

FRED L. GLESSING COMMITTS SUICIDE.

He Planned His Death With
Great Ingenuity and
Thoroughness.

BROTHER FOUND HIM HANGING

Evidently Boy, From Reading Quick
Literature, Thought He Had Some
Incurable Disease.

Blackfoot, Ida., March 22.—Fred L. Glessing committed suicide at an early hour this morning by hanging himself from the ceiling of his room at the Bell Telephone. The body was found at 8 o'clock this morning, and presented a most ghastly and horrifying spectacle to the brother of the deceased, who made the discovery. The low ceiling of the room, scarcely high enough to admit one standing erect, presented an opportunity for this mode of accomplishing his end, yet with remarkable ingenuity the young man had prepared the noose and succeeded in fastening it to a box and trussing his feet up behind by means of a rope, which was tied to each foot and passed over the shoulders, after which he kicked the box out from under his knees.

The deceased was 17 years of age and a graduate of El Paso, Ill., high school. He had been contemplating for some time past, advertising literature of quick doctors had brought him to the belief that he possessed the symptoms of several incurable maladies, and offers a striking illustration of the power of mental suggestion. Aside from this cause is known for his own body giving the addresses of relatives indicates that the act was looked forward to. The following letter was also found protruding from his pocket:

"So that you will know that no one else but myself is to blame, and that an ingenuit will not be needed, I write this note saying that it was myself who ended my life, and that no one else but myself was the cause of my ending it. I wish to add that were I to live, I could never repay any of my relatives, especially my grandmother, my Aunt Lou and my sister George, for all that they have done for me."

MAJ. PRICE TESTIFIES IN HIS OWN BEHALF.

New York, March 22.—Major David Price, the accused artillery officer on trial by court martial at the army building, took the witness stand in his own behalf today, and for an hour and a half submitted himself to examination and cross-examination as to his experiences in Syracuse, N. Y., where for 15 days he declared he was ill and helpless from the effects of "drown-out drops." Maj. Price declared that the total abstinence pledge exacted from him by the army, examining board of Fort Meade, Va., was absolutely an illegal one and has no standing in a military court. The charges against Maj. Price include an alleged violation of the pledge and conduct unbecoming an officer.

TREASURE HUNTING EXPEDITION

San Francisco, March 22.—Capt. Marr, one of the best known captains along the coast, is outfitting a vessel to go in search of treasure supposed to be hidden on Cocos Island.

He will take command of the schooner Thomas F. Bayard, which is being outfit for a year's cruise. The crew will be composed of 12 men.

The Bayard will go to sea in about two weeks. It is stated that a Seattle company is financing the scheme.

THINK HE IS A FRENCH SPY.

Cologne, March 22.—The Volks Zeitung says that a stranger was arrested today at Essen, after offering a soldier several thousand marks if he would obtain a plan for the mobilization in the Essen district. The military authorities regard the prisoner as a French spy.

WHY DID HE SUICIDE?

Chicago, March 22.—A dispatch to the Tribune from Winchester, Ill., says: George Sykes Barton, said to be an Englishman and heir to estates in England, was found dead in the back of a model farm, near here yesterday. A rifle was found in his hands and there was a bullet hole in his forehead. The coroner found death due to suicide, but there was some doubt on account of the peculiar position of the wound. Barton lived a life of semi-reclus. He had no financial or other difficulties so far as known.

PRESIDENT TAKES A HAND IN ALGECIRAS CONFERENCE

Paris, March 22.—The suggestion of a mixed police at all ports, including Casa Blanca, on which the hopes of an eventual solution of the Moroccan difficulty are founded, emanated from President Roosevelt, according to the Temps Algierias correspondent, who says:

"Instead of giving to France the sole control of a certain number of ports and to Spain like control of an equal number of ports, it is suggested to appoint an equal number of French and Spanish officers at each port. Rivalry or the acquisition of special spheres of influence, it is urged, would be thus avoided."

The suggestion is President Roosevelt's, who considers that such a combination is most conformable to the principles laid down by the conference. The intention in this proposal solution may be excellent, but it is not practical and is full of danger."

Commenting upon this dispatch, the Temps gives President Roosevelt full credit for a desire to preserve the purely Franco-Spanish character of the police mandate and exclude therefrom such a restrictive combination as the proposal to place Casa Blanca under a third power, but points out that it is a proposition which would appear to be a concession to the conference no more than the Casa Blanca scheme, and will be acceptable to neither France nor Spain.

Personal differences between Spanish and French officers, the paper says, would undermine the effective character of the police organization and leave the Moroccan government an opening to take advantage of petty personal rivalries of the officers in order to continue the condition of anarchy.

SOCIETY OF AM. ARTISTS.

John L. Farge in a Valedictory Says
That Its Work is Done.

New York, March 22.—John L. Farge pronounced yesterday the valedictory for the Society of American Artists, which amalgamates with the new Academy of Design and is holding its last exhibition here.

"It is a good exhibition," he said, "a good one to go out with. In some respects it is the best we ever had. The range is wider. There are more methods represented. Take for example the influence of Italy on the last group of young men who have been studying abroad—the direct influence of the old Italian masters. That was plain and noticeable in this exhibition, where two years ago the influence was all modern. American painting has broadened."

"The work of the society is done. It was needed in its time. It was a protest of new men against conservatism. Now that men have grown old and somewhat conservative, there is no need for a new group of painters to start the work all over again. I am telling that to young painters now."

TO ADVANCE EDUCATION OF SOUTHERN WHITES.

New York, March 22.—"I want a membership of one hundred thousand at \$1 a year and that I could found schools," said Martin S. Gleason, president general of the Southern Industrial Educational Association, speaking yesterday in the interests of the society which children of the Appalachian region, in the drawingroom of Mrs. J. B. Sullivan.

