NOT SURPRISED. - When we consider the little attention which is Sept. 3 1874, at 10 a. m. paid to the laws of health, by the citizens of this country, we cannot be surprised at the indifference manifested by them in relation to the purity of the articles that are used in their daily tood. If all articles put upon the market were like Dr. Price's True Flavoring Extracts and Cream Baking Powder this indifference might answer their perfect wholesomeness would insure us against all evil consequences from their use. This is an act of concentrated meanness, of which the perpetrators ought to be ashamed.
