MINING, BUSINESS AND STOCKS.

PUSHING WORK ON THE NEWHOUSE MILL

Adding to Ore Reserves—Will be Sev-cral Weeks Before Property is Ready for Operation.

Work on the Newhouse mill at the Cactus mine at Newhouse is being pushed ahead as rapidly as it is possible while the work of reorganization of the company is being carried on. J. T. Drummond, superintendent of the mill, is in from the camp today and mill, is in from the camp today and he asserts that it will still be several weeks before the mill will be in shape to handle the ores in a manner that will give the company the satisfaction that is expected. Ever since the plans for the remodeling of the mill were agreed upon by Mr. Drummond and Mr. Newhouse's expert mill man, A. J. Bettles, the work has been going on. The plans have now reached a point where the company is confident that the mill will be ready inside of another month.

month.
The system of treatment of ores was The system of treatment of ores was changed to a great extent under the new plans and this has made it necessary to install new machinery and change the machinery already installed. The new system is expected to give even better results than were accomplished in the past.

At the present time Mr. Drummond declares that the development work at the mine is being carried on as usual and that the mine is now being put into better shape than it has been in in

to better shape than it has been in in years. All the old work is being finished up and the dead work that was necessary has all been completed, or reachly so

With an advance in the price of copper, the Newhouse property would again be in a position to pay large returns. At present the company has over 2,000,000 tons of ore in sight and with the development work that has already been done it is almost certain that 2,000,000 additional can be counted on, without estimating how much more there is beyond that. With copper at 13 cents the property could still make a good profit.

The reorganization of the company by the converting of the outstanding bonds into stock, the lowering of the par value of the 600,000 shares of stock to 55 a share and the assessing of present stock at \$1 a share would put the company in an excellent financial condition and provide a working capital that would insure a continuance of the work for many years and the making of good profits.

It is understood that the American bondholders of the company have agreed to the reorganization plan and that one of their number is now on his way to England 10 get the consent of the English bondholders. nearly so...
With an advance in the price of cop-

SLOW DAY FOR MARKETS.

Selling is Sluggish and Stocks Show Little Inclination to Move.

Business was slower today on both exchanges and the volume was less than half of that transacted during the morning session yesterday. Business on the Utah exchange is improving each day and the brokers are beginning to get a share of the business from the public. On the Utah exchange this morning 6,800 shares of stock were sold and the total amount represented was \$3,024.50.
On the Salt Lake exchange the total

number of stocks sold was 64,663, while the amount that changed hands through the transactions was \$39,387.25. On the latter Columbus Consolidated ent higher and was selling at the lose at \$2.82\%. Iron Blossom also began an upward course and sold as high as \$1.95. Mason Valley is still unsteady and moved up and down with each sale. Tintic Central came in for a little performance of its own today and 7.000 shares were disposed of at 1714. 000 shares were disposed of at 1716 and 18 cents.

on the curb market of the Salt Lake exchange Demijohn sold for 12½ cents.
On the Utah exchange a number of new stocks were listed today. Among them were Uintah Treasure Hill, Virginia, Bingham Central Standard. driver, Bingham Copper, Inspiration, Ontario, Mammoth, Montana, Demijohn and a number of others. The list of stocks on the new exchange is gradually getting larger.

OPERATORS ARE BUSY IN AMERICAN FORK

eral Flat is Going After Ore at Depth.

Work in the American Fork district is beginning to liven up as the weather is taking the heavy snows away. From indications of the work that has already been started this camp is to have a more active time this year than ever before.

The Dutchman Mine Leasing company, in which Thomas Marioneaux, Joseph Lippman and a number of other Salt Lake people are interested, has commenced hauling ore for the season. At the property it is said that there is enough ore blocked out to insure steady

shipping as long as the lease lasts.

A. U. Pinckley, superintendent of the Whirlwind pupperty, has gone back to his old position there and will endeavor to but the mins in shape for a shipper. This property is said to be one of the most promising, and under Mr. of the most promising, and under Mr. Pinckley it is believed that it can be developed into one of the good mines of the district. Some m nths ago Mr. Pinckley was obliged to give up his work on the property on a young of his beatth.

