who have testified as to his movements. On being turned over for cross-examination he admitted that his uncle, Peter McKinney, committed suicide by hanging, 13 or 14 years ago. Counsel for the defense asked Orchard if this uncle was not insane before he killed himself, and also tried to show by the witness that his maternal grandfather was insane, his monomania being imaginary crimes committed a long time ago in Ireland. Orchard denied all knowledge of the grandfather, but admitted that his uncle was demented.

The entire afternoon session was taken up with the examination of witnesses who contradicted the evidence given by C. W. Aller, who testified for the defense in support of the charge of a conspiracy against the Western Federation of Miners, in which it is alleged that Mine Owners association, the Citizens' Alliance and the Pinkerton detective agency were concerned. Aller swore that he saw Orchard and D. C. Scott together at the depot of the Florence and Cripple Creek railway on a Sunday about three weeks prior to the explosion at the Independence depot on the 6th day of June, 1904. Scott this afternoon swore that he was not in Cripple Creek at the time, and a number of witnesses corroborated this. As a result of this rebuttal testimony information was sworn out after court adjourney charging Aller with perjunct formation was sworn out after court adjournew charging Aller with perju-

The explosion at the residence of Fred Bradley in San Francisco was again under consideration today, the state undertaking to show that the effect of an explosion of illuminating gas could not have been that described in the depositions taken for the defense in San Francisco. The manager of the Boise Gas company, who was at onotime a resident of New York, qualified as an expert, He discredited the proposition that gas could be ignited by the glow at the end of a cigar. He was cross-examined at considerable length by Mr. Richardson, and showed a close technical knowledge of gas and its possibilities as an explosive. The general effect of this evidence was that the explosion at the Bradley house could not have been caused by gas.

AFTERNOON SESSION.

AFTERNOON SESSION.

After recess, in the re-direct examination of the witness Sabin, Prosecutor Hawley began to question the witness as to the reason for organizing the Citizens' alliance, upon which the defense laid much stress. He had gone along for some time when finally the defense objected on the ground of immateriality. materiality.

"We think it's immaterial, too," de-

clared Hawley, "and we didn't go into

"The court thinks it is immaterial," said Judge Wood, "and the objection is sustained."

The witness could not recall any criminal act in the Idaho Springs district prior to the summoning of Detective Gregory and Baird.

the Florence & Cripple Creek railroad, was called to contradict the testimony of a telegraph operator named Alier, who testified that he saw Harry Orchard in Scott's office in the depot at Cripple Creek ir. April, 1904. Scott said he left the employ of the company the last of March, 1904, and gave up his office in the depot at that time. He reentered the service in August, 1904, but did not occupy his former office in the depot until October. He declared he had not seen Aller during the time he was out of the employ of the railroad. Cross-examined by Atty. Darrow, Scott said his position was not that of a detective, although some of the duties were similar to those of such officers. He said he was well acquainted at Pinkerton headquarters.

"How many times have you seen Harry Orchard to talk to him?" asked Darrow.

"Six or seven times."

"Where?"

"In the Florence & Cripple Creek de.

"Where?"
"In the Florence & Cripple Creek depot at Cripple Creek and at the Adams hotel, Denver."

The first time he met Orchard was when he came voluntarily to tell about the proposed attempt to wreck a train, "Did you ever give him any money?"

"I gave him a pass and \$15 to go to Denver and see if he could learn anything more from Bill Easterly about the train wrecking."

"Did you ever see Orchard in the presence of K. C. Sterling, detective of the Mine Owners' association?"

"Yes, sir: twice, in my office in the Cripple Creek depot. I introduced Orchard to Sterling. No, I never saw Sterling give Orchard any money."

Scott said he knew Telegraph Operator Aller quite well and had dined at his house inCripple Creek.

Mr. Hawley continued the examination of Scott in re-direct. A number of arguments arose over objections by the defense to the questions by which Hawley endeavored to bring out conversations between Orchard and Scott. The conversations were finally admitted.

out conversations between Orchard and Scott. The conversations were finally admitted.

The witness said that when Orchard came to see him for the first time he introduced himself as a brother Mason. Scott told him to go ahead and teil his story. Orchard said that he and "some of the boys" were going to wreck a train, that they had tried it once and would do it again that night. In this conversation Orchard implicated Parker and Davis as having beap engaged in the plans to wreck the train. The claim of the defence is that Scott, with K. C. Sterling, drew the spikes, and that Orchdefence is that Scott, with K. C. Sterling, drew the spikes, and that Orchard was engaged by them to commit many outrages and lay them to the door of the Western Federation of

On cross-examination Mrs, Baker said she had special reasons for remembering Mr. Scott personally, Atty. Richardson, for the defense, did not ask what the particular reasons were, but Mr. Hawley did on re-direct. Richardson objected.
"We haven't asked," he insisted.
The objection was overruled and Mrs, Baker said:
"Mr. Scott had not been there long when some one began to pin notes on his door, and we were afraid something was going to happen in the hotel, We wished we would give up his room."