"Wherever education goes," he continued, "there the mountains soon cut down the canyons, and by and by the white man will be a free man. All they need is a little enlightenment. A few dollars will support a missionary teacher."

Stewart L. Woodford spoke eloquently in behalf of the mountaineers, whose ancestors, he said, were the first to fight for the idea of constitutional liberty in this land.

"From this little Scotch-Irish stock," he said, "sprang Andrew Jackson, Andrew Johnson and a man who was born in a cabin so poor that it had no windows and a family so illiterate that two in it could read or write—and that man died Abraham Lincoln. The public school can go to them unless we take it."

ARRESTED ON SUSPICION.

Charles Wiscarver Believed to be Man
Who Held up Stage.

Stockton, Cal., March 22.—Sheriff Sibley and Detective Thacker of Wells-Fargo & Co. have arrested a young man here, Charles Wiscarver, on suspicion of being one of the men who held up the Delamar and Redding stage Oct. 9 last, and shot and killed Dan Haskell, the express messenger. Sheriff Richardson at Redding also arrested today at that place a man known as "Red" Hardwick, who is believed to be the second man in the affair.

WARREN F. MOSHER DEAD.

New York, March 22.—Warren F. Mosher, one of the Catholic summer school of America, and one of the best known Catholic laymen in the United States, died suddenly yesterday from heart disease at his home in New Rochelle.

Mr. Mosher established the "Catholic Reading Circle Review," which he edited from Youngstown, O., for many years. Late in life he was diagnosed to "Mosher's Magazine." Reading circles were established in nearly every parish throughout the country, which took up a systematic study of general literature.

Mr. Mosher was born in Albany, N. Y., in 1856. He spent his childhood in Youngstown, O., where he became identified with the popular educational movement. He married Miss Constantine Parrott of Latham, O. They had six children, all of whom are living. Mr. Mosher introduced the Knights of Columbus in Ohio in which order he attained the highest degree. He came to New York five years ago, making his home in New Rochelle. He was at his office last Saturday. The funeral services will be held tomorrow.

SOFT COAL PRICES ADVANCED.

Chicago, March 22.—Soft coal prices advanced today in Chicago in view of the growing feeling among coal dealers that a strike in the bituminous regions at least is certain.

There was little western soft coal to be had in Chicago yesterday. The price has advanced from \$1.10 a ton to \$1.20 a ton within the last few days.

JOHN A. McCALL AND HAMILTON.

Latter Employed by Him to At-
tend Especially to Taxation
And Legislation.

NOT TO ACCOUNT FOR MONEY.

Dead Insurance Man Said This in Let-
ter Written Day Before His
Death.

New York, March 22.—A letter which former President John A. McCall of the New York Life Insurance company wrote on the day before his death, in which is stated the conditions under which he employed Andrew D. Hamilton as legislative agent of that company, was made public today. It was directed to Alexander E. Orr, president of the New York Life Insurance company, and was dated Feb. 15 last. The letter is as follows:

"My Dear Mr. Orr—I am conscious that I have but a slight chance to recover, and I am desirous that you, and the company officials through you, shall have no trouble over the nature and character of the employment of Andrew D. Hamilton, if I am not here to be heard when the time arrives to have it made known."

"He was employed by me in 1893 on behalf of the company to attend especially to matters of taxation and legislation in the United States and other countries affecting the company's interests."

"He refused to accept the duty unless it was made confidential and secret, and that no accounting of money advanced to him should be asked of him, or rendered by him, and I assented to the proposition."

"He told me that this condition he would impose as an absolute one, and unless it was accepted he would not undertake the work."

"Whether my action was legal or not, it will be left for others to say. I believed it was, and that I was clothed with full power so to act, and that the interests of the company and the policyholders demanded that steps of this nature be taken, but the nature and character of Judge Hamilton's retainer and contract. Sincerely yours,

"JOHN A. McCALL"

NO SOLOS IN CATHOLIC CHURCHES OF OMAHA.

Chicago, March 22.—A dispatch to the Tribune from Omaha, Neb., says:

Solos, both vocal and instrumental, are to be eliminated from the Roman Catholic churches of the Omaha diocese after May 1, and women are to be dispensed with in choral societies. The recommendation of a committee of clergymen which he appointed some time ago. The organ alone is to furnish the instrumental accompaniment for children and adults. Recommended.

Hong Kong, March 22.—A launch owned by the Standard Oil company was seized and looted by pirates near Canton yesterday. The pirates secured a number of Winchester rifles and a thousand rounds of ammunition. The United States gunboat Callao is proceeding to the scene of the piracy.

JUST SAVED THE CHILD.

Young Girl Takes Its Foot Out of a
Frog as Train Approached.

Chicago, March 22.—A dispatch to the Tribune from Anderson, Ind., says:

As Mabel Reeves, daughter of Mr. and Mrs. J. R. Reeves, was about to cross the tracks of the Big Four railroad on her way to school yesterday, she saw a little girl standing on the tracks, evidently trying to extricate herself from a frog. Miss Reeves saw a passenger train bearing down upon them. The child began to scream and struggled desperately, but could not free herself. Miss Reeves hurriedly drew a pocket-knife from her pocket and slit the child's shoe, jerked her away from the track just as the engine bore down on her.

ANTI-AGE LIMIT LEAGUE.

Chicago, March 22.—The anti-age limit league believes that it has solved the problem of the men who are unable to obtain employment in Chicago because they have passed the "age limit." It plans now under way are successful, such men are to be sent in great numbers to colonies in Canada and Florida, where they will become the ministers, schoolteachers or the business men of the newly created towns.

Negotiations are now being carried on by James F. Downey, president of the league, with the managers of three colonization projects, one of which owns lands in northern Canada, another a tract three