General Manager J. C. Jensen of the Mineral Flat property returned Thurs-day morning from the property. He asserted that it was untrue that a strike had been made and that there was not much foundation to the story that ore had been encountered. He declared that the upper tunnel, many months ago, tapped a fine body of ore. The management is now sending in two tunnels to tap the same dike at In two tunnels to tap the same dike at greater depth. Paralleling this mineral dike is a porphyry dike and this was struck several days ago and this has been gone through 20 feet and it contains no ore. This is probably what started the rumor that ore had been struck. The dike is about 30 feet wide. The tunnels are being worked by two shafts, and it is believed that the time is not far away when the vein, if it continues at the same dip, should be encountered. WORK AT MT. DELL.

Bert Wootton who has charge of the development work at the Mountain Dell has ordered a load of supplies sent to the mine this week. The connection in the up-raise, for which the company has been working for more than a year, will be completed in about three weeks. It has but 35 feet to go to meet the upper workings. The tunnel and upraise has been built with an idea for permanent use and a subgo to meet the upper workings. The tunnel and upraise has been built with an idea for permanent use and a substantial ore chute is going right up with the raise. The miners were forced to give up work above on account of water. They had opened up considerable high grade silver ore which will soon be in reach, and can be mined economically through the new tunnel, which will also drain the mine. Nine miners are now working, and as soon as the connection is made the force will be doubled. Bert reports there is still four feet of snow at the mine, but it is melting fast.

Carbonate has been selected for the canyon postoffice, which will be opened in about two weeks with Bert Chipman as postmaster. The office will be located at the Dutchman property, and will have a daily mail service. Mr. Chipman has received his commission and sent his bonds to Washington this week.

160 Main St., Salt Lake City WILL SELL

WILL BUY 3 Acres Utah Mexican Rubber. 500 Independent Coal. GOLD OUTPUT WILL BE FAIR.

GOLD OUTPUT WILL BE FAIR.

Seattle, Wash, May 21.—Nome's gold optput this year will be approximately 35.000,000, according to a statement made by Jafet Lindenberg, one of the pioneers of the Nome district, who is in Seattle. Mr. Lindenberg said that it is possible to make a fairly accurate forecast this early in the season, although the clean up of the boxes will not be taken until about this first of July. The gold output this year will be little if any greater than last year.

CONCENTRATES.

John Dern has gone to Texas on a business trip.

Another Alta property that has resumed work is the Alta-Hecla. Manager Watson declares that the tunnel will be pushed ahead with renewed vigor this year.

M. L. Snow has returned after a trip of several days through the Deep Creek mining district. He was also as far west as the Berber district, four miles over the state line into Nevada.

The Rexall Silver and Copper Mining company, which is one of the well located properties in Alta, has resumed work. The property is between the Columbus Consolidated and Cardiff

C. W. Saxman, who has just re-turned from a trip through Arizona and Mexico, declares that the Inspiration Copper property will undoubtedly de-velop into one of the great low grade producers of the country.

At the regular meeting of the directors of the Utah Copper company at Colorado Springs yesterday the regular quarterly dividend of 60 cents a share was declared. Payment is to be made June 30, the books closing to transfer on Friday, June 18, and re-open June 30, The sum to be distributed will be approximately \$360,000.

Bids have been received by the directors of the Montana Mining company of Tintic for the new hoisting and other machinery with which the property is to be equipped. The question was raised yesterday afternoon, however, as to whether it would be better to put in an electric or a gasoline hoist. In order to discuss the matter with Manager John Roundy and to submit to him the bids already received. Messrs. Ernest bids already received, Messrs. Ernest R. Woolley, J. B. Jenson and Captain Duncan MacVichie, of the directorate, will go to camp this evening.

will go to camp this evening.

The stock of the Virginia Mining company was listed yesterday on the Utah Stock and Mining exchange. The company owns 12 claims and a mill site in the Sandy Creek district of Lemhi county, Idaho, and there is now blacked out ore to the value of half a million dollars. The property will be completely patented during the year. The Oregon Short Line is building a railroad line within six miles of the property, while the line from Armstead to Salmon will be within five miles of the same. The company intends shortly to install a milling plant. The Virginia stock is of the guaranteed character—that is, the treasury stock at the end of 12 years will be purchased for end of 12 years will be purchased for the price sold by a guarantee fund in the hands of the Salt Lake Security and Trust company.

