CONGRESSIONAL.

HOUSE.

WASHINGTON, 14.—Upon, from the committee on military affairs, reported a bill appropriating $200,000 for the erection of suitable posts for the protection of the Rio Grande frontier; referred.

Warner, from the committee on banking, reported back the resolution directing the Secretary of the Treasury to report under what law and conditions the United States Treasury became a member of the New York clearing house, and whether said clearing house accepts the Treasury certificates payable in silver coin in settlement of balances, or whether the settlement of balances in standard silver dollars or silver certificates is prohibited by order of the clearing house; adopted.

The House went into committee of the whole, Carlise in the chair, upon the report of the committee on rules. After considerable debate and without action the committee rose.

Executive communications were laid before the House by the Secretary of the Navy, asking for an appropriation of $10,000 to enable him to fulfill his contract with Vinnie Ream Hoxie for the statue of Admiral Farrigut. Adjourned.

EASTERN.

The Wheat Trade.

NEW YORK, 14.—The *Star* of today says: Private letters received yesterday by leading grain merchants in this city, state that farmers cannot make sales, though anxious to do so, because they can secure no place to store their product, and that a gang of speculators have gained control of the market for the purpose of speculating. It is claimed that the same scarcity of storage quarters exist at all the seaboard cities, and that this glut has been created at all the wheat centres to bolster up the market by exhausting the demand and locking up the supply. The "corner" which received a black eye a week ago by an unlooked for raid on the Chicago market, it is now stated has recuperated, and is now in full control of the wheat speculation. This pool, it is said, is headed by Jim Keene, who is credited with having bought up the entire product of both this as well as last year, amounting to millions of bushels. It is known that he sent checks some time ago through a Chicago bank for $3,000,000, to settle some of his enormous purchases, and that he ordered it stored for future orders. He is also credited with having sent Rufus Hatch to England to manipulate the European markets so as to secure good prices there; but as Hatch is in New York that report is exploded.

The *World* publishes an interview with Hatch, who says the blockade is more in corn and oats than in wheat; that the present situation does not differ from that of March of last year, when Chicago warehouses held over 12,000,000 bushels of grain. To-day they hold over 12,000,000 bushels. Owners of grain there do not propose to pay 24 cents a bushel to get it to the seaboard, preferring to wait for the opening of navigation. He charges high rates upon Vanderbilt. He also says: "I am, perhaps, over sanguine, but I believe in very much higher prices. Europe and the United Kingdom have very short crops and of very poor quality. It is not one county that is short, but all of them, it is universal. Wheat is not, at present prices, what may be termed high, and is only a few points above the average of the last 12 years. The prospects of the growing winter wheat crop are anything but flattering. There is an increase of acreage in winter wheat districts, but in many localities the wheat has sprouted, and with the recent warm weather and rains, these districts will not produce more than one bushel to the acre. It requires a heavy body of snow to secure a good winter wheat crop. Last year the farmers had a heavy fall of snow, lasting from Christmas to March. I may be over sanguine about prices, and the whole wheat question, but time will tell."

The World's Fair.

A public meeting to promote the movement for holding a world's fair in this city in 1883, was held to-night. President Jewett, of the Erie Railroad, occupied the chair and made the opening address. He said the year 1883 was appropriate, because at that time 100 years ago, England, acknowledged by treaty, that the American people were a free and independent nation. The following gentlemen, among others, were selected as vice-presidents: Hon. Wm. M. Evarts, Peter Cooper, Thurlow Weed, Benj. H. Bristow, Wm. H. Vanderbilt, J. Pierrepont, Morgan Chester, A. Arthur, Noot Davis, Charles G. Daly, James Gordon Bennett, Oswald Otterndorfe, Robert Bonner and some 50 others.

The Secretary read the report of the previous meeting of the committee, stating many governments had already appointed commissioners and have written the committee in the most cordial terms in favor of the project, and that it proposes to ask Congress to allow the exhibition to be held under the auspices of the government.

