SET OF SABLE AND SABLE TRIMMED HAT.

Beautiful fur sets will be worn through the winter with tailored street gowns. Some of the collars are so large and protective as to be sufficient for even the severest weather. The old-fashioned talma, which is the shoulder cape with long tab ends, is being revived again. These are just the garments that our grandmothers wore. Together with the satchel muffers they are the newest fancy in fashion's furs. A very beautiful set of sable, the choicest of furs. The neck finish is novel in that it is high and protective but not like the regulation storm collar. To wear with such a set of furs is a handsome hat made of the sable, the crown and upper brim being of the fur, which is allowed to come over the edge of the under brim. From this to the bandeau there is a facing of white chiffon, and around the bandeau is a wreath of white roses. Trimmings one side of the crown are three handsome white plumes. Handsome ribbon ties are attached at one side of the hat and are brought around and draped and caught with a bunch of roses to the fur collar on the opposite side.

"I give him his Mellin's Food and he sleeps 'til morning." How many mothers can say this of their babies? If your baby does not sleep well it may be that he is not properly fed. A poorly nourished baby is a poor sleeper. Mellin's Food babies are good sleepers. Our book the "Care & Feeding of Infants," sent free of charge.

Mellin's Food is the ONLY Infant's Food, which received the Grand Prize, the highest award of the Louisiana Purchase Exposition, St. Louis, 1904, higher than a gold medal.
