#### WAR OF RACES.

**A Secret Plot to Assassinate the White Population.**

MOBILE, Ala., 21.—In Choctaw County, Alabama, on the 15th inst., a bundle of papers, disclosing a well-organized plot among the negroes to kill the entire white population of that county, was found near one of their rendezvous by two gentlemen, who laid the matter before the solicitor.

On the 16th a quiet meeting of the citizens of Mount Sterling and Butler was called at Butler, to consider the best mode of suppressing the intended outbreak and massacre. After discussion it was agreed that the ring-leaders, Jack Turner, F. D. Barney, Jesse Wilson, Peter Hill, Welles Lyman, Aaron Scott and Range West, to whom had been assigned the duties of leading the respective squads to Butler, Mount Sterling, Desotoville and other places, and killing all the whites at each place, should be arrested and lodged in jail. Their arrest was effected on the 17th inst. without any disturbance or bloodshed. The same day a mass meeting of the citizens of all classes was called for Saturday, to decide the fate of the prisoners. The plot has been in existence since 1878, and the conspirators now number 400. They have powder, shot and guns, and think themselves sufficiently strong to accomplish their fiendish design. Sunday night, Sept. 17th, had been appointed for its consummation. The papers further showed that this day was selected because then the white people would be at a camp meeting unarmed, and could offer no resistance. The meeting called for Saturday brought together 700 men, among whom were about 150 negroes who, after hearing the papers read, by an almost unanimous vote decided that Jack Turner was a turbulent and dangerous character, a regular firebrand in the community, and that the public good demanded his immediate death. He was accordingly hanged at 1.15 the same afternoon in the presence of the assembled multitude. The crowd then dispersed and all signs of turbulence ceased. Everything was quiet Saturday night. The other prisoners are still in jail to await further developments.

**Floods.**

ST. LOUIS, 21.—A Dallas special says: One of the heaviest rainstorms ever known, continuing three days and nights without an intermission stopped falling in West Texas last night. Some places, where traditions says it never rains, have the appearance of a sea. The rainfall is estimated at six feet. The flooded section begins near Abilene and extends west for nearly 300 miles including the country from the Brazos to the Pecos rivers. Miles of track of the Texas & Pacific road have been damaged and in several places serious washouts have occurred. Four miles of track west of Abilene are washed away and trains cannot cross. Drifts of dead prairie dogs are piled in the rubbish. Thousands of them have been drowned and thousands more were seen struggling in the water. On these plains the waters from such a flood flow southward, and the only channels to carry them away are the Brazos, Colorado, Conchos and Pecos rivers with their small tributaries, consequently it will be several days before the lands become dry again. The great wash referred to was the work of a water spout between Abiline and Sweetwater. A similar washout is said to have occurred near Van Horn, nearly 600 miles west of Dallas, and another spout is reported as having struck and seriously damaged the Southern Pacific track in Southern Arizona. It will take several days to repair the Texas Pacific track. It is feared that great loss of life and stock has occurred in the remote and sparsely settled country to the north and northwest of the Texas & Pacific. Parties in to-day from the flooded district along the line of the road say its situation is simply indescribable. Hundreds of laborers have been put to work repairing the track, and they are working night and day.

**Mexican Muddles.**

TUCSON, 21.—The *Star*'s special from Guaymas, Sonora, says: The Mexican transportation steamer *Mexico* is expected daily at Guaymas with ex-Governor Torres and an escort of 500 federal troops. The general rumor is that they come for the purpose of overthrowing the present government of which Gen. Carlos is the head. It is a well known fact that the government has of late been organizing companies all over the State and at Allamos there are 800 guards under arms with two Gatling guns. There are also 4,000 Remington rifles with large quantities of ammunition. Carlos and Ortez have for a long time been abusing each other through the press of Mexico, and there is a terrible feeling existing, which will ultimately end in a duel or a general revolution in Sonora. In case of Carlos opening the ball, the Maytorenista faction, which is large, will join him, while the Pesuara faction will support Artez. Both being allied strongly with the general Government, the outcome is hard to predict. Col. Garcia, the hero of the late Indian fight, is under arrest for murder. He had a deserter shot a few days ago, and was arrested by the civil authorities. There is a strong feeling existing between the civil and military factions, owing to the large force for the purpose of ousting Artez. The air is full of rumors of revolution.