Gen. Joseph G. Hawley, then made a speech, in which he related the visit he made to the European Exposition of 1878, and he stated that the $10,000,000 spent in the advancement of this exposition would be the greatest advertising benefit the country ever had.

Senator Windom, of Minnesota, then addressed the meeting. He referred to the various fairs held, and said that in the present case the different States should bear an equal proportion of the expense. Resolutions were adopted, setting forth that the fair should be an international one, and that its value to the community was of such importance that it ought to receive the hearty endorsement of the whole country.

Collision.

A collision occurred this afternoon on the East River between the annex boat *G. T. Olyphant* and the ferry boat *Warren*. The former sank in five minutes, her passengers and crew, 25 in number, being rescued by tugs and row boats.

MAINE MATTERS.

AUGUSTA, 14.—The House met at 3 o'clock this afternoon. The Robinson committee on elections reported as elected members certified to by the Governor and Council, and that 76 had appeared and were qualified. Dickey, from the same committee reported the committee had unanimously agreed to report in favor of unseating Joseph Dunnell, republican member from West Crook, and seating Merritt W. Styles, democrat, on the ground that Dunnell had but two majority and that two men at least voted for him who had no right to do so. It was a clear case and he moved that the report be accepted. Hill, of the committee, said he had intended to bring in the majority report. The committee was not appointed until this morning, and Dunnell had no opportunity to appear and be heard. He was a greenbacker and had no love for the republican party, but was here to do his duty fairly and squarely.

Large numbers of people at Bath, Portland and Bangor, alarmed at the reported condition of affairs here, were ready to start for Augusta, but before trains left, were informed by telegraph that there was no particular necessity for their presence. As it was, many came to be on the ground to-morrow. Assurances are given by those in command at the State House that no alarm need be felt in regard to any defence necessary for the protection of the records and people. The fusionists are busy holding caucus to-night, and it is hinted that the forward movement postponed to-day will be vigorously pushed to-morrow, and that Attorney McClellan is preparing a warrant for the arrest of General Chamberlain. There is a police force of 150 at the State House to-night, and sentinels are placed outside the entrance.

It is reported there is a rupture between Solon Chase and Eben F. Pillsburry. Chase is against the use of any force and will abide the decision of the Supreme Court. He says unless the democrats come up to this he will withdraw.

The report that Hale is ill is untrue. He was never in better health.

Fifty men, headed by Col. Heath, came from Waterville to-night, and proceeded to the State House where they are quartered.

Bangor, Maine, 14.—A statement of facts and questions was submitted to the Supreme Court of Maine, by the republican legislature for decision.

FROM WASHINGTON.

Resolutions Acted Upon — Bills Introduced, etc.

WASHINGTON, 14.—The bill introduced by Representative McCord to-day, referred to the committee on commerce, entitled "an act to establish a Board of Commerce of Inter-State Commerce," provides for the appointment of a Board of Commissioners. The Board shall exercise supervision over all railroads passing from one State or Territory through one or more States or Territories, or to and from any foreign country, but such supervision shall be limited to questions of commerce between States and the methods of operating their railroads by railroad corporations as affecting said commerce, and shall, except within the limits of Territories or in case of crossing navigable waters, extend to matters relating to the material condition of said railroads. A system of reports covering a year must be rendered by all railroad companies in any way affecting commerce between States at such times as may be deemed necessary by the Board. It shall be the duty of the Commissioners to see all United States laws affecting railroads duly enforced, to collect all possible information relative to Inter-state commerce and furnish information in their possession to any Department of the Government that may require it.

The Senate finance committee at a special meeting took action on Bayard's resolution. The phase "Treasury notes of the United States," employed in the joint resolution as originally introduced was to-day, by common consent replaced with the words "United States notes" so as to conform to the statutory designation. After this verbal change the full text of the measure presented for the committee's actions to-day was as follows: A joint resolution in relation to United States notes:

Resolved, By the Senate and House, that from and after the passage of this resolution all United States notes shall be receivable for all dues to the United States except duties on imports, and shall not be otherwise a legal tender, and any of said notes hereafter reissued shall bear this superscription.

