RED CANYON, ROCK SPRINGS AND WEBER COAL.—The only reliable market for lump, assorted and egg coal. Large stock always on hand, and full weights guaranteed. Prices low, and special attention given in suit the wants of the public. Office, Deseret Bank Block.

A. GOULD, Agent. They All Take It.

When the system is run down to that extent that you pass sleepless nights, are nervous and irritable, have gloomy forebodings, sour stomach, sick headache, and coated tongue, do not scold yourself as high private, in the rear rank, under General Deliberty, but cheer up and try White's Kidney Pills.

The Great Liver Panacea, now for sale in every city and town on the continent. No medicine ever compounded is half its equal for the cure of DYSPEPSIA and LIVER COMPLAINT. It has a specific power over the liver, and by curing the liver Dyspepsia and all other diseases arising from it, vanishes as if by magic. Sample bottles are sold at the small price of 25 cents that will convince you of its merits. Large size bottles 75 cents, for sale every where.

For sale, wholesale and retail, by the Z. C. M. L. Drug Department and Moore Allen & Co., Salt Lake City. d226 w29

THROUGHOUT the little openings in the skin, invisible except through a microscope, the perspiration, in a state of health, exudes, hour by hour, night and day. The total obstruction of these minute outlets would produce death; and when they become partially blocked, the skin grows dry, yellow, and finally decays, and the general health is injuriously affected. Glenn's Sulphur Soap, by opening the pores, removes eruptions and unhealthy granulations on the skin, and imparts to it a healthy clearness, humidity and smoothness, banishing from the face of beauty complexional blemishes, whether attributable to impurities in the capillary circulation, or to undue exposure to the sun and wind. For chloasma, scorbutic complexion, like the itch, salt rheum, and erysipelas, it is a sovereign remedy, being quite as effective as Sulphur. Bathing, for such maladies, as well as its use in washing with Glenn's Sulphur Soap, garments and linen from the sick room may be handled with perfect impunity.

HURRY! Hair and Whisker Dye, black or brown, 50c.

The Bottom of the Sea yields no pearl that can exceed in beauty teeth whitened and cleansed with the incomparable dentifrice, the fragrant BOZODONT. Nor is coral softer than the gums in which such teeth are set. So say the ladies, who are the best judges in such matters.

GILBERT'S LAUNDRY CASTLE Soap is the cheapest, as it takes less. d227

What Might Have Been Heard.

Almost any day during the Centennial, a light of phylloxera might have been seen as it had been the eastern glass was standing in the main building in which the phylloxera was kept. The phylloxera, which is a small insect, is a pest of the vine, and is known to be a pest of the vine. The phylloxera, which is a small insect, is a pest of the vine, and is known to be a pest of the vine. The phylloxera, which is a small insect, is a pest of the vine, and is known to be a pest of the vine.

BENSON'S CAPSULE PLASTER

was invented to overcome the great objection ever found to the use of plaster. It is a plaster of the highest quality, and is known to be a plaster of the highest quality. It is a plaster of the highest quality, and is known to be a plaster of the highest quality. It is a plaster of the highest quality, and is known to be a plaster of the highest quality.

THE 17TH DISTRICT SCHOOL

EVENING NEWS

Tuesday, September 10, 1878.

PRICE OF COIN.

Corrected daily by Deseret National Bank.

SALT LAKE CITY, September 10, 1878.

Gold \$110.00, Silver \$100.00.

SILVER (Half Dollars) d231

Buying at 92¢, Selling at 94¢.

LOCAL AND OTHER MATTERS.

Thermometer.—To-day, 11 o'clock p.m., the thermometer noted 70 degrees F. in the shade. Clear.

Frost.—A heavy frost was experienced last night throughout the whole of this city. Tomato vines were ruined, and potatoes were slightly nipped.

Becher.—To-night, the Rev. Henry Ward Beecher, the famous orator and preacher, makes his first appearance before the Salt Lake public. The lecture, "Wastes and Burdens of Society," is said to be of his finest efforts; curiosity to see the noted man, however, will contribute as much to his audience this evening, as the finest lecture he could deliver.

Badly Scalded.—This morning a little son of Brother James Conit, of the 11th Ward, was seriously scalded on the left side of his head and body, by the overturning of a vessel containing soup. Though everything possible has been done for the alleviation of his pain, the little fellow is suffering intensely. The child is but a year and a half old, and, therefore, the severity of the accident is very great.

Change of Address.—By letter from Elder W. Bramall we learn that the address of the Nottingham Conference, England, has been changed from 61 Great Freeman Street, Nottingham, to 43 Sabina St., off Great Alfred Street, Nottingham, England. Persons desiring to communicate with their friends, or with Elders in the Nottingham Conference should address their letters to the latter place.