**Coup's Collision.**

CAIRO, Ills., 21.—Coup's circus left here this morning in two sections, and when about fifty miles north of this city, the engine of the second section ran into a passenger coach on the rear of the first train, completely demolishing the coach, killing three drivers and wounded about twenty-five or thirty others. They were going down grade, the first section was heavily loaded and the second section rather light. The second train was running very fast at the time of the accident. The stock and cars ahead of the coach in second section, escaped unhurt. Relief trains with physicians were sent to the scene of the wreck at once.

**Mad Cloud.**

OMAHA, 21.—Agent McGillicuddy has telegraphed from Pine Ridge agency that he is assembling all the Indian police and will probably arrest Red Cloud, Woman's Dress and one or two other chief conspirators and hold them till further developments. He feels confident of the loyalty of the police and of a majority of the Indians. He renews his repuest that Red Cloud and others be sent to the Leavenworth military prison and asks transportation and escort for them after their capture which will likely take place to-day.

**The Strikers.**

WILLESBARRE, 21.—The Nottingham and Washington mines at Plymouth, and the Hollenback in this city are in full operation again. The mules at the Empire mines are being lowered to the pits this morning again. Work here will be commenced to morrow. The miners and laborers employed by the Red Ash Coal Company, in No. 2 colliery refused to go to work this forenoon. They have made no demands as yet and the company are ignorant as to the cause of the strike.

Cumberland, 21.—A squad of the consolidated Co's imported miners from Eckhart, were sent to "Pompey's Smash," this evening to smother a fire in the Astor mines located there. On their arrival they were attacked by a large body of strikers, and were driven back to barracks. Firearms were used freely by both parties, but as far as has been learned no one was injured.

During Saturday night the Knights of Labor posted bills throughout the town of Lonaconing warning the miners not to go to work Monday without orders from that organization, as otherwise they would be branded as blacklegs. The men of the George Creek Coal and Iron Company and the New Central Company say they are determined to go in to-morrow.

Cumberland, Md., 21.—Nearly 1,000 strikers congregated at Lonaconing by daylight this morning to prevent the George' Creek and New Central Company's old miners from going to work. There was no demonstration as those who expected to resume work to-day, realizing their position, remained away.

Wilkesbarre, Pa., 21.—The breakers boys at the Warrior Run Colliery struck for an advance of 10 per cent. Carpenters and blacksmiths are occupying the places of the strikers.

The rock miners on a strike at the Stanton shaft were allowed the 10 per cent. advance and then returned to work.

Troy, 21.—The strike of the Cohoes operators is virtually over. When the mill gates were opened this morning the largest number of strikers that have yet appeared for work flocked in.

The Chicago & Alton Company acceded to the requests of their striker and work will be resumed.

The Wilkesbarre miners, Pennsylvania, ask 20 cents increase per car, and that the discharged men be replaced.

Pittsburg 21.—The Panhandle coal miners' strike against reduced wages ended to-day. It has been the longest and largest ever known. It began April 1st, and the men have lost $250,000 in wages. The employees of the railroad company also lose heavily.

Springfield, Ill., 21.—The rolling mill proprietors here sent an ultimatum to the strikers to return to work within a reasonable time under penalty of discharge, and hiring other men to fill their places.

**The Marquis and The Princess Coming.**

WASHINGTON, 21.—Information has been received here of a contemplated trip through the United States by the Marquis of Lorne and the Princess Louise and their suite. The distinguished party do not intend to visit this country, but will pass through it en route to British Columbia. They will cross the line at Detroit, going thence to Chicago and Omaha, and via the Pacific railroad to San Francisco. Arrangements are being made to provide for the transfer of their baggage and personal traveling effects through the United States.

**Political.**

Congressman Harris, of Boston, will print a letter to-morrow evening announcing his withdrawal as a candidate for Congress.

Returns from all the counties in Kentucky give Henry, Democrat, a majority of 41,669 for appellate clerk.

New Orleans, 21.—A Donaldsonville special says: That the Republican district convention meets here to-morrow. Two conventions will be held and Senator Kellogg will be nominated by the regular Republican convention and Judge Beattie by the Bolters.

**Dorsey Letters.**

CHICAGO, 21. — A Washington special says: It seemed settled that the publication of the Dorsey letters is to continue at intervals for some time to come. It is known by friends of Garfield that they fairly represent the pressure which was brought to bear upon him from the Stalwart division of the party. These are also treated, in the main, by the composition of the Cabinet and the attitude which it was urged should be assumed toward Conkling. There is also a late series from the same quarter in regard to the New York contest after the nomination of Collector Robertson and the resignation of Conkling.

