J. M. BROWNING HOME FROM EUROPE

Famous Gun Inventor Tells of
Conditions in Belgian Manu-
facturing Town.

SOUTH AFRICAN LECTURE

Given by Albert B. Foulger—Political
Aspirants—E. C. Blaylock's
Relatives Wanted.

OGDEN, Sept. 3.—Mr. John M. Brown-
ing of Browning Bros. company has re-
turned home after several months
spent in traveling through Belgium and
the larger eastern cities of the United
States. Mr. Browning, who has achieved
world wide fame as a gun inventor,
spent much of his time at Liege, Bel-
gium, where a large number of his guns
are being manufactured.

In speaking of his inventions, he said:
"I have other inventions in mind and
am working on them daily, but I do not
care to say anything about them. Wait
until they are perfected and they will
then be made known. I believe in do-
ing things rather than talking things.
Sometimes, you know, men say things
they do not carry out. It is better to
do the thing before proclaiming it from
the housetops."

The company making most of our
guns is the Fabrique Nationale d'Armes
de Guerre of Liege, Belgium. It is a
large manufacturing concern and
makes daily about 500 of the Browning
patent and averages 175,000 a year. We
have nothing to do with the making of
the guns nor with the selling of them.
We get a royalty on all the guns of
our invention that are sold. There are
United States companies also that make

the Browning guns. Winchester, Rem-
ington, Colt, and Stevens all manufac-
ture our firearms. This factory at
Liege employs 3,500 people, and it
might be interesting that most of the
work is done by women and girls. They
handle the machinery, do the miling
and drilling and many other things
calling for rather heavy work. They
roll up their sleeves and go at it like
men. It is quite amusing to hear them,
clank, clank, over the wooden floors
as they go about their work in their
heavy wooden shoes. These women and
girls are paid from 50 to 75 cents a day
for their work.

"I am glad to return and expect to
remain at home for an indefinite time."

POLITICAL ASPIRANTS.

to succeed himself.

It is also said that Mr. J. S. Carver
and Mr. Dan Ellis are seeking the nom-
ination on the Republican ticket for
the mayorality office.

SOUTH AFRICAN LECTURE.

OGDEN, Sept. 3.—A most interest-
ing lecture with stereopticon views was
given last night under the auspices of
the South African Mutual Improvement
association in the Weber academy by
Albert B. Foulger, who recently re-
turned from a three years' mission to
South Africa.

His collection of views, showing vari-
ous conditions existing in the great di-
amond fields, and other phases of Afri-
can life, proved to be very interesting.
Mr. Foulger, being thoroughly acquaint-
ed with his subject, delighted his hear-
ers with stories of life in that remote
quarter of the globe. The whole affair
was very instructive as well as enter-
taining.

precincts out in the county are yet to
be heard from up till noon today.
Chairman Hyde estimates a majority of
1,100 when the official count is re-
ceived. The weather conditions were

in the county; 1,440 votes were cast in
Pocatello. The election was orderly,
all sides being equal.

OPEN AIR MEETINGS HELD IN SEVIER CO.

(Special Correspondence.)

RICHFIELD, Sept. 1.—The continuan-
ce of rainy and cloudy weather in
this section of country is becoming
decidedly harmful to the farming in-
terests. A large amount of hay was
spoiled by the earlier rains and from
the present prospects the later cuttings
will be badly damaged also. At
this date everything is thoroughly
soaked and rain still falling.

The Mutual Improvement association
officers and teachers of this stake
held a district convention at Glenwood,
on Aug. 29. A good representation of
officers and teachers were present and
many interesting subjects were treated
and discussed. The good people of
Glenwood should be congratulated for
the splendid manner in which they
entertained their guests. The society
closed on a high note and the speakers
to make the occasion a splendid social
event.

DUKES ARE NUMEROUS IN WASATCH COUNTY

(Special Correspondence.)

HEBER CITY, Sept. 1.—Yesterday,
Aug. 31, in the amusement hall, the
annual reunion in commemoration of
the one hundred and second anniver-
sary of the birth of Jonathan D. Duke
occurred. Mr. Duke was born in 1807
in the town of Oldham, Lancashire,
England. He emigrated to America
in 1837, and settled in Albany, N. Y.
Embracing the gospel in 1850, he moved
to Nauvoo in the year 1845. He was a
missionary in the Eastern States when
Joseph and Hyrum Smith were mur-
dered in Carthage jail. He was called
home and immediately began to labor
on the Nauvoo temple. Early in 1846
the family were driven from their home
by a mob, Mr. Duke lying at the time
on a bed of sickness. They crossed
the river on the ice to the Iowa side,
and in the course of a few days they
moved to Garden Grove on the pioneer
trail, remaining there until the spring
of 1850, when they followed the trail of
the pioneers to Utah. The family set-
tled in Salt Lake City and lived there
until 1852, when they moved to Provo.
In 1853 Mr. Duke was ordained bishop
of the First ward of that city. He was
the husband of three wives, and the
fruits of these marriages were 21 chil-
dren. At yesterday's reunion nine of
these stood up to be counted, while a
brief statistical report of the family
showed that there are 168 grandchildren
and 168 great-grandchildren.

There were some 200 of these descend-
ants present. At 1 p. m. a picnic was
served on three long tables, after which
a program was given, then a children's
dance, and in the evening a dance for
the older people.

The last three days have been quite
stormy, and yesterday it poured down
all day. Nearly two inches of rain
has fallen and the amount of precipi-
tation for the month is 3.54, which is
considerably above the average.

Farmers are cutting their second crop
of lucerne which will be very much
damaged.

HEAVY RAIN STORM WRECKS COAL SHEDS

(Special Correspondence.)

EUREKA, Aug. 31.—Tintio was vi-
sited during the night by one of the
most severe rainstorms that has ever
been experienced in the district. The
coal sheds of the Tintio Mercantile
company, which stood at the Denver &
Rio Grande railroad tracks, near the
depot, collapsed during the storm and
over 200 tons of coal was dumped down
the grade.

The rain had loosened the foundation
of the upper posts or underpinning and
the tremendous weight had the effect
of wrecking the other ones below,
which were badly rotted, thus causing
the collapse.

No further damage, however, is re-
ported from any other town in the dis-
trict.

EUREKA NOTES.

Thomas Boyels, the Finlander who
was arrested on Aug. 12, had his hear-
ing yesterday afternoon. The prosecu-
tion filed an amended complaint reduc-
ing the charge from assault with a
deadly weapon to one of plain battery,
and the accused was fined \$15.