J. J. Cogan, who was chief clerk of the Florence & Cripple Creek railroad in 1904, said he saw Scott in Denver several times a week during April, May and June, 1904. He also introduced the company's payroll, which showed Scott was not in the employ of the company after March 31, 1994, until September of the same year. Cogan said that during the time Scott was unemployed he had no right to use any office in the depot building. James B. Middaugh, at present the chief trainmaster of the Chicago Beit railway, and formerly trainmaster of the Florence & Cripple Creek railroad, said he did not see Scott in Cripple Creek during April, May, June and July of 1964. With the conclusion of Middaugh's testimeny court adjourned until Tuesday morning at 9:30 o'clock.

HEAVY RAINS IN GERMANY.

From Six to Eight Inches Fell Over Greater Part of Country.

Berlin, July 15 .- From six to eight inches of rain have fallen throughout the greater part of Germany during

the greater part of Germany during the last three days, and as a result a number of rivers have overflowed their banks, carrying death and destruction in the surrounting country.

No less than a dozen minor railroad accidents from washouts have been reported and dispatches coming in from the country traversed by the swollen streams relate the destruction of crops, dwelling houses and outbuildings. The floods are especially severe in western Germany. Casualties to the number of 50 have been reported, principally single persons caught by the waters, chiefly in the villages of Poland and Silesia. The capsizing of a boat near Berlin resulted in two deaths. The hay and re crops in the province of Brandenburg are entirely ruined by the prolonger rain, the farmers having had only one days for harvesting.

In Berlin there have been a number of automobile accidents resulting from the skidding of the wheels on the asphalt pavements.

PROSPECTIVE SCANDAL IN BESTOWAL OF HONORS.

Londoon, July 15.—An effort is being made looking to an investigation of the matter of bestowal of honors both by the present and the late government, rumor having been busy with the names of some of the recipients, who, it is alleged, contributed freely to party funds with the understanding that they would be remembered at the distribution of knighthoods and other honors.

Hugh Cecil Lea, member of parliament, from the East St. Pancras, who is also a newspaper proprietor, brought the matter up through the honors of commons press and in the house of commons today. Lord Robert Cecil, on a question of privilege endeavored to have Mr. Lea brought before the bar of the house for the purpose of giving him an opportunity of substantiating bits observed. Arthur Basil Markham will revive the question, having given notice of a motion "that a select committee be appointed to inquire whether the late and present administrations entered into any corrupt. agreement with any persons to recommend such persons to the king for the purpose of their being created peers, baronets, or knights in consideration of their paying sums of money for such honors."

Company is Out of Politics.

Des Mooines, Ia., July 15.—At a luncheon tendered him today by Des Moines business men, President Winchell of the Rock Island railroad said:

"The Rock Island Railroad company is out of politics and wants to be in closer touch with the business men The Rock Island road feels that we should have nothing to do with politics. We will maintain no lobby in the future in Des Moines, other state capitals or the national capital at Washington."

John Sebastian, general passenger agent of the same road, said that the Rock Island will not reduce its passenger service on account of the 2-cent rate laws, but will improve it further.

REDUCTIONS THIS WEEK.

Chicago, July 16.—The long talked of reduction in interstate rates of western rallroads will actually be made next Friday. Generally speaking, all rates east of the Missouri river will be on a basis of 2 cents per mile, while to all points west of there, rates will be reduced to the difference between the present basing rate and the new basing rate in effect next Friday.

The reduction of interstate fares by the western lines is the natural result of the passage of laws by Arkansas, Missouri, Nebraska, Illinois, Iowa, and Minnesota. The eastern roads proposito make similar reductions in their interstates fares. Their rate clerks will meet here tomorrow and continue in session until they have "checked up" all the interstate fares on the basis of the maximum legal mileage of the various states.

Various Matters Were Discussed, All Of Much Interest to Those Interested in the Work.

Seattle, Wash., July 15 .- The twentythird International Christian Endeavor convention closed tonight with roll calls of the states and all of the foreign countries in which the society has branches. Already many of the delegates are leaving, and tomorrow there will be a general exodus. The society's officers call this the greatest convention that has ever been held. Some remarkable speeches were made during the sessions, not the least interesting being that of an Alaskan Indian who made a vigorous plea that the United States government should not segregate his people on reservations.

A renewed impetus was given the socity's plan for an international building to be erected at Boston, when largely attended meetings were held this afternoon and the financing of the building proposition taken up. A large stock subscription is being made, and from present prospects, the necessary \$500,000 will be raised in five years.

In contrast to the threatened deficit faced by the local convention committee, two weeks ago, is the situation togy, the fund having been over-subscribed and plenty of money in the treasury.
