Tuesday, - . August 30, 1887.

FUTURE OF THE CITY.

In this issue we present a clearly written communication from Mr. Forhan, of the Chamber of Commerce, which has exhibited sagacity in securing his services. He has a decided faculty for exhibiting facts with perspiculty and force, presenting them in a shape to render them attractive.

helpless contact. The Boston Transcript treats the subject of Salt Lake's inducements to cause the people of less favored sections to flock here like dayes to their windows with a veln of irony, as if and which suggests the relationship the exhibit were a species of bogus ad-vertising dodge. Because the picture presented is full of glowing tints, with and which suggests the relationship of Mexico may be ignorant, and compresented is full of glowing tints, with the golden hues of prospective health and wealth sheading a mellow radiance which prevails more or less in that over the whole, it is looked upon by our Boston colemporary as a creation painted with a brash held by a hyperbolic hand. It is a fact, however, that Salt Lake has all the essentials necessary to constitute it, in course of A SHAMEFUL OCCURRENCE. time, one of the chiel cities of America. This we have always held to be THAT religionists of any sect, or hav-

the case, the theory being far from new. We may differ from the views of some prople in relation to the combination of forces that will bring the result about but as to its being ultimately effected we are as a unit with those who have a high conception of the future of this being the location of the fature queen city of the northwestera portion of our country.

the Keeley motor is brought out, of the disturbance. dressed over, paraded for a short time and then permitted to retire for a long system or methods of the Salvalionrest, orly to be disturbed again-as ists, but in behalf of law, order and some perbaps more satirical than scientific persons claim-until it is about time to levy another assessment

on the stockholders. It has been suggested by the more practical that the very fact that a mystery surrounds Keeley's alloged discovery makes it a ous in Utah, and the social changes fraud to all intents and purposes, even if it be not in theory a mere chimera; but this does not necessarily follow, as it certainly would if the standard of in the responsible duty of caring for michanical power were the only one to be applied in all cases.

The history of all the revolutioniz- slluring to youth. ing inventions is a story of up-hill struggles. It is the effort of one man though by no means a religious jourwho has penetraied the domain of nal, presents the following suggestions scientific knowledge until the discov- appropriate to this sufject, which em ery of some previously unknown prin- brace a great deal of practical wisciple has rewarded him, battling with dom:
