Swallowing Poison.

Swallowing and inhaling the noxious impurities generated by Catarrh, poison not alone the nasal organs, but the stomach and lungs. No merely local remedy, like douches and insoluble snuffs, can possibly reach or eradicate the virulent specules of Catarrh. This fact explains the wonderful cures effected by Dr. Wei De Meyer's new inoculative treatment. The elements used by him are absorbed by the mucous membrane throughout the system and form a constitutional as well as local antidote, ascertain to cure Catarrh, as vaccine virus is to prevent Small-pox. Its unprecedented sale with unsolicited testimonials from many thousands who, at all stages of the disease, have been cured by this wonderful remedy, establish beyond contradiction, the fact that Wei De Meyer's Catarrh Cure is the most important medical discovery since vaccination. "Cured 15 years Catarrh. Dr F. N. Clark, 8 Montgomery St., San Francisco, Cal. "The only thing that cures." W. J. Davenport, The Dalles, Oregon. Rev. C. H. Taylor, 140 Noble St., Brooklyn, writes: "One package prodnced a radical cure." "It entirely cured a member of my family who had sufferred from Catarrh for 40 yrs." J. D. McDonald, 710 Broadway, N. Y.: "My wife was cured by it, of 15 Years Catarrh." J. Swarts, Jr., 220 Hudson Ave., Jersey City: "It cured me after doctoring for nearly 30 years." Mrs. Emma C. Howes, 39 W. Washington Place, N. Y.: "After being given up by my physicians, I was cured of Chronic Catarrh by your medicine." Lewis F. Newman, 305 Fulton St., Brooklyn: "Seven members of my family have Catarrh, and all are receiving great benefit from the Cure." Rev. W. H. Sumner, Frederick, Md.: "It is worth ten times its cost." Rev. C. T. Jones, New Brighton, Staten Island: "When I commenced its use I was too deaf to hear the church bells ring; I can now hear quite well." Chas. S. Soukope, 27 John St., Newport, R. I.: "It relieved me of a great Polypus." W. H. Truesdell, M. D., Elgin, Ill.: &c., &c., &c., &c. Dr Wei De Meyer's "Treatise" is mailed free. THE TROUBLE AT SILVER REEF!

SILVER REEF, March 3d, 1881.

Editor Deseret News:

This town is in Washington County, near the eastern line, near Kane County, and about 20 miles northeast from St. George. This camp has been the principal market for Southern Utah for several years past. We have four quartz mills, namely: one belonging to the Christy Company, Captain H. S. Lubbock, superintendent. This is a California company, and they own several of our principal mills, and have been and still are very honorable in their dealings with all our citizens, and pay regularly on the 15th of each month.

The Barbee and Walker Company have one mill, with General R. L. Ogden superintendent. This is an eastern company, most of the stock being owned in New York, I think. This mill was burned in 1879, and rebuilt and started in the early part of 1880, since which time they have been running very regularly and dealing honorably with all.

The Leeds Company own one mill which has been idle for nearly a year. These mills are all run by steam power and are located near Silver Reef. We have the Stormont Company who own one mill run by water power, on the Rio Virgen River, some four or five miles from their principal mines. This mill has a capacity of from 60 to 75 tons of ore per day, and came into the hands of its present owners, a New York company here, January, 1880, when Col. W. L. Allen, a very fine business man, came here as cashier of said company. He remained in this capacity till some time in January, 1881. He was appointed superintendent of said company.

The first mill built in this place was the Leeds, which was an old mill moved from Bullionville, Nevada, and our principal men at first came from Pioche, and most of the miners who first came here were from Nevada, and miners' wages are $4 per day, as I am told, in all camps in that state, and consequently the same wages were paid here, and as the other mills were built they all paid $4 per day, some of 8 and some of 12 hour shifts, both for miners and mill men, and $5 and $6 for engineers.

When the Stormont and Barbee & Walker properties were purchased by eastern parties the reduction of wages was talked about, or at least the miners suspicioned that an effort would be made to reduce at sometime, and they organized at or about this time a Miners' Union, and they have a hall and a membership of from 200 to 350 men, more or less; have regular monthly meetings, all that is done by them is kept secret, etc.

