BUILDING MILL IN ARIZONA

Material for Building and Equipment Purchased by Utah-Arizona Company.

PIPE FOR WATER LINE SHIPPED

Manager L. G. Burton Returns from Camp With Good Report On Conditions.

One of the best evidences that the officers of the Utah-Arizona Gold & Silver Mining company are striving energetically to place that proposition upon a paying basis as early as possible, is found in the fact that work of mill construction is to be pushed with vigor.

President Heber S. Cutler let a contract today for 16,000 feet of 2-inch pipe, through which the mill and camp are to be supplied with water; the supply to come from the reservoir in which the streams of two canyons have been impounded. An order has been placed also, for the lumber to be sued in the erection of the building and it will probably be shipped not later than tomorrow.

During the late trip of Manager Lafayette G. Burton to the company's mine, which is located in the Weaver district, in Arizona, he succeeded in buying a second-hand 10-stamp plant. President Cutler says the plant has been used but little; in fact it is every bit as good as new and taking into consideration that it was bought at a low figure, he feels that the company has been saved considerable money.

"Of course," said Mr. Cutler, "the machinery will be thoroughly overhauled and it may be necessary to add some more to it, but by the time we are ready to begin ore treatment, we will doubtless have a thoroughly modern mill in every respect. Mr. O'Rourke, the mill superintendent, is in charge of the mill construction and has a portion of the equipment on the ground and Mr. Burton reports that the excavations for the building are already finished.

"Mr. Burton returned to the city a few days ago and seems to be well scatisfied with conditions there and has expressed the utmost confidence that we have a property that is going to respond very liberally."

ON MINING EXCHANGE.

Iron Blossom and Sioux Con. Weak—Closing Quotations.

The market for mining stocks steadied down very perceptibly today. Prices reacted and the enthsiasm over the leaders of last week has subsided. Iron Blossom opened weak and closed in that condition, when sales were recorded down to $2.12½. Sioux Consolidated dropped to $1.02½, recovering to $1.10, while Crown Point held steadily around 31 and 32 cents. There were some heavy offerings of Columbus Consolidated on the regular call with a drop in prices as the result. Mountain Lake and South Swansea closed lower and Victor Consolidated remained in good demand at better prices. Among the unlisteds, East Tintic Consolidated at 7; East Crown Point, at 4¼; Mineral Flat, at 15½; Thompson, at 23, and Silver King Coalition at $4.

The Godiva Mining company is to be reorganized. STOCKS WENT DOWN ALL DAY LONG

New York, June 12.—Opening prices of stocks showed a dropping tendency but the declines were limited to small fractions for the more active issues and sales were insignificant in volume.

An outbreak of liquidation in Union Pacific, St. Paul, Reading, the Erie and Hill stocks imparted extreme weakness to the market and there was a sharp decline in all directions. Sales were not large, prices crumbling away on comparatively light offerings. Erie dropped 2⅝, the first preferred 3½, the second preferred 1⅝, convertible A bonds 3½ and the B's 2, St. Paul also lost 2⅜, Union Pacific 2¾ and Reading 1⅝. Other losses ran from 1 to 1½.

The pressure on Union Pacific new bonds in the outside market and the lack of support for the stocks caused apprehension that the closing of the subscription for the bonds marked a change of policy towards the market by important financial interests. Dealings in the first hour were larger than yesterday's total transactions. Prices steadied after Erie had dropped 3⅝, the first preferred 4¼, the second preferred 2⅝.

Bonds were weak.

Some stocks went a trifle lower than in the morning, including Union Pacific, Reading and the Hill stocks, but the rest of the list was substantially unchanged.

The downward movement was resumed with violence and a majority of the leading stocks suffered losses of between 2 and 3 points. Union Pacific broke to 143, a loss of 4½. Delaware & Hudson was down 3¾, Reading 3⅛, St. Paul 3, and the Hill stocks 2¾, and Canadian Pacific Southern Pacific, Rock Island preferred and Amalgamated Copper, American Smelting and National Lead 2 to 2½.

The market closed quiet and fairly steady There was enough demand from uncovered shorts to rally prices in the leaders a point in the final hour. The demand became less in proportion as prices advanced. The break in Erie convertible "B" bonds extended to 5¼.

