

## DESERT EVENING NEWS.

Tuesday November 3, 1896.

## DIFFICULTY ADJUSTED.

Contractor Hobson Will be on Trial  
TUESDAY.

Contractor Hobson will go on with his work of laying the pavement on Second South street and will have Utah asphalt such as Engineer Kelsey ordered ready. The board of public works and yesterday's citizens' meeting delayed him in Engineer Kelsey's report as follows:

"Immediately after the contract was awarded to Mr. Hobson I requested him to furnish me samples of the asphaltic materials for the purpose of having analysis made. Mr. Hobson did not return with the samples until yesterday, after the contract was awarded, although repeatedly requested to do so. In the meantime I asked Professor Kingsbury to make the state asphalt and he reluctantly made the analysis, but he informed me that he was not prepared to do the work at that time. I then wrote to Mr. Hobson and gave him the samples with the analysis as soon as the sample was furnished. Upon the receipt of the sample from Mr. Hobson I sent it to Professor Kingsbury with the specific request that they report soon as possible. Subsequently Professor Kingsbury informed me that he had prepared the report and that the same would be ready for Mr. Hobson.

"On Oct. 12, Mr. Hobson was ready to begin laying asphaltic material with them, and made the analysis as soon as the sample was furnished. Upon the receipt of the sample from Mr. Hobson I sent it to Professor Kingsbury with the specific request that they report soon as possible. Subsequently Professor Kingsbury informed me that he had prepared the report and that the same would be ready for Mr. Hobson.

The higher asphaltic materials are cured at lower temperatures, 100° W. being the limit. Arrangements have been made by which ladies receive treatment, as mentioned in the press of their own names. Address, Box 80, City of Salt Lake.

## A New Home in the Right Direction.

Arrangements have been made by the manager of the Kelsey Institute of this city for White students to attend the Kelsey Institute. Several other arrangements have been made with their most intimate friends, if they so desire. This is a new feature of this commendable work and one that will give many women an opportunity to recover the health that has been destroyed by the influences of ignorant use of stimulants or opiates during periods of sickness.
