FIFTY-SIXTH YEAR.

## FIVE LIVES LOST ON THE CAMPANIA.

Gigantic Wave Rolled Over the Cunard Steamer and Swept Across a Deck.

## MANY STEERAGE PASSENGERS

Thirty Persons Were Injured and the Number Lost May Be More Than Reported.

## CAME SUDDENLY AND UNEXPECTED

First Time in Sixty Years That a Passenger Has Been Lost From One of Line's Steamers by Accident.

New York, Oct. 14.—Five lives are known to have been lost and more than 30 persons injured, one of them fatally, on the Cunard line steamer Campania last Wednesday, when a gigantic wave rolled over the steamer and swept across a deck thick with steerage passengers.

Agnes Carlson, a young Swedish woman who suffered fractures of both thighs and internal injuries, died in the ship's hospital an hour before the Campania docked today. So sudden was the coming of the disaster and so great the confusion which attended and followed it that even the officers of the steamer themselves were unable today upon the vessel's arrival here to estimate the full extent of the tragedy. It is possible that the five persons known to be missing from the steamer may not constitute the full number of dead. When the Campania reached quarantine today, the bodies of the five persons who were lost in the ship's hospital, some of them seriously hurt and a score of others were nursing minor injuries.

John Graham of Milwaukee was one of the passengers who was overboard and lost. He was traveling in the steerage. The others who are known to have lost their lives were two Irish girls and two others whose nationality has not been ascertained.

The Campania was plunging along under full headway last Wednesday afternoon. A heavy squall was running but the weather could not have been more favorable. The big boat's decks were crowded with passengers. The steerage deck was covered with merrymakers and there was nothing to indicate the approaching disaster when suddenly the big steamer heeled to port and scooped up an enormous sea. The wave boarded the steamer about midships on the port side and swept clear across the steerage deck completely filling the space between that deck and the deck above and carrying everything with it. The steamer's side was buried and passengers on the deck above the steerage were submerged to their waists as the immense volume of water rolled over them and surged forward. All the cabin passengers on the upper deck succeeded in clinging to supports while the waters surged around them and the lower decks were completely submerged. The wave was followed by a number of smaller waves which continued to sweep across the deck and sweep everything with it. The steamer's side was buried and passengers on the deck above the steerage were submerged to their waists as the immense volume of water rolled over them and surged forward. All the cabin passengers on the upper deck succeeded in clinging to supports while the waters surged around them and the lower decks were completely submerged.

## THE DOUGHERTY SCANDAL.

Claims Another Victim in Person Of N. Burnham, Aged Stockholder.

Chicago, Oct. 14.—A dispatch to the Tribune from Peoria, Ill., says: The Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration by worry over the disclosure of his scandalous life and fear of a disastrous ruin, Nelson Burnham, a venerable stockholder in the Peoria National Bank, died suddenly last night. He was 79 years old.

Mr. Burnham owned 150 shares of stock and had been connected with the bank 20 years. His wealth was estimated at \$500,000. Following close on the death Thursday night of C. C. Lines, a former bank official, caused by the shock of the scandal, the community is impressed by the far-reaching effect of the Dougherty affair.

## KING OSCAR.

Has Formally Resumed Reins of Government in Sweden.

Stockholm, Oct. 14.—King Oscar formally resumed the reins of government today.

The king of Sweden, on Aug. 10 last appointed Crown Prince Gustave to be regent while his majesty went to Marsstrand for his health. The crown prince has for similar reasons previously acted as regent several times.

## WHOLESALE GROCERS.

They Formally Plan for a National Organization.

New York, Oct. 14.—Continuous performances held in this city during the past week by the largest and most active wholesale grocery interests of the country have resulted, says the Journal of Commerce, in the perfection of plans for the early organization of a national wholesale grocers' association, which will be entirely representative of the trade. The convention probably will be called to meet in Chicago, W. H. Madden, who came here as the authorized representative of the Chicago Merchants' Exchange, has promised the cooperation of the grocers of that city. Among the participants in the conference was William Judson, chairman of the national executive committee, a body representative of many state and city associations.

The probability of the attention of the next Congress being turned to pure food legislation at least in the early spring, has stimulated the distributors of food products. It is believed to have the work of national organization in order that they may place themselves before the public in an unequivocal light on the question. They intend that all manufacturers of food products shall be held responsible under the law for adulterations and impurities, and that the testimony of consumers, retailers and distributors shall be used against them in prosecutions.

