having killed Miss Nellie Sturtevant New York, May 7 .- The real racing here two hours before , while attempting season opened today with the spring meeting of the Westchester Jockey club at Morris park. True there has been o rob her father, James Sturtevant was brought here early today. He gave his name as Camasso Lourbreid. He is racing at the Adequct and Jamaicla tracks, but to the race goer these are an Italian and cannot speak English. Another stranger was taken into custody here this morning. Mr .and Mrs. Sturtevant, who were merely preliminary to the Westchester meeting. The day broke fine, the track prostrated by the shock, were under medical care today. The only evidence was fast and a big crowd which went from the city all tended to make the opening day a successful one. The steldisclosed thus far against the men in custody is that both answer the dear attraction of course, was the Metropolitan handicap, worth this year an even \$15,000, \$12,000 of which goes to scription of the person who killed Miss

Than it Got in Return and an Excess to the State of \$69,595.27, or a Total of \$85,390.20.

One reason, say the members of the school board, why Salt Lake suffers constantly from the shortage of funds, actual or anticipated, is on account of the fact that it pays an immense sum for education each year upon which it gets no return. To be more specific, and to bring the matter to direct issue, Salt Lake City last year paid \$15,794.93 towards the support of the county schools for which it got not one cent. To the state it paid for the same period \$69,595.27, or a total of \$85,390.20 for education in excess of what it got in return.

This, of course, is the fault of legislation, and will doubtless have to be submitted to for a long time to come. It is a condition that has existed for many years. When the Constitution was adopted Salt Lake was given the right to maintain its schools separate and apart from the schools of the coun. ties, and in that respect was relieved of some of the burden. But the outside counties got together and after a long campaign of hard work, secured an amendment to the Constitution that reimposed the old condition-a condition that is likely to remain for a long time, galling and burdensome as it is to Salt Lake.

The "News" has obtained an interesting statement of revenue from Clerk. Moreton of the board of education. It gives the actual receipts of the board for the past two years that for this year is not yet ascertainable) and the assessed valuation of both city and county. Last year the assessed valuation of the city was \$34,505,148, and that of the county \$8,167,369, or a total of \$42.672.517. What this year's valuation will be cannot yet be told, but it is estimated that that of the city will be about \$36,000,000, and that of the county in a corresponding ratio of increase. ## WHAT ELLISON SAID.

"The next thing he said was, that he ame home late one night and couldn' et in: that a light was burning in the upper hall and he saw Watson run p from his wife's bedroom. Do you elieve such a story as that? Do you elieve that if Watson and Mrs. Ellibelieve that if Watson and Mrs. Elli-son committed adultery there that night that they would have left the light burning? Most certainly not! As Shakespeare has said, "Light and lust ore deadly enemies!" That is human nature and when it comes to human mature Shakespeare is right there at the head. Talk about an improbable story, this is the worst! "The next thing we have is that Elli-