The Azalea Entertainment.—The yellow fever benefit given by the Azalea Literary Association, in the Social Hall last evening, was a success. The programme was well arranged and nicely rendered, a goodly number of its features in first-class style. The audience was a large and appreciative one, and the proceeds, netted for the relief of the distressed people of the south will reach the neighborhood of a hundred dollars.

Catch Valley Excursion.—The Cache Valley excursion, under the management of Mr. John N. Pike, will leave Salt Lake tomorrow morning, at 7 o'clock, returning from Frank on Friday, September 13. An opportunity is now afforded all, desiring to visit Cache Valley, of doing so, at a very reasonable cost, the fare from this city to Franklin and return being but \$2.50. Tickets may be had at James Dwyer's, or of Mr. Pike, the manager.

Base Ball.—Public anticipation with regard to the game of base ball to-morrow is at its height. The best attended and probably most exciting game of the season is confidently expected. To the sincere admirers of the game, the fact that the two finest and best matched nines in the Territories are to be arrayed against each other will furnish a sufficient attraction to insure their attendance; while the grand object in view is another and weighty inducement to them and to all classes of the people.

The prices of admission to the grounds has been fixed at fifty cents, while a seat in the stand will cost \$1. In view of the charitable object to be attained, these figures are not too high, and we think will be eagerly paid by the community.

Next Saturday, on Washington Square, will be played the first game of the second series of five for the championship between the Red Stockings and the Deserets. If the two nines, as they will play to-morrow, are brought together during the games for the championship, it is quite possible that the result of the first series may be reversed.

The Deseret Museum.—Professor

Barclay, curator of the Deseret Museum, communicates the following:

Several curiosities have been presented to the Museum by Bishop O. F. Whitney. Among other things two leaves from a palmetto tree at Mount Vernon, planted by George Washington in 1792, the year in which he died. There is also a fragment of wood from the belfry of the Temple at Kirtland, which will be placed in the cabinet devoted to relics connected with our early history as a people.

Brother Levi W. Richards has also given a copy of the St. Louis Luminary, printed in 1855, containing items of information relating to the doings of our missionaries in that city, with a notice of a very important discovery made by Brother Orson Pratt in November, 1854.

This was no less than that law by which the rotation of planets is governed, probably one of the most important discoveries ever made in relation to the heavenly bodies.

That law is there expressed in terms of the masses and of the diameters of bodies moving in space as follows:

"The squares of the cube roots of the masses of the planets, divided by the squares of their diameters, are as their periods of rotation."

The correctness of this law is shown in the copy now referred to, preserved among our "Church-relics" in the Museum.

Benefit Entertainment.—In our columns to-day, will be found the programme for an entertainment to be given in the Theatre, Thursday evening, September 12, for the benefit of the sufferers from the yellow fever pestilence in the south. A glance is sufficient to show that it is an excellent selection and arrangement, including Messrs. T. A. Lyne, J. A. Lindsay, H. B. Emery and O. F. Whitney in the dramatic portion, Professors George Careless, J. J. Daynes, S. H. Kennicott, C. LaMar as leaders and accompanists, Misses Susie Spencer and Priscilla Jennings, Messrs. Scappatura and Levy as vocalists, and the members of the orchestra, the 14th Infantry Band, the National and Tenth Ward Brass Bands as instrumentalists.

The prices of admission are very reasonable, being reduced to 75c, 50c, and 25c, and in view of these considerations and the main one, its worthy object, we earnestly hope the citizens of Salt Lake will turn out en masse to witness the performance.

The Tooele Case.—A new phase of the Tooele election case has been developed. The undertaking in appeal for the sum of \$1,000, which has previously been mentioned, was filed by the defendants; but the plaintiff, within the time prescribed by law, entered an objection to the sureties thereon. The defendants were then allowed five days, in which to either have their first sureties justified by the court, or to obtain new bondsmen. The space of time mentioned expired last night, and the defendants had failed to take the necessary action in the premises. It now remains to be seen whether the Court will decide that a new appeal may be taken, or adjudge that the provisions of the peremptory writ of mandamus be complied with.

Ogden Items.—From the Junction of last evening we learn that a number of fine animals, which are en route for Japan, are at the stable of Carroll & Dees in Ogden. They were bought in Kentucky for racing and breeding purposes, by the Japanese government.

The firm of Rother & Richards, proprietors of the Utah Vinegar Works, has been dissolved by mutual consent. The business will hereafter be conducted by Mr. L. M. Richards, who is a young man of promising ability. The vinegars manufactured by the old firm found a ready sale throughout the surrounding territories; and we trust that this branch of home manufacture may continue successful under the direction of Mr. Richards.

Complimentary Ride.—The Deseret News establishment is indebted to Mr. W. W. Ritter, manager of the Utah Western Railroad, for the courtesy of an invitation to take a trip on the cars to Lake Point and return, on Wednesday the 11th inst. The invitation includes all the employees of this office. The train will start at 7 a.m., and return early in the afternoon in time for the base ball match, so if our patrons do not receive their papers to-morrow evening, the only reason we can give, while kindly asking their consideration, is our inability to be in two places at the same time.

