

London. The steamship companies decline modifying the terms of the contracts for postal service between the United States and England.

Havana. A commission has arrived from Trinidad and had an interview with the Captain General. The complaint of patriots is that the Government of Trinidad is disloyal and that he purposely sent troops where no enemies were. They declare the belief that he has sold himself to the insurgents. A similar accusation is lodged against Mordose, Governor of Villa Clara. Col. Merdinisa, commanding forces in the field near Remedios is charged with open complicity with the insurgents. Four companies of the Fourth battalion, composed principally of volunteers, who were sent to the field for active service have deserted to the enemy. The advance guard of Gen. Lenora was recently defeated near Cienfuegos. Several expeditions from the U. S., well armed, are known to have landed at Cuba within the past few days and joined the rebels.

New York, 26. The Tribune's Havana special says Spaniards are secretly urging the home government to arm the blacks.

Three men were killed in the disturbance last Sunday for replying to the insults of the Spaniards. A great crowd of Spaniards cheered the execution of the Cuban, Romero, who was shot on the wharf, in sight of the prisoners who were leaving for Africa.

The impression still prevails that Santiago is taken by the rebels. It is reported that there are fresh outbreaks near Matanzas.

The Herald's special advices from Nassau report one hundred Cubans there, who display a bitter feeling against the Spaniards. The Spanish Consul is much alarmed by their demonstrations. The Cuban revolutionary flag is flying from two buildings in town. The Spanish war steamer Guardiania is in port.

One of the Peruvian monitors visited Maralyo, a small port on the northern coast, while on its way from Pensacola. Two insurgent generals went aboard during her stay.

The Times makes, editorially, reference to the mass meeting of working men. It says it was the first startling incident of the revolution, which has been long pending. These organizations combined industrially and politically, form a power which it is not wise to ignore.

Madrid. In the conscription act which the Cortes passed yesterday, it is provided that no more men be raised by conscription than is actually required by the government to fill the ranks to the army standard strength. The Minister of War had previously demanded authority to raise twenty-five thousand recruits for this purpose.

Chicago, 26. The Tribune's New York special says the Cubans there claim to have private advices from London that the English government has consented to acknowledge the insurgents as belligerents, and to allow purchases of war material to be made in British ports. It is confidently expected that France follow English example.

[England's experience on the Alabama question is too vivid just now for this to be true.--Ed. D. E. N.]

Paris.—There were several large public meetings held here yesterday. Three persons were arrested for making seditious speeches.

Havana.—The appointment of Piomb is favorably received by the community. A letter from Mexico says that frequent secret interviews take place between Rosecrans and Juarez. The former urging the latter to recognize the Frenchman.

London.—Letters from Paraguay report that Lopez is at Parabibi town, fifteen leagues from Asuncion, with 5,000 soldiers and 30,000 non-combatants, consisting of families who followed him in the interior, and who are encamped in the vicinity.

General Mitre, with the allied forces, marched through the country to seize certain mountain passes. The occupation of which will prove fatal to the Paraguayans.

San Francisco, 28.—The Mikado arrived at Kioto on the 3rd of February, and was married on the 9th. A difficulty had occurred at Kioto between the followers of Satsuma and Choisti; it was reported that several streets were set on fire, and that the flames reached the palace of the Mikado, who fled to Osaka. The report of the assassination of the Governor of Osaka originated in the fact that a high official was murdered there.

Admiral Enomotto celebrated the event of his taking entire possession of the Island of Yesso, by firing a salute of 101 guns from the fleet and the batteries ashore. He notified all the foreign consuls of the formation of a provisional government and of the appointment of the necessary permanent officers for the principal departments. His forces were rapidly increasing, and it would be no easy matter for the Mikado to subdue him and retake the Island.

MERCHANDISE and MACHINERY of all descriptions purchased or imported for UTAH TRADERS on the most favorable terms and at lowest current rates.

The near approach of the CENTRAL PACIFIC RAILROAD to the principal business points in Utah, affords an opportunity to merchants to quickly and frequently replenish their stocks at any season of the year.

Many articles of general consumption, both of Foreign production and California manufacture, can be obtained at less cost from San Francisco than elsewhere.

California and Oregon-made Woolen Goods, Blankets, Cassimeres and Clothing, such as underwear and Hosiery, are superior to anything imported and intrinsically cheaper.