The grocers, however, jobbers propose to ally themselves more closely with the retailers in future and through them to gain the confidence of consumers to such an extent that adulterated, impure or not up to standard, products cannot be successfully marketed in any part of the country.

## BAD AUTOMOBILE ACCIDENT.

Machine Plunges Through Iron Fence Into a Tunnel.

New York, Oct. 14.—Miss Eva Brunner and Miss Bessie Boyd, who are believed to be residents of Syracuse, were injured severely this morning and they have little chance of recovery, when an automobile in which they were riding plunged through an iron fence and into the tunnel in Park avenue and Twenty-third street.

Charles Gehlbach, owner and driver of the automobile was also injured. The others injured are Mrs. E. Wilda, of No. 215 West Fourth street, and Mr. and Mrs. Spilldorf, of No. 100 West 10th street. The automobile was a 40-horse power gasoline automobile to the Vanderbilt cup race.

The big machine rolled down Broadway at a rapid pace and wheeled into Thirty-third street running at a terrific speed eastward. Suddenly the machine swerved to one side of the street, smashed through the iron fence that runs along the street tunnel opening at that point and landed on the car tracks 10 feet below.

Police who witnessed the accident found the two women pinned under the machine and the others lying near in a partly unconscious condition. The machine was badly wrecked.

**\$200,000**

## In Useless Survey of Illinois and Mississippi Canal.

Chicago, Oct. 14.—A dispatch to the Tribune from Washington, D. C., says: In the opinion of army engineers \$200,000 of the government's has been thrown away on a useless survey of the Illinois and Mississippi canal to ascertain if a 14-foot channel can be made from Chicago to St. Louis. The survey which has been made by two commissions, has just been completed and the reports have been received by Brig. Gen. McKenzie, chief of engineers, who will transmit them to Congress.

The reports, while admitting that a 14-foot channel is perfectly feasible, says that the cost would be from \$8,000,000 to \$10,000,000. The engineers deem this amount too great and will, it is believed, report adversely to the project, in view of the great cost.

## Crockett Refinery to Start.

Minnetonka, Cal., Oct. 14.—An official announcement was made today that the sugar refinery at Crockett will be opened and placed in active operation on the first of March, 1906. The mill will employ upwards of 300 operatives.

The Crockett refinery is the property of the Californian & Hawaiian Sugar Refining company, which is controlled by a number of Hawaiian sugar men.

## DO GENTILES HAVE "A SQUARE DEAL" IN SALT LAKE?

The main reason given by the organ of the Knockers, in its daily apologies for the existence of the "American" party, is that Gentiles are afraid of entering into business here, dreading competition with that mysterious something called the "hierarchy," that "Gentiles" in Salt Lake have "no show" in the business race, that the Mormons gobble up all the trade opportunities, and so on ad infinitum ad nauseam.

Passing by the effect such cheerful talk as this must have on people on the outside who may have thought of coming to Utah (at home such rubbish is only laughed at) let us consider briefly what the facts are as they exist in Salt Lake city's busy sections—the business districts on Main, State, West Temple, First, Second and Third South streets, where the prosperous inhabitants swarm like so many bees intent on pursuing their vocations.

Would it be extravagant, Gentle friends, to estimate that on all these six busy streets, 75 to 80 per cent of the business is done by people who are not Mormons? We think not—but who complains? No one but the Knockers and their organ—certainly not the "Gentiles," who are content to pursue the even tenor of their way, willing to live and let live, and with something else than "business" to engage their thoughts and their activities.

If this estimate is questioned, analyze the situation a moment. Take up your city directory and run down the list:

Attorneys—The host "Gentiles," the few "Mormons."

Assayers—The same.

Architects—"Mormons" in the minority.

Brokers—The same, only more so.

Bankers—Here there is about an equal division, but the combined deposits of the "Gentile" banks, and it is deposits that furnish the index of the business

done—considerably exceed those of the "Mormon" institutions. (To digress—Speaking of banks, what must Messrs. McCormick, Knox, the Walkers, the Ferrys, Cosgriff et al., think of the ridiculous statement that there is "no chance for Gentiles in Salt Lake?" If they can't answer—let their deposits speak.)

Clubs—Altogether "Gentiles" in the Commercial club they heavily predominate. And speaking of the Commercial club, what better work could it engage in just now than to do a little "knocking" on its own account—that is, to KNOCK THE KNOCKERS—refute the slanders they are sending abroad, demand that a halt be called, show that the club stands up to its motto—"Boots don't knock."

Coal Dealers—Again the "Mormons" in the minority.

Dentists—Largely non-"Mormon."

