SALT LAKE CITY, July 7, 1873.

Buying at $1.13½; *Selling at* $1.15½.

BUSINESS NOTICES.

GAS.—The gas is now good at the works and at our office, and may be used forthwith by consumers in the city. The air in the pipes is the only hindrance to its burning equally well up town, and it may be burned a few hours at our expense till the air is out. We will make an excellent gas and give good and general satisfaction.

The public are cautioned to beware of bringing a light to where the gas escapes, which is evinced by its smelling, and will look to their gas-fitters to correct all leaks, as we cannot be responsible therefor.

—— French politeness is verbal rather than actual, at last. It finds expression in words, not deeds. The hotel waiter says "pardon Monsieur" as he compels you to stand aside, but he pushes ahead all the same. Every time a Frenchman consults his own convenience to the inconvenience of others, he says "a thousand pardons," but he does it nevertheless. The manners of the four leading nations of the world may be observed at a railroad eating house where there is but a single dish of some coveted delicacy. An American would dexterously seize it and divide it with his friend or neighbor, an English-man would make arrangements in advance with the waiter to have it reserved for him, a German would appropriate it all without an apology, and a Frenchman would do the same thing with a bow and a smile.—*Paris cor. of Sacramento Union.*

—— If cleanliness is next to godliness, says the Pioche *Record*, then is Pioche a most ungodly town. With hideous piles of filth and offal in the back streets and alleys, and streams of filthy water from restaurants and saloons running through the principal streets of the city, it will be a fortunate thing for the people of Pioche if they are not visited by cholera, small-pox, spotted fever, or some other pestilence before the summer is over.

SOUTH COTTONWOOD MEETINGS. — The meetings held at South Cottonwood Ward, on Saturday and yesterday, were very numerously attended, it being estimated that not less than 800 people were present, some of whom were from West Jordan, Mill Creek, Big Cottonwood and other places. The meeting house was much too small to accommodate all who were there, quite a number having to remain in the vestry and outside of the building. A fine spirit prevailed at each of the meetings. On Saturday the speakers were:

Elder Milo Andrus, President Joseph Young and Elder L. D. Young, and on Sunday:

Elders Geo. Swan, R. F. Neslen, D. B. Huntington, Thomas Taylor, S. W. Sears, L. D. Young and President Joseph Young.

The discourses were spirited, and their main purport was to show the necessity for spiritual growth among the Saints, and that they should show no disposition to compromise any of the revelations of God to gain the favor of the world.

THE BRITISH MISSION.—The following are from the *Millennial Star*, June 17.—

RELEASES.—President David O. Calder is released to return to Utah in charge of the July 2nd company of emigrating Saints; and Elder S. S. Jones, lately called from the presidency of the Sheffield Conference to assist in the *Star* office, is released to return with Elder Calder and render him such assistance as may be required. President Calder will continue to preside in the Glasgow Conference until he leaves for Liverpool on his way home, when Elder Robert McQuarrie will succeed him in the presidency of that Conference.

APPOINTMENTS.—Elder John C. Graham is appointed to labor in the *Millennial Star* office.

Elder Robert T. Burton is appointed to preside in the Birmingham Conference, and Elder John Clark in the Sheffield Conference.

Elder Robert W. Heybourne is appointed to succeed Prest. H. S. Gowans in the presidency of the Bedfordshire Conference, Prest. Gowans to succeed Prest. Robert McQuarrie in the Durham and Newcastle Conference, Prest. McQuarrie to succeed Prest. David O. Calder in the Glasgow Conference, Elder Joseph Birch to succeed Prest. E. A. Box in the Manchester Conference, and Elder Elijah N. Freeman to succeed Prest. David Calder in the Bristol Conference. Elders Gowans, McQuarrie and Birch are requested to proceed to their several appointed fields as soon as they can properly transfer the books and other business matters, as there will not be time for them to travel any with their successors.

Elder Lester J. Hardrick is appointed to succeed Pres. J. B. Fairbanks in the presidency of the London Conference, to take effect at such time as President Fairbanks may prefer; after which Elder Fairbanks is agreeable with his and our wishes, will travel and preach in the London Conference as he may deem best, until time for his release to take charge of the early-in-September company.

Elder W. K. Barton will remain Traveling Elder in the Sheffield Conference until otherwise directed.

Elder Arthur B. Taylor is appointed Traveling Elder in the Nottingham Conference, and Elder John Mendenhall Traveling Elder in the Birmingham Conference; they will repair to their new fields of labor at their earliest convenience.

RECEIVED.—"Speech of Hon. Clinton L. Merriam," of New York, in the House of Representatives, March 1, 1873, on the bill (S. No. 1572,) for the suppression of trade in, and circulation of obscene literature and articles of immoral use.

