"Football at Yale during the present meason has worked very well. We have had a number of sprained aniles, but only two or three cases of more serious injury. I doubt whether this is a worse record than that of baseball. "At any rate, it is a small price to pay for a game which diverts the Geer-gies of one kind of boys from rowdylam and another kind from drinking. "If we want to eliminate mans play, we may do so merely by abolishing all gridron lines and making one compre-bensive rule that the ball changes hands on every down unless the opponents have had a fair and equal chance to get possession of it. This would abolish mass play, root and branch." **KEENE'S HORSES WON**

MORE THAN \$400,000

New York, Dec. II.-James R, Keene will have a bigger and stronger stable though he managed to carry off leading bootrs last year with more than \$112,000 In 1907. Mr. Keene's horses won more than \$00,000, a world's record. He nas made liberal nominations this year to be imposite the stable of the stable will close next Monday. The Keene turf venture in England will not be entirely abandoned but more time will be devoted to racing in America during the coming year than for soveral seasons past.

ing to umpires which ought to be changed. "I don't like to be called a kicker," said Griffith vesterday, "but it does make me mad to have an umpire around in the way when you've got a good play on, and have him step into it and knock the whole business out. "Very often I have seen signals go wrong because an umpire was in the way and the players could not see. I want them to stand on the outfield side of the base line and give their decisions there, other umpire remaining behind the ratcher at all times. I think with this rule in force we could have a whole lot less wrangling than we have now, and the people would really get a little better ball playing for their money." PLAY FOOTBALL

New York, Dec. 31.-A busy squad of blue jackets today was assigned to the work of preparing the field at American league park for the championship foot-ball game, which is to be played tomor-row. The game is for the championship of the North Atlantic fleet. The field was shoveled clear of suow yesterday and today fresh straw was strewn about to take the chill out of the ground and soften up the turf for the great con-text.

test. Betting on the game is lively through-out the feet, the odds favoring the team from the Nebraska as against the eleven of the Missouri. A number of old Annapolis football stars will be seen in uniform as players on the rival elevens.

Philadelphia, Doc. 30.-Mrs. Annie Sinton Taft, sister-in-law of President Taft, and the wife of Charles P. Taft of Cincinnait, is the new owner of the Philadelphia National league's baseball is also chairman of the National league schedule committee, yesterday announc-ed that he had completed a draft of a 168 game schedule for the season of 1919, and that contrary to general opinion, he had found the arrangement of dates an easy matter. Exbetts was able to reduce the number of extra double-head-ers each team will have to play to five, against 10 each in the first draft he made. The deed and lease for the property were filed in City hall late this after-noon and show that Mrs. Taft, and not her husband, has the title to the grounds. John I. Rogers and A. J. Reach, for-mer owners of the grounds, transforred the title this afternoon. Charles W. Murphy, president of the Chicago Na-tional league club, represented the pur-chaser, who was announced as Charles P. Taft.

Moritz, that coasting becomes an art. In this valley, its floor as high above the level of the sea as the crest of Mount Washington, where winter reigns for half a year and people go to regain health, there is a slide nearly a mile long which has a descent of 550 feet. At some points in the course the sleds travel at the rate of 80 miles an hour. There is sport! Skill has greatly reduced the time in which the course can be covered. In the early days the average speed was about 30 miles an hour. Recent winners of the contest have averaged, however, more than 40 miles. On the straight run at the foot of the course a speed verging on 80 miles has been attained. The same kind of sport may be had with boblife which are not for the thickly popu-lated American city man or boy. In