Hotels—All in non-"Mormon" hands.

Insurance—Fire, life and accident—"Gentiles" everywhere, "Mormons" occasionally.

Livery—Almost entirely non-"Mormon," with one prominent instance where "Gentiles" and "Mormons" do business amicably together.

Merchants—Again the "Mormons" hopelessly in the minority—strong as their institutions are, but who complains at the splendid mercantile successes many "Gentiles" and Hebrew firms have achieved? Not the "Mormons."

Mining Companies—Almost completely in non-"Mormon" hands.

Newspapers—Largely non-"Mormon."

Physicians—At least 60 per cent non-"Mormon."

Railroads—Almost entirely conducted by non-"Mormons."

Restaurants—Only a few "Mormon" institutions.

Real Estate Firms—"Gentiles" almost

a great success and will be a great help to the young children of the city who are inclined to stray from the proper path.

**BOO IT OUT!**

"And Yet Another Citizen" Takes a Crack at "Theatrical Vulgarity."

To the Editor:

Salt Lake City, Oct. 13.—With great interest I have just read the article in the "News" on "Theatrical Vulgarity by 'Another Citizen,' and there is 'another citizen,' who desires to help you to the notorious vulgarity of some of the theatrical places of this city stamped out.

Individuals are usually judged by the company they keep and oftentimes by the community they are in. Therefore I as one who think that the respectable citizens of this city should try and do all in their power to have the standard of every individual brought up to their own ideal, especially in morality, and not allow, by any means, their standard to be brought down to that of a number of the amusement houses here. There are others who feel as I do.

(Signed.)

AND YET ANOTHER CITIZEN.

## MONEY WAS ACCEPTED.

Unknown Man Turns \$2,000 Over to Jersey City Authorities.

New York, Oct. 14.—A man who was not recognized in the Jersey City hall gave yesterday City Treasurer Ely \$2,000.

"Will you receive \$2,000 that belongs to Jersey City, and give me a receipt for it?"

"Conscience money?"

"You may enter it that way if you like."

The money was accepted, and the man left unidentified.

## LOUIS STERN PARDONED.

But Case in Germany Cost Him Twenty-five Thousand Dollars.

New York, Oct. 14.—A Berlin cable to the Herald says:

The Augsburg Abend Zeitung states that Louis Stern of the New York Times was pardoned, who was sentenced to ten years ago for insulting Baron Thuenen, vice-consul of Baden Kusenken, to a fine of 600 marks (\$150), and two weeks' imprisonment, has now been pardoned. The bail which he deposited at that time, amounting to \$15,000, has naturally been confiscated.

This case caused no little sensation at the time, the dispute arising through Baron Thuenen's refusal to sign a statement in the Kurhaus dancing saloon, where only persons above 15 years of age are allowed to dance.

At the time no stone was left unturned to bring about a change of the sentence from imprisonment to a fine only, the American ambassador intervening, but in vain. With bail and other costs, the whole affair has left Mr. Stern a poorer man by \$25,000.

## WHY THE AMERICAN PARTY WAS ORGANIZED.

REASON NO. 1.

Because one T. Kearns is an "ex" rather than a real senator.

Because Furios J. had run his course and had to have a new job.

Because Furios comes easy from the east when the "reformers" howl at home.

Because the Tribune wants the city advertising and printing.

Because the "reformers" want to get their hands on the million dollar bond issue.

Because George A. Sheets is wanted for chief of the Salt Lake police force.

Because James Devane wants anything from fire chief to congressman.

Because Chief "Potatontato" Hiles has become very "patriotic."

Because there was mourning over Senator Smoot having but one wife.

Because Boosters of the Critchlow, Nye, Westervelt stripe have left Utah.

Because Mrs. Schoff, Furios J., and Friday Gill must have some strong organization to protect them.

Because, well, just because they want to knock Utah in the name of "Reform."

Because some people are ashamed of Salt Lake while Salt Lake is ashamed of them.

Because its existence may cause some folks to believe what its promoters know is false.

## PARTY WORKERS ARE SANGUINE.

All Tell the Same Story—That Victory is Theirs at City Election in November.

## DEMOCRATS WILL HOLD RALLY

John H. Back Retires From Councilmanic Race—Knockers Have Old Time Love Feast.

