Railroad Stocks Active in Wall Street - Live Stock and Produce Fairly Steady.

New York, May 8.—Railroad stocks were offered quite freely at the opening, and the London market gave evidence that there had been selling in anticipation of weakness here.

The general weakness advanced in face of the general weakness in Europe was increased largely as compared with recent averages, but the animation was at the expense of value, losses in many instances exceeding a point.

Specialties in rubber, steel and wire and general metal, advanced in face of the general weakness in Europe.

Industrial specialties displayed resistance for a time, but eventually succumbed to the general weakness.

RICH IN THE WATSEGA MINE.

Hon. A. W. McCune Receives Good News from Montana.

Good Report From the Utah Mine - Chance at Silver Shield - The Smokehouse Suit.

Hon. A. W. McCune was the recipient of good news from Madison county, Mont., today, in the shape of a letter from Manager A. J. Hunkle of the Watsega mine in that county.

McCune is heavily interested. The letter states that it has been discovered by running a crosscut from the south drift on the 200-foot level, that the drift has been paralleling a vein of rich gold ore, which was broken in to a few days ago.

McCune says today, "as if the Watsega will be one of the biggest gold producers in the country."