SALT LAKE CITY, July 5th.

Editor Deseret News:

After writing from Springville, 30th ult., we visited Goshen, where we held meetings. After three successive efforts the people of Goshen have succeeded in locating and improving their town, at the south end of Utah Lake and south-east of their farming lands. On our return we attended monthly fast meeting at Draperville, and preached the funeral sermon of Henry R. Price, aged seven years, who came to his death by drowning, on July 2nd, about noon, in a pool of water in Bishop Stewart's pasture. A boy four years old, brother of the one drowned, was with him at the time, and ran half a mile to report the occurrence.

E. STEVENSON.

THE FOURTH IN THE SETTLEMENTS.—The Fourth was celebrated in good style at South Cottonwood. The stars and stripes were hoisted to the top of the new liberty pole seventy feet high at sunrise, and a salute of musketry was fired, under the direction of Thos. A. Wheeler.

There was a big meeting in the schoolhouse, where the chaplain, S. P. Richards, offered prayer, and the Declaration of Independence was read by H. W. Brown, and speeches were made by A. Cahoon, S. Atwood, Bishop Rawlins and others, and Milo Andrus, orator of the day, delivered a fine oration. The large company then partook of a bountiful collation from five tables about forty feet long, from seven to eight hundred people participating.

After dinner the children danced till five p. m., and the bigger folks met at seven o'clock and indulged in the same kind of exercise till next morning. Everything passed off agreeably. The affair was got up under the supervision of Bishop Rawlins and counsellors, assisted by the teachers of the Ward. We learn these particulars from H. W. Brown, reporter for the occasion.

BAD ROADS.—Complaints are made by travelers who have occasion to pass Salina, Sevier Co., of the bad roads in the vicinity of that place. Now that the Sevier valleys are being settled and the road is opened through that way to the settlements of Long Valley and Kanab, there is a great deal of travel on that route, and we are informed by a person just in from Panguitch that loaded teams quite frequently mire down at the place complained of, and have to be unloaded before they can get out. Those in that locality whose business it is, should make the necessary repairs.

WORSE THAN CONTEMPTIBLE.—The empty ten gallon keg, which contained the beer intended by Mr. Shipman for the members of the Fire Brigade, was discovered this morning in an office over the First National Bank. The parties who obtained the beer under false pretenses, or rather stole it, represented to Mr. Shipman's draymen that they belonged to the Fire Brigade and they would take charge of the beer. They did take charge of it and guzzled it. We have heard of a few individuals who are said to have assisted in using up this beer, who have made themselves conspicuous in connection with the "ring" in this city. The fellows who perpetrated this mean act would probably like people to view the matter in the light of a joke, but stealing is not generally viewed in that light.

FROM SAN FRANCISCO.—James Linforth, Esq., of San Francisco, has been on visit to his friends in this City for a few days, and purposes leaving again for San Francisco this afternoon.

IMPROVING.—We were informed yesterday that Bishop Kesler's health had slightly improved, and hopes of his ultimate recovery had become strengthened.

By Deseret Telegraph.

Young Man Drowned.

BRIGHAM, 7.—A young man, named James Petersen, about 22 years old, went down to take a swim yesterday afternoon. He got in deep water and was drowned. Some small boys were there, and they got him out and tried every way to bring him to life, but it was no use. He was a worthy young man, and his loss is much lamented.

SALT LAKE, PIOCHE AND SEVIER VALLEY RAILROAD.—We are informed that three-fourths of the grading of this line between this city and Lake Point is now completed, and that a locomotive and two flat cars are on the way for the use of the company, and Generals P. E. Connor and E. M. Barnum are about to proceed to the east to make arrangements about obtaining and shipping twenty miles of iron. It is confidently expected that the line will be completed to Lake Point the coming Fall.

A DISASTROUS QUARREL.—Two men quarreled yesterday about who should use the water from the upper ditch, 20th ward. Words ran high and one of the contestants became so exasperated that he knocked the other down and broke his arm.

The person who did the knocking down was arrested. We understand his name is Lars Larsen. Dr. Richards set the injured limb.

This is a disgraceful affair. It has become almost chronic with some people to quarrel about water privileges. Where there are wholesome regulations well and strictly carried out, quarrelling can be avoided. In the upper part of the 20th Ward, however, matters of that kind are rather loose. There is a ditch, but it has not half capacity to contain the necessary amount of water which could be let into it from Red Butte. Seeing there is plenty of water for the getting, yet the people obtain so little that they quarrel over it, there is an evident lack of good management somewhere, very likely on the part of the people themselves.

TERRITORIAL NORMAL INSTITUTE.—The Institute was called to order at 9 a.m.