The Democrats met last night in party headquarters, to make ready for the rally next Wednesday evening, and plan other features for the campaign. At the meeting were the candidates for city offices and council, the district chairmen, and the city and executive committees. At the meeting Frank H. Harris, Simon Bamberger, Phoebe Harris, Judge W. H. King and Jas. H. Moyle were chosen as the orators to precede Judge Powers in his speech of the evening at the rally. The glee club and Held's band were still able to maintain their places on the program despite the inrush of orators, and the glee club will get two chances at the audience during the evening.

Party workers reported Democratic headquarters here, just as the American and Republican workers reported at their headquarters. The Democrats think the city cannot afford to change administrations when the present mayors know so much of the water situation which he has investigated, and found a method of handling. The demand is general, they claim, for his return because of his half completed task in this regard.

On the other hand, Willard Hanson, the Republican city chairman, reports that the Republican "stand pat" party is plentiful enough to elect the Republican ticket, and that the Morris votes of two years ago run no index to the situation, as Republican voters went in hundreds to Morris, on account of a Republican party split.

At "American" headquarters activity is equally general, and the outlook is painted just as rosy. Secretary Armstrong declares that it is a blessing not to have the grafters around that hung out there when the barrel was on tap, and that the volunteer work of

## BACK OUT OF RACE.

John H. Back, who created the sensation of the Democratic primaries by beating Mr. Fernstrom in the nominations, has decided to withdraw, and this leaves a vacancy which the precinct committee has the power to fill. Mr. Back sent his letter of resignation to City Chairman Northrup. Its text follows:

Salt Lake City, Utah, Oct. 12, 1905. Joseph Haslam, Esq., Democratic Chairman of the Third Municipal Ward, Salt Lake City, Utah:

Dear Sir—Since my nomination as a candidate for the city council for the Third municipal ward changes in the business with which I am and have been connected will make it necessary for me hereafter to be absent from the city the greater part of the time. I therefore respectfully withdraw from the field.

I greatly appreciate the honor conferred upon me, and the support given by my friends, and deeply regret that this action becomes necessary. I beg to express my earnest support to the Democratic ticket I am.

Respectfully yours, JOHN H. BACK.

## PROGRAM FOR RALLY.

The full program for the Democratic rally of Wednesday evening next is as follows:

Music—Held's band.

Introduction of Frank H. Stephens, chairman of the meeting.

Address—Frank H. Stephens.

Music—Held's band.

Address—Senator Simon Bamberger.

Address—James H. Moyle.

Address—Phoebe H. Harris.

Music—Held's band.

Address—Judge William H. King.

Music—Held's band.

Address—Judge O. W. Powers.

## KNOCKERS MEET.

The Second ward American party members met at the school house for a rally last night. Louis Bamberger presided, while A. J. Gagliardi, Aldred Weber, J. E. Danner and S. P. Armstrong turned up the oratorical artillery.

After the first, second and third wards, the speaker apologized for having put the motion to dissolve the old Liberal party, while Danner knocked the two old parties equally and without favor to either. Weber engaged in the grand old time business of the records of prominent men in the old parties.

## POLITICAL POINTERS.

The Ladies' auxiliary will meet this afternoon at American party headquarters.

Republican precinct meetings will be held for the First precinct Monday evening and for the Second, Tuesday evening.

The certificates of nomination are still not all filed at the office of the city recorder, although the limit for filing them is being approached.

Monday evening next the exact date for the Republican rally will be finally determined upon. Unless a New York booking interferes, Nov. 8 will be the date, and the program, now under preparation, promises to be a warm one.

The Republican city headquarters was busy today sending out precinct workers. Chairman Hanson denies most emphatically that there is any disorganization in the Fifth precinct, and states that everything is working smoothly, and that Republicans everywhere are being found to be "stand pat"ers.

The Democrats have still to announce a speaker for Mr. Back in the Third. Many people think that the choice will fall upon Mr. Fernstrom, for several times councilman, and next highest man below Back in the running for the place at the ward convention. The ward committee has decided to advise the city recorder, although the limit for filing them is being approached.

## EMPERORS OF RUSSIA AND JAPAN SIGN PEACE TREATY

Washington, Oct. 14.—The emperor of Russia and the emperor of Japan today signed their respective copies of the peace treaty, thus officially ending the war.

Baron Rosen, the Russian ambassador, called at the state department and saw Secy. Root. While he had no official advice on the subject, information had reached him to the effect that the emperor of Russia had early in the day affixed his signature to the copy of the treaty drawn at Portsmouth and engrossed on vellum at St. Petersburg. It was not necessary for the ambassador to convey this information officially to the state department, for, according to the plan arranged yesterday, the Russian foreign office was to advise the French government of the act of signing and that government in turn was to advise the Japanese government.
