#### DESERET EVENING NEWS MONDAY DECEMBER 24 1906

E. Buckingham of the Oregon Short Line is to Have Some Help.

#### COSTELLO SUCCEEDS HILLAK

#### Will be Superintendent of the Utah Division of the Oregon Short Line Jan. 1.

There are to be some changes on the Oregon Short Line on January 1, but hardly along the lines laid down in the morning papers which are predicting a shake-up all along the line from an assistant division superintendent to the supreme head of the operating department.

The changes are undertaken in the interest of relieving some of the burden from the shoulders of the overworked officials and will consist in the appointment of an assistant to the general superintendent. W. E. Costello, formerly of the Grand Trunk railroad, who was to have acted in that capacity, instead will be appointed superinten-dent of the Utah division in the place of H. V. Hillaker, who has held that position for the past two years. Just who the new man will be is not yet an-

ounced. The report that H. J. Roth The report that H. J. Roth, assistant superintendent at Ogden, has resigned lacks verification, for he has given no intimation of so doing at Oregon Short Line head-quarters, and as General Superinten-dent E. Buckingham put it this morn-ing, the Short Line is not given to mak-ture charges. ing changes.

It is on the cards that there will be a number of assistants appointed if the present state of affairs keeps up. All over the west traffic and operating offcials have been swamped and railroad-ing today is nothing like it was five years ago, when one man could attend o his department easily. On the Rio Grande there is the an-

nouncement of the appointment of an assistant forthcoming in the person of D. E. Cain, general manager of the southwestern lines of the Rock Island, who on fan. I, will be assistant to Vice President Schlacks. Mr. Cain, who has a splendid record and comes to a line that has less mileage than his former jurisdiction, will devote himself to the operating department, leaving Mr. Schiacks to look after the construc-tional, legal and policy departments. Business during, the past two years, has grown to such an extent on all lines that it is imperative that the strain D. E. Cain, general manager of the

that it is imperative that the strain be relieved and a portion of the work beretofore atended to by one official be distributed, hence these changes.