**The Work of Death.**

Edmund Alexander Morin, the painter and designer, is dead.

Admiral Frederick Delatke, the celebrated Russian navigator, is dead.

Edwin G. Mercer, for many years gardner for the poet Longfellow, died at Burlingame, Kansas, yesterday.

Sir C. Parish, a diplomatist and scientist of London, is dead.

At San Antonio, Texas, Charles Ward, a negro, was hung at noon, yesterday, for ravishing a German girl a year ago.

A party of drunken soldiers were stopping teams near Fort Omaha in sport, when a farmer with one team shot private Schrader, Company K, Ninth Infantry. He was buried to-day.

**Court-Martial.**

CINCINNATI, 21. — This morning the court-martial organized at Newport Barracks, with Gen. C. C. Augur presiding, to try Maj. Joseph H. Taylor for attempting to use political influence to secure the revocation of an order from his superior officer, transferring him from this post to the West.

**The Yellow Fever.**

WASHINGTON, 21.—Surgeon-General Hamilton to-day received a telegram from Brownsville, dated Aug. 21, as follows:

"Thirty new cases of fever, and three deaths."

**The Rio Grande Flood.**

LAREDO, Tex., 21.—A sudden rise last night in the Rio Grande River, carried away a part of the International and Great Northern Railway, and the Mexican National bridge. This will prevent train communication with Mexico for several days, though the damage will not necessarily be detrimental to traffic.

**Missing Steamer.**

PHILADELPHIA, 21. — Nothing has been heard from the steamer *Republic* up to this hour, 12.45 a.m. She left with 700 passengers for Cape May this morning, and was due on her return at 8 p. m. The general opinion is that her machinery has been disabled and she has been obliged to weather and wait for assistance. A steamer has been sent to search for her.

**Another Gladstone on the War Path.**

NEW YORK, 21.—Geo. Rook challenges Wilson or Sullivan to fight for $2,500 to $5,000 a side, within 500 miles of New Orleans in October or November. He expresses contempt for their pugilistic abilities.

#### THE WAR IN EGYPT.

**The Situation Along the Canal—Skirmish—The British Take Possession and Stop the Traffic.**

ALEXANDRIA, 21.—The transports *Greece*, *Ludgate Hill* and *City of New York*, sailed east to-day. All is quiet at the front.

Wolseley telegraphs that there was a slight skirmish at Ismalia. The enemy were moving up in trains to Kafr el Dwar, probably intending to withdraw their troops.

Haneli Effendi Arabie, director general of railways, was arrested for communicating with Arabi. Others have been arrested on the same charge.

One battalion of the the Shropshire regiment to-day marched to Ramleh.

It is reported that Arabi will concentrate at Damanhauer and he has entrenched his camp at Tantah, whither he will move his headquarters.

Paris, 21.—At a meeting of the Sues Canal Company to-day, resolutions were passed declaring it the duty of the company to uphold the claims already made in favor of the neutrality of the canal and oppose all warlike measures taken by England, acting in her assumed character as a supporter of the Khedive.

The resolutions state that the company's concession can not be disturbed even by the Sultan, and that the company reserves to itself the right to the claim before any competent tribunal. They will demand compensation from England eventually.

Port Said, 21.—The ironclads *Invincible*, *Temeraire Agincourt*, *Monarch* and *Penelope*, and two gunboats and 12 troopships are still lying in the harbor off here. Marines and sailors occupy the town.

The Egyptian soldiers are doing duty with the police in the town, which is perfectly quiet. The Khedive's governor has addressed the Egyptian troops, telling them that those who were for the Khedive could remain and not be molested, but those for Arabi Pasha had better go and stick to him. Two officers, well known partizans of Arabi Pasha, have been arrested and sent on board a vessel of the fleet. The commodore of Egyptian troops, a fanatic of the worst class, who has been acting as vice-governor, escaped.

Alexandria, 21.—A reconnoissance made this afternoon seems to show that the enemy's artillery and infantry has been weakened since yesterday, but the big guns are still in position. The Khedive watched the progress of the skirmish yesterday from a villa within range of the enemy's heavy guns. The reconnoisance proves the excellence of Arabi Pasha's earthworks and the accuracy of the fire of his artillery. Reports from the interior show that Arabi Pasha has the entire population laboring on the earthworks. He declares that Kafre el Dwar shall be another Plevna.