After prayer, Dr. Park observed that inasmuch as the idea of a Normal Institute for this Territory originated with Supt. Campbell, he would be pleased to hear from him. The Superintendent delivered a short, congratulatory address to the pupil teachers of the Institute, and remarked that he had engaged Dr. Park, Miss M. E. Cook and Profs. Dusenberry and Maeser as teachers. There was as yet no Territorial appropriation, but the genius and policy of our Territory authorized a public officer to step forward and do that which the imperative necessities of our growing community demanded, and when duties were thus performed in a judicious and economical manner, the liberality and generosity of our Legislature could be relied on with certainty. The Superintendent referred briefly to the able corps of experienced instructors who had generously come forward when called on, although anticipating a rest, and were buckling on their armor to do good institute work. The presence of such a number of pupils was exceedingly gratifying, and he considered to-day's proceedings would mark an epoch in our Territorial school history. The institute would be conducted by Dr. Park.

Dr. Park read the following:

PROGRAMME OF TERRITORIAL NORMAL INSTITUTE.

	A. M.

LATEST BY TELEGRAPH.

BUFFALO, 7.—Another shock of earthquake occurred at six this morning. The only damage done by the shocks yesterday was the throwing down of a chimney in the centre of the city.

BARCELONA, 7.—The city of Vich, 37 miles from Barcelona, is being blocked by the Carlists.

NEW YORK, 7.—A dispatch from Winchester, Va., says that while a family named Little, were at breakfast on Saturday, a feud broke out, when the two sons, Oscar and Lycurgus, commenced firing at the other sons, and their mother, the firing being returned by the other sons. Oscar was wounded, captured and sent to jail; another son named Clinton, was wounded and also the mother. Clinton died on Saturday evening, and the mother will die.

—— We are thoroughly ashamed of the great Empire State. We have no words with which to express our disgust at Northern chivalry. Virginia and Mississippi are unmeasurably ahead. The story that humiliates us is, that two New Yorkers, a broker and coal dealer, have returned from Canada, where they went to settle an affair of honor, and neither of them has a scratch to show. The Spartan mother used to say to her boy as he went forth to battle, "with your shield or upon it." How much better if these belligerent braves had been brought back on their shields!—*Louisville Courier Journal.*

—— The following from the Live Oak (Florida) *Times* indicates very peculiar ideas of decorum in a house of worship among our rural neighbors of the extreme South: "We suggest that our churches employ some one to carry water to the thirsty congregations. It is very interesting to see one of the brethren during service go to the pulpit, take the water-pitcher placed there for the convenience of the minister, in both hands, fill his mouth to the utmost capacity with water, and then turn and squirt it upon the floor."

—The Boston *Transcript* asks: What opponent of the "peculiar institution" ever expected to live to read that Henry A. Wise has declared to Virginians that "slavery had been a blight upon Southern industry and prosperity?"

—— Boston decrees that its public scholars shan't be whipped until the day after they deserve it.

PROCLAMATION!

TO THE CITIZENS OF UTAH TERRITORY

It should be acquainted with the fact that there are about

FOUR FIRST-CLASS ORGAN FACTORIES IN THE UNITED STATES,

☞ AT THE HEAD OF WHICH STANDS THE

ESTEY!

It being by far the

LARGEST,

And turns out

10,800 per Annum,

Being

1,200 ORGANS PER ANNUM MORE THAN ANY OTHER COMPANY!

☞ *THE REASONS WHY THE ESTEY ORGANS HAVE BECOME SO POPULAR* wherever introduced are,

FIRST: Because they are UNRIVALLED in SWEETNESS and PURITY of TONE, being entirely destitute of that brassy *harshness* which is always found in second-class instruments.

SECONDLY: Because only the choicest of timber is used and the most accomplished *mechanics* employed in their construction. The timber, after receiving the proper amount of Nature's seasoning, passes through drying kilns erected in this vast factory for the purpose, which process tries the timber more than any hot climate under the sun. Every board which will not stand this test is discarded. No class of material, whether it be ivory, ebony or walnut, is converted into these instruments till it is known to be strictly reliable. Consequently in the last twenty-seven years the ESTEY Organ, while it has been the finest in tone, has also been the most durable instrument in the market. This company originated all of the most valuable improvements, including the celebrated

VOX HUMANA,

Which has been universally adopted; also the wonderful

VOX JUBILANTE

And the Improved Bellows, which preserve the instrument in tune by preventing too great pressure of wind on the reeds.

The "ESTEY"

IS THEREFORE NOT A CHEAP ORGAN, but unlike the cheap class it is

An Honest Organ!

At an Honest Price.

This is testified to by the leading musicians and mechanics of the country, and our guarantee that we are constantly enjoying the patronage of the best judges and most prominent members of the community.
