#### New Road From Reno to Pyramid Will Also Be Commenced.

Active development of the mines of the Pacific Consolidated Co. is to be-gin at once, says the Reno Gazette. The day after the election 20 men will be taken to the mines and given em-ployment. The force will then be grad-ually increased until there is a large number of men working on the proper-

tien. The work on the railroad from Reno to Pyramid will all to started shortly after the election.

BANNER YEAR PROMISED.

Mines of Intermountain Region Expected to Eclipse Previous Records.

miles northwest of San Antone. Two hundred men have gone from Manhat-tan since Saturday. An area three by six miles is staked on the foothils at the southern end of the Tolyabe range, across Smoky valley from Liberty. The new camp is called Superior and is in plain sight from Miller's Siding. Two men, who have been at Green-water, say this strike beats that sec-tion. Assays from the Giffen group show three to 30 per cent in copper. The ledge is five feet from surface. [The ledge is five feet from surface.] The ledge is high as \$30. The monu-ments are made of slabs of malachite and azurite. ments are n and azurite.

## LARGE INGOT FOUND.

ues of 80 Per Cent Lead. A large lead ingot weighing over 200 pounds was recently taken from the St. Lawrence Mining company's prop-erties at Shoshone, about 40 miles from Ely, and is now on exhibition at the

Tomorrow being election day, there will be no business transacted on the floor of the Salt Lake Stock & Mining Exchange.

Ed. Hoffman, superintendent of the

# LOCAL MARKETS.

In today's local markets eggs are fig-uring higher and higher, and are now 40 cents for the very best. There are practically no Utah eggs on the market now. One promisent commission house reports that of 400 cases of eggs han-died last week, only two were of Utah laying. Cheese is also reported scarcer, as more and more milk is being used for butter making. There is very little eastern cheese in the Sait Lake mar-ket now, as the home product is fully equal to the best eastern article. To-matoes are ont of the market, but fine large and handsome Wolf River (Ida.) apples, and bell flowers from In today's local markets eggs are fig-Two Hundred Pound Mass Shows Val-

Victor C. Heikes in, charge of the division of mineral resources of the geological survey for the district com-prising Utah. Idaho and Arizona, says that this will be a banner year for the production of metals in the in-termountain states Mr. Heilles here termountain states. Mr. Helkes has just returned from a trip covering the greater part of the district and has already gathered enough statistics to show that not only has the producshow that not only has the produc-tion been unusually large, but that the last few months have been an unusual expansion of the industry. Nevada of course, takes first place as far as excitement goes but in nearly every state a spirit of renewed activ-ity is noticeable. New properties are being opened up right along and in many cases mines which have lain idle for years are being made to again produce, the higher price of metais generally now prevailing rendering this possible at a profit. Many mining men are inclined to regard as comparatively insignificant

regard as comparatively insignificant such properties as produce only in comparatively small amounts, but of. comparatively small amounts, but of, ficers of the survey realize the im-portance of the smaller producing districts when summed up in the ag-gregate at the end of the year.

#### GOLD BUTTE MEETING.

#### Shareholders Will Meet Tonight to Elect Directors.

The first annual meeting of share-holders of the Nevada Gold Butte Mines company, which is operating a very atractive gold property at Gold Butte. Lincoin county, Nevada, will be held at the office of the company in the Kalth building at 5 clock in the Keith building, at 8 o'clock this evening.

this evening. In his progress report for the week ending last Saturday, Supt. Ole Ros-sum advised that the main tunnel was in 366 feet and that the face was showing heavy mineralization, indicat-ing that he is geting close to a ledge —which is probably the Gold Butte vein, out of which some sensationally rich ore was obtained at the grass roots. This vein has made a more phenomenal dip towards the center of the mountain than was indicated hear the surface where quite a good deal of the mountain than was indicated near the surface where quite a good deal of prospecting work was performed. How-ever, the locator of the ground, J. F. Gibbs, has maintained right along that he thought the vein would be cut some-

where around 370 feet, Supt. Rossum did not make as good progress in October as he did in Sepprogress in October as he did in Sep-tember, which is due to working with a light crew for a couple of weeks. He begins the present month, how-ever, full handed, and has been in-structed to add one more man to the pay roll.

#### SHOWING HIGH VALUES.

**Rock From Stateline District Attract**ing Much Attention.

Samples of ore were received in Salt Lake last week, showing the remark-able vahies of 5.020 ounces of silver, and \$413 in gold to the ton. The ore came from the old Stateline district and was sent by Mr. Ben Swartz, one of the oldest and best known operators in the district. Mr. Swartz has remained faithful to

Mr. Swartz has remained faithful to Mr. Swartz has remained faithful to Stateline through all the years of its adversity, and it now looks as though his confidence was to be rewarded many times over. The vein from which the rock came is 20 inches wide, but the extent of it does not appear to be known. known.

Those who have seen the rock pro-Those who have seen the rock pro-nounce it a genuine telluride. The strike has created quite a little in-terest in the district, and many par-ties having properties there which have been idle for some time are sending out their experts to take a second look. It is easily realizable that a few more finds of this character would be the means of starting a genuine revival of the district.

Bank of Ely. Assays taken from this piece show the astonishing values of 80 per cent lead and 60 ounces in silver. While pursuing development work the company came in contact with an immense cave, whose depth and dimen-sions have not as yet been determined. The cave as far as it has been explored, shows lead ingots of a similar forma-tion to the specimen on exhibition here. F. C. Williams, the superintendent of the company, is very jubliant over the rich find and believes that they have the richest lead mine in the state .--Ely Expositor.

#### TO STUDY MINES.

H. Y. Liang of China Here for Benefit Of His Country.

Y. Liang of Hunon, China, pass. ed through the city Sunday en route for England from California. Mr. Liang is making a study of American mining methods for the benefit of his country and tells some interesting facts regarding China and her min-

facts regarding China and her min-eral resources. According to Mr. Liang, China is rich in ores of various kinds, but up to now the people have been handl-capped by a lack of knowledge as to methods of treatment. Mr. Liang says the country is particularly rich in antimony but the Chinese have found no means of reducing it to a commercial commodity. Gold, silver, lead and copper abound through various sections but methods of work-ing the ores now in vogue are crude ing the ores now in vogue are crude and generally unsatisfactory and the industry has never taken anything like the place it should occupy among

the pursuits of the people. One industrial revolution is at pres-ent going on in China and this will shortly extend itself to mining. Up to date methods will be introduced and when this is done the country may become one of the foremost pro-ducers of the world.

ducers of the world. At the invitation of General Man-ager Whitely of the American Smelt-ing and Refining company Mr. Liang will visit the works of that institu-tion. From here he will go to Colo-rado Springs and Cripple Creek where some days will be spent in studying conditions in that district.

CHICAGO.

CHICAGO. Chicago, Nov. 5.-Trading in all of the grain pits was light today. The wheat market was light at the opening today. The wheat market was steady on fair buying by commission houses, but the of-ferings were in sufficient volume to eff. set any bull movement. The weather was favorable for the movement of the crop and the northwestern receipts con-tinued small. December opened a shade to is hower at 74% to 74% and sold at 74% 074%. The corn was easy chiefly because of a siackened demand for cash corn. Decem-ber was is to is lower at 43% 743% and sold at 43.

ALWAYS WAS SICK. When a man says he always was sick-troubled with a cough that lasted all win-ter-what would you think if he should say-he never was sick since using Bal-lard's Horehound Syrup. Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condi-tion. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street. B