A Kindly Gift.—The worthy Superintendent of the Sixth Ward Sunday School, Elder Frederick Ooss, prepared an agreeable surprise on Sunday last, for the young people, under his direction. At the close of the morning's exercises in Sabbath school, the superintendent, with his two counselors, gave to every scholar present a delicious cluster of grapes. The children were not only greatly delighted with the refreshment, but were made happy by a knowledge of the kindly feeling which prompted their teachers to take such pains for their pleasure.

A Good Idea.—Brother James Dwyer has shown us specimens of two kinds of instruction cards, which he has had printed for the use of the 17th Ward Sabbath school, of which he is superintendent. One is called the children's Articles of Faith, and contains also items of the other "Rules for a Good Life," containing 25. Both were written by Brother Dwyer, and seem with excellent instruction and advice to the young, who will be required to commit them to memory, and when asked, repeat them aloud in concert. The idea is a good one.

For Arizona.—To-morrow, Elder Erasmus Snow and party organize at Johnson's settlement, Kane County, and start to visit the settlements of the Saints in Arizona and New Mexico. The party consists of Elders Erasmus Snow, Ira N. Hinckley and John Stanley, of Fillmore, James N. Smith, of Parowan, L. John Nettall, Edward A. Noble, and Charles Oliphant, of Kanab, and Bateman Williams, of Orderville.

BEAVER NEWS.

Foreman on Polygamy.—Tasker Curran, etc.

The following special to the NEWS came by Deseret Telegraph:

BEAVER, Utah, 10.

Editors Deseret News:

The District Court is in full blast. Judge Foreman, felt a full blast after delivering himself of his charge to the grand jury, especially against polygamy, which his honor says must and will be put down. The people of the Christian world will not stand it. He instructed the jury to grind out indictments. The coterie of ten lawbreakers and shootists under the surveillance of Sheriff Farnsworth, now await the action of said body. The sheriff's gang is adorned with the countenance of the celebrated Ben. Tasker, who yesterday called into Beaver on legitimate business, and while in the co-op. store fitting a hat on his illustrious head, the U. S. Marshal quietly took him under his protection. Verily Beaver is growing W. T.

NOTICE

The Bishops and Presidents of Quorums of the Salt Lake Stake of Zion are requested to notify me, at their earliest convenience, of any changes in the presidency of any of the quorums of the Priesthood over which they preside, and when and by whom any persons newly appointed were ordained and set apart, that I may prepare the names of the authorities of this Stake for presentation at the next Quarterly Conference.

W. W. TAYLOR, Clerk of the Stake.

Grand Ball.—The members of the Henry Clay Literary Society are making active preparations for their grand ball, to be given in Emporium Hall next Friday evening. The young gentlemen interested desire to net as large a sum as possible for the relief fund, as well as to give their friends an evening of enjoyment.

Accident.—Last night, about 8 o'clock, Mr. Joseph Pitt, of the 17th Ward, while wrestling with one of a party of companions on the sidewalk of Main Street, had the misfortune to break one of the small bones of his left leg, on the outside near the ankle. Dr. Benedict dressed the injury, and the patient is progressing favorably.

Arizona News.—Floods, etc.—From a communication dated August 24th, at Sunset, Arizona, on the Little Colorado River, we learn that for a week previous the rain had been pouring down almost incessantly, and in consequence, the river was much swollen. The whole bottom had been covered with water, some of the farms submerged, and considerable grain in stacks had floated away. At one time the farm of our correspondent was entirely surrounded by water.

The grain at Woodruff would be almost entirely destroyed. The grain mill at Brigham City had been surrounded and their stacks standing in eighteen inches of water. Boats and rafts were called into requisition in moving from the houses to the corral.

The Moquis Indians were bewailing the loss of their crops, and had been fearful of the contagion.

At date of writing, however, the flood had subsided, and all was high and dry once more.

"Enquirer" Items.—Accidents.—On Saturday, August 31st, between 8 and 9 o'clock in the evening, Mr. William Wright, of Charleston, was returning to his home with a load of grain, from Provo, when, on a dugway, at the head of Provo Canyon, his horses became frightened, ran off the road and upset the wagon.

Mr. Wright was thrown out, two of his ribs broken, and he was otherwise badly bruised. With much difficulty, he unharnessed one of the horses and rode to a sheep herd in the vicinity, where he obtained help and reached home three miles distant, about midnight.

Last Friday morning a little son of Mr. Almon Ferra, resident of the First Ward, Provo, while climbing on his grandfather's barn, accidentally fell and broke his right thigh bone. Dr. Pike set the injured limb, and the little patient is progressing favorably.

SALT LAKE THEATRE

THURSDAY, SEPT. 12, 1878.