ONLY \$1.00

To Ogden and return via Oregon Short Line, Sunday, May 23rd. Trains at 7:10, 9:00 and 11:00 a. m.; returning leave Ogden at 10:45 a. m. and 4:05, 4:45, 5:45 and 8:10 p. m.

TODAY'S MONEY MARKET.

STOCKS ONLY IN MODERATE DEMAND

rate opening demand for stock and its effect in increasing prices was limited generally to small fractions. The fca-ture of the market was the opening sale of 7,000 shares of U. S. Steel at prices varying from 59% to 59% compared with 58% last night.
A long interval of dulness in which prices were without essential change was

succeeded by a demonstration of strength in which all of the well known stocks-participated. Buying of the Harrimans, Reading and the U. S. Steel stocks encouraged purchases all through the list. The advance halted before the end of the hour when small reactions were followed by renewed dulness, Delaware & Hudson, Consolidated Gas, Western Union and Pacific Coast gained 1½, St. Louis-Southwestern and U. S. Stel 1½, and St. Paul. Southern Pacific, Rock Island, Amalgamated Copper, Colorado Fuel and the Republic Steel stocks I. United States Steel touched 60¼ and the persistent absorption of that stock was an influence in the quiet strength of the whole list. Northern Pacific rose 1¾, General Electric 2, Bethlehem Steel 1½, the preferred 1¼ and Great Northern preferred, Norfolk & Western, Chesapeake & Ohio, Wabash preferred, Anaconda, American Woolen Sloss-Sheffield Steel and Westinghouse Electric 1. General Chemical declined 1.

Bonds were firm.

Speculation became dull and heavy when profit-taking began. Reading fell back over a point to below yesterday's closing and the remainder of the list a good fraction.

Lackawanna and Michigan Central advanced 5 points.

Small advances in prices brought no increase of activity and prices slipped back to the low point again.

The market closed about steady and very dull. St. Louis & Southwestern preferred and Southern Pacific preferrerose a point. After sightly hardening the general list yielded again. Atlantic Coast Line and American Beet Sugar preferred fell 1½ below last night and United States Realty and American Malting preferred 1. The decline was checked and prices wavered uncertainly. succeeded by a demonstration of strength in which all of the well known

St. Louis, May 21.—Wool, firm, Territory and western mediums, 25@3#; fine mediums, 22@27; fine, 16@22. MAY WHEAT TOUCHED

NEW HIGH PRICE Chicago, May 21.-Wheat for May de-

ivery touched a new high record mark for the season when it sold at 1.301/2 per bushel during early trading today. The bulge was due to covering by shorts and was followed by a reaction to 1.23%. The market in general was rather nervous. Argentine shipments were a little larger than expected and weather in this country was generally favorable for the new crop. July opened a shade lower to 14 % injaher at 1.15½ to 1.15%, sold up to 1.16 and then declined to 1.15½% d. A moderate increase in receipts and favorable weather conditions had a depressing effect on the corn market. July opened unchanged to 160½ higher at 65½ % 5½ to 65% and sold off to 65% m½. Oats were strong on active buying by shorts. July opened a shade to 1½ m½ higher at 55½ % 5½. Provisions were firm owing to a 5c advance in live hogs. Trade was light early in the day. Prices at the start were unchanged to 16c, higher. Wheat—The market turned strong on a general demand continued so during the remainder of the day. May advance still higher to 1.31¼ while July rallied to 1.16%. The close was strong, with May and July each up 1½ at 1.31¼ and 1.16% respectively. per bushel during early trading today and July each up 1½ at 1.31¼ and 1.16½ respectively.

Corn—The strength of wheat caused considerable bullish sentiment in corn notwithstanding a decline of 2c. in the cash grain. July advanced to 69¼. The market closed firm, with July ½ higher at 69⊕1½.

Close—Menat—May, 1.31¼; July, 1.16¾; Cept., 1.08¾@7½; Dec., 1.06%, Corn—May 727½; July, 69⊕1½; Sept., 69½; Dec., 58.

Oats—May, 60; July, 53%; Sept., 447½@45; Dec., 45%.