On February 1st, 1881, the superintendent of the Stormont Company told the men who came on the day shift that they could not pay $4 any longer, but would pay $3.50 for good miners and $3 for carmen and all men above ground. The men refused to work, and the Stormont Company's hoisting works and mill have been idle since that time. The company kept a few men employed in the Savage shaft at $4 per day, but the union held a meeting and marched through the streets of our town and mustered about 250 men, then marched down to the Stormont hoisting works and stopped all work, put out the fires, etc., and left men in charge of the works, but gave them up after the men were paid off.

Some notices were posted, in substance as follows: "All miners in Harrisburg district working under ground, are hereby notified to join the Miners' Union on or before February 15th, without further notice. (Signed by the president and secretary of the union)" Matters moved along quietly till about Sunday. On Monday some 60 or more of the union men went to Mr. Allen's office and told him to leave the camp, and sent an escort to take him to the Black Ridge. He got on his horse, as any sensible man would do, and went off with them. What the future will bring forth remains to be seen. It seems as though the Miners' Union was the Government of the county of Washington, and if anybody does or says anything that does not suit them, they are ordered to leave or are in danger if they resist, to lose their lives. Mr. M. G. McMillen, a man over 50 years of age, a mason employed by the Barbee & Walker, was also ordered to quit work, as report says, because he favored or made the remark that men could be employed for less than $4 per day. Your correspondent thinks the miners need have no fear of the "Mormon" people, as but few are miners and they prefer to labor above ground.

Now, Mr. Editor, it must be admitted that the Stormont Co. had he right to say it could not afford to pay $4 per day, and that the miners had also the right to say they would not work if they could not get said price, if they felt so disposed. But all good citizens must deplore the ordering of men out of the country, and although your correspondent is a friend to the laboring man, he also believes in fair play; and such actions will do a vast amount of injury to the whole interests of this part of the country, as capital will rather remain at home in New York or elsewhere than to invest where things are so insecure. Your correspondent would recommend parties who intend coming to this market with produce to remain at home till matters change, as we only have two mills running, with a prospect of one of them closing, and the demand for produce is small; a St. George firm, Wooley, Lund & Judd, have probably from 25 to 40 tons of grain in their warehouses in Leeds, and no sale at present.

This strike and the closing of the Stormont mill and mines will stop half or more of the cash circulated from this point, as they paid out probably as much for ore hauling and for wood and coal, etc., as the other two companies.

Respectfully, S. R.

Newsy Letter From St. George.

ST. GEORGE, March 5, 1881.

Editor Deseret News:

Weather warm, fruit trees in blossom, people busy planting gardens; hopes and fears agitating the farmer's breast in regard to crops, very little snow in the Pine Valley Mountains, indicating drought unless we are blessed with plenteous rains.

The strike at Silver Reef very seriously affects trade here. No sale for hay, and $3,000 per month of our freighting stopped, besides the salt trade, etc., all of which Woolley, Lund & Judd were conducting to the benefit of our citizens.

Apostle W. Woodruff and President G. Teasdale are visiting our city and will probably remain until after Conference. Bro. Woodruff has been quite unwell for several days. Last Sunday he preached to quite a large congregation in our Tabernacle.

Our Dramatic Association this evening present the fine play of "Ingomar." The company improve in their playing, and some of the members by study will make good actors and actresses.

The first substantial building in the Washington field has been recently erected by Bro. E. D. Woolley, Jr. Others no doubt will soon follow his example and save eight miles of travel in going too and from their farms, thus saving much valuable time.

H. W. Miller, and J. G. Bleak, of the Gardener's Club Board are pushing along the Social Hall, the walls of which are now about ten feet above the foundation. This hall is much needed, and ought to be completed as soon as possible.

There is a prospect of work again commencing on the "Grand Gulch" copper mine. Mr. S. L. Adams is the principal mover in the enterprise, as well as one of the owners of the mine, and everybody knows he is a "worker," and will be likely to smelt copper if anybody in this section can, and he has efficient help. All wish success to the gentleman and his enterprise, as enterprise is much needed in this warm country. Not much use for anybody but practical men here.

Prof. S. Chapman, our lively school teacher, still continues to do a good work, drawing many scholars from the surrounding country, and is much liked by his pupils.

READ THE FOLLOWING:

We cannot say too much in behalf of WILLIAMS' CANKER REMEDY. Having witnessed its truly marvelous effects in very dangerous cases in our own family, we would not be without it. It has an excellent name. We had two children down with diphtheria at the same time. It was stopped in one night; the eyes, or spunks were removed next morning with a spoon-handle, and two days after the children were as well as ever. Many envy us this luxury, they can consult us on the matter.