Dissention ensued, at the end of which a discussion of about an hour's duration took place. Bayard submitted a motion that a joint resolution be reported to the Senate with a recommendation for its passage.

The general belief among senators is that neither house will vote any change in the existing laws relative to the national currency this session.

The bill introduced in the Senate to-day by Hoar, relative to the claims of States against the United States provides that the several States which have claims against the United States may present the same to the Court of Claims on or before March 1st, 1881, and all claims not so presented shall be forever barred. After hearing such cases, the court shall communicate to Congress the nature and grounds thereof, their conclusions of fact and law in regard to the same and any considerations which may be pertinent to the question of legal or equitable obligation of the United States to pay the same.

The Senate finance committee this afternoon, after a discussion of Bayard's resolution to repeal the legal tender power of greenbacks, took a vote upon it, which resulted in a decision to report it adversely. The votes in favor of passage were cast by Bayard, Kernan, Wallace and Morrill; those against it were Beck, Voorhees, Ferry and Allison. Jones, of Nevada, was absent, but is known to be opposed.

McMahon, who has charge of the preparations of the marshal's deficiency appropriation bill, says several thousand dollars were used for the payment of special deputy marshals at the California election last December, and that no money will be appropriated to reimburse marshals anywhere for such expenses.

Two and a half millions of United States four per cent. bonds were registered at the Treasury Department, last Saturday, in the name of Miss Jennie Flood, daughter of the bonanza capitalist. Her income from this present of her father will be exactly $100,000 per year.

Justifiable Homicide.

FRANKLIN, La., 14.—To-day, Sidney Cole, about 19 years of age, owner of three-fourths of the Chatsworth plantation, rode up to the gate of C. B. Woffard, manager of the plantation, and informed him he had come to kill him. Woffard expostulated, but in vain. Cole dismounted, and advanced, pistol in hand, towards the house. Mrs. Woffard, realizing the danger of her husband, called out to Woffard to arm himself, which he did by seizing a shotgun, and slipping out, confronted Cole, who continued to advance, saying: "I have come to kill you, damn you; I mean business." Whereupon Woffard remarked to him, "If you mean business, here it is," at the same time discharging his weapon, the load taking effect in the breast of Cole, killing him instantly. Woffard immediately came to town and surrendered to the sheriff, but was afterwards discharged from custody, the coroner's jury having rendered a verdict of excusable homicide.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 14.

The presence in London of the Duke of Marlborough, Lord Lieutenant of Ireland, and Right Hon. James Lowe, Chief Secretary of Ireland, will afford the government a seasonable opportunity for consulting with them on the present condition of the country, and it is to be hoped that the result of the consultation will be the adoption of such measures as will effectually preserve peace, which is now very seriously threatened. Danger at the present is limited to the west, where there is a constant apprehension of sanguinary conflict.

A Vienna correspondent says he learns from good authority, that Count Schouvaloff's prospects of obtaining a position in which he would be able to exercise great influence upon the foreign affairs of Russia are improving. The peace party at St. Petersburg now preponderates in consequence of the nature of the communications from diplomatic representatives abroad.

Extensive strikes of cotton operatives at Bolton, Burney and Ashton-under-Lyne, are imminent in consequence of masters refusing the increase of 10 per cent. of wages.

A Bombay correspondent states that an expedition is preparing at Candahar for a movement against Ghenzinge and Herat.

A Paris correspondent says: In the re-election of Gambetta yesterday as President of the Chamber of Deputies, of the 533 members of the chamber, 308 deposited voting papers, the members of the Right as usual abstaining, and of these 308, forty-nine resorted to the use of blank paper or inserted names at random, so that Gambetta, though re-elected, received only 259 votes, or slightly less than half the house, whereas a year ago he received 314 votes. The Left comprises about 380 members, so that about 70 republicans held aloof, while 50 virtually voted against him. These last, it may be inferred, were of the extreme Left, who thus show their displeasure at Gambetta's refusal to become premier, while the abstentions must be attributed to the Left Centre and a portion of the pure Left.