CLARENCE H. MACKAY HERE.

Telegraph Magnate With Editor of Harper's Weekly Visits Salt Lake.

Clarence H. Mackay, the Postal Telegraph and mining magnate, and Mrs. Mackay, with Editor George Harvey of Harper's Weekly, arrived this morning from Nevada in a private car and registered at the Knutsford. After a short drive about town, the party was escorted to the tabernacle, for a special organ recital, tendered by the first presidency, and where Manager McNicol of the Salt Lake offices introduced the party of Prof. McClellan. The organist played a regular concert program, including selections from "Lohengrin" and "Tannhauser," and several concert numbers. At the conclusion, the party came up into the choir, where Mr. Mackay stated he had waited 10 years to hear that organ, and it was well worth the wait. He considered the instrument one of the greatest in the world, and with Editor Harvey and Mrs. Mackay expressed themselves as delighted with the performance, and the experiences of the occasion in general. From questions asked by the visiting editor, it is natural to suppose that Harper's Weekly will have something to say in an early number about the tabernacle organ and its organist.

Mr. Mackay and party are on their way east from attendance on the ceremonies connected with the dedication of the memorial to his distinguished father, and the presentation to Nevada state university of two valuable buildings by himself. Mr. Mackay has unbounded faith in the rejuvenation and rennaissance of the Sagebrush state. He believes the old days on the Comstock are returning with largely accrued interest, and that Nevada will be the greatest center of mining operations in the world. There is where the elder Mackay made his reputation and fortune, and the son proposes to continue the family interest, and to boost the state for all it is worth. At the same time, the mining interests in the adjoining state to the east, are not escaping his notice, and he is watching events here with no small carefulness of observation. Mr. Mackay does not talk telegraph business, so he refers inquiries for such information to the general local manager. But on the matter of general interests and commercial conditions he is free to speak, and express himself in an optimistic vein. Mr. Mackay believes the hard times are fast disappearing; that conditions are readjusting themselves to new and more stable standards, and that good times are in the immediate future. So he is very hopeful, and sees no reason why people should look on the dark side of the picture. Editor Harvey is similarly minded. He expresses a strong interest in the west and western interests, and is glad to have had the opportunity to visit the far west, and Nevada and Utah in particular. Messrs. Mackay and Harvey are looking over the local plant of the Postal company, this afternoon, making the acquaintance of leading citizens, and inquiring into the status of local conditions, financial, mining, industrial, commercial, and otherwise. They will leave in the morning, over the D. & R. G., for Denver.

RAILROAD NEWS.

George Owens, traveling passenger agent of the Delaware, Lackawanna & Western at Chicago, Ill., is a railroad visitor to this city today.

S. V. Derrah, assistant general freight agent of the Rio Grande is expected home from Denver in a day or so. Mr. Derrah went to the City of Lights on business.

BIG REALTY DEAL.

Ninety Acres for Building Sites Change Hands in Sugar Ward.

A big realty deal incolving 90 acres was consummated today with the purchase of 90 acres situated just east of the Crismon farm, by Frank Y. Taylor, Moses W. Taylor, George M. Cannon, Zina B. Cannon and John M. Whitaker. The amount involved is withheld. It is proposed to plat the property in connection with the 240 acres owned by the Church adjoining, and the lots are to be placed on the market at once. The property is situated east and south of the state prison.

PRISONER HAD A MASK.

The police effected the arrest of Tom Nolan and E. P. Nelson this afternoon and are looking for a third man. It is believed by the police that the capture of the pair is an important one, though details as to what charges may be placed against them are withheld. When searched at the police station, Nolan was found to have a knotted handkerchief that fit to a nicety over his head, and it is believed by the plain clothes men that it was used by Nolan as a mask. In the hope of landing the third man, the police refuse to give out any information they may have regarding the men.

STOLE HORSE AND BUGGY.

While Mr. and Mrs. Preston J. Cannon were at the theater last night, some one stole a horse and buggy belonging to Mr. Cannon. This morning it was found in front of De Long & Smith's blacksmith shop on east First South street, and returned to Mr. Cannon. The thief was not apprehended.
