DEATH OF GODFREY LIENHARD.

On the 18th of last month Godfrey Lienhard, of the Eighteenth ward, was stricke with paralysis while walking on the street in the vicinity of his residence. From that time he graduall became weaker until last evening, January 6th, when he expired. The deceased was for many years, previous to 1887, nightwatchman of the News establishment. In 1888 he went on a mission to Europe, from which he returned in June 1890. He was a native of Switzerland, and at the time of his death was in the fifty-eighth year of his age. The physician who attended him attributed the paralytic stroke, which was the im-mediate cause of death, to the effects of injuries received by the deceased when accidentally thrown from a buggy about a year ago.

The holiday season of this ward has been one of enjoyment and pleasure for both old and young. The north Sunday School held their review Sunday, December 25. The exercises from the higher classes were mostly from the text books of the Church and the Leaflets, while those of the lower classes were from cards arranged and approved by the Sunday School Union.