Within the last few days one of Arabi Pasha's officers visited Fort Meks and proposed to surrender with a large body of men. He promised to return on Monday and make known the decision of his men as to whether or not they would accept the terms offered. It is believed this proposition was only a ruse.

A few of our officers thought they noticed Europeans directing the enemy during the skirmish yesterday. The distance between our outposts and the enemy's entrenchments is about 2,000 yards. It is discovered that Arabi Pasha has been cutting a deep well in advance of his entrenchments.

A European of position in Alexandria, supposed to be French, has been arrested on the charge of communicating with Arabi Pasha, and sent on board a gunboat.

The troops which landed from the transports which arrived to-day were immediately sent to the front. There was a reconnoissance in force at 4 o'clock this afternoon, along the Mahmoudieh canal, by the Thirty-eighth, Forty-ninth, Seventy-fifth and Seventy-ninth regiments. The enemy kept within their entrenchments, firing shells at the British advance. There were no casualities.

Port Said, 21.—The occupying force numbers 600.

Two hundred and fifty Egyptian soldiers were disarmed without resistance.

The government of the Khedive has been reinstated.

The offices of the Canal Company and three telegraph offices are occupied by the British.

The canal has been closed to merchant vessels, and three vessels in it have been seized.

The bombardment of the Ghemlleh fortifications will probably take place to-day.

The French dispatch boat *Aspic* left yesterday to take the place of the corvette *Forbin*, at Suez. The *Forbin* has gone to Massowah to protect French subjects.

The British man-of-war *Tourmaline* entered the canal this morning, with the gunboat *Dee*, and cleared for action.

Alexandria, 21.—In the skirmish yesterday the Egyptians fired Shrapnel shells ineffectually at the outpost of the Forty-Sixth Infantry numbering 300.

London, 21.—A dispatch from Alexandria says: The intention to bombard Aboukir, which was officially announced on Friday, was either a ruse or was abandoned at the last moment. The fleet and transports went to Aboukir on Saturday afternoon, but at 10:30 at night they quietly steamed out, leaving the *Achilles* and two other vessels in Aboukir bay. These are still anchored in the bay south of Nelson Island, from which point they control the railway to Rosetta, but the coast from Aboukir to Rosetta shows no sign of any landing having been made. White flags are still flying on the Aboukir forts.

The Eastern Telegraph Company announces that Port Said was occupied at 3 o'clock this morning by the English forces. At 2:30 this afternoon earthworks had been thrown up between the European and Arab quarters of the town. There are seventeen transports and five men-of-war at Port Said and Admiral Seymour and General Sir Garnet Wolseley are both there. This morning Ismailia was also occupied by the British, and the rebel troops were driven from Nefick. The British have possession of the telegraph line from Port Said to Suez.

Entry into the Suez canal is forbidden by the English at both ends of the canal.

Alexandria, 21.—The transports *Grecian*, *Franos* and *Nepaul* have arrived.

It is probable that Riaz Pasha will take the post of Minister of the Interior in Cherif Pasha's new cabinet.

London, 21.—A dispatch from Constantinople says: Lord Dufferin, in an interview to-day with Said Pasha and Assym Pasha, declared that he was unable to accept the Turkish proposals for a military convention even in their new form. Assym and Said Pasha are understood to be strongly in favor of an understanding with England.

Malta, 21.—The transports *Tecas* and *Bolivar* with troops have arrived on their way to Egypt.

Alexandria, 21. — The hospital ship *Carthage* and the transports *Duke of Argyle*, *Ludgate Hill*, *Greece* and *Lusitania* have arrived.

**The Leigh Smith Party Rescued.**

LONDON, 21.—The steamer *Hope*, commanded by Sir Allen Young, C. B., which left here in June last in search of the steamer *Eira*, has arrived at Peterhead with the entire crew of that vessel. The *Hope* picked them up in Matotzkin Straits, Nova Zembla, on August 3, they having lost their ship off Franz Josef Land and journeyed in boats to the straits through the ice.

**Killed near Killarney.**

TRALEE, 21.—A farmer named Leahy was shot dead near Killarney last evening by a party of moonlighters.

**Bishop Shot.**

LONDON, 21.—A dispatch from Melbourne says Archbishop Goold of the Roman Catholic diocese here, was shot at and slightly wounded. His assailant named O'Farrels, was arrested. He is the brother of the man who attempted to assassinate the Duke of Edinburg on Sunday in March, 1868.
